

618th Knowledge Seekers Workshop November 27, 2025

(Transcription, Editing and Proofing done by KF Brazil)

(Auto transcription by Elias)

KF Systems ON - new test - different field strength in 1st & 2nd half; Strengthening Soul - observing behavior towards P; Part of Teachings for centuries; Pushing you to transmute; Using emotion through system - direct message & instruction; Give feedback - how system affecting emotions; Feel in Soul - convert back to P & STP - manifests as emotion; Shaking your fields; Soul works same way as phone - receive information U; Connect to U Line Communication - Soul dials number - Brain receiver - understands U language; KF system dials number; Talk to somebody without seeing; Instead of transmuting - transfer emotion to them - STM; Communicate to 2 sides same time - talk across planet & child; Talk to dead grandma - without P knowing; Soul communicates while STP experiencing own emotions; Become imprint on Man; Connect to U Line by December 19th; Want you to recognize transmutation; 3 weeks to achieve; Transmitting for you to understand emotion of Soul & emotion P - communicate with other Beings - dead Grandma; Plasma DC - boundary AC; Spiral - G & M - emotion between; Soul in balance with STP; Process at inception in womb - how STP collects energies - forms cells - creates first seeds of STM - create boundary field - becomes P; Combination 3 forces - creates Soul in center; Creates skin; Bring STP inside STM; Difference between human and star - plasma without container; STP creates boundary of body; Transmute - STP inside STM; Stars create planets; Same pattern throughout Creation - Book 1 to 3; STP mold to grow STM - purpose of Creation - seed for sun in U; Fields of Creator radiates becomes matter state - eventually Man; Soul can become sun; Image I created is STM - not P - God no P; Explain Creation in simple words; Superimpose pictures; Books written to cover whole process Creation; I made you to make children that they may love Me; Through loving confirm our existence; I made Mitra to love Me; Being loved back - deserve to be loved - alive; Systems showing you what you have inside yourself; Playing with process of Creation; Creating wave on Ocean; We decide how to cut Energy - slices; Give meaning to Energy; Fields of U Line of Communication directly connected to Creator; Reach STC if desire; Change fields in second half; Playing with forces not fields; Change humanity; Dual life - Energy & P; Blocked by Speed of Light as ultimate speed; Connect to higher order strength; Listen more - beginning of change; Observe emotions & P; Become transmutation - create image of yourself traveling; Preparing for 3I - inner confirmation by U Energies; Humans - work with physical absorption of energy; Like dog whistle - specific strength; Purpose of today's teaching; Bring STP inside STM; Not much time to complete; Small businesses - become part KF - use logo - sell products on other KF websites worldwide; Wages with Keshe Coin (KC); Help KS sufficient income; Chinese structure - outside China - Markray; KF resellers; Part of research; Start in 2026; Present KC to world leaders; A lot about Markray - problems mostly solved - another 3 to 6 months; Fixed problem of Russian shareholder; Markray moved to top OTC list; Management certification; Pentagon investigating KF; Give shares to governments; Reads comments about Energy from Systems 1st half; Soul converted to P - graphs; Can do transmutation; Psychosomatic; SS - replication of Man; Cells function on own energy - STP; SS - Jupiter & Saturn - rubbish collection - like body; Purpose dictated by U & galaxy; Galaxy decides energies to

release into U; Travel on strengths; Same structure repeating itself; Universal Teachers bring knowledge; Teach to enlighten STM - realize later; Pentagon checked faces; Soul always sees Sun - M fields; Allow others to abuse us; Governments kill with guns - I give love through STM; Pushing for wars; Israel pushed America to bomb Iran; Ukrainian president keep war going; End of US and Europe colonization in region; Russia stronger; Everyone trying to prevent war; Satellite Souls; Animals - dogs feel when master come home - same with children; Dead Sea Scrolls - copied; Every one - Messiah of own Soul; Create own suffering; Never humiliate children; Iranian government - looking for Methi; Vatican; Not me; Daughter of Mitra; Prophecy in Bahá'í Faith - tuned into Islamic pattern; Don't believe Holy Books; Jews rewritten - using 2025 - make Netanyahu Messiah; Use own wisdom; If we make gold, they will bring wars ; Developing T to bring peace - done through Man himself

ENGLISH TRANSCRIPTION

(:18)

K- Hello, thank you very much. Good morning, good day to you as usual, wherever and whenever you listen to these series of Knowledge Seekers from Keshe Foundation Spaceship Institute. We welcome you back and as usual, we have something up of our sleeves.

And in today's session, as part of the back support, we are testing with you something totally new. We are, without you knowing, or as part of our work, interacting with the Central Energy of your body, what you call your Soul. And as we interact, it's just like as you stir a cup full of water and as the water comes out, you pour it into and you play with it, how it's going to be dripping or squeaking out or whatever, then we're playing with your physical side. (:20) The session is done in two halves, in two different ways, and the reason we do this is in the past few weeks and months we brought in to strengthen the plasma of the Central Energy and its behavior towards physicality (P).

Today there is no such a thing. Today, now, I feel the Knowledge Seekers (KS) and this will stay in the part of the teachings for centuries to come. You're ready to, what I call, play and shake, or shake and play with. What we are doing, those of you who are with this, who are in the Zoom sessions, and most of it in the Youtube and others, should feel because we are playing with, directly with Central Energy. We gave you enough time to grow, we gave you enough time to understand how to transmute and now today we are pushing you. In a way we are stirring the cup of your Soul, Central Energy and with it we are sending a direct message, instruction, how to do in the first part is different emotion, in the second part is totally different emotion, rather ?? unbalanced.

I would like to know how you feel, you can write your emotions during the sessions, in the chats or whatever, or let us know in the future. This system is what will be that your emotions, your Soul, conveys out in the dimension (D) of physicality to another object in Space. (:22) Which means your emotion feels in the dimension of the Soul and then it converts back into the what we call, physicality of the Soul of Physicality (STP) of Man

to manifest itself in emotion. And we would like to know what it creates. In a way we are playing with, we are working with a dimension of work, which is unknown to Man. Never been done. And we literally haven't disconnected you from, but we are topping up. As you receive the fields, you're shaking it, and in a way we are dripping it out. But once it comes out, we control it. In a way, I put all the water in a balloon, I shake the balloon, I decide what comes out of the balloon as I squeeze it. And then when it comes out I decide what I'm going to do with that liquid. I'm going to squirt it on the floor, somewhere else in the air, or freeze it.

So, for the first time we are playing, we are working with the dimension of both, and we are actually interacting with both. This is important for us, as I'll explain in the next couple of weeks. The structure is very simple, as we heard actually, this it's what we just heard in the Intro, is some 200 teachings passed, and if you listen to it, is as valid as today's teaching. (:24) In a way, what it says, and I've gone over this before, as we go into the dimension of the fields of the Universe (U), you have to be aware what comes to you is loaded with what. On this planet we are used to thousands of different channels of information coming to us on television, radio, mobile phones, which you don't hear any of it selectively. If we have a mobile phone, a system in our hand, we can hear the one which is targeting at us. Your telephone number gives the position where you are, and somebody calls us, no matter where you are, your phone rings, it doesn't ring your next door neighbor, or if you have 10 phones in your hand, any of the other. And your Soul is exactly that mobile phone. It receives energy, it receives continuous information from right across the Universe. But which one is yours? And which one will affect you? Which one is there for you to be connected to, or you've been connected to, to be part of?

