ENGLISH TRANSCRIPTION

(:34)

K- Yes, thank you very much. Good morning, good day to you as usual wherever and whenever you listen to this series of Knowledge Seekers from Keshe Foundation Spaceship Institute. As usual, we welcome you back.

Today, in a short terms of English language, we got you with 'short and curly's,' which means we are controlling a lot of teaching in the background. We are bombarding you literally with energies, in a Cosmic Ray (CR) level, in all directions and dimensions, with a very big difference, which the beauty of the Man comes when Cosmic Rays at the level of themselves as they interact, become that 80%, then they need that 20%. We are feeding you with that 20% plus the 80% in a very specific way. Monitoring that how your energy levels, physicality (P) is controlled, added. In a way we are compressing into the Soul of Physicality (STP) by integrating the both dimensions of the Soul of the Man (STM), the Central Energy and the physicality. (:36)

For the first time we are running a Live dimensions of the progress of all collective Central Energy of yours and how you're behaving. I'm watching it on another screen Live and it's amazing how we're controlling the, what we call, the STP. And with it we are tempting you with the dimension (D) of physicality. What does it mean? We are literally adding to your dimension of physicality, gold. Which means you have to decide which way you want to be. Choose between the greed of the man, or choose between the energy of the Creator. At this moment of time it's very interesting how this is taking shape and how you collectively deciding to stick to both. Majority of you are connected to the dimension of physicality more than the Energy. And the STP has two direct vertical line on each other. Those who want to go towards energy leave the physicality and those who are stuck with the dimension of physicality.

It is extremely rare to see this and at the same time it's extremely interesting to see how you Knowledge Seekers (KS) actually live, actually are, and this is what will give us the dimension in how to progress with what we call the transmutation. In knowing what we have to give for the Man to let the physicality go. For Man to allow this dimension of physicality (to) change position. I share with you your, as usual we don't do this so .. Live, sometimes do, (:38) this is you lot and you'll be amazed when you start it.

As you can see (shows graph), gold sits precious to Man on the left hand side and not much activity on the right hand top side at dots. Where the vertical sign is taken shape by the horizontal, which is the STP of the Man, strong. Greed. Attachment to physicality. And this is very interesting for us, extremely interesting for us, to see our Knowledge Seekers are no different than what we call, the rest of humanity. We are all part of the same. Don't forget we are energizing, we're giving everything we have in our structure of the knowledge to the STM, and Man has chosen the physicality of it.

And I'll try to show you in the next few minutes more and more of how you Knowledge Seekers actually go about doing things. How you Knowledge Seekers sit with, play with and go back with understanding this totality of the knowledge, encryption of the reality of the phase of the what we call, dimension of the Man. And we'll see how you move, you change, because this is what in a way, sets dimensions for us in the future. When we get Man to the Moon, when we get Man into Space, with the greed, which is the specialty of the Man, (:40) it's the only animal more or less which lives by his ethos of greed, wealth, knowledge, and everything else. And how you as Knowledge Seekers take the dimension of the wealth in the Space and you create that dimension of what we call, greed. Would you go back to the dimension of humanity? Would you go back in killing? Would you go back in what we call, understanding of how Man sits, how Man will go back to killing in the Space. How much can we hold you in the dimension of energy of the Soul and STP, that the physicality does not do what it did on this planet. One rotten apple can literally destroy the whole cart. And one man, killing in Space, can start a mayhem of showing the others what can be done.

Man's technological development at this moment of time, by landing on the Moon or trying to go to the Mars is nothing, you have not come across the other side. Universe (U) is not exclusivity of humanity. Universe is not exclusivity of Man to do what he likes. And once Man become Man of Space the time will tick. When would the first man fall, commit the heinous crime of killing, (:42) destroying, that the rest of the humanity will be destroyed by it, and be brought into the line that Man will not be able ever to in a way depart this planet. This moment of time governments will sanctions come and close borders. But when the Universal Community puts a ban on every human to leave this planet, there will be no point of return.

The whole effort of teaching, enlightenment and trying to bring for you to understand the ?? love of the STM is for this heinous crime does not take place in the Space. "Thy shall not steal, thy shall not kill." It's no good to be a Jewish man shouting the Torah and working opposite to it where it says, "Thou shall not kill and kill as much as you can in every shape or form." We don't want Jews in Space with the wrong Torah in their hand.

What is written is to be abided by and followed by. "Thy shall not kill", but thy kills more than any other things in the name of the false Prophet of Moses. When you have no religion you can do ?? what everything and then after yourself, do anything. And when that religion is ingrained in what we call, the 'Chosen Ones,' (:44) the chosen to destroy the humanity. My biggest wish that there is no Jew ever in Space. That they'll commit in the name of the Chosen Ones, ?? the Jews to be the wrong ones, that bring the rest of humanity to annihilation. Thy shall not kill, thy shall not destroy, and does not matter in what name, just because you carry with you the blood of Mitra. You are not chosen, you've chosen to be wrong, you've chosen to be a murderer, you've chosen to be a killer, and this cannot carry in the Space. Simple and direct line of it is that, you change the timeline for the others, and Man has got no right to do so.

Man is chosen to be perfect, Man is not to be the Chosen One to kill. Anyone who puts the name of the chosen one is tagged, and is understood, that (they) have not understood. Because we are all chosen by the Creator to be the perfect, perfect examples of the Creation ?? and Him. Not the failures of Judaism and Moses. If mankind takes the path, if the mankind does not understand what we do, how we operate, and what is the purpose of the teaching to bring Man to be the perfect, then we have to see what can be done. (:46)

In the next two minutes we'll add gold into the pattern of your Souls. The systems are set. We have never played games with you this way. We always did things in the background. But this time, we are all aware of what you are about to receive. Up to now you received the Rays of Cosmos, the energies which is hidden to elevate the STM. And what we will see in the next graph is when we have brought, we have added, greed, gold to the STM. And I'll be wondering how the reaction will be. You saw your Souls strangled in the STP, with a touch of gold, as I spoke. But that was just a thought. Now we add this as an energy into the dimension of your Souls. How do you wonder you will react? You will see the graph. You will see how, as mankind, you are.

I show you a graph of just prior to adding the gold. And then I show you the graph. When the gold is added and we test the greed of the Man, you have to be aware of this. And the reason we do this today is that you have to be aware what the others see as they don't see you physically, but they see the energies of your Souls and your behavior. (:48) And then you will understand to know yourself more. This is you lot, just in past half an hour, without adding the gold to your dimension of the Soul. Not much difference than what we saw from 15-20 minutes before. You lot start moving more to the dimension of the Soul, the energy, Central Energy. As we start telling you about what is going to happen. Just the emotion of the understanding has moved you a lot up. Rick, can you promote the number four as a panelist, please?

R: It's done, thank you. It's done.

