

# 605th Knowledge Seekers Workshop August 28, 2025

(Transcription, Editing and Proofing done by KF Brazil)

(Auto transcription by Elias)

System on; No intermediaries - connect ourselves to light of knowledge - enlightenment - share with others - bring change; Explains graph - question asked - answer from Source - shared with humanity; Everyone receives information & enlightenment; From Soul of Creator (STC) - to Soul of person; Focus on individuals; Get knowledge from STC; Live video of enlightenment; Enlightens STP of totality; How taught in U; See physically on graph; In D of Energy - not P; Share knowledge through emotion - STP; Instantly connect with Creator; Don't need Prophets - abuse; U Teachers; Graph shows if true Teacher; Only 1 Soul needed to connect with Knowledge - gets shared; Access knowledge yourself; Top & bottom line - love of Creator; Don't need satellites - One Nation Network (ONN) Units - work within not above; Connect STM to Soul of Planet - STC; Plasma antenna connects Units - collectively - every Man receive enlightenment; New Time - Knowledge spread instantaneously; ONN - P information & STC everybody understand same; Feed directly; Use ONN in crisis - virus - hunger; Wonderful time - tap Knowledge - no patents - knowledge automatically shared with humanity - receive energy stop killing; Change Man's behavior; Flight Session; Enlighten STP - evolve; P irrelevant; Become immortal - only work through STM; Learning through STP; Knowledge absorbed - not learnt through P; Learn through Spirit; STM detached - feeding; How get enlightened; Have when need; Teach for whole U; Teach through STC; Cornerstone - to join Universal Community; U learn from mankind; Become teachers - don't make mistake of Prophets - abused mankind; Fundamental teaching today; See where knowledge comes from; Understand how to access; Keshe Coin (KC) only for internal use KF; Not exchangeable; Need ID - Keshe Wallet Card at KF Store; Play Games KC; Become International organization; Everything done with KC; KF shops in existing businesses - sell products; Become reseller; Need more Units; 1,500 Units to universities; Time to manufacture; If lost - replaced; President took billions - bank cancelled; January - travel across planet - give KC to leaders; Only Coin backed by gold; Need facilities to make nations peaceful - comfort; ONN cornerstone for peace; Graphs - 1 question brought enlightenment; Units deliver energy - Lymph create cells - all creatures; 5 to 10 years; Plasma T - cleanse homes energies; Give feedback what felt today; Special system added; STM directly feeds P; More graphs; U energies - Soul to P; Homogeneous spheres of fields - feed in Space; Use vouchers for Flight - new process; Initial Ray H - interacts with itself; Central Energy pulled by Earth's fields - creates legs; STP of Earth; 3 combinations - billions of energy levels - planets & creatures; Atmosphere dynamic - emotion; P is mirage of fields of U - no reality; Interactions becomes everything; 3 layer structure - pattern of U; STP middle - emotion; STM decides; Everything from original field - interacts with environment of itself; CR & H - in vacuum interacts with itself - creates own environment; 2007 SCK - created nuclear radiation from non-nuclear; Scientists frightened; Created Gamma Rays; Where do CR come from; Created matter from nothing; Create body own fields; Everything is H; Bring 200 elite scientists understand new science; Freedom of knowledge; Identify field strength of Source - feel answer; Where did original field come; How did 2 cells divide -

energy from itself; STM Black Hole - collection all fields of U - Creator; One bright dot connects to STC; Graph - 3 distinct clusters energy - brightness shows feeding; Horizontal line - STP- Spirit; Chakras; When one panics; KS felt energy diffused - confirms test; If homogenizes - full transmutation; Using dried Gans's CO<sub>2</sub> & Zn; Request Pharmacies order KF products; C14 not usable in matter; Dream of people - convert emotion to image; Get ONN Units bring world peace.

## ENGLISH TRANSCRIPTION

(:10)

K- Thank you very much. Good morning, good day to you, as usual wherever and whenever you listen to this series of Knowledge Seekers from Keshe Foundation Spaceship Institute. Today's knowledge sharing is very interesting, because, as usual, coincidentally, totally by coincidence, Rick chose an Intro, which... I was going to bring something for your attention that you don't need intermediaries where you can be connected to the knowledge and the light of the knowledge of what we call, the enlightenment, and how you, through the connection, get touch with, you change people, you bring things in.

I received a very interesting request, very unusual, from one of the Knowledge Seekers (KS) which was interesting for me when I received it, (:12) and was more interesting when I researched it to look into the data, which was asked, or a very simple question came from a Knowledge Seeker, which it was very simple but very profound. And in a way, was very interesting for me to understand in a deeper way our connection. I've deleted the parts but you can read it. It says, "Hello Mr. Keshe, I hope you are very well. I was curious to know what change happened in the graph, when I talked. God bless you." She came in one of the teachings, asked a question, and curiosity, as we all are, brought the question, "What happened?" Within minutes I went back on the data, because everything is recorded, that most of the things are recorded.

And look how precise we are, and how the technology advance, and how you don't need intermediaries in a way, but, you understand at the end of it what will come. The lady came in and put a question. This is the lady. This is the graph which all you see, because there is no connection when they, when you have individual participants. This is a usual graph all of you are familiar with, and she is just a dot of physicality (P) below the line, and you can see. (:14) Interesting, we don't see the rest of the rigmaroles we usually see on the top, on the bottom, and everywhere else. This is when I get involved in listening to her. The bottom one is still her. The second one is when I engage, it's a dimension (D) of, it's like a physicality and the Soul of Physicality (STP), to understand what the question is, what is the answer.

And if you go back, because we have the time, the minutes which this happened. So, you have a Soul, in dimension of physicality a voice, listen to. An interesting part is this, when the answers start coming. You see the dimension of the Soul suddenly comes in. There are hundreds of you listening, because this is between one to one, in the dimension

of interaction of the Soul. This is nobody else directly from the physicality to the Soul. And the Soul answers, you see the dots, you see the connections. The answer is the Soul, if you remember what we came, last time we explained, it comes directly above nothing, comes from the source (there is nothing above the Soul). But interesting part is, when the answer is given and all of you are listening, and it's the cycle of the time of answering the question, now you see what happens. Your Souls, the knowledge, the enlightenment comes into operation. Now you see lines on the horizon where there was nothing. (:16) This is the Soul and this is in a way the physicality, now that the STP is a connection of the combination of the information, enlightenment the body has received, the individual has received.