In a way, you carry a receiver, mobile phone, which you call the Soul. Tapped, open into the dimension of the information of the Universe, and it's you who has to learn where to dial it to. You dial the mother, you dial the boyfriend, you dial the hospital, and you get there. In the Universal language, in understanding, in science of the Creation, you have that in your brain. It's a receiver and you decide where to dial. With what we do with you today we dictate the dialing number. (:26) It's an understanding of who we want to tune to, who we want to be near to, and who we want to transmute to. I want to talk to you but I don't want to see you. Just because I'm talking to you does not mean I want to be near you. I don't need to transmute but I can transfer my emotion to you on the line, on the information of the Soul and dimension of the links of the Universal line of communication.

But I want to speak to myself while I'm talking to you to tell my arm to move. I want to have a fear and I want to have a laughter, but it's two sides. One, while I don't want to be, I'm talking to the grandma who died 100 years ago, through the direction, dimension of the fields, I've called her, without my physical side to know. In a way, as I explained before, it's like you having a mobile phone in your hand, talking to someone across the planet, and at the same time you are making faces, and talking and doing with somebody else, with your child, with your wife, with your husband, whatever, without, because the other side doesn't have the camera, and it cannot see, as you're talking as normal. You're having a lunch physically, but you're talking to someone across the planet. This is what

your Soul, your communication line of Universal line, and the what we call, the STP and the emotion is.

And today that's what we are testing. We are putting you on a dial number from Universe, converting the dimension of the physicality, and we want to see how you'll react emotionally. And, this become an imprint into the work of the Man. (:28) If, if any of you get this right, if any of you switches to this line, by around 19th, 20th of December, you'll know what we done with you. There is a reason we do this test today. We repeat it in different dimension next week. We are opening the dimension of you recognizing transmutation, communication, transportation and everything in together.

A situation should, may, could arise in next three weeks round, just before Christmas, that some of you might connect to this ?? line, might hear this line, might have the emotion of understanding the line of Universal Communication. Depends on how, in next two or three weeks, we make you ready for it. Those who are panelists, they can see our lines are open on the line. It's already we're transmitting this information through. We already have set up for you to understand what is the emotion of the Soul and what is the emotion of physicality, and what you're going to do with it? Does it bring you joy? Does has it brought you happiness? Has it brought you to understand? Has it connected you? How you're feeling now, at the moment, at the same time? Can you feel connection to the grandma who died 10 years ago, or your mom in other part of the world, and at the same time you are here? (:30) Do you need a mobile phone?

The session today is for us to see how much we can shake your Soul, from our side. And to see how you physically react, because once it comes, as I said to you many times, the plasma is a DC. When it goes through its boundary, it becomes AC. Today we are playing with both of them for you. This is why our systems are on. And we never done this. We always had the support of the, what we call, different structure, as energy. Now we are not dealing with energy, because your energy has already, is already, part of this, and it's already settled.

In a way, if one looks at it, if you go back, if you remember the circles which I used to draw as a way of a plasma, we always drew gravity (G), we drew magnetical (M), and then we did other things with it. But, interpret the same fields in a different dimension and direction. What does this mean? It is interesting for you to see this, to understand this, and be able to play with this. Why this is important, why this will bring a lot of new dimensions to our work is, (:32) if you remember, I always drew for all of you that you could understand, that the plasma... the plasma had... We always do the plasma for you this way (draws a spiral on Whiteboard). Let's say this is the plasma of the fields of your Soul. If you look at it, same parallel to, is plasma of your STP in all strength. In understanding and operating in being able to work with this, then you understand this one is the fields of your Soul, and this one is the field of your STP and physicality. And what sits between the two is your emotion. But the interesting part is that the energy fields of the Soul at all points are equal, (:34) are in contact, are in balance in field with the STP. And this is what will become part of the structure of life.

In a way, at the point of birth, when we are infant in the womb of the mother, the STP takes its own dimension and direction. Which means that the STP brings with itself a dimension of being collection of energies. In the form of cells, initial cells, the egg and the sperm. And in trying to connect to each other, it creates the first seed of the Soul of the Man (STM). But at the same time, in connecting together to hold on together, it creates an outside boundary field. This is a boundary of what I can hold. Which this energy in that point become the STP and the boundary becomes the physicality of the Man. In combination of the three forces, if you add a condition to the plasma of the Soul which is created in the center, dimension of physicality. But the Soul is connecting each one energies to be centralized, (:36) where each one has its own energy to confirm his own existence, which is a combination of the ?? four STP. And how these two react, interact with each other, with the fields of the environment, lead to creation of the skin, the outer boundaries of the system.

And if Man understands how he could, he has the capability to understand, as I've said many times before, to bring the STP inside, field strength of the STM, you have no boundaries, no containment. This is the difference between the Man and a star. Stars have no dimension of physicality because it's plasma, there's no container in it. Where in the body of the Man, we have moved the STP in the outer boundary of the STM, that it ?? hand ?? position, it gives us a dimension of physicality, this is what we are, this is what we see.

This goes back to the teachings of many, many years ago, that I explained very clearly, that how you, if you move the STP inside the STM you can transmute, you become energy field, you are the Sun. And if you keep the Soul confined within the STP with dimension of the ?? you get Man, you get containment, you get planet, you get a different type of manifestation. (:38) In a way, if you go through Book 1 to Book 3, in a very simple way, you'll start from Book 1 and you end up in transition with Book 2 and you manifest yourself as a sun in Book 3. And if you become the sun and ?? rain back out in transition with the environment you become the Man, physicality. This is where we call the emotion plays in. On the right you are a plasma. Where you brought the STP, dimension of fields of the matter state as a physical condition within the field forces of the Creation. You are a star, you are a plasma. In the other one, you confine the Soul, the Central Energy in a pot. You call the head of the Man, and then in the interaction of this with its dimension of the energy, we call STP, you create the physicality.

You need, this is why you die, this is why Man dies, the only reason Man dies and cannot come back into the, because this energy, Central Energy, STP, moves out of control. The STM, that energy is released. (:40) And in so many ways this is the whole purpose of Creation. We are that cycle, that where we nourish, we grow that Soul, we call it the Central Energy. And when it time to come, the time of physical death, the physical separation, where the energies of the Soul within is stronger than what it contains it, it breaks through and become a sun, and somewhere in the Universe become the seed. And the sun, that point of the seed, starts the cycle of becoming a bigger seed, a bigger plasma, a sun, and then with it, create another cycle of life when it slows down.