K- Thank you very much. So now, we want to see, in the Space, we introduce to you the love of your life, called, weakness of the Man, greed of the Man. And let's see how next 15 minutes, 20 minutes, you... you as Knowledge Seekers, it's how you react. Can we tempt you to kill? Can you... Can we tempt you to greed? The only, the only emotion

which breaths and lives only within the man. A dog eats and it gets to the point when it's full it stops. Does not do what the Man does. Man, greed for power, and greed for physicality, for possession, (:50) has been the weakest point, and it'll be the breaking point in the structure of the life of the Man in the Space. We do not change anything. We just add to your physical side, which is giving you physically the emotion of possessing gold in your hand. We do not add in this section the dimension of the energies of gold to the Soul and the STP.

So now what we see is how temptation will touch you. Does not matter if you say, I have no attachment. Technology (T), data does not lie. It is the reality. It is what sits amongst you. And this is how the test will come. In the next two weeks we'll bring a new dimension, connection to Universal Cosmic Rays in a different way, in a very direct way. And then we'll see how we start changing. Because the graphs you see, the data we have collected over years is still kept. We are watching how you developed over past years, past months, and past weeks. As you received, you went through dimensions and directions.

Now we have added gold and in all dimensions you are receiving Universal Energy. But gold is in your dimension of physicality. We have placed the essence of the gold is in the Universe in three or four places around the system. (:52) That how it will affect you. How you choose. Would you commit the final crime and destroy? And would you move into the dimension of physicality? And the picture is loud and clear. It speaks on its own. It's a scientific data. And no one can hide. The next few minutes you will see Man. Dimension of the Man, but Knowledge Seekers as you are. And then I explained to you how will be if we do it in a different way. In a way, without you knowing, your Soul and the STP is making that decision. And does not matter what you say, "I don't like gold, I'm not greedy, I have no attachment to physicality." The next few minutes you will know yourself and how much you have changed over the time. Because we have to show this, that you truly understand yourself. Nothing is hidden. Nothing is hidden.

We got to understand how much you change, how much you as Knowledge Seekers change. (:54) And how much have you changed. We are monitoring you in the background, this is for us, this is not testing you. This is for us to understand how we have to load our systems when we put you through transmutation. That in that process we satisfy all the need of the Man that the greed of the Man does not travel with the Man across the Space. In transmutation we can carry hundreds of thousands of people instantaneously and we do not want to carry the what I call, the army of Hitler, or Genghis Khan with us into another dimension and direction of the Universe as they arrive there let's loot. Let's take what is not ours and we find an excuse in how it will be done, in how it will be developed, in how mankind will be kind to itself and what kind of Man, Man will be in the Space.

Can we trust Man or do we need to change Man that he can trust himself in the dimension of the Space and time and in evolution of the existence within the time of the Man. To what extent can we work? (:56) What is interesting is that you have all 'chickened out.' What is interesting is how your ?? conscience has become your consciousness, and how

you as Knowledge Seekers do not know what to do. And what is interesting is that you as Knowledge Seekers stand to see how you will gain from the whole process. Leave your microphones open that you can communicate, you can work within the structure of the Man's life. And how you lot do not want to be part of this exercise, because you lot do not trust in yourself. You have all, majority of you have switched off. In the dimension of the Soul, we operate, we see. We say you have taken doubt, because you do not know what is the outcome? What is the onset of trying to be correct with oneself? To move more in the dimension of the STM?

So, at this moment of time, we have given you as much gold as you like as an energy. We have left in your possession the totality of understanding the whole structure of what we call, (:58) process of and progress of Man. And interesting enough we have to see how you as Knowledge Seekers move with this. We are still playing, tempting you with the dimension of physicality. And see what you have found about yourself. What you see about yourself. You remember the last graph? Now this is a touch with gold with you lot. Look, look. Compare.

<< Mr. Keshe have problems with his audio. where you were before and what decision you made now. you .. (1:00) can you hear me ... (1:02) We have a problem with our systems.

K- .. (1:03:24) So, what we've done in this process of today, and what we're trying to do is to actually bring about of your understanding the whole process yourself, and how you react, how you as Knowledge Seekers interact with the systems, with yourself. And how we can modify and justify our work in how when we take you into Space you do not commit what I call, the heinous crime. (1:04) And as we seen .. once we introduce the gold and we explained, you moved from this position of physicality, most probably trying to be correct with yourself, the position , and move towards the STM, detachment.

But interesting enough you have closed and shut down the whole system of the operation of yourself. What does this mean? Means you will literally shut down, all of you, 99% of you totally shut down, because you were not aware of your own conduct, of your own trust within and about yourself. In a way, you want to be, as we see in the dimension of the graph you see in front of you, to be good, to be detached. And if you decide you can be, you can bring that change. And you can exist within the dimension of the reality. (1:05:38) ..

<< Mr. Keshe have problems with his audio. (1:06) okay we have to work half ?? cooked and if we so ?? come back into D (1:08) There's something wrong with one of our systems. Two are failing to connect the sound.

K- .. (1:09:18) So what we do in this session is to feed you with primarily energy of the gold and watch how you behave and watch how you change and how you move towards it then we feed you with gold in dimension of the energy of the gold dimension of the Soul and the STP and then monitor you. And then what will be interesting to us how you in next days, weeks, behave towards gold, towards wealth, towards possession. (1:10)

And how we can bring about a change in the society because once you kill the greed, you kill the wars. Greed of power, greed of possession, greed of gold, or whatever has been the cornerstone of the war. Wanting to be called the king, wanting to be the president, wanting to be the whatever, whatever, whatever. And greed of the man has come through possession and gold is the most possessive thing in the world for many.

We operate, we monitor how this will affect you. How you affect yourself. How you change your life. How you decide to be in the dimension of, nothing matters as long as we are all equal that it brings peace. Possession does not come with physical dimension. Possession comes with holding, possessing another man's destiny. Forcing your way onto another person, that's possession. Trying to enforce your thoughts on somebody else, that's possession. Sharing and deciding to be part of is different than forcing to be part of. My way or no way, that's possession. Because I want to decide. (1:12)

Man should be born free, Man should stay free, Man should die free. And if Man lives by that ethos he can conquer the Universe and will be one of the many creatures of the Creator. You have no right to no life, half time, to decide when that half time will be for the life. And today's session is the start of that. For us to more or less complete the cycle of development of systems that when Man is on Earth and he wants to do all the things he does here, once we let him loose through the system of transmutation, Man has no half lifetime and Man has no right to no other creatures half lifetime. Kingship and leadership and ownership is the characteristics of humanity. And Man going into Space has to change.

Don't forget, whole session today till we finish, you're getting fed by Universal and field energies, what we call, Cosmic Rays, in a 360 degree dimension, and we are tempting you with gold. And then I will show you the videos of it, the pictures of it in the next session. (1:14) That when you become unaware, when the second part comes and the third part comes and we talk, you still subconsciously greed, live. And we want to know how you change. And then we share with you. And then it gives us a dimension of how we need to change you as Knowledge Seekers, and how much you need to change yourself as Knowledge Seekers to become members of Universal Community. When all creatures of God are equal and that all men are equal, Man have never accepted equality, even from day one, from male to female, from man to man. Brotherhood of man has been brotherhood of killing, destruction, lies and possession, and part of that to comes through greed. We are satisfying that greed, and we would like to see how much that satisfies your need. And then we'll see how many of you are really ready to become part of the Universal Community as we progress in that direction and dimension.