And the funny thing is, when you analyze this picture, then you see a totally different thing. Which is, if you look, I'll put it marked it 1 and 2, this is, as you see here, the Soul of the person, enlightenment. And then you see the Soul of the Creator (STC), the knowledge, the enlightenment. So, in this process, we see how a number of things in different directions, how the technology (T) is developed, how precise our system can become, that we can even track you to the person, to the interaction, to connection with the Soul of the Creator to get the knowledge. And in a way, enlighten the others, because once that's shared in the dimension of STP, as you see here, it becomes a common knowledge. And you see it very clearly how the process works.

To you this is pictures (graph), individual pictures, start with a dot. Question asked. Question listened to, where the Soul interacts to understand, to give answer from the, what we call, from the Source, from the Creator, from dimension of the Creation. And then you see the engagement, how the Soul of the Creator comes in, (:18) and then how the Soul of the person lights up, enlightens. And when that enlightenment comes you all get enlightened, because now it's at the level of the humanity, that it can be shared by and through what we call, the human race.

To use dots and ?? pots, but now have a look at something else. Rick, you received a video. Could you play that video for us, please? What you see in this video is from more or less, immediately after the first question asked, when enlightenment comes in. Just watch how the response comes of the dimension of Creation, and how enlightenment takes place. This is a Live video of that part which you see. Just watch, this is about a minute, and you see how it takes shape. Information from the Soul, because it's a pure question, asked. You see the interaction, and then just watch how it connects to the Soul of the Creation. Which means downloading information, receiving information for what is asked, and just watch how it happens. This is a Live session, taken thousands of kilometers apart. One in France, in the part of the world, sits in another part of the world. Let's see how it comes enlightenment. Just watch.

Now you see the Soul of the person getting enlightened. See how it takes shape. And then goes back, and enlightens the STP of the totality, because all of you are in it. Now the knowledge is ?? . (:20) This is how the teaching of the Universe (U) is done. This is how the dimension of Creation brings a new way of teaching. And now you've seen it. This is a system which operates and now you see how it's made. More or less these kind of

images, if you remember, it's something common you always see when you share with you.

Now you see in real time, the question in being sincere, in sharing and then receiving the knowledge from above, from dimension of Universal Knowledge. This is why I always tell you, I must tell you, when humanity matures we can tap into the knowledge of the Creation and the Creator. And you'll see it, physically done. This was not intentional, this is, we have a lot of recordings like this. Even the sessions we spend on Fridays once a month we collect some of these, and this is exactly what happened during a question and answer. Everything else, when the question was asked was deleted from the system, because attention is to one.

And if you play once more Rick, you can see, every time you ask a question, how the knowledge is received, and how the knowledge is shared. Just watch ... This is recorded to the second. (:22) And knowledge understood, enlightenment and now links up to above, to Universal Knowledge, to the Soul of the Creator. And then you see how knowledge comes and enlightens the Soul of the person. Now it's not anymore in the dimension of physicality, but in the dimension of Energy, what we call, the Soul of Creation. And then, once the Soul is enlightened, you see it shares with the STP in the Totality of the dimension. Which means every one of you, through the dimension of your Soul, have been enlightened by the knowledge. Because dimension of STP knows ?? the Man, ?? this is where you share knowledge, in the dimension of emotion. And now you see how clearly the lines are created.

This brings us back again, to the essence of Time. And how long does it take for us, what time do we need, to connect with our Creator? Is there a need for Prophets? Is there a need for those in the name of Prophet, abuse for their own physical profit? Where, in a way, as teachers we are there to guide. But we know the path of the Creator, to tap into the Universal Knowledge, to tap in, to understand what is, to share. This is literally, what we call, a teacher teaching. (:24) But knowing, instead of going to the library of Man, goes to the library of the Universe, to the Creator, in the dimension of Creation. And all those little, little white dots you see, in the dimension of the Soul. It's very simple. These are different dimensions of enlightenment, which come in. You see it. Because questions are understood, translated from the knowledge of the Creation to the voice of the Man, and then you see the enlightenment of the Soul. Same position.

This is how a Universal Teacher teaches. We are not Prophets, but we know which books is hidden, what knowledge is hidden, in which part of the Universe to tap on instantaneously faster than the computers of today. What is interesting is, if you listen to the to the duration of this question and the answers, you'll be amazed what the question was, and what the answer was, and how the knowledge was shared. But it's the time, the time is taken to start one dot to connect to the Creator to Knowledge of the Universe and share amongst ?? them. Do we need Prophets when one man can access so the others?

This is from the teachings of last week and this is how it sits. (:26) Then the question comes back again. What is Time? If a teacher can connect to the Universal Knowledge in

such a short time, instantaneously, why mankind needs so much time to make so much mistakes and so much pain and suffering, where he can reach that point by itself. But very interesting thing is, if you look at this picture, you should 'come home' something very, very interesting. And that is, you look, and if you look, I made Man in the image of Myself. So in essence we are connected, we are a reflection of the energy dimension of the knowledge and the Love of the Creator. << Audio unclear here. >> It's understanding the process of the Creation. Does it need time? Or, Man has taken too much time, thousands of years, to come to the point of understanding the process of the Creation.

When you look at these graphs, which we continuously, even today, there are a bunch of graphs generated from in how, (:28) you as Knowledge Seekers are interacting with us, with the knowledge you gain, and then move forward to the next step. Our team in the background continuously monitors, how you, individuals, or groups, or people who are here, receiving the information, digesting the information, interacting with the information, yet by enlightenment of the light. This is very clear, when we say, "I'm enlightened", in a way enlightened, you can see it, it's a real light (draws circle around dots on upper graph). For the first time, Man can see his connection, personal, in gaining knowledge with his Creator. We are just the tools, we know where the thing, it's for you to connect with the dimension of the knowledge of the Universe. And this needs to be taught, this needs for Man to be taught step by step.