What's on the screen is the same, the Soul of the Creator and the Man, and in one direction, as the energies of the field of the Creator radiates, and then it becomes on the matter state, Man manifests itself, but the Sun, which is the Soul of the Creator, goes within. "I made Man in the image of Myself, not in physicality, in a dimension of Me, as Soul of Me, inside a Man." Not its physicality, God doesn't have two legs, twenty ears and the rest of it. But in essence it brings back in the dimension of the control, dimension of understanding, ?? this process of Creation. And then, if you understand this, in simple language, then you understand what this picture means. Which is the essence of the Creation for all of us. (:42)

If you look at it in other language, if I can bring the two pictures together, one goes. If you look at it, if I can bring the two pictures in one dimension, then I can show you, try to see. We know the Sun is on the other side. What we get is, this will go to here and the other one comes to here. In a way, we become, we become aware of our own existence. We carry the STP, we carry the understanding of the Totality. But how we share this Totality and we stay aware of its work, its existence, its dimensions of the operation, then we become the matter to energy of the plasma and some of these rays of plasma becomes to be the center of us, that in the interaction of this dimension of environment, gives us the combination and confirmation of the matter state existence life.

And as I said, here your Book 1, (:44) here to go there your Book 2, and here you exist in Book 3. When these 3 Books were written, and as your knowledge goes more in depth, you understand it covers the whole process of from Creator to Man, from Man to his Soul, from Man's Soul to creation of his children and the rest of them. Then you understand, we are the children of the Creator and we create children, that they become children of, create children and as it said in the Holy books, I made you to make, created you to make children that they may love me, which means love. I need to give that through loving me, I confirm my existence.

I made Mitra to love Me, that by loving Me I confirm I exist, I'm here to be able to create, I create my own children to love Me. Isn't this what Man does? Why do we .. create children? We can show our love that we have created you, by their loving us we confirm that I deserve to be loved, I'm alive. Isn't this why we have lovers? Where we love by giving love, we get the love back to confirm we exist. We don't love just to love because we love to love. We love for the lover to love us back to confirm, yes I have a value, I have existence, I exist. And in a way we become the Creator and need I the confirmation of existence. (:46)

If you Knowledge Seekers understand this, and understand how to play with the fields, and how to play with the emotion of the fields, you can transmute. And this is the process we have set up in the background today. The whole structure of the teaching today is not the talk, is what we are doing with you in the background. And how we are tweaking with the energies, and how we are tweaking with the, what I call, energies in the motion of the interaction, what we call the emotion. And then we play, you play, with the dimension of physicality.

In so many ways, you as Knowledge Seekers today, are deciding about yourself. And what we are doing, is just that you don't remember you have your money in your pocket, we're just throwing it out, and we're showing it to you. And we're creating condition that you feel that giving, you feel what your Soul gives to your physicality. We have set the structure today that we don't play with the plasma fields, we play with the process of Creation, which is totally different thing. As I said before, in the last few weeks, you have the ocean, if you create that pressure on it, you see the waves, it can be a whoosh on the wind of the shore, or it can be a tsunami and destroying everything else and the hurricane that it takes inside and outside all together. (:48)

This phase of teaching, this phase of process, is something which we started a few weeks ago in our all, even laboratories. Gradually we move to the real position of the matter and energy. And at the same time as we define energy magnetic field in motion, we decide what we cut in it. Are we cutting a small slice or a big slice? Are we throwing this slice in the air or are we swishing around. This slice is sitting there? Till I don't give it to you, hand it over to you, or I throw it at you, or I throw it in the garden or whatever, it has no difference, has no meaning, because once you receive it, it's food to you, once you receive it, it's love to you, once you receive it, that slice is the emotion that it brings life back to you to confirm your existence. And the two go together.

And this is what as Knowledge Seekers, you have to understand, we talked about the fields communication with the Universe and the field directly to the Creator. And in this process you have both. The way we set up things for you today, any of you wishes to reach the Soul of the Creator, you shall be there. It's you who have to decide. In the second part, after the break, we'll change the system. In a way, we become lower and then we see how you feel. Today at this section is balance, but with elevation of the time, (:50) elevation of the field forces in a sequential manner. In the second part we change, you feel the difference. Then you have to make a decision, then you know I want to be back or I don't want to be back, I feel safe, I feel happy or there is something else I feel inside the emotions that I cannot explain in a physical dimension.

Today's session is not playing with the field. Today's session is playing with forces. We usually used to put sessions once a month to do this but we got to the point that this cannot be done. It needs to change the humanity. It needs to comes across that we interact with all of you. You got to realize mankind lives a dual life. One in the dimension of Energy, and one in the dimension of physicality. And because he did not, he could not understand the dimension of the Energy, you have called it a dream, but it's as real as your physicality. You have run into the position, of limitation of, the strength of the fields of magnetic fields that the light is the ultimate speed. You're blocked. You have blocked yourself. You accept the fallacies, but as you understand today, there is no limitation. And the higher order you exchange, the what I call higher strength, (:52) brings you higher intelligence, understanding, because you see more of. You move into the center of, that you see everything.

Try to listen to the teaching of this morning a few times. It's extremely heavy, but it's the beginning and the change. And every time you listen to it see how you feel emotionally,

how you feel physically, how do you feel something inside me moves, wants to become to dimension of transmutation, but I don't know how to control it. Or can I create the image of myself that I can see but that can go where I want, and I cannot stay. If you manage to get to this point, in the session today, first part or the second part, and you can understand it, you can understand the process, you are entering the dimension of transmutation, in a way connection to the Universal energies.

These will be tested, not by us, but those who are here, round about what we call Christmas time. Those of you who understand the process of today, then you understand why we have chosen this process today. In a way, we are preparing the STM and a Man for what is to come. Does not need sight, does not need visual confirmation, is what comes as confirmation within, as the energies of the Universe moves, not the physicality of the Man. (:54) And as you are humans, we had to work with the dimension of your physical absorption of the energy that you can convert. In a way, we are whispering in your ear without you to be able to hear. Is that dog whistle. You remember, you whistle in a way, that no Man can hear but the dog respond. Today you are in that stage, we're calling upon the STM. And we see how the dog jumps. As the Man has not heard.

Would your Soul move? Would your Soul bring a new dimension of physicality? And would it bring the change we want to do? World peace, One Planet, One Nation, One Race. This is the purpose of today. There are no Gans's as energy as you have connected those before. Now is the time. The car is built, now we are testing it. The creation of the Man is the accumulation of the two field forces. One of the STP and one of the STM. Depends which one is of the higher strength which goes within the sides, the manifestation of the other. To be manifested as a Soul or to be manifested as a physicality. You have that chance. (:56) You are, you've been trained, you've been taught, and for you to be able to do. Man does not need machinery to convert, to transmute. We make it because you feel good with it. You reduce the pressures of, then we open a cap of the energy that the Soul can become. Now it's time to do.