We fight it nation by nation, we show power man to man, culture to culture, and we are proud of it. We never looked at as one Man, One Planet, One Race, One Nation. And this is the whole target. Especially with the systems we are distributing amongst you, which are the Universal systems. We spread the emotion, the energy fields of peace and equality and what we call, (1:16) peace in mankind and changing what we call, the inner layers of Man's amino acid (AA) to be satisfied and not to hunger, to be able to move, to connect to Universal Energies and not just the body of the Man. The Units which are getting

distributed, connect and directly into Universal energies, Universal lines of communication. In a way, when you play the game through the systems, you're actually delivering to yourself the energies which brings you to be peaceful. The comprehension of the totality of oneness of the Man between his Soul, the STP, and physicality of the Man. Enlightenment in the game of Gods. Chess has been the game of the kings and enlightenment has been the game of the Creator. How would you play it? How much would you give to be enlightened with the Knowledge of the Creation?

Today we have tempted you with gold. As Bahá'u'lláh's said, blessed his name, we test the heat of the fire with gold. And we test the greed of the Man with gold. Then we see how you do. For past hour you've been showered with the fields of the Universe, (1:18) and in past half an hour you've been showered with the greed of the Man, the field energy of the gold of the Man. How do you think you're moving? And how many of you are hiding? I show you. Scientifically, you have all switched off. Because, too scared to face my own weakness. But the Soul is working in the background with the STP, as you've seen.

It's very simple. This is you before (shows graph) , and this is you after. What happened? You all disappeared from dimension of physicality, in the greed of the Man, and moved towards the Soul. What is... It's interesting for us to see holding on to the physicality of the Man and the Soul of the emotion of the Man. (1:20) ?? hiding ?? holding and letting physicality go. You are playing with your emotions, you are playing with your physicality, you are playing with the STP, we watch it on the graph behind in the background. But not choosing the gold. You see, it's empty where before was there for Man to see (the area where P is was full of dots before, and now it is empty).

The more we go in this dimension, the more physical we become. The more we go in that dimension (towards the STM), the more we become detached from physicality. And somewhere here, you see dimension of ?? physicality. This is before I explain to you, and not just play in the background to see how you are, but directly informing you of you're going to get hit with the gold. And look, this is you. So, Man can change. There is still hope to change the Earth. Even some of you are still dangling and tingling in this zone (P).

Now we ?? eat of it. When a Man can understand the work of the creation of what needs to do by himself. (1:22) These are not made up, these are scientific data. You've been familiar with it for past months and couple of years. No knowledge has ever been shared so directly. As we have no fear of Knowledge of Creation, and the Creator. Those who have a fear, who have nothing, patent it. We have no patent in the Universe from the Creator, as He has created everything which exists, a Man just think of something, he has to patent it, because he's so feeble. Let's see how you lot, Knowledge Seekers, play the game of gold. And how you Knowledge Seekers become so aware of greed of yourself. Never consider another Man. Once you start comparing another man, you have gone back into the kingship and failure of the whole system. Look only at yourself, on where you want to be and how you want to elevate. And what is the ultimate goal for life. Hopefully by the end of the teaching, if we see right, we'll share some shocking pictures with you as

the data comes out. We go for a break and come back, and then we'll try to answer, if you have any question about your own greed and nobody else's. Rick, take us for a break.
(1:24)

607 KSW September 11, 2025 ... (1:34).

K- (1:34) Okay, I'm locked out of everything. I don't know there is something wrong today. I hope you had a good and you'll have an interesting experience with today. Even though we are monitoring everything in the background. But our system has failed. I think our systems have become greedy, doesn't want to work, and show you what we want to show you. We lost the sound and everything else in two systems out of three.

As we announced before, we're still busy with the work of the Units for Universal Systems for communication and Cosmic Ray systems that we can breakthrough what we're working with and what we're working for. And it'll be interesting to see how as we gradually start developing the systems, we will carry on in understanding more and more about how you Knowledge Seekers have become, in a way, qualified to be. You're holding very well. We've just seen you the last graphs coming in. ?? A lot of you have ?? let go of the physicality, which means we satisfy your greed. And what is interesting is, you need to understand the process of the teaching of today. And what we are in a way bringing to be as part of the structure of holding on, (1:36) satisfying, without in a way making Man to kill for. We are satisfying the STP and the Soul of emotion with the process of today. And how you as Knowledge Seekers are holding into position.

It will be interesting to see how the things will go and how we'll see things. And now we add the energy in the next step of gold to all levels of physicality, the STP and the STM. And see how you respond. What you take and for how the dimension of the Man will change. Where we satisfy the richness of the planet with all dimensions of the physicality of the Man, STM, and STP of the Man. In a way, common emotion. And when we do this, this is a new Time.

The whole purpose of the game of today is to create a new Time. This is why in the past we taught Times. Because the new Time is, that we satisfy all needs of the Man, not in dimension of physical, but in dimension of Soul and STP of the same strength. That when it's satisfied, would Man still consider gold as? Or Man become the gold of the Universe

in understanding of the Totality? This is the game to play. Next few minutes we will be feeding you in all three levels. Not only the Universal Energy, not only the connection dimension of the, what we call, energy, but now we give you the physical energy of the gold, Universal fields. (1:38) Let's see how you lot play.

As we said, we are in the process of developing technologies. When we, when you receive these Units in the coming four or five, six weeks, many of you not only will receive a Unit to be part of the Universal work to bring everything to create the One Planet, One Nation, but you will receive energies of the same way through the same system you have in this system connection with the physical dimension of the Man and a connection with the energy dimension of the Man, these are the dual systems. It's set up that way and it's the first time ever we convert what we call, Universal energies, Cosmic Ray energies into a digital form that become in the analog digital communication and energy fields. In a way you receive energy while they are in there. If you have two of them in the house you cover the whole of the house, the environment with it. What I need, what I get, what I give.

In a way, the process of communication through Universal line of energies will start. With it we cover the planet and not just a few of those who just bought the system, but you, as you link, you create what the planet has short-fallen for Man for millions of years. (1:40) In a way we complete the work of this planet and as we said, "Thy shall not kill" because we satisfy the need of the Man, then Man does not need to kill. From this second on the gold is added to all three levels of the energies of the Man and the physicality. And the time is 16, 14, 18, 100 times more than what you ever experienced before. It's not multiples of time, it's the order of magnitude of the strength of the fields. It's how you interact and how you understand your own level of understanding. And how you build up to and how you take from and how you change the pattern of your life's understanding of the whole process of Creation. This is why the Units, the teaching of the Time, the structure of the Soul, the whole understanding of the Soul, understanding of the teaching, all comes together.