And we see this kind of changes in most of the systems which is getting developed and it will be part of the structure. As I said to a Knowledge Seeker, there is some 14,000 satellites today rotating around this planet, Military, information, and every other type. And they all have to be fired up to connect somewhere on the top. Man never looked within to understand. And for the first time, when you Knowledge Seekers receive these (One Nation Network - ONN) Units, we work within, we don't need to look above. (:30) Because through these systems which is getting, many of you are buying it to be spread around this planet, once the numbers are reached and connections are made, then we connect the Soul of the Man (STM) to the Soul of the Planet, which then, as you've seen on this picture, connects with the Soul of the Creator. In a way, we bring the satellite, bring the STM, to be connected by every dimension of it.

Because these Units, which then, when you receive it, they come in two packages. Once you receive the Unit, you plug it on, you connect it. One, then you'll receive another piece, which you just attach it to. This part, the first part, which you receive, connects to electricity, connects to the dimension of physicality. The antenna you receive in connection with the other antennas, collectively, creates a ground level satellite, which every Man is at that level, and can reach, yet receive enlightenment. You don't need to be... in a way, send message down. The message comes from within up. It's a new time, and it's a new change. And this process will bring very much, instead of us having one Unit in one place, and using these images, the knowledge will be spread across humanity instantaneously. (If) any of you reach a knowledge, it'll be shared amongst all of you instantaneously, because now we are all connected to this mesh (One Nation Network).

This is the purpose of putting these Units and creating this dimension. (:32) One is the level of you can handle your knowledge, information, teachings, and the other hand connecting to the Soul of the Creation. There will be no difference in understanding it. And in a way, the way we made it, it's all connected to each other. Nobody can break in, nobody can copy. Because it's very easy. It doesn't come from us, connected to our system, that everybody else is connected to it, out of the 10,000 units, you buy it as another computer on the table. With that, what is bringing in this system, this technology in, we bring a new dimension of Time. We can feed you directly.

Let's say there is a crisis with what we had, 'real,' this time with viruses. Through our central system, through our connection, we can create a condition of the field strength of the virus that nobody gets infected. This is not dreams anymore. You are buying the Units and with it will come the technology, which over time as it gets more perfected, we'll deliver this. (If) there is a drought in the part of the planet, which there is a hunger, through the same system, because you're all connected, we feed. You are on planet Mars, or on planet Zeus, and you have a connection with the system. You're fed, you're looked after, you're part of the system, even does not matter from where you take it.

Now you understand the purpose, and the way we create a new Time, new lifeline, new dimension in the process of understanding the Totality. (:34) We use manmade advantages in technology to bring forward the knowledge, and the process of the Creation of the Creator. This is going to be a wonderful time. In next few months and years, we were excited with computers, we were excited with the AI, now we'll be interested and excited with the Knowledge of the Creation. Where we tap into, there is no need for, and then there is no need for patent, because the minute we are enlightened, as you've seen in these pictures, we share (the knowledge) amongst the humanity and the rest of the Universe.

What this planet was short to change the Man in Magnetic (M) field, in the plasmatic field to stop the Man killing, with this technology, with this system spread across this planet, we add to, we change, we bring Man to become a peaceful Man, because the systems, as you see, touches you in the Soul. Then you understand, the time for change has come. And you lot have no time to waste, it's a time to enjoy, it's time to bring the change. And the faster we can spread this across, the faster we can bring an end, because now we take steps to do it. We don't look at how, we look at in a way, planet hasn't provided it, there is a shortage, we change the behavior, then with this, with addition what we put in, like the test we do with you lot tomorrow, (:36) as the participants in the, what we call, the Monthly (Flight) sessions, we change you in energy. We change you in the dimension of understanding and enlightenment.

And what will be interesting for us to see is that how you people, even in the session of today, change. What have you received? What is the process and how much we're going to see changes? And to what level we as Knowledge Seekers are there to bring the change? To enlighten the STP of the Man, that allows Man to become another person, another creation, another understanding, where the balance sits within the Spirit of the Man, interaction of the fields of the body of the Man and the STM, where physicality is

irrelevant and we become immortal. In a way we look for the 'Fountain of Youth,' where through this we only work through the STM.

Many of you, many of you, will come to understand, during the teaching, how even your Souls in many dimensions, in certain points, changes. Detached, because you understand the dimension of what you call, the spirituality. Where the name comes from, 'spiritual' with a spirit, and then you see yourself. (:38) In one way or another, in one way or another, mankind will be changed. And then we'll see how the changes will bring for us to understand more and more of ourselves. More about what we want, what we have, what we can put in. What will be interesting for you, have a look, this is the state of you as people in this session, in how you are, in a way, interacting with the teachings. Learning through the dimension of the STP, learning through the dimension of the interaction with the fields, they're learning knowledge through, what we call, physicality, then the brain of the Man.

It is interesting, and how these images are created, that it gives us the opportunity to, in a way, teach you about yourself. Teach you about how you react. In a way .. I want to show you something that you all understand, when we tell you, you are involved at the level of what I call, spirituality. In the Spirit, in the way you're learning the knowledge at this moment, all of you, through dimension of the STP, and not in any dimension, but through the Soul of what you have, what you share. Look at this, the green is the Soul as all of you will know by now. Totally detached, above the physicality, above the STP, (:40) which means the Soul feeds, it has raised, it's risen. The Spirit of the Man, the knowledge of the Knowledge of Creation, and you see it here. No connection, but see how solid you become. Which means if you look, if you understand the system, which I hope you do, you're all learning through energy fields. There is no physicality, but you tapped into the Knowledge of the Creation. They're all lightened up. This is, this line is you, collectively, in receiving the knowledge. Look at it. No deviation. You become perfect. You're learning how to become One. Connection through the, what we call, fields of Energy, the STP, which what we call the Spirits, in absorbing the information, gaining knowledge, detaching from physicality. And how will you be enlightened? How would this change for you in the future? And then you say, "Something was changed in me." Because you received that knowledge. When you need it, it's for you to change, to bring that change. To be enlightened with the totality of the system. That system is you. Physical dimension of the energy of the physical structure and the dimension of the energy connected to the Soul of the Universe, to the knowledge, to the enlightenment.