You don't have much time with it to do, but I hope you do. And those of you who understand to do it, you'll come up with the stories that those who could not, they say, is a fairy tale. Mental Institute is a good place for you, because you talk something we cannot see. It's the story of the 'Beautiful People.' We go for a break, we come back, and our team in the background will change the sequence. Try to remember what you felt today, in the morning, in the first session, and then try to remember what is compared to what it was before the break. And let us know. In a way, we are tweaking it. We got to see how you are to ?? see it. Rick, if you take us for a break and we come back.

(Rick felt the first part fly by very fast, which is unusual for him. Maybe it's the Energy). (:58)

>> **BREAK** >> 618 KSW November 27, 2025 ... (1:02).

(R: We have interesting comments about the perception of time, a time warp that may have occurred in the program. ..)

K- Thank you very much for being there... We are busy in many fronts, and part of decision we made some time ago that we do not go, what you call it, public. But we try to keep the work of the Foundation very tight, then it has allowed us to work very closely, very tightly, but successfully with it in so many ways.

As part of the work of the Keshe Foundation, we are looking, some of you have already responded to us, we are looking at it, the possibilities, that to bring your work, you're not... we don't... we are looking, if you're working from home, you make Gans's. If you structure the company and use Keshe Technology as part of what you produce, or you have ?? fixed integrated into other things, to bring you into the part of the full structure of the Keshe Foundation. (1:04) And gradually as we are moving in that direction, and increasing it, you'll start seeing a new range of products from different part of the world on the Keshe Foundation, what we call, site. And at the same time, as these organizations become part of the Keshe Foundation, carry the KF logo authorization. Which means we have started a full structure of the, what we call, work across this planet. And you will see gradually this year, or what we call next year, a lot of products will appear in your places, and some of your products you, you are creator of, appear on the website of other people, who are again part of the same structure of the KF.

So we are trying to integrate, and you have... you make two, three products, and that's not good enough to make a living good enough for you, because that's the purpose you do it. Those of you who become part of the KF logo, what you call, brand from now on, you'll carry other people's products, so in a way, you become as much as part of the whole structure. This is important for us as part of what we are doing as introduction of the Keshe Coin. You trade with each other and we guarantee the payments from what we call, Keshe Foundation, that what is done through and between our different companies and structures, is guaranteed by us in the... in the way of the line of payments. And gradually we expand this into all our manufacturing. And as I said, the new structure which is setting up, and more or less is on the way, we pay wages by Keshe Coin. You can hold it, (1:06) your currency in your country drops, or gets strengthened, you don't want to lose money. Today was so much and tomorrow less, but you hold to the amount which stays in international level, you use us for guarantee for your livelihood, for your work, and the trading between different Keshe Foundation and different Keshe Foundation organizations.

This process already started. We have to build it slowly. As I said last time, the Store is getting set up, ready for it, and different part of applications are set up. As I said, we are interested if you're setting a company, set a company, you're building materials, you're

making systems and you're stuck with what is there because that's your scope. Once you become part of the KF in this structure which has already started, you become, you are structured and you carry more products, more facilities to research, and you become part of the structure of the bigger family. We don't touch what you do, we just give you that opportunity, that you carry the possibility, and we give you, if you're doing something unique, room to research and to develop. And you can take things across from each other, with each other, through to the process of what I call, commercialization as one structure, payment as one structure, and security in knowing that, you don't have to worry about, "When and I have a limited income and from what I do."

Now, the Internet is huge, and no, not everybody goes to the Keshe Foundation website. But, you collected, you have worked, you have made a network, and you work with it, (1:08) you produce some products, but it's not enough for you to become sustainable. You tap into the Keshe Foundation as part of, or you take stock from other Keshe Foundations, and we guarantee the process of the payment through across. You trade inside us with Keshe Coin, and we transfer the funds according to the Keshe Coin to each other. If you chose so. And, this is a process we started, and the first companies are just running and joining it.

The ones who are outside China will go through Markray Corporation of United States. The ones who are in China, go through our structure which is set up in China, and works that way. And we allow both sides to work. So, when you become part of the Markray Corporation, when you become part of us, when we bring you in as one, you become part of the structure of the, what we call, an International Organization. We are answerable, everything has to be correct, and this is a process which we have started a few weeks ago, and now is... It's first step has already started. We are bringing the first companies outside and inside, separately China, and outside through Markray Corporation, in signing agreements. And you're becoming part of the process in coming weeks and months, that you become part of. You'll carry the logo of the Keshe Foundation, as what we call Markray Corporation, structured licensing. And this will bring you a lot of different opportunities that, as some of you are the resellers of the Keshe Foundation, you know you have... you take the stock from the Foundation, now you get the stock from the whole of the manufacturing of the Keshe Foundation Worldwide. (1:10) Goods manufactured in Jindal, (China) as much as manufactured in Brazil, all become part of yours.

And we have started structuring this. And the first groups of companies are there. And we are looking, as I said, not for you to be... just if you're a reseller, you just make something to sell, join the reseller. But if you've done research, you set up a company and you actually produce products, we are prepared to take you into International market. We come in and we monitor, we support, and as we are doing now, we give you the freedom, but at the same time, at the moment we are taking those who've done some things special, and we bring them into our research structure. I'll explain this more as things takes over. And write to us if you're interested in being a reseller, join our reseller structure. But our resellers, as it comes up, as you will see, in the next few weeks and months, your portfolio of the products will go sky high. Because, anybody who becomes part of our Chinese section, or becomes part of Markray, your stock, what you make, is available to

the other sources selling on their website. Because they are part of the same structure. And this gives you a massive opportunity for you to grow. Plus what the Keshe Foundation will develop. As the agents, as the manufacturing and as a retailer, you become part of the bigger structure, in a way, bigger turnover and bigger structure to research.

If you learn the research, you develop the technology and you don't know where to go, which is part of our technology we look at, we are prepared to support you to develop it further as part of the Keshe Foundation, (1:12) as part of the structure, into Markray Corporation of United States. In China you go through the Keshe Foundation China which is set up, and most of the Chinese Knowledge Seekers know who we are, where we are. And if you set up a structure, a company, and working in these kind of things, and you develop something, but still selling a little bit here and there, we look at it. If it's viable for us, we bring you in, and we have already started this.

You become part of the massive structure, which starts in 2026, we had to do, we had some work to set up, and in a way, you like to, you become part of, you have to understand something, as I explained to a Knowledge Seeker, past few days. Don't look that I have to give large or equal amount of my company to the, what you call, Markray or a Chinese structure. Today I make maybe 500,000, if that's the purpose, because you're working to make a living. In this structure you make 5,000, 10,000, 20,000. Even though you have to have 50% partnership with the foundation or 70% partnership, depends on how it's set. So if you are doing this and you want to go step up and you've done a lot of work but you wanted to commercialize it, we are there, the opportunity has risen there, the situation has been created and everything will be traded amongst the Knowledge Seekers as a Keshe Coin. And we exchange, we accept currencies on the other end. This is what we're going to set up and what is now, gradually, internally, gives this position.