We have developed a technology that can change the dimension of analog to digital and digital Universal energy systems. The process of Creation. One day I will teach this. One day I'll bring this on the table that it can be done. That day will be when the nations write the world peace treaty, where we bring Man to understanding the position of the peace on the back of the technology and science. We have started this process and as we work on it gradually we will see a huge resistance from Western world, (1:42) what we call the European Americans, for this technology to be spread in such a way amongst the rest of the world. And then we'll see. We work through BRICS and through Shanghai Corporation as part of the structure, 'One Belt One Road' to spread this part of the technology rapidly. And then we'll work in the dimension of understanding the totality that the wealth belongs to humanity and not to individuals.

The, as I said, the system has started and we will come to it, we will hear it and you will see it when we work deeper to spread this technology through the systems across different nations, and then making everything free and available to every man. I hope that

you as Knowledge Seekers are there to go through the last phase of it, but I hope there will be peace that bring that position to do that much easier than out of desperation and need and the pleasure of doing it. If there are any questions I'll try to answer and if there are no questions we can close.

Q: ... Being insatiable for life and even the desire for the Creator, does that become greed?

K- Yes. Yes. (1:44) When we get attracted to the, what we call, the possession, then it's a time when position needs to be understood. I made Man in the image of Myself, which is I'm detached from everything else. And it comes as part of the emotion of the Man is the greed. Does not mean that you have to live the most horrible life because you give everything to everything or whatever, but it means for you to enjoy life. But understand that collective awareness, collective life is more important than individuals. And this is where most of people make the mistake. Holding on to wealth, the greed, power, whatever you call it, .. does not mean that you have to give everything. It means to be able to bring harmony within oneself, and that's all it is. Some people live in a hut and they are happy, and some people live in palaces, and they are not happy. (1:46) And the greed goes more and more and more.

If you haven't experienced the greed, and what it does to other people, you'll find out very soon, when you see ?? one. I've tested and I've tasted in both dimensions of Man's greed. And how, many, many times, women are the biggest cause of man's greed and war, as they try to satisfy their own greed to the man they are with. This doesn't happen to everyone, but I've seen this, how many times women's greed has changed a man's life. And how they use the man to satisfy their own greed. Usually happens with uneducated. People who are even educated come from a poor family. And then they come into point of a man with power or wealth. And then they try to dominate, as they become from mistresses to wives, and wives to divorcees. And how the greed sits, and how, through their own lack of understanding, they play with their lives and other people's lives through greed. (1:48) And how these things plays.

And I've seen the same with men. Men with nothing come to the wealth, and the greed of holding and becoming, becomes their demise. We see that in many, many world leaders of today. Come from nowhere, mainly working peasant background family, and getting to the seat of power with whatever shape or form they hang on to it, and they create mayhem for the others because greed of power. The power doesn't come by wealth. Greed doesn't come by wealth. Greed comes out of Man's emotion of being a Man.

I've been on the receiving end of this a few times, and I've watched. And I know exactly what greed does, and it's the only emotion which needs to be tamed. And then with it comes a lot of peace. It's the cornerstone of wars, it's the cornerstone of destructions, cornerstone of many, many conflicts, greed. Then today all of you are on the test by yourself, for yourself. We are not judging and testing no one. Just see how you change. Has the greed of wealth has been satisfied today? Has the greed of being the best satisfied today? Has the greed of whatever has been satisfied today? Watch yourself in next few

weeks and months, and see if your life has changed because of. And then we'll see.
(1:50)

Then we try to understand, then we try to go deeper in understanding, of how to transmute the Man, but satisfy the emotion of the greed, ?? due and through transmutation, when we have the Soul. When we can strengthen the Soul, elevate the Soul, and with it bring the enlightenment. The game of enlightenment which comes up with these Units which we are promoting as a game, enlightenment comes when there is no greed, when there's a purity of heart, purity to understand the process of the Creation. And then the more you understand, the more you realize, "I have nothing to understand." It means, "I have understood nothing, and I'm there pure, at all time, to learn and to develop and to share what I learned." Well I told you from day one, what you then share and teach, unconditionally. As you never know who comes out with the next one, next step or elevation of the STM and others in the Universe.

Any other question?

Q: ... Hi Mr. Keshe, the graphs you showed me, I really didn't understand any of it, because the first one you showed there were like whole bunch of concentrated dots on the left, under the X axis, and you had the whole...

K- Because you haven't been in the teaching, you should have understood.

Q: What do you mean?

K- It's very simple, just wait. You don't understand? You don't understand? (1:52) I'm going to teach you in one second. I .. hold your horses.

Q: Because you said, you close your microphone. I don't have a microphone. Okay, this is the one you said physicality.

K- Wait, wait Azar. Where are you? Are you in the US? Are you somewhere else?

Q: No, I'm somewhere else.

K- Somewhere else. Yeah, that's why you're short-tempered. Just wait.

Q: Short-tempered.

K- This is pure physicality (bottom of graph). This is the dimension of the energies (above). And this is the dimension of the STP (middle line), and this is the Soul.

Q: So here you had the gold in physicality?

K- We have gold in energy, so we introduce it to you in this dimension.

Q: So what happened to us?

K- It affects, affects you as energy in dimension of physicality. Then we added the energy to your Soul and the STP, physicality, what you're going through now. This is what you receive from the Cosmic Ray day and night. So when you look at this graph, you can go in different dimensions and different directions according to how you move.

This is, all in the dimension of physicality. Are you going positive? Or are you're going negative. The more you lose to the STP ?? .. , the more you lose to the Soul, or the energy. (1:54) So energy should come on the central line. There's a line here (middle of graph). Yeah? And we monitor according to this. It's set up this way. When you look at the next picture, if I move it, you have nothing in this area. I have to move it a little bit further back, that's where it is. You see that? There is nothing on the Soul area. There is nothing on the Soul, there is nothing on the STP. On the physicality side, if I bring it here, you see the physicality here? So, the following videos and pictures which are coming, very interesting how you lot are holding on to the process, in another side of the system which we are monitoring. Because, it's not just this, it's very strange that how many of you... You know, I'm talking to you but you're not listening to me? Switched off? Many of you have switched off.

Q: Oh, you mean switch off ourselves, not our microphone?

K- Yeah, yes. Many of you have switched off, especially when we spoke about what is to come. Because, I take a picture that I show you. It's a fear, mainly it's fear, till the confidence comes. I save this picture and I show you something else. Just give me a chance because we are in a real time process. We are not in a different time process. (1:56) There's something wrong today with this Internet. You see, I'll show you another picture.

You look at these two pictures I'm going to share with you. You, with it, these graphs are statistically, what we have, what we had for a long time. And so, we go through the process in a different way. Okay. Look at this. Look at this picture. Forget about the right hand side. This is the main concept. When we spoke about, this was you behavior, then we spoke about you lot having gold, see what you did, you lot. All switched off. This is the switch off part of the operation of the Soul, STP. And look what you're doing now. It's not interpretation.

Q: Where do you see the switched off Mr. Keshe, in here?