So next time, when you are with us, remember we are monitoring, (:42) we are looking what changes has come, what changes has brought to you in the dimension of Totality, and how you receive the knowledge. And, in a way when you look at these it goes back to what I always said, when we teach, we don't teach for one Man, we teach that the knowledge is shared by the whole Universe, because there's a dimension of the energy, dimension of field of the Soul of the Creation. Man uses the Internet, like this, to physically, publicly teach, thousands of you on the line, and the Man who understand teaches the same knowledge through the Soul of the Creator, sharing with all Creator things, through the Universal network, with all the Souls existing.

And now you understand, how we share, how we bring the change. Enlightenment of the Soul, enlightenment of the physicality, knowledge to understand, is a cornerstone of Man to become a Man of Universal Community. Where Universe will learn from mankind. Then, up to now, mankind always looks in the skies, looking at the UFO's and the others, where they bring us the knowledge. Man will take the Knowledge of Creation to the Universe, as you become those teachers. But tell your Soul, do not make the mistake of the Souls who became the Soul of the Prophets on this planet, to abuse it for their own advantage.

Today's teaching is amazing and it is fundamental for you for the first time to see. (:44) It's you, it's you who asked the question. And in how you asked the question, the rest, the STP, the STM, and confirming with the others, have been shared the knowledge. Then you understand there is no need for patent, because the minute I know how it works the rest are enlightened too. It's just that they need to understand how to ?? ?? it. We go for a break, then we come back. And hopefully we share with you some more knowledge, then world of the Creation. Rick, if you'd like to take us for a break, and we'll come back.

**>> BREAK**      >>      605 KSW August 28, 2025      (:50).

K- Thank you very much. As you can see there, what we call the Keshe Coins, there is a lot of interest, there is a lot of questions raising by Knowledge Seekers and the others regarding these Coins. These Coins are internal Keshe Foundation Coins. They are not, at this moment, exchangeable in the market, and only tradable, exchangeable with Keshe production goods. And a lot of people tell us, "Can we cash these when we get for our system?" We don't pay cash, you get Coin added to your accounts of the Keshe Card (ID - Keshe Wallet). If you know, Bitcoins is addition to the coins. When in the very near future, hopefully, we bring the Coins into the different dimension of works, then you can decide what you want to do with it.

But, this is a, at the same time, a Coin for the Games, which is another dimension of the work. And it's only structured for the work within the Keshe Foundation at this point in time. But you have to understand what the plan of the Keshe Foundation is, in the coming

time. As an International organization, manufacturing, producing, as we now, structuring gradually to go around the world. And everything can be done through it. In the very near future, in the next few months, we start giving Keshe Coin (KC) as a wage payment for certain people within the organization structure of the Keshe Foundation, that they can buy products from the structure of the Keshe Foundation. (:52) It's the first time we're applying this and we'll see how it goes, which means, passes the boundary of the governments. You don't need to buy by dollar, you don't need to buy exchange, Rubles, or whatever, you use the Coin.

And in the coming time you will see this by the first steps of work for our, what you call, Knowledge Seekers. Is that, if you're in one part of the world, you want to give something to Mom and Dad across another part of the world, they have access to, what we call, the structure of the Keshe Foundation. They can spend it, but within the structure. If you (go) to the (an outside) shop, they won't give you anything. But gradually we'll change this to come. Because at the moment, understand that your earning of the Keshe Coins for those who buy machines (ONN Units), at this moment of time, is addition of the Coin into your account (on the ID - Wallet), and then you pile it up to be used when we want to use it, when it opens up into public ?? free coins used within the structure of the Keshe Foundation for the members of Keshe Foundation, but then you have a vast structure of the products and the services which we provide.

I've been asked by our team to remind you that, the number of Keshe Foundation resellers are increasing around the world now, gradually, step by step. And many people who already have a (existing) business, they run the (KF Products) business, or what we call the Keshe Coins, or Keshe Technology materials, through these (existing) stores. Now we have, in Germany, in Switzerland, in Austria, in Holland, and new feature is the Vietnam, hopefully become the resellers. And we try to support them, we try to bring them up to what we call, position. (:54) This is the pictures coming from the Keshe store, reseller store in Switzerland. And you can see KS are spending a lot of, what you call, time and what we call, actually a lot of effort to bring this in public, that you can shop the products of the Keshe Foundation around the world. Now we're looking for any of you who wants to be resellers, they make, I hope, a good turnover on what they do. And gradually these products increases as we produce these structures in the coming time, where we'll see the extension. This is a, what we call, the Keshe Store in Switzerland. We have the same in Austria, there is Germany and Holland. And it's just, you ask to become a reseller, but you cannot sell any other products, because we want to keep it the way it is. And it works for itself, and in a way it pays back for itself.

Many of you asking us about the Keshe Coin, how it's going to be done. Keshe Coin is going to, it's going through its tests and trials, and gradually, hopefully by end of September, we hope, latest, the first 250 systems, Units, will be sent across the planet to all the people who bought, or you gave, to be given as a gift to different institutions or universities, or supporting the others. And then in January onwards, we add, once we find out all the pitfalls and everything else, the other ones. (:56) But those of you who want to play the games, what we call, the enlightenment games, you need the (ID) Card. You have, you cannot get into the game without the Cards, or at least if you want to collect

your, what we call, the winnings, or what you say, or Keshe Coins, to add to it. This process gradually, gradually will build up to a very, very advanced levels. In the next 12 months, 2 years, once we literally cover, we have started speaking to, we brought the subject with couple of 2, 3 governments to use the Keshe Coins as a trade exchange. As there's a lot of things going on at the moment, gradually we hope, we build it up to what it's supposed to be.

If there are any questions, let me know and we try, we do our best to answer your questions. Actually, we got the addresses and locations of the Keshe Stores around the Europe at the moment on the screen.

R: Here's the four different shops, from Germany, Switzerland, Austria and Netherlands.

K- We have got, I think there's one or two coming up in Vietnam. And it's gradually structuring itself.

R: And if somebody would like to open a shop, what would be the procedure for them?

K- Oh, you have to get in touch with the Keshe Foundation, [info@keshe.foundation](mailto:info@keshe.foundation). And set the company up, this is how what we are doing, more... All these people here have set up a company inside their (existing) businesses, that everything is sold and works under that, (:58) what you call it, structure of Keshe Foundation goods.