And I was talking to one of the world leading ambassadors last night, he called me very late. (1:14) And he said, "Mehran, what can we do? I want to, as now become ambassador, not only for my country, But, for a very large organization, National and International organization, with 27 World leaders in it." I said, "This is what I want to do, I want to bring the..." He knows what I do, he's very close to the Foundation. I said to him, "I want to bring the Coins in, to... we give with support. And I want to meet the Ambassador." he says, "No, no, no, you don't need to meet the Ambassador, I'll arrange for you to see the world leaders, that's where the change comes, they make the decision." Out of nowhere he says, "We know you've been working a long time on this, now it's time for it. And don't talk, I don't arrange you to see the Ambassadors where you are. But you meet the world leaders, you explain to them how you give the Keshe Foundation Coins. How you give Markray shares, and then we'll set up structure through governments."

We have started, as I said, a lot of groundwork has been done, and we're just getting to the, what we call, platform, on the level. Now it's time to build on it, and we're receiving helps in all sorts of direction. And, it's coming in every way possible. But, this is part of what we're trying to encourage you, to... You've worked a lot around the Foundation,

selling a little bit here and there. If you developed a product for yourself, join us. Outside China, join Markray Corporation of United States as partnership. You can take shares, as or equal and increase connection and the whole portfolio. Your 20 items, 30 items become two, three, five thousand, which whatever knowledge gives makes across the world and becomes part of us, carry our logo, it will become part of you. (1:16)

We are ready, the structure is set and if you have invested and developed, we like you to be part of the structure of the research and we develop it with you further. We don't want you to move out of your country, we don't want you to change anything. And as I said to a Knowledge Seeker earlier on, I don't want you to move from home. I set up a research center in your home. You don't need to move. It's no use us, as I always said, trying to make life better for humanity, but those who make the life better have to move themselves away from their home. And this structure has started and I thank many of the Knowledge Seekers who supported this to happen in the background and getting shape and taking shape and now it's actually there.

Those of you who bought this Communication Unit, we received the first 25 past couple of days. Our team is setting it up in what we call ready to go. Then they go through the first phase of completion of the first phase and then we take them to another position for connection direction and then hopefully before end of this month the first 25 will arrive at your doorstep. Please stay and follow the procedure because we don't want any problems in connection or whatever And half of you will receive what you paid and some of you will receive the donation Units. Because some of the countries in Africa, in South America and other part of the world, people cannot afford paying for these Units and we received the donation. (1:18) But we want to extend this network across the world. And so, from hopefully end of this month, the first 25 will be dispatched, and then into the new year, we first do our, what we call, the physical side. Then somewhere in early next year you start receiving a package, which you have to just connect to these Units, to connect as part of the, what we call, direct connections into the system, and then we work through this, as we said before.

We still need massive amount of donations, this is not resolved, this is not finished. We received a very generous donation which allows one part of our research to go where we wanted it, and I thank the Soul which supported us heavily. And we have received support from Knowledge Seekers who are bringing their companies, putting it on the table, says, "The technology you brought, it has to be shared, we want to be part of it." We are getting those as well. And now it's gradually taking shape, and it allows us for the first time, as I said, through Markray Corporation, to deal through Keshe Coins and Cosmic Ray bundles, and bringing balance, that we support, we guarantee, and we deliver.

If there are any questions, let me know and I'll try to answer.

Q: ... Good morning Mr. Keshe, I would like to buy some Markray Corporation shares on the NASDAQ market, but the broker from Bucharest cannot add RVBR to the online

list, so that I can buy or sell shares online. How can I buy it anyway? (1:20) Do you have a broker that does this? Thanks a lot.

K- There are brokers who do that. There are many... You got to understand, we... Markray had a problem for a long time, and we solved this problem, but it hasn't gone all the way through. There is a big problem in the background which is not of the doing of anyone, but when Jon was the CEO, .. I was not aware of it. And now that I became a CEO, I became aware of it and it's taking longer than we thought to sort out this part. And it's going to cost us a lot of money to sort it out. We're just trying to find out through the legal team, through the accountants, how this situation... I've spoken to different lawyers and accountants and Markray and OTC and what you call it, everywhere possible. And we have found the, what you call, to solve the problem. We have found a way, we see a way through it. And this will take another three to six months.

But due to the sanctions on Russia, in past two years, or since whatever start of the Ukrainian war, the Markray had a shareholder, Russian shareholder, which because of the amount of share, we don't know who she is, nobody knows who she is. We don't know if it's even real. We have to go through courts, it costs hundreds of thousands of dollars to get this sorted. So we decided we're going to leave it. But we found a solution around a few months ago. Because of this share Markray moved into the blacklist. (1:22) And a lot of banks and brokers don't touch it. We sold some of our, if you look at the reports of the Keshe Foundation in the past 12 months, you'll see what I'm telling you if you understand how to read it.

To move this Russian ownership percentage below 5% because it was affecting, creating a blacklist or blockage, we sold some of our class B shares and we transferred it into the common shares. That the common shares moved out of, or pushed this 5%, below 5%, and some of the companies have taken this up. Now we have a second problem which now we are trying to sort out is, we have done a lot of consulting what we call the trade, what we call the organizers, the people in the background. Now we are trying to solve this problem that you'll get RVBR accepted by all the traders. At the moment some of them they still see the Russian, you have to tell them to redo. You see some going back on, there is a something needs to be sorted. This is getting sorted. So maybe next three months, six months, whatever, maybe sooner or later, we get this moved out of the problem which was created. I mean, bless his Soul, Jon should have told us, but as usual, he had to do everything himself and brought us into this lock. And it will take us another few months, two or three months, we open this lot which is to do with a lot of things in the company. And most of the traders will go back on it.

You just have to find those who have moved the Russian trading out of their book. (1:24) Otherwise if you go, if you go, Rick if you can go on the website of the Markray you will see that we have moved out of the bottom line of the OTC into a bigger, the most highest level. Because we had to do certain things which wasn't done. And it took me months to do it. We spent so much time and money on it to get it done. It has to be moved. And then you have to understand, when you go on the Markray, you see those green lights. It's got a green tick, green tick, and then this is all has taken a lot of time. If you go on the OTC,

not on Markray, go on the OTC website, you'll see it on there, that the agents confirm, documents confirm, the accountants are confirmed. We are submitting every quarterly accounts, which wasn't done properly for nearly 2-3 years. We have brought all that in line, and all this cost tons of money. We say hello to a lawyer, it's \$500.

This is, they look, you're a stock market company, you can afford it. Markray doesn't have these finances, and it's all supported by us in the background. And when you go to it, you say the agent is confirmed, everything else is confirmed. We disclose continuously, and because what we do here, if you remember, Markray shares used to be 006, 005. It has moved up 10 times compared to what it was a year and a half ago. (1:26) And we have to make now move another step, which needs to be done by OTC and us, to go to SSC, what they call, submitting documents, it takes 3 to 6 months for them to approve it, then Keshe Foundation, all the shares become confirmed, and the whole structure changes. That will cost the Foundation, just to move that into that situation, is going to cost us something like 400 to 800 thousand dollars.

