Part 2

KS with companies using Keshe T - become part of Markray - take Markray shares; Stay independent - part of international work of T; Matured enough - start bringing T into validation; Enter Shanghai stock market - 1 year; Split into non-Chinese & Chinese cooperation partnerships; CR materials in devices don't wear out - make connection to U Energies - not like matter state devices - alive; Change over time - like Gans change color - fields change; SF with Gold, Titanium, Nickel, H fields - interact with 3I Atlas; 3I is living control system - highly intelligent; Has split into equal halves - not exploded - make copy of themselves; Has factor pulse - 2 hours & 22 - sequences; If split solid magnet - pieces keep same characteristics - same with 3I; Like how plasma Balls work -

lines of connection - continuous; Genuine reports from different observatories confirm - highly intelligent Spaceship; Colonizing characteristics - too many passengers downloading; Can create Soul without nickel, H, other elements; Understand Energy - get what you want; Satellite Souls already helping without you knowing; Brazilians objected to sign World Peace Treaty - committed Soul to Christ - we don't ask for your Soul - peace within your Soul; See how you have changed; Falling asleep while driving car - strange things happening since receiving fields; Can't say yes - can't say no; Lot of factors involved; We & others do things - don't think about consequences - later things happen; These things are happening - increased beyond imagination; Over past year - massive rapid strokes out of nowhere - fast acting cancers - question why - injections or Virus; Many youth & elderly dying for no reason - all sorts of conditions - getting attributed to injections - could be huge losses; Finding calcification of heart - never had before; Statistically - heart issues taking over as major killer - whole world; It sits with calcification in heart - becoming solid; Damage already done; Government forced injections - front lines doctors - if talk - end up in prison; Mr. Microsoft; Separation of neutron & electron as radiation; In chemistry share electrons - move into new orbit - new condition; Take electron outside boundary of atom; Create Cosmic radiation - dilution of fields - extraction of plasma; Natural process in Space; Most moons created this way - rejection & attraction in 2 different dimensions; 3I uses this; System continuously uses reverse interaction - get massive explosion - then division or makes a copy of itself; Like pulling bread apart - along a line; Using separation of fields - back and front - first makes connection to Sun - and another star; We want to replicate this T; Create light in front of UFO; Dynamic rotating thing; Ship can't get hit; Protective shield with own atmosphere; Plasma split by creating a stronger condition - matches electron; Extract electron and create CR & massive energy; Opportunity opened up for KF by Americans - through reaction of Chinese - KF becomes third alternative - if they don't shut us down; Would they accept T in a different D; See how market will react to KF announcements; Become a counterweight to mayhem - share knowledge; Space Travelers interested learn matter state development from humanity - very advanced in material world - computers, Microchips, engines, bacteria; Those in UFO envy Four Wheelers knowledge of matter; They've been observing us for thousands of years - going from donkey to jets; We are learning to understand both matter & Energy; 30% of Earth's inhabitants from other planets; 9 months to make human - Energy state instantaneous - don't need body; Ancient times - how did they map out Chi channels & acupuncture points - is it created like blood circulation; Different reasons - cellular and bone structures, environmental pressures & Inertia and many things; How races evolve when change living environment; Africans taken to America centuries ago - became tall, well built, huge feet; But Chinese and Japanese grew tall in America but kept very small feet; Size and shape of feet bring different understanding, mentality, emotion, many things; Our bodies evolve according to local behavior - emotions, environmental conditions affect body structure - how we look, feel, what emotions we have; The evolution is collective not individual (very interesting); When move races to different parts of planet - the 2 races living together don't understand each other - example Whites and Blacks in America (After centuries the Blacks had to become White to be accepted); Because structure of brain creates different logic in Inertia of space of that environment - it's same right across - every aspect of knowledge, and science of Creation; Hopefully we'll open new D of teaching next week; Back to

teachings on Time, evolution of Time, and connection with Soul, and the rest; Graphs from today's workshop - in line with what we were looking for - interact and spread Soul - rather than collecting all the dots into one Soul; We are connecting you to Universal Energy.