Q: ... I just have another question. Here in the Netherlands, we have already sold about 24 nodes (ONN Units) and Cards, one in France and one in Hungary. Hungary and I was wondering do you need more nodes in the Netherlands? Do we...

K- Yes, as many as across the world, yes.

Q: Okay, because it's not too much in just this little country here?

K- No, it's just spreading the numbers that it cannot be hacked and it can become an independent system.

Q: Okay, well then, because we know when we give the little push, then we can sell definitely more of them. So, then we will continue.

K- Yeah, well if you look at it, we are about 150 nations (in world) or what you call, territories, something in our region. And if you divide to 10,000 by that, it's around about 70-80 per nation, minimum. (1:00) Then you have places like United States, you have Chinese. Chinese are very slow responding, I don't know what they are doing. And then you have like Russia and others, United States and Brazil and the rest. It needs to come in that we cover. And there's a lot of things which this is just going to be added to, to bring the, what we call, to achieve what we are planning to do. These become very much the center of, if one or two or ten or hundreds damage taken out or whatever, there's a still another 9,000 and something behind to keep the network going.

We are working on that direction, there are Knowledge Seekers who have bought or they have ordered or they plan to give donations, or buy 1,500 Units that it goes to universities, it goes to where it can work, and then we spread that thing. We estimate it will take us about a year to two years to fully put the 10,000 out. You have to understand it's not just us. All the systems have to be manufactured. From the Unit side it's not that problem, for creating the Universal (plasma) Antennas, it's what it takes time, it's an elaborate job and it's not an easy thing. And then testing it and connecting it and the rest of it.

All the, this system, a lot of people ask about the Cards. Without the Cards you cannot obtain the Coins. So you need to buy the Card. And on that Card it's like your bank Card, it's like information about what you have, and what you can use, or spend through that Card. (1:02) Nobody (else) can spend it. Nobody can use it. You have that Card, all your data, what you have is in there. We try to keep a track record in the system that if anything goes missing and is genuine, it can be replaced. And we are looking, most probably in the coming time, with what is available, to be able to block the stolen Cards, or stolen Coins. In a way it's not worth doing it. In a way, we have structures that most probably, doesn't matter if we decide numbers are not there, you cannot use it. It doesn't matter how many of it you have stolen.

We have a case, let me explain to you why I look at this, this way. Originally we have got a different numbers and then came to different numbers. At the moment if you're a Head of a State, which a lot of Heads of State go in this direction, they get a lot of bribes. And usually these bribes, nowadays, when it's in a cash form, doesn't show, and it can be kept. And when it's in the larger scales, government come in, intervene, and they do. One of the world presidents, when he was in power, he's dead now. They actually killed him. He stole in one part 80 billion dollars from his nation in contracts. Inflating the contracts. And then he took this money from Euro, in notes, in a container, to use it for another job. Because he used it for a job, became very successful, in that cycle of stealing. (1:04) And when this money, 80 billion, arrived in another nation, the European bank which issued it, they found out, and they cancelled the numbers on the notes. They're just not even worth carrying the container, because these notes cannot be spent. In a way it was blocked, in a way it does not exist, it's just a piece of paper which has no value as spending. And it's sitting there, I ?? don't know, about 8-10 years.

We have and we'll set up a structure with this that if anybody steals and we come across it, we replenish. And that money will come back in for spending on the others in a lot of ways. Hopefully after January when all this is set up properly, I'll be traveling across the planet, as many places as we can do, to give these Coins to the nations, to the leaders of the nations as a trustee of their civil citizens. And then we explain how it works, and it just needs another maybe four or five months. We have to get there. Then it goes back to what we say, we back it with a Coin, we back it with the profit, and then we back it with the material. And this is very interesting, because I was talking to some government officials, and said, "How is this going to work? I want a Coin worth a thousand, I want gold for it." I said, "We print it, it's backed by gold. We are the only Coin which is

backed by gold, or when it becomes a commercial entity." At the moment it's just within the structure of the Keshe Foundation and it's a game coin, in a way you call it.

But there's a lot to be done, and hopefully I'm there to see it through, and it's the responsibility of Knowledge Seekers to make sure it goes through, (1:06) because it is the cornerstone of, in a way, peace. You'll understand more and more when it comes. You cannot make a nation peaceful if you don't set the nation, the facilities for it, to be there to teach, to... for people to feel the peace, that the nation becomes peaceful. And you don't measure it by the measure of happiness, you measure it by the level of comfort. And how people can spend more time to be enlightened, or enlighten themselves, and to be sharing more than actually working. We'll see how it goes. But everything is on the plan, everything is going. These Units are cornerstone of delivering that with us. Then we go into spreading, using these antennas, creating a satellite.

As I've said to one of the officials in the past few days, and if you understand it, when you have a satellite is only good for the Man who has a mobile. The way we have set up, and the way this system will work, when this system, with the 10,000 across this planet, hopefully some of it will go in the deepest oceans of this planet. I hope, some Knowledge Seekers create that condition for it to be done. When we feed the Man as an energy, we feed the cat, we feed the dog, we feed the lion, we feed the lamb. This is the changes the technology can bring, this is the changes. (1:08) Little Units you think, "I'm buying, I get something from it." It is set to do. We use the greed of the Man, that he gets something for it, to bring that condition of the peace. Because collectively we do it.

So, when it becomes operational, as you've seen in the pictures of today, one question brought the enlightenment, we use the same system to deliver energy to the body of the Man. The lymph of the Man does not carry vitamin A, B and C, the lymph of the man carries a spectrum of the energies, and at a point when the body needs it, it changes to that material, to that cell. And it's the same, we deliver the energy, in the body of the Man becomes the heart of the Man, in the body of the lion becomes the heart of the lion, in the body of an ant becomes the heart of an ant. At the end it works the same system to give a life for it. And then, when you deliver, at the certain energy level you make the Man a peaceful Man. It's not just the Man, the lion will feel the same, so does the cat and the ant. This is how it's going to be, maybe 5 years, 10 years, maybe even sooner.

Any other question?

Q: ... (1:10) My question is, how can plasma technology cleanse homes when they're unhealthy, due to dangerous energies along the Earth's surface? lead lines ...