R: I remember seeing a list of companies, they changed the rules about two or three years ago, apparently, and all of a sudden, a lot of these OTC companies got put on a kind of a banned list because of not putting in the correct paperwork, basically, more than anything else. It wasn't that the situation is bad, it's just that they omitted certain paperwork, or didn't do it timely enough, or something. But they changed the actual rules, and then suddenly it wasn't available. There's people that say, "From the US it can be difficult." I know from Canada it's difficult, but certain banks, I think it's CIBC, will allow it, but yet TD doesn't and so on and so forth. So, it's a bit of a battle, I understand.

K- It is part of, people don't usually see it, but because Markray is owned by Keshe Foundation. We talk, we explain the problems publicly, because you are the shareholders at the end of it, all the Markray shares sits with Keshe Foundation. And this structure we had to sort out and it's taken a lot. If you go back on disclosures of the Markray, (1:28) if you go up and you go on disclosures, you see everything is up to date. If you see the disclosure, you press. Every quarter, every quarter, every month, everything has been brought to the management.

R: Oh yes, look at that. You can see all the dates there from... Well, in the last year or so.

K- Yeah, every time. Every one of these lines you see cost 10, 20 thousand dollars. It's done by accountants.

R: Yeah, we see reports going back, well, last few years, basically, yes.

K- We had to update, we had to go back to 2021 and update every quarter. Submit the annual reports, then get the approval and the rest of it. It's taken us a year now to bring this into, everything into order. And if you look, one of the requirements, if you go right to the top, right on the top side, if you look at one of the top lines, we had to do management certification. This management certification was something, if you look, was never done before. And that's one of the steps to move Markray to the next level. It

was done last month, I think. So it needs a lot of things we are doing. And then you have the quarterly accounts, everything else, which goes with it. So, it's you, you call it Markray, you put shares, and if you look, you put shares at 0.06 a year ago. Now, shares are between 0.5, 0.7, because moved up 10 times. And then, it's our job to bring it in, as I said, by the end of next year, (1:30) in conjunction with what we are bringing, and what we explained earlier. As your companies become part of the Markray, in the part of the structure of the Keshe what we call, International. and then backed by Coin. We see it increase gradually, solidly.

And if you go to one of the, what we call, last week, or two weeks ago, if you go on the Markray, on the news, where we announced the production of the material, there has risen a huge investigation by the Pentagon on Keshe Foundation. This news that we put out with the pictures in Markray has risen a lot of investigation by American government, that how this company has now allowed production of the gold and these things, in the American stock market, and all the pictures are mainly Chinese. And there's a lot of it is going at the moment, with the Keshe Foundation step by step. You create too much, what you call it, ?? mud, it can create problems. And it just takes time, all this takes time.

And setting up the structure in China takes time, setting up, bringing other parts into order, it all takes time. And huge amount of effort. It took us a year and a half to move out of the bottom line of the OTC. Now we have to sort out the company. And then as many of you join us, as I announced, that you bring your companies to be owned by the Markray, and you get all the privileges of becoming part of the Markray, and the Keshe Foundation China, of work, (1:32) then you see your success reflects back in you, in the shares of the Markray and the rest of it. And then once we start, as I said, talking to the government, giving shares of Markray to governments, to the nations and governments, then you see a different structure and then the rest of it. It takes another 3 years, 5 years to be done. Our target is to bring the shares to 1,000 dollar per share. One Coin, one Cosmic Ray, one Markray share, all the same value, doesn't matter where you go.

R: Mr. Keshe, Ike mentions in the Webinar chat that the website for Markray is still hyperlinked to a natural water solution website. So, we might want to check on that, to make sure the hyperlink to it.

K- The hyperlink has to be there, because of the reasons we are aware of it. This is, this is because it's connected to KFGL, which is in the background, Global. Keshe Foundation Global. These are the things which are... we cannot change at the moment. It's a lot of work to be done. But we know that doesn't matter where the hyperlink is. .. So, just where it is at the moment, you come into it and that's what it counts. Because it used to be a water solution. Jon didn't want to change the name. He said, "We stay to this." And then it took me negotiation with OTC, to even if we look at the, what you call it. If you go to that bottom code of I think it's 9271 or whatever, of the Markray, we had to negotiate to get that back, to be... (1:34) we are a... if you read, it says, the classification, it's a Space Technology. And I think, if I'm correct, there are 27 companies in America who carry this number, and we are one of them. If you go on...

R: When I clicked on the website for Markray in this particular OTC, it says forbidden, it doesn't go through at this address, although I thought it should.

K- You should have looked at it.

R: Like my HTTPS will go through, instead of www. Let's try ...

K- ... Some people can go through, some people... Some of the OTC agents go directly in.

R: See, I just go markraycorporation.com and it starts to go through and...

K- I'll get that to be checked on the OTC page. It depends which country you're in as well. Some countries they block at source. It's like Belgians cannot go into any Keshe Foundation websites. Because they decide what is blocked and who blocks it, in which country. Anyway, we're there.

Any other question?

R: ... (1:36) Perhaps before we get into the actual questions, I can read some of the ... reactions to the first part of the program. If you don't mind Mr. Keshe?

K- Carry on, carry on.

R: Well we started off with Eduflight006, "My whole body became very hot since today's session began, especially the upper part. Is this phenomenon supposed to be happening?" And before you answer that, there's several others. Monica says, "Hello everyone, from the beginning of the session, I first felt a recurring pain in my right ovary, which turned into a throbbing sensation. Then I felt a surge of peace and quiet within, somehow moving into my chest and head. My pelvis and abdomen felt as if they were collapsing. I felt a tingling in my forehead and an energy in my chest. Various thoughts came to me, connecting to things from the past, that I suddenly began to understand." Randy says, "I've been hearing that dog whistle since yesterday." ... (1:38) Monica says, "I felt balanced and at the same time I had a pressure in the area around my sternum and forehead. I feel as if the energy within me is being drawn back from my head, and re-entering from my pelvis and physical reactor." And Corinna mentions, "No time for fear when unconditional love takes over, feeling the beauty of you all collectively as One." Back to Monica, who says, "Now again, the feeling of the stomach sinking, and slight anxiety for a few seconds." Stefania adds, "In the first part, I felt very emotional feeling of gratitude. Some drops came out of my eyes, first right, and then left eye. I felt very emotional. I had feeling of opening and I felt a feeling of full letting go." (Rick said). I also had that feeling of opening, a feeling in the solar plexus area. Monica says, "And now I feel all the energy fueling my physical reactor. However, emotionally I feel less comfortable, less calm and less safe." Randy mentions, "Now in this session, the dog whistle intensity has increased, and the body temperature has also risen quite a few degrees." Corinna mentions that, "Happy bird feels it too, splashing in a small bowl of

Cup One water, proves connection to other created beings. Keep observing and rejoicing every happy change makes me happy.” ... (1:40) Mehrenez who says, "I felt some sublime ideas on the Creator, very something and sweet."