K- This is this graph for us, because we have a data. This graph, when we see like this, is a switched off state. You understand? It's a switch between Soul and STP, back and forth, which means you create a balance of what it is, normal ?? life. But when you see this, the interesting part is this. (1:58) This is past few minutes. The Soul is here, operation of the Soul. And this is your STP entangling with physicality.

Q: Here is not switched off.

K- No. Now you're into that. Now some of you is working in a different way to understand some of you. I saw in, because we see things in the background which we analyze, some people still trying to grab gold as energy. What we've done now, in past few seconds, we have doubled in the... feel the energy of the gold in the STM. To satisfy, as we feed the Soul, Soul feeds the physicality, in that process, in past few seconds, in the background we have increased the, what we call, Universal gold levels, Cosmic Ray level gold, into your Soul, or in dimension of the Soul field strength. You lot will interact, how you will respond? Because we use this data to satisfy the Man's need, to unify. As one of the videos you saw last time, or pictures, one straight line from the Soul to the STP, and the ?? Soul of physicality of the Man. That's the point of transmutation.

A lot of you have the fear of facing the fact of your own emotion. (2:00) That's why emotion creates Time. When it touches your emotion, you create a new Time, new beginning. I've seen many, many Knowledge Seekers, who go through this up and down. I've seen non-Knowledge Seekers going through the same point. Being wealthy and staying wealthy is an art. And wealth does not count as a money. Wealth to be matured to understand, to be able to share, knowledge, understanding, enlightenment. As I've said many times, if I had a fear of, or greed of, I would have never taught you every knowledge I have. I would have put it in a patent one after another, as the Tesla did and the others did, patent after patent, spent most of the time patented. I use the patent to share the knowledge and it's not mine because I cannot patent the knowledge which I have created.

So, there is no greed. I've never been a believer that I live poor and I give everybody to everything else. I live a comfortable life, but beyond that, (it) belongs to everybody else, the knowledge, the wealth and everything else. (2:02) And it's not something since the Keshe Foundation or the start of this technology, is the way I always lived even in my business life.

Q: Mr. Keshe, talking about the greed, you know, I was talking to a gentleman who pretty much knows everything and is knowledgeable, but then I talked about you and what the teaching is and what the future looks like and then what, where the humanity is going and then we're going to go to the One Planet, One Race, One Nation and then we're going to have, we're going to have interaction with other planetary systems because we're going to change totally. And he called me a naïve and a dreamer because he said no such a thing is going to happen because your life is already decided for the next 200 years. And then I talked to him about, he says the matter never changes. And I said no, it's not like that. Mr. Keshe said, Mitra is here and then his daughter is here and then the Soul is going to come first and then physicality is going to follow. So maybe after everybody dies, I mean our generation dies, the new coming, they're going to be different. And he says, if you look at the planet for thousand and thousand years, there were times there were like 100 or 200 years of a little bit light, but it always went back to darkness. So and then I couldn't answer him after that.

K- The thing is there are two ways to look at it and two ways to handle it. (2:04) When you accept the status quo nothing can change, nothing can change. When you stand firm in the stand of what you have, the status quo will change towards you. And we are of the second. We don't fit to suit, we make for the others to fit into that it suits everyone. And so, yes, you're very correct if you're in dimension of knowing things, and the way things are, it will be that way. But it cannot be that way anymore, because... First of all, the biggest change between now and the past thousand years is, we used to communicate through as much as you could .. as fast as you could ride a horse, to change the next horse, or drum in the jungles by the trunk of the tree. And knowledge stayed local.

It took thousands of years, hundreds of years, for the beauty of the silk to be understood by the Europeans, when the Chinese did it, and for the herbs from South America, through the ships and everything, conquers the whole world. Now it's instantaneous and knowledge is unbelievably changing to that dimension. No one can control anything.

Look at the Keshe Foundation. In 2015 I was told by the King of Belgium in the European community, by 2018 there will be no sign of Keshe Foundation left. We'll take you out of the Internet and everything else. Give technology to us or you'll be killed. 2024, (2:06) we are sitting on the table, partnership with government, major organizations, governments around the world. Do we believe the Europeans? No. The world was controlled by those who... When somebody rapes you, frequently, doesn't mean physical rape, psychologically or whatever, and it's your fault, you accept it. But that time doesn't exist anymore. You can live in your 'cuckoo land.' And Internet, the past communications, government realizing the time for the change of technology, is bringing it that way.

We sit equal as nations in developing, delivering technologies. It's not a dream. As I said, you as Knowledge Seekers only see 1 even percent of what Keshe Foundation does and what happens in the background. We are not collecting wealth. We are sharing the knowledge that makes nations to be able to understand that the wealth belongs to everyone and everywhere equal. This is the difference, and yes the gentleman has been correct for past 200 years. British government, what they call through the Privacy Council, which is the advisor to the King, planned for next 50 to 200, 300 years how British monarchy is going to rule. But what we've seen, limitation is coming. We've seen how France in past five years has lost and losing more and more. (2:08)

Niger was getting drain of uranium material mines giving 80 cents which 50 cents of it went into the pocket of the leaders and nation was dying. Today Niger does not export a single gram of uranium to France which now has created crisis and Niger has become a nuclear power. Signing an agreement with Russia to develop nuclear power stations for the nation to have electricity, where they were sending the coal, what we call, the mining products to streets of France to be lit. Now Africa is getting lit. Time has changed.

Yes, no one can stop this train. And now it's time to introduce a new technology that you don't go through the changes of, again, Africa's waiting another hundred years for the others to do, to join up. Africa joins up at the same time as the Chinese and the Iranians

and the Africans and the South Americans do together. At the moment what you said is correct to a European, because they have to look at the cocoon inside, they cannot understand what's happening outside.

You will see it. We saw the plan for a war, last week as I told you. Many of you asked, you know, asked me a question, "Why do you think war, what's going to happen on Saturday and Sunday or Friday last week?" Nothing happened. It did happen. But it was kept away from public, what exactly happened. And if I explain to you exactly what happened, you'll be shocked. Now they're going to try it again in two or three weeks time again.

R: And also Mr. Keshe, (2:10) I'll just interject, on Friday the US declared their Department of Defense was, the new name was Department of War, and they have to change all their stationery and it's going to cost some billions of dollars to make that change, but it's significant in their tone.

K- Yes, but let me explain to you, we talked about...

Q: Mr. Keshe, so what happened then?

K- Can I talk? I explain to you what... The Europeans, the Israelis and the Allies in Middle East planned to bring what they call, 'the return of the Lion,' which is the Shah of Iran, back to Iran. By pressurizing a lot of other things, internal revolution, an external attack on Iran through five borders. Everything was planned, structured by a number of Israeli Mossad agents in Iran internally, developing cells, importing tens of thousands of what you call, drones and to start an internal unrest and external attack at the same time. And these agents continuously fed the Israelis and the Israelis fed the Europeans and the Americans about the logistic and how things are and the way the defense of Iran is after the June war. But unfortunately, last week or just a week before, these agents were all captured. Some killed by the Israelis, some took poison themselves and some were downloaded a lot of information. (2:12) But most of these 32 agents were fed information the wrong way deliberately by the Iranians who broke into the Mossad school, what you call, the squad in Iran.