K- Repeat, repeat, repeat please.

Q: The question is, how can plasma technology cleanse homes when they're unhealthy, due to dangerous energies along the Earth's surface? Lead lines, Mercury, Nickel, Hartman, fault lines, negative waterways, etc. Thank you.

K- The system is very easy. We work with, I call with the fields which are essence of the Creation. It's very simple.

I wonder how many of you can report to us how you felt energy wise, emotion wise, in the session today. How has been the experience? And does it feel that any different than in the past 10 years you have listened? Today's setting with you lot in the background is a very special one. Very special. We gone out deliberately to deliver certain characteristics and we monitor how different this is compared to the past. (1:12) In a way, we have concentrated energy of the STM directly to the physicality of the Man to feed the physicality. And it seems from what we get, what we see, we are very successful with it. And I want to know how many of you will actually understand the change and how it will go. I have, I show you what it means. As you know, as Knowledge Seekers getting used to these things, you understand it better than I do sometimes I think, is this. Have a look. You've never seen this before. It's amazing what's coming up and how... Have a look.

This is collection of the energies which is transferred from the Soul directly to the physicality. It is absolutely amazing what is coming if you understand the depth of what's going on. (Trying to somehow not succeeding to get what I'm looking for it. There we are). This is your graphs in past few minutes. Have you ever seen this before? Homogeneous sphere of fields, energies from the Soul to physicality, and you can see how it is. (1:14) This is you lot. And if you look at the bigger picture, it's not there. Directly feeding the Soul, from the Soul to the physicality. This is the purpose of the next step. Especially tomorrow we'll target this. That we only see in a way, this is what we have to do with you in Space. We give energy to your body and you feed the body through it. I want to see how we'll turn it up by the end of the session. How and if we can, in a way, deepen the energy, in a way, to see one line right across the same. Bringing energy from the Universe, transferring it, feeding the Man with it, and allowing the Man to feed his physicality with it. You see it? This is you in the past few minutes. And let's see how it goes.

Tomorrow, you lot will be in for a very beautiful shock. Tomorrow we start the session at 9 o'clock Central European time, for 3 hours.

I have received a notice, some of you who bought the surprise packages, you will receive the tickets to be part of these sessions, please use them in this month or next month, because we most probably stop these sessions, unless something else happens, in the structure of the KF, and we will change it to another process. (1:16) But please, you received these cards, and what do you call, free attending these sessions as part of your surprise package. Use it to be part of these sessions in this month or next month, if you can.

Any other questions?

Q: ... Good morning Mr. Keshe, I appreciate all your teaching. Here's my question. That initial ray, apparently a single ray, and supposedly Hydrogen, came out of somewhere.

First question is, where? Then it interacts with itself. Did that interaction create the environment? And is that environment part of the STP, in a way? ..

R: ... Should I repeat that?

K- No, it's just that I'm trying to answer in a word. You see how the Man creates the condition of the Position, that he creates the Place and the Possession, which counts. In the body of the Man the Central Energy is in the center of the head, but that center is like getting pulled by another field which is the center of the planet Earth, it gives us legs and arms.

In the case of the planet Earth, the center is there, the physicality is in the structure of the body of the planet is there, (1:18) but where is the STP of the body, what we call it, the planet? How does it manifest itself? We look at the totality of it. In a way that the combination of gravitational magnetic (GM) fields, which in interaction, most probably, the STP sits outside because he has to feed the inside to create the change inside, the inside is too volatile to be done, but the center is in the center. In the condition of the Man it's different, everything is structured, it becomes dynamic in different ways, for what happens in the Universe.

You have three combination and then billions of energy levels and billions of different places, according to the field they created. So you get different planetary system, you get different creatures. Depends if the STP is inside, the STM is inside. The interaction creates a body, but the STP is not there. Do we call it the atmosphere? Because it's dynamic. It shows the emotion of the planet and the rest of it. And where did it come from? It comes from the essence of the Creation. And in a way, the physicality is a mirage of the fields of Universe, and there is no reality into it. (1:20) Even though we touch it, it's tangible to us. It's the interaction of many, many fields in the combination of the right strength, similar strength, interacting in a given form creates a dog, the cat, the water and the rest. But they all follow the same structure. Same, follow the same structure.

You have the STM, you have the STP of the Man, and you got the physicality of the Man. You have the three layers of the skin. You have the three layers of the structure of the kidney, the liver, and everything else. Which one in shape or form of the STP, stays in the middle, which carries the emotion, as we see the middle layer of the skin of the Man, one stays outside, which is the physical, the one inside, which is the higher energy order, which decides what happens above, which means it's the Soul, ?? are the deliverer of ?? the energy. The whole Universe is based on this. Does not matter what you look at, the atom, body of the Man, the planet, the rest. But all comes from the original one fields of the ?? Sun, which is a field of the Creation. And interaction with the environment of itself, where it was created, where it was released, creates dimension of interaction.

There's something very interesting that Knowledge Seekers or some researchers in the future will do, is that, what happens if we create a vacuum, total vacuum, and release a Cosmic Ray (CR), and the energy of the Hydrogen? Would it go through? (1:22) Or

would it, in dimension of interaction, as there is nothing to interact with, turns back on itself to interact with itself to create its environment? And the answer is that, yes. And in that position it changes the material condition, and radiation condition, or what we call, field dimension of energy.

If you understand this then you can do a lot of games. And you can do, people think it's magic, or it cannot be, because it doesn't apply to the matter state of physics, applies to the energy side of physics, and then you will understand how things work. In 2007-2008 something in that region, I was invited to carry out some very advanced research in Belgium Nuclear Center. They wanted to test to see what I understand was accidentally, coincidentally, they came across this. I think I mentioned this in other teachings, but applies to what you're asking. The center is SCK, Belgium's Nuclear Center in ?? Mols. And I was given time, certain times, to go to carry out tests with the nuclear physicists of the Belgium nuclear center. (1:24) They couldn't understand something, but I could see the shake and the shivers this brought to them, that how with the new technology you can produce radiation which can lead to creation of other things.