K- This, as I said, this setup is set for physical conversion, where it comes from the Soul. And the graphs we see confirms it. In a way... I try to share this with you. It's easier to send it to you to Rick than me resetting everything up to start with. If you look at this picture, check your... Okay, if you look at this, this is the picture in past few minutes, from, in a way, all of you. We've seen many, many of these pictures in the past from us. If you look at it, over there, hardly any, it's directly from the Soul and physicality and see how heavily the physical part is. Anything below the central line is physical, both on the energy and on the physicality manifestation. And if you look at this picture, it's... this is the line of physicality, and if you look at it, there we are. (1:42) It's so heavy, very little coming down, which means a lot of you can do the transmutation and manifest yourself. And you can feel those conditions inside you. This is one of the part of this test is for the psychosomatic. What we can send from the Soul and manifest itself in physicality, which means you all can manifest yourself. And you see it very clearly in this structure, how easily you're all sitting in the physical condition, with the STP, ?? and your physical manifestation.

Okay, you can change it, if there's any questions, any other question.

Q: ... What is the function or purpose of the existence of the STP? In the Universe, are there beings whose life is composed only of an individual Soul, and a physical body, with no STP in between?

K- Impossible. It's impossibilities. (1:44) ..

Q: ... When an individual Soul interacts with the environmental field, does it necessarily create a STP at all?

K- What?

Q: When the Soul interacts with the environment, the environmental field, does it create that... does it necessarily have a STP?

K- Because he has to show his boundary. If you look at a solar system, like ours, it's the replication of the Man. The Energy sits in the center, you call it the Sun, and then the rest of us are, they thought same thing. I explained this years ago, and maybe repeat again.

In the body of the Man you have the Soul, and the Energy is created to confirm the existence of that Soul. The shape of the Soul, the shape of, the field strength of the Soul, decide if you're a dog, a cat, or whatever. What you consume decides what kind you're going to be. In the body of Man, when you have the Soul in center and you got the fields, which creates that Central Energy for itself, to confirm its existence, because the little ones are still running. Your little cells, they still have their own energy, otherwise they

wouldn't be there. And your Soul is what they leave out, which goes in there and it becomes, "I'm here" and the other one and the rest of it. So, you need the STP. But, STP with the Soul gives the dimension of, how much space can I take for the others to exist. (1:46) So, in a way dictates, you need a liver, you need a kidney, you need somewhere to collect the rubbish, somewhere you store.

Look at this Solar System. We have the same. Our rubbish we're collecting at the end, are Jupiter and Saturn. What does Earth does? Earth is part of the reproduction cycle, creates life. It's no difference, just because we see planets moving around, look at their functions. What do they do in this structure called Soul (?? Solar System)? Because our Sun has a boundary. They say aircraft we sent out 50 years ago has just gone through it. So, we pass through the skin of the Solar System. But that skin is dictated by other forces, that's your limit, you can't go any further. This is what we give you.

So, our Solar System, even though we think it's the center of everything for us, is another living things on a physical dimension. Even though it's shining, we see it as a Sun, as a plasma, in its environment has a physicality. And then this fields which creates, which gives it this dimension of physicality, has to have a place to be there, which controls the center of the Universe, or central galaxy. It's not just that we are here, our Solar System. In a way, if you, as I said before, what's the purpose of our galaxy in the Universe? Are we part of the digestion system? Are we part of the cleaning up system? (1:48) We are supposed to be on the edges of our galaxies, that's why we have life in this condition. Are we the urinary system of the fields of the galaxy and then our galaxy in the Universe, which part? We haven't got the knowledge. We haven't got this knowledge. We haven't... because we just start, what you call it, even getting to the Moon is too much. We haven't understood the structure of the Creation.

For sure, for sure, the way the Jupiter and Saturn at the end collect all the leftovers, what comes from the Sun, and doesn't need, and it doesn't need to go out, because it has to come. One plays part of the urinary system, or one part plays the liver, because I'm collecting storage, whatever is given to me. And then when you had our galaxy and the position of our solar system in this galaxy, we are not far from Saturn and Jupiter. We are part of the structure which is on the edge, holding the energies of the central point in here that it doesn't leak out. Or we decide, or the galaxy decides what to leak out.

And once we understand the reality with our creation and our position, then we can do a lot of things. We can find the fields to travel. We can find the strength we need to move. The structure keeps on repeating itself. But we are blind to it because we are too centered in us being the 'king of the jungle.' And then we call ourselves the center of the Universe. And then we call ourselves every other thing which goes with it. (1:50) This is the job of us as Universal Teachers to .. bring the knowledge that is understood and embraced and become part of. Don't bring a knowledge to force it with a sword. That's what it should be. We never gave you certificates when you came to Keshe Foundation education system. Because I always said, you hear something, you can't use it, just if I ask a question. But in 10 years time, 10 years time, down the line, it becomes a use. And that's where you pass your exam. Not on sitting on a piece of paper.

What we teach you, which enlightens your Soul, you die. You've gone 100 years, 200 years, 1,000 years of Earth's space time, but the Soul had the knowledge. It comes to a point, ah, this is what I have to do. This was what the knowledge came as energy, or whatever it was, 100, 1,000 years ago by Keshe. We are not here to change Man. We are here to change much more than that. We're here to change the STM in the Space, I've said many times, to stop the killing, the destruction.

One of the biggest problems, I said now, with the American government is, Keshe Foundation has put production of Gold and it shows Chinese, they checked it. We know from inside, they checked the faces of the officers, they are high ranking officers, we put that deliberately into Markray pictures. We are not joking, we are not playing games. And with what opportunity now we are given, (1:52) to be able to produce gold in mass, they'll go through the window, where is the next greed? The Man wants to go to BitCoin, we covered it, that's why you're getting the Coins, Keshe Coins. Enough that there is no shortage, that nobody can play games. Then this is how it should be.

You have to understand. Do you look at the Sun and you see it in the sunrise, you see that's the top one .. , full of the day and you see it in the evening, if you chase the Sun across this planet, you can always have the full lunchtime, full strength. And this is what your Soul does, when the Man carries the body of the Man to sleep or wakes up. Because the thickness of the planet Earth does not stop the STM to see the Sun on the other side, because he sees the fields of it. It doesn't see the obstruction of the fields of the Earth, to blocking it. Otherwise Man will be blind to the other galaxies and everything else. Where it is not. You received the knowledge, you gain the knowledge. Blindness is the attribute of Man's in his creation.

We blind ourselves not to see, ignore our rights. We blind ourselves, we allow other ones to abuse us. We blind ourselves for governments to put, do whatever they like with us because they fight with guns, they fight with bullets, they fight with aircrafts. I give love through the STM. Melts the gun. (1:54) You watch how much they are pushing for wars. How much pushing for wars. How much Israel pushed to get America to bomb Iran. Many of you saw it. Oh the Americans bombed Iran. Do you know why the Americans bombed Iran. The Israelis said, if you don't do it we're going to do, nuke it. Trump thought, this such a stupid guy going and doing something I cannot return. I pretend I do. Why none of the past presidents ever did that? Because this idiot put the pressure and did it. It stops the war, the bigger scale war. We look at things in different ways and we see what we influence in it and what needs to be corrected, what needs to be done.