They intercepted their things and they fed them their own information, they got them befriended by top generals in Iran, thinking that that's Iran weakness, and the whole Europeans and Americans planned that plan. About early last week Iran returned 32 coffins of the Mossad agents. The largest ever number of Mossad agents ever in any intelligence services were handed over to Israelis. Some they pulled themselves from, some they... whatever happened to him, they couldn't somehow decide which part of it was which. Which were the 32 coffins of the top Mossad agents in Iran were handed over. And then the Israelis and the Europeans found out, "Oh God, all the information we planned on, has been all made up." Because, our agents thinking, sitting with the top Iran officials, were getting the right information, where actually, actually everything was wrong, for them walked into a biggest trap. A couple of cells moved on Friday, we saw some bombs, some 20, 30 houses demolished, but there was no backup, because even

those who were left, who couldn't find out, they were found out. And we saw some movement of huge support on the Iranian borders, with drones and military, covering if they move. This is how it stopped. By actually, the biggest number of Mossad agents eliminated, which planning a big revolution.

The next step is next 2 or 3 weeks. The Israelis have a new one coming up for, round about, Yom Kippur. They'll put a date on it. They're betting that Iranians will go on the street, because this time they're going to cyber attack Iran and bring everything down, (2:14) and then get people on the street and start revolution, and the rest of it. But, they can dream on. The West, the America, has no choice but to go to war with Russia and start a new war, because, economically, in the past 6 months, with Trump in position, they've gone bankrupt. West has lost energy resources and gold resources. France, England and Italy and the rest were banking billions of dollars of gold from Africa into their banks. They were rich, yes, but now that's dried up. Has to be paid somewhere. There is no more gold reserve to sell to pay for the French to have an unending social security in the British. And I cannot tell other people the time of we've been stealing and feeding you is over. So now the only way left is moving with the war to have an excuse to go and start something that it might start the war factories and the whole thing to go.

We are heading in for a religious war, which combines with the greed of the Man, because European wars can only be financed by Vatican. There is no money anywhere else left. And Vatican is milking it. And Russians are playing it. And Americans are suffering it. And this will carry on until somewhere, the safest place to be at the moment, to live in, is in China. Unless you live in Australia, Of course, in New Zealand, which you're the luxury ones, you're the Supremes. (2:16) But what was planned last week has failed. And now you know the reason why it didn't happen. All the plan they had, where to hit, where to destroy, and how people will be on the street, it was fed to 32 top Mossad agents. And they found, when they received the bodies, found out everything was false. So now they're planning another one, for two weeks, three weeks time. Which coincides around, what we call, Yom Kippur, they want to do it, but they think the Iranian's going to go on the street and do it, but we'll see what the next step will be.

Q: Mr. Keshe, was the Qatar, was the same plan, a part of this plan?

K- Qatar was betrayal by Trump. Trump asked to make a decision, and then he gave them the address where everybody's making these ?? the Israelis here and there we are. They will pay, United States will pay for this, supposedly peace talk. They organized, they were discussing the peace talk Trump put up, and Trump and the Israelis were given the address where they are discussing it. Because we asked them to get together, now we get them. But, there is, there are going to be something else behind this, but we have to watch it.

Q: But Mr. Keshe, they didn't, they didn't die, they, nobody was there apparently.

K- Put it this way, let's see what comes out. Nobody knew of the meeting, except more or less the Americans. Same thing happened with IAEA. We gave the names, I told

Ahmadinejad, the most stupid thing he ever did, give the name and address of our nuclear business to the IAEA and now we know Mr. head of IAEA works directly in the hand of Mossad, (2:18) and the Iranian scientists got killed one by one.

Q: Mr. Keshe, why is it that leadership of Iran is negotiating with IAEA again? Because they already failed. But Iranian leadership, I saw news that they're signing a contract to the same guy ?? ..

K- Just watch, just watch. Looking to be stupid does not mean you are stupid, does it?

Q: ... Is it only when our need for energy is not met, that we become greedy? And how does the energy of gold affect us differently, And does it feed our need for energy correctly, or causes abnormalities? And is this gold energy the same as the energy of emotion of greed? And is it created the same way as other energies from the Cosmic Rays?

K- It's a combination of a lot. It's not a simple black and white. We... You've been Knowledge Seekers, you've been there, we have tested you everything, everywhere. We tested you with the orange, we tested you with all emotions, we tested you with everything else. (2:20) The most important thing is the greed. It's the only emotion which Man stands alone on. You know like a squirrel gets the whatever, and hides. It's just for, it's not out of greed, it's for the future that if he needs it when it's a winter time. The dog hides a bone, when there is no food there is something there. Man collects things without actually any need for. And this is the problem. And this has become part of our habit, even we agree that we get fat, we just control it, we just stick it on our body. And most of the animals which are in touch with Man, and get in touch with that emotion, become like Man. Look at the dogs how fat they get, look at the cats how fat they get. This is a disease that Man will give, in, they've given it to the animals close to him, and he'll give it to the other creatures in the Universe, that has to stop, which is the ?? cause of the ?? and the wars.

R: Mr. Keshe, during the transmutation session, when I was trying to examine that emotion within myself, I... at first I sort of put a name on it of the fight... 'fight or flight' syndrome, the fight or flight emotion that we have. But it wasn't that, it wasn't, it was... it has to do with this idea of greed, which is different than the fight or flight, which is more of a survival thing. This goes beyond just survival, it's, you know, like the love of killing, you could say, (2:22) or the love of taking. And it's a different emotion than the fight or flight. I just wanted to...

K- You've been in a lot of the sessions, you know how, if you let it go, how it'll take over. It's... we gather a lot of data in these sessions, and sometimes it takes me days and weeks going through it, and comparing it, understanding it to set up the next session, to set up the next step.

But what is interesting is, a lot of Knowledge Seekers have been around with us, many, many of them have been put into mental institutes because they follow a cult of Keshe

Foundation. Many of them have been disgraced, many of them have been cast aside (ostracized) by their families and whatever, many of them have been told, "You're lying, Mr. Keshe, it's cheating, blah, blah, blah." But we've gone from strength to strength, and we haven't told anybody, can we have your moneys and put it in the bank. We came to you when it was a need, it's there, it's all confirmed by the police and the rest of it. We never gathered, we didn't make the temples. We take even the very direct, our own systems to develop our own research. Direct our own systems to develop our own research. Because there is no greed. There is a greed in sharing technology that everybody gets it, that no one will be higher than the other. And there is a need for that to be there at that time. (2:24)

I go to many Knowledge Seekers saying, "I need, Foundation needs this, this, this." And when I go, there is a need. When I ask, there is a need. And up to about two years ago, three years ago, we never asked. Because I financed everything. And I still can do a lot of it. And I still do a lot of it. Because need to be done. But I don't have a bank account with millions hiding anywhere. And I gave all the millions we had. We're going to make a lot of funds available. But again, that goes back into Foundation, goes to humanity, goes to knowledge and spreading the knowledge.