What they did, they emptied, total vacuumed a glass container. I think it's about a meter by meter cube, small meter cube, huge, very thick glasses. And we introduced nothing except the materials which was non-radioactive. And with it, because of the withdrawal of the fields, we created radiation. And this frightened the nuclear scientists, that nuclear radiation, nuclear material, can be created without a nuclear material. And what about if the nuclear material get to this point? This test was so fundamental if you understand the application of it, military wise and scientific wise, that SCK issued an immediate, what you call, instruction, that no material can be moved from one lab to another, which means you cannot transfer nuclear materials, which can become nuclear in the other room, unless it's a normal whatever it is that they had in their mind.

So, I produced from a normal material a condition that it created the radiation. At a very high level, Gamma Rays and plus. And they realized the change in technology. The change in the knowledge that we don't need to have the matter to do. We can create a condition that the matter, fields, all work together to create that condition. (1:26) And then it comes to, if you understand this, it comes to a very fundamental point that when it's the ?? where does the ?? cosmic ?? Ray comes from. Where out of nowhere we led to the creation of a matter, where there was nothing.

But as I said to the nuclear scientists in Belgium, you are nothing, and out of the energy makes your physicality. Why this is amazing to you? Your body, your own creation comes out of fields. And in changes in the center of fields makes your skin, your bone and the rest of it. And when you see it in physicality, in reality in the box, then it shakes you. This is what comes. Why did the first ray come. I create material out of nothing, fields. But these fields, are they Hydrogen? Yes, of course they are. All in essence are Hydrogen. But are they radiation of the Hydrogen? Are they plasma of the Hydrogen? Are they fields of the Hydrogen? Or a plasma which we call Hydrogen, which is in a specific gravitational field strength.

In the very near future, very, very near future, we bring the elite scientists of the world to do this. We literally will bring the most intelligent scientists of the world in one arena. (1:28) And, to let them loose, to explore the Knowledge of Creation, and then with it, understand the new science, to be literally brought into the hand of every Man, then we don't have the dilemmas of today. Once this elite group of 200 scientists come together, set up this scene, and then understand and work collectively, Silicon Valley will be nothing compared to what is to come. Freedom of knowledge without prejudice of physicality is the biggest gain that the world of science will gain in the coming time.

Then the question will come, one of the biggest question comes, "Can we identify the field strength of the Source, what we call the Creator? And the strangest thing is, you'll see, it'll come back to us. We'll send the message out, we send the, what we call, the tester out, but we will feel that test within our Soul, that we understand we are part of. But where does original come from and how it led to? You see it in the womb of the mother, two cells becomes a body of the Man, and nobody asks, "Oh it's one, divides to four divide." But how does it divide? It receives, it divides energy of itself, it feeds, from the creation of its own center of gravity. The STM is that Black Hole. Which means it has the collection of the all the fields of Universe, even the Creator. (1:30) In the pictures I showed this earlier on, one of those bright dots, is the connection to the light, to the Soul of the Creator. It's there, "I'm here", but you're still blind to see. But which thought is the one connected to the Creator, comes from origin? Mankind will answer these questions very soon.

Any other question?

Q: ... Yeah, hello Mr. Keshe and hello everybody. So my question...

K- It's very strange, I was thinking of you yesterday.

Q: Yes, I think there is communication can happen, I know...

K- No. I went to eat with some people, and the restaurant was called Bangladesh. That's how I said it.

Q: ... Yeah, here I'm trying to give up food, and then, a restaurant's popping up somewhere else.

K- Popping up. Apparently it's very famous. Okay. Go on. Tell me.

Q: Okay. So, this question is about this diagram. So, there are, in between, from the top to the bottom, there are three distinct places, three distinct energy levels from where there are clusters of energy, it seems, to be flowing to the physicality. So can you go into a little bit of detail about what these three clusters, (1:32) one at the level of STP and the two others that are above them, how they are operating and what their functions are? I would like to know a little bit about.

K- You see, the way we can interpret this it's very easy in a way. Look at the density of the light from the top to the bottom. This is how the energy is fed from the Soul to the physicality's. What are we keep on saying, the time will come that when we feed the Soul we feed the physicality, as energy we can feed the Soul, we can't take a banana to the Soul. We give it the energy, you see the brightness of it. It's very easy. I have to find

system which this picture is coming out of. You don't know how many systems I have around me. So I have to find the right system which this picture is coming out of. Okay. Now, we are there.

Look. You see the intensity here (top of graph STM)? It becomes less (next down), it becomes less, it becomes less. So, you, we receive energy and in different states of the strength it manifests itself in that position. This is the STP (horizontal line in middle). You call it the Spirit. This is the, what we call, more or less the physicality of the Man. Here, you see it (bottom). Actually, if you look at it very closely, it's very funny, this one, sometimes makes me laugh, but I'll show you something. (1:34) Here if you look, going like this, it's like a foot. And we see this quite often. It's very interesting, very, very interesting. If you look at it, it's like this. You've seen this quite often. I'll put it to you in a different way. Now understand, it's very important. Depends how you look at it, and what you understand of it. This is the STM. This is your heart and lung. This is your stomach. This is your testicles. And this is your physicality. Isn't this what you call, Chakra's, you lot?

Our objective of today has been to create a condition and see how you got to react to this condition. That we're just feeding the Soul, in a specific way we know. And we are monitoring that how the Soul is fed, and how it goes, and how it will bring itself to itself. This is a... I'll show you another picture. It's just I'm getting pictures after pictures how you lot are getting energized beyond your own imagination. It's separation fed by the STM. This is the latest in the arsenal of information you lot getting. (1:36) Watch.

Look at your dimension of the Soul and the physicality. If we manage in our structure to get this more in one line, continuously, you all shall be fed by your Soul. You don't need to . This is part of the emotion. One panics, the whole herd runs. Look at this. This is what I call in these graphs, the 'panic attack.' And then all settled down, "oh, it was nothing." This is how as a lot, we feed. And the more and more we get, the more we see. When you see the first years, or first weeks and months when we started doing this, what a commotion we had. Everything was everywhere, if I dig the pictures out. But as you Knowledge Seekers getting used to, becoming more, we see less and less of these kind of behaviors when collectively we are here to add knowledge. (1:38) Those of you who are "thieves of Baghdad" you'll have that problem all the time. Look at this one. This is an amazing picture if you understand what goes on in the background of it. Look at the Soul. And then look at the behavior of the Soul. Building up. And if you carry over this, which is the next feature we have, this is you up.