And how many of you been told by your family, he is stealing from you, is there that because they don't get it, to spend it, their greed doesn't get satisfied. So they have to blame. Everything earned by us, spent on the Foundation, spent on new (?? you) lot, Internet, research. Research is heavy, it costs money and we pay people. Most of our researchers are ?? not Knowledge Seekers, that their work they do and their good in what they do. And it's how you satisfy your understanding and emotion and how people see you as being wrong, because they cannot steal from you. Because you become wise to what it is and what it's not.

We would have sold Keshe Foundation for 4 billion in 2004 to Lockheed Martin. I would have lived a luxury life. (2:26) Is it needed? Do we need it? Yes. I don't believe in suffering and living a harsh life. I live a comfortable life. I always lived a comfortable life, but I always shared wealth and knowledge is the same. But now we are setting up the next structure for the whole humanity does.

The biggest problem is in the world at the moment is the West has robbed for so many centuries that the thing is their right and the rest are stupid. And anybody goes to stand alone, to, in a way, stand free, something wrong with them, being Ayatollah Khamenei of Iran, being the President of Burkina Faso, being President Xi of China, being President Trump, what you call it, Putin. They stood for their nations. And anybody who stands for nation is something wrong with it. Because they cannot steal anymore. This is that abuse, that it's your fault that I rape you. And then you have to believe it. And now I drum it in your ear till you believe in what I say. And this is coming to an end because structures like BRICS, structures like Shanghai Corporation, every Man is equal, all currencies stand against each other equal to trade internally, standing for itself, not a bunch of people who keep on terrorizing, killing and everybody else. How many assassinations we have had against the American president, how many assassinations we had against

European presidents, because they are the looters. 22 attempts on a young president of Burkina Faso, because he's changing the card that my nation comes first and you're robbing me. (2:28) Putin, President Xi of China, Ayatollah Khamenei of Iran, anybody who stood for bringing their nation up has been crucified by the West who has got used to living off the cheap side.

And this is changing because of the Internet does not allow. We've seen it 50% that I have 100% of you, tariffing your own nation. Now the others. And the others have learned how to support each other, that they don't need it. How many farmers in America are committing suicide today? How many of them have gone bankrupt in past few weeks? Corn dumped in the ocean. Potatoes never move. Tomatoes are rotting. Cheese never crossed the borders. And Americans cannot eat more than what they can afford, and now everything else they have.

Has anybody gone hungry in China? Do we see anybody riots in India because of the American tariff? Now they linked up. They don't it. Americans don't take it, we take it. We have got 1.4 billion population. And as you had other people, they started splitting. It took the pressure of tariff. Who lost? The Americans. The Japanese have turned back on them. So, who's going to be the West in the next 2 to 5 years? Has no choice but to start a war on the direction of the guiding line through Vatican. When the European nations go bankrupt, they go with a begging pot to Vatican. We saw it in Ireland, we saw it in Portugal, we saw it in Spain, we saw it in Greece. Vatican paid and then the Vatican took. (2:30) And it all comes out of ??

But, now, we're testing you. We'll see how you lot come up, and how you show. I studied the graphs, and we plan how to strengthen your Souls, strengthen the energy fields, because once you learn the body does it itself. No one can tell you, what's wrong, what's right, you work according to your own Ethos. You are the strength, you are the one who makes decision, not people trying to hammer it to you. And never compromises for no love, for that love only exists if it's to benefit. Doesn't matter where it comes, how it comes. And this is the way things work with the Foundation. And in the way stands for it. We are there, we develop, and we are there for all humanity.

If anybody, today is 9/11, we know what day it was, it is very important day in the West, when they destroyed all the finances. If you find a single dollar anywhere in a private account in my name, which is come from Foundation or whatever, you can sue me. All accounts run, all transparent through even Knowledge Seekers than me. Then you understand how clear we work. I set up a system, (2:32) that in no bank accounts at the Keshe Foundation around the world I have any signature. And most of you Knowledge Seekers in the background know, because you do the work. And that's how it should be, I have no greed, I need, I take what is needed and I need to support. And you find anybody with such a big knowledge and support internationally, as it got palaces and temples and whatever. Now you understand. Wealth comes from within, not from the suitcases and bank accounts.

Any other question?

Q: ... Hello Mr. Keshe. Thank you for these fantastic teachings and everything you do. If I may, I have a question about last session. As far as you can answer. Like in the last session of transmutation, (2:34) you said you want to try a strange feeling of hatred and antipathy and things like that?

K- No, no, it was all to understand the only emotion which Man has, and nobody else has. You mean on the Friday. And that was the emotion of greed. .. Only, only one Knowledge Seeker from Switzerland, she touched it.

Q: So I understood something, I understood something like hatred, a strange feeling of hatred and some...

K- No, hatred exists in animals, we've seen it. Greed is the only one, and only one Knowledge Seeker from all the communications releasing back from the people who were in session. Only one lady from Switzerland, she got it and she just touched ?? about ?? it.

Q: No, I didn't try that, for whatever reason I thought it was that.

K- No, that's why, that's why from what we gathered in the last Friday session we strengthened it for today's session. In a way, we changed it. We saw what it needs, what needs to be done and we worked on it very heavily to bring it back into balance, what it is.

We have developed a new, what we call, (2:36) the physically producing, the second part of the World of Creation. World of Creation is made of two dimensions. One dimension we achieved a long time ago, second dimension we taught about a lot. But now we have developed a technology to create it. Which the interaction of the two leads to creation of life, reach to the creation of anything in the Universe. And our team has successfully have managed to build a system to produce the second phase, the second part of World of Creation. You will see amazing things coming out of the Foundation in the scientific evolution in coming time. This has been a... our Knowledge Seekers had to understand it to be able to do it. It was there, a few times I covered it, but was not understood. Now physically we are developing a technology which produces second phase of the Universal energy. Which means energy created within the fields of the fields itself.

And this, this will change the course of humanity, the course of life forever on this planet. Very much like the body of the Man. I explained this last night, I was explaining to one of our dearest Knowledge Seekers, they're all scientific minded. If you look inside the body of the Man, you look at the blood vessels, you have dark and what we call the light red blood cells, what we call, the vein structure, where the fresh blood comes and that over the, what we call oxygen, the oxygenated system goes back to the heart and the rest. But if you look at the neural system, neural system is only one, where it should have been two. (2:38) Where you, what you see with the blood system. But why does the nerve system has a one system and not two like the way the blood system has. Two sets of

arteries, one for going and one for coming back. Two sets of nerves, one sending information, one information coming back.

How come the nerve works on one line? Because the two different field strengths work on the same line. One is for sending and one for receiving. And this is the breakthrough in the world of science. When we don't have another nerve system to send a message if your finger got pinched. In the same nervous system send the information to the nerves for what it needs for the body to live. Where does it come from? This is the knowledge which has never been shared with us. World of science has never got the knowledge of what this means. They have no comprehension of this science, this knowledge. Which means we live by the systems, which we been told to accept and to believe, but the body doesn't want to do that.

Ask yourself a simple question, as I said to you. How come the blood vessels have two sets? Neuro system has one. We can send information for our finger to move, (2:40) but if it gets pinched on the same nerve, sends the information back. How come? There are two systems, two different worlds of existence within this (single) system, but it's an energy level, it is not physical blood, transfer energy. In a way, one works on zero, the other one works on one.

Up to now, as Knowledge Seekers, you've always been told one. Now, the second has been done. This is the cause of creation of stars, this is the cause of creation of the Universes, this is the cause of creation of the planetary system. The energy is sent out, but when it comes back it's a different structure which leads to the creation of the Pluto, which then becomes the Saturn's, and then becomes the Earth, and then becomes the rest and it goes back in. We have now access to that knowledge, to the Knowledge of Creation, to the knowledge of understanding the totality of the work and being able to support it.

This technology was developed especially for the Units which you are receiving. It costs trillions for governments even to think about, even making a system to do this. And in the next few months, we'll promote this. This technology, this understanding of the return, is the reason that's why the body of the Man stays warm. That's why cells are created in your body. That's why the whole structure of your body sits on. With this new material, with this new dimension, (2:42) the system creates its own energy. Our scientists are observing it. The system will create its own motion, it creates its absorption of energy, it creates its own strength-field emotion, it creates its own flight. And we will not release this knowledge into public. Mankind is not ready for it. But if you understood what I told you about the nerves, you understand there's a huge breakthrough coming through.

Q: Is it something like Yin and Yang and magnetic gravity?

K- No.

Q: Just one...

K- It's a physical .. energy.

Q: Not like night and day also?

K- Night and day is an interaction. This is the way the Universe is created. Now we have access to it. And very soon, very soon, it will be shared with two of the major governments according to contracts we have signed with them. It will come out of the nation of Iran. It will come from the major corporations of one of the leading nations in the world. And technology is a technology, it's a knowledge which now is becoming ?? technology.

Q: And I remember that maybe you said greed, but in some time, like after two hours, I felt like something in my chest which was heavy, gluey, sticky and couldn't get rid of it. I started, you said, I tried to fight back.

K- Yes.

Q: I was trying to get it out by praying, by finding the right... ?? (2:44)

K- A lot of Knowledge Seekers went through that emotion from the reports I received. Pains in other parts. This is what we, with our weakness. We want to strengthen to be to hold on to.

Q: And the thing is it like yesterday I thought it was still continuing for a few days. Even when I was thinking about that I had this pressure over my chest and later on I observed what changes in my life. I thought maybe that's a facet, that's a part of a life that I had to know about.

K- In a way, in a way, a number of Knowledge Seekers have gone to Soul searching since last week. I see, I read their emotion. They feel pain. But understand why is the pain there. What were you trying to hold on to? Or was it psychologically a weakness in it?

Q: Yeah, it is in my upper part of my chest. That's place they say it's a place of emotions. Where emotions sit. So I think it was something emotionally. A heart. Something sticky. And it stayed for some time.

K- It's the emotion of the ?? brain. You see we are... It's not greed, it's not money. Greed is life itself. Greed brings pressures, wanting to possess. Who do we have this greed about? In how far we are prepared to push this?

Q: And the result was good for you in research? (2:46) I mean...

K- That's why we are hammering you today. That's why... if you don't have the same feeling as last week, last Friday, or one near to it, in the session, it means you have solved it. It means you have satisfied the emotion. You Knowledge Seekers who come on Friday

sessions nowadays, becoming the guinea pig for other parts. If you don't have the same feeling as us Friday today, it means you have conquered. ...

Q: Yeah, I think I have. And I think I have added something to my, to my life.

K- Right, yeah.

Q: Thank you very much.

K- Thank you very much. Rick we have to end a little bit early. I have still to go to a meeting. You finish with another question or two, and we start around about six o'clock, seven o'clock, eight o'clock, nine o'clock, ten o'clock, eleven o'clock sessions, and then we go on.

Q: ... How elevation of today's broadcast is different than the paid workshop on Fridays and what should we expect to change in our physical body?

R: You've kind of addressed that actually.

K- No, it's a different thing set up. We were analyzing different data. Our system is different. If I show you the pictures of the graphs of last Friday, you'll see the difference. (2:48) It's totally different thing. But we try to understand the situation. Why and how. It's a partial. You got to learn something from this. If you come into the sessions of Fridays, you always see my microphone and headphones switched off. I don't participate with the people who are in the test, or in the structure.

In the teachings of, like today, we teach your Soul. You are part of me and I become part of you in teaching. Does not need necessarily anything else. And if we show the graph of last week and this week, Friday and today, you understand the difference. Here we teach for the whole Universe to learn. There, they are there for themselves as a sample test for the trial to understand to set up a system. Totally different, even the graphs are totally different. We are there as observers, never participate. You always see my microphone and headphones switched off. We just stay there in the background because we're doing our work. Here, we are part of Universal teaching. And we see the results, we see the difference, not participating and participating. I show you what a difference is, what the Love of Creator brings you lot. Just watch. If I can access it. (2:50) Let me see, I don't give you the wrong information. What was the date last week, last Friday?

R: 5th I believe.

K- Okay. Now have a look. I have to cut it, that you see it. Save. Let me see if I can find another one that is much different. This is the game is we played with you last week, last Friday, and you see this is you on your own. And then you see how different it is. We bring different dimension into the game. This is your today, and this is your... (2:52) This is your today and this is your last week. This is today. We are present. And then I explain to you how we are present. This is your today, the one in the middle last, and this

is you lot last week. You're too physically involved when we are not. And you see the difference. We are here to teach the Universe and not the Man. And you see the difference. This is you as Man. This is how you behave.

Shall we call it a day? I have to attend an important meeting.

R: Okay, sounds good Mr. Keshe, thank you.

K- Thank you very much, thank you indeed. There's something I have to address with Knowledge Seekers. We got those who you're buying these Units, please if you placed an order complete your order completion this week, and those of you promised to take or made the agreement, please complete it this week or latest .. next week, because we are putting a package to go through the manufacturing, we have to have everything that we design and work our way through the deliveries in the next four to six weeks. Those of you who are from the United States and you have concerns about the tariff, we do not know what the outcome will be. It depends on what your president decides. But the systems will be delivered to you as before. If there is any tariffs you have to pay, (2:54) it's something which comes on your, by your nation, it goes, yours, you are paying like everybody else in your nation from stupidity of one man, but that's the decision of your nation. But the rest of the world will receive as it is, and we start, we should start delivering in October, September, October, just going through the phase and then once everything else in order you start receiving it, all based on the games of the enlightenment which will be released soon, so we can proceed with this process. Thank you very much for today and hopefully see you next time.

R: ... One thing to show from the Universal Council before we go. Just let me get that up on the screen here. Which is, "The Universal Council invites the Keshe family and the Universal family, in unifying at the Soul level, every time and every day at 9pm Central European Summer time, to elevate the Soul of the leaders to achieve the permanent and lasting peace."