So, energy, Central Energy is within the body of the Man. It's amazing how technology development is teaching us, enlightening us. So what is the connection to the Creator? Which line is the connection? It all comes to, we understand, more and more. And it just needs one of you to panic and rest ?? switch off, through the dimension of the Soul. And then, he's getting it back up, it's another commotion for a bit, to one of you, all of you settle down and you start getting the trip.

Any other question?

Q: So, today's sensation is a bit different for me because I'm used to kind of feeding myself a bit. I've been successful to a degree. (1:40) And today in the meeting what I'm feeling is that it's not just concentrated in one part of the body, it's kind of very diffused all over my physical body. So this is one of the thing that is very distinctly different in today's meeting experience and so that was my feeling.

K- That we were set up to do that, it's very nice of you telling us. The setting today is especially for that.

Q: Yeah and especially I was a little bit disturbed because it was in the kind of like genital organs and the heart those two areas it was a little too, anyway, too clear I mean. So, I was not quite, you know, prepared for it.

K- Let's say today we have never tested this. It's the first time we've done and in a more extensive way tomorrow this will be carried out in a much, much deeper way. Because it comes to the point if this sensation becomes satisfaction I have to have no fear of, I can take off. In a way we are feeding the Soul, the STP and physicality to the strength that I showed you before, and if it homogenizes, the Man will most probably go through a full transmutation, because in all dimensions you are energy.

Any other question? I hope you enjoyed the trip.

Q: ... (1:42) In the Cosmic Mystery Pack we received were two dried Gans's, one was CO<sub>2</sub> and one was Zinc Oxide. What is the best use for them to benefit our community locally or more extensively?

K- These are effective, it depends how you use them, and they are made for a specific reasons. Hundreds of kilos of this was produced, and we keep it in reserve for different application. But if you spread this around, because the amount you have is not much, even in the house, mix them and put them in the liquid water, and see how the whole house physicality changes. You can use them as a mixture, and then add a little bit, little bit sea salt. Nothing else, just the sea salt, just a few drops. We mix it with the mixture you receive. And then you see what changes in the house. Put them in different positions. What feeling changes in the house? If anybody sick feels any different. (1:44) We put one of these bottles, each one in one CO<sub>2</sub> two years ago in the conference in London, on the table for every person to take. But nobody asked question, "What can I do with this?" Now you know it's one of the parts of it, what you can do. I can tell you this can, you can do unbelievable things with this combination, I know some of the things you can add to it.

Any other question?

Q: ... Is there any update regarding the Keshe Foundation products that will soon be available in pharmacies?

K- It is there. You have to take, ?? you Knowledge Seekers take it to your pharmacy and do it. We have a certificate in Europe, in Austria, that this applies to the rest of the Europe as a material, yes. People, you take it, I don't know what the progress is. But if you have a pharmacy, you go to them ?? ask them if you can order, tell them where they can get it from and then they add to the range. Ask your doctor, this is the product, it's part of what it does and they do. Because these now for pharmacist, (1:46) because it's packed in a specific way to be on the shelves in the pharmacies.

Q: ... How can we produce a small amount of Carbon 14 in our regular daily operations? It would be wonderful if people could try to do it. I don't know if this is possible. Thank you.

K- We produce it extensively. We have the technology for it. But Carbon 14 is not usable in the matter condition.

R: So it's not something useful for folks at home basically?

K- Not really. Well if you know what to do with it, yes.

R: Okay, we'll leave that up in the air a little bit there.

K- There's a lot of, there's a lot of people claiming, selling Carbon 14 and the rest of it. But we are not interested in Carbon 14 as the matter state. We are interested in Carbon 14 as an energy state, so it's a totally different behavior, but you have to know what way to do with it.

Any question? What's the next question?

Q: ... Hello Mr. Keshe, I wonder how in our dreams, we see the ones that passed away in their physicality, happy and young, (1:48) while they left their bodies in the energy form. Could you please explain how that happens?

K- You're dealing with the energy, dealing with the Soul, not with the physicality, and then it refers back to what you like to see the Man's, more or less, as an emotion. You convert the emotion to image, as it passes the layers of the brain of the Man. In a way, you hear a sound, to you it's just a sound, but different tone of the sound gives you if it's an ambulance, if it's a police, if it's a dog. Our brain, when it interacts with the, what you call, the fields of connection between the Soul and another Soul, as they convey information or whatever, creates an imprint on the physical side image of Man and we call it a dream. And you can control it.

Q: ... If we can create matter and form, we can create animate and non-animate beings, and we can create structures impossible to create with current technologies. My question is, was this how the Egyptian pyramids and other metallurgical structures were built? Thank you very much.

K- I don't know, I wasn't there. I wasn't there. (1:50) Was I there? I don't know. Sorry, I've just read the message here. It says tomorrow's session is at 9 AM Central European time. Yes. For those of you who are in Paris, London, wherever. Yes.

Shall we call it a day if you have run out of questions.

R: I think we may have run out of questions here. I'm searching. Um, yeah.

K- Silence says a lot.

R: Okay, yeah, that seems to be complete.

K- Shall we call it a day?

R: Sure.

K- Thank you very much for being here. Please join us 9 o'clock tomorrow morning. It'll be an experience again, added to the other experiences, and then we, what you call it, we go through the process of the next step. And please support us, we need to get as many Units out in public in the next six months, that once we come up, it cannot be hacked. We need at least 2,000 units to get to that point. And we need much more. You can donate it to the others, because you bought one, you don't want another one. We know where it can go, we can even know how to benefit the Foundation for the use. Thank you very much. And see you next week, and see most probably some of you tomorrow in the session.  
(1:52)

R: Okay, thank you very much Mr. Keshe. Okay, we have one final thing that's come in with, from Lissy, about the Universal Council. "The Universal Council invites the Keshe family and the Universal family in unifying at the Soul level every time and every day at 9 PM, Central European time, to elevate the Soul of the leaders to achieve the permanent and lasting peace.

**605 KSW – August 28, 2025**

**End**