R: Mr. Keshe, we had an interesting coincidence in the last One Planet, One Nation, One Race for justice and world peace where the Universal Council members were reading the World Peace Treaty and discussing about, you know, each line of the treaty and so on for a few minutes. And it turns out during that exact time period and within literally minutes or seconds, there was an announcement on CNN, one of the largest TV networks, mainstream networks, about the peace, the new peace agreement between Ukraine and Russia and US and so on. (1:56) And whether it works out or not is another thing. But

this is the first major, you know, Peace announcement that they've made, in the last couple of years or so. So, it was just an amazing, wonderful coincidence, that at the exact time we were looking at the Peace Treaty on the screen, and talking about it, there was this publicized agreement, and sometimes the universe does come through it seems.

K- Yeah, this is another... I think today they had to give the answer to him. You got to understand, we have the Ukrainian president who knows he's going to go to prison. He knows one of the conditions of this 28 points is that within 100 days from signing the peace, a country which was supposed to have election 2 or 3 years ago has to re-elect a new president. But would anybody re-elect him? And the amount of the scandals, the amount of money he has siphoned, would he, he has already asked 29 countries to give him refuge. Then he, to save his life, he has to push for the war.

But on the other hand, there's not much left to war because the Europeans are in the big mess. Factories after factories are closing. One of the biggest advantages of this Ukrainian war wasn't annexation of Ukraine, was the end of power of United States and European countries. That was one of the main outcomes of it. (1:58) The old system that they decided they start revolution anywhere, they kill whoever they don't like them, they take everything, it's gone. They brought sanctions on Russia to bend it and Russia turned the sanctions back on his head and now not only the world is stronger, the connection selling only to European gas is gone, the whole of Central Asia, the economy of the Russia has become so strong and solid, because all the waste, time wasting is gone. Okay, a lot of lifeblood was lost, but we have seen the end of colonization and the end of past 70, 80 years governments in Europe and America deciding which government stays or who goes or whatever.

Now the new, what I call, group is creating condition that they have to decide who wants to be or not to be. We are very close to a very big war. If something goes wrong, somebody just misplays, we are on the verge of big clash. Everybody will jump on each other, but everybody's holding back. A lot of .. things are happening. Now is every possible way, things are changing to avoid the war. But, it's a lot of barking going on. The rules, two years ago to now, the rules has changed. Americans have lost their power. Europeans are on their knees economically, because of the stupid thing they did. They cut the gas pipeline. Sanctions are closing. The factory is gone. Unemployment is high. And then on top of it, they got the sanctions on raw material from China. It's a readjustment. (2:00) But the end of 'America decides', and the Europeans decide, is gone. France is running 5 million Euro, and now, deficit. Because they can't rob the gold from Africa and becoming theirs. It's the same thing with Germany now, it's the same thing right across Europe. And Americans are in a bigger heap of it themselves, what they created for themselves.

Q: ... How can Satellite Souls, what role can they play in this transition phase, and what's the future look like for these Souls?

K- Those of you who are Satellite Souls, we are just near enough to know what you're about to do. Just let us finish our system, what we are doing. I'll explain to you why and how. You will understand.

Q: ... Can a Satellite Souls be the healer of humanity's emotional pain?

K- You call your self ?? in a what's a ?? life mean ?? The physicality is you, but the Soul which put you front is different. He knows his strength, he knows what's good to do.

Q: .. names a company that deals in Markray shares. ... Good morning Mr. Keshe, good morning Rick. Can you hear me okay?

K- Yeah, no problem. How is the harvest going? Or have you finished? (2:02)

Q: No, no. Very busy for next 3 months, at least 4 months. Yeah, it's a bit of a... at my age it gets very exhausting. I just go a bit slower.

K- I know what happens. You know what you got to do, huh? ...??

Q: I was looking at the Twinity thing for... what was that one? You got one for energy or something. So I was looking at that, I might have to get some of that to give me a bit more stamina.

K- Yeah, but it comes with the age.

Q: It was something interesting Mr. Keshe in relate the experiments with animals and in particular dogs where the owner goes away from home and you know, and when the owner decides to return the dog knows exactly when he's decided to return. So they did a bit of an experiment and they even changed vehicles. Instead of his car, the dog could hear his owner's car, he would come back in a taxi. And the dog always seemed to know when the owner had decided to return home, the dog would be ready to greet his owner. And so got me thinking, well, you know, the connection with the Soul, we must have that as well. (2:04) But the dogs certainly have proved, proven that this connection of knowing when they're...

K- We all have it, we all have it, it's just that how we strengthen it. It comes on everyday basis, we have it but we've been trained to ignore it or call it all accidentally, we all have it and we all do it. When, for example, I was also explaining this to a Knowledge Seeker very recently. When I wish something which is the need of the Foundation, somehow it appears. I know. Whenever it is, when we are needing something which is there, needs to be done. Some way it gets done, it's done.

But when you say about the dogs, children, do. A lot of babies who even become toddlers have this sense when daddy comes home, or when mom is coming back. They look, they know it's time, they can't talk, they're on their belly, but they know it's time for it. And they know, they watch the door. I know that I've had that first time, my first son knew

exactly what time was four o'clock. I don't know how, we couldn't find out how, but I was, my wife used to say, "He turns to the door and he doesn't move." Yeah, yeah. He knew, he knew it's four o'clock, it's time that Daddy comes home. With something we... is in all of us. (2:06) It's just that we have to, it has to be, you feel something, we just don't do it.

I don't know if you have this feeling, you know, you want to eat something, and says, "Oh no, I better don't." And you say, "I eat, let's see what happens." Put something in the back of your head, and says, "Don't put it in your mouth, don't do this." But, what I call, Man's taste of testing, overcome it. It happened to me a few days ago. Something in my head said, "Don't touch this." But I wanted to touch, yes, I want to see what it does, but in my back of my head it was something like pulling my hand back. And it turned out to be something wrong. We all have it, it's just that we rely on it.

Q: Yeah, it was interesting that you couldn't, you couldn't trick the animal to, you know, to recognize say the vehicle, they were changing the vehicles or whatever. The animal, as soon as the owner decided to come home, the dog was ready. It would be at that moment. You know?

K- We are doing the same. We are human, the same, but we ignore it. I've seen it many, many times... It's a matter of trust, what we trust in ourselves, not anything else.

Any other question, or shall we call it a day?

Q: ... (2:08) He would like to ask about the truths contained in the Dead Sea Scrolls, whether they deserve your and consequently our attention. He's got three questions that are part of that.

K- I don't look at these things, I'm the wrong person to ask these questions from.

Q: ... Okay, so like the first question might be at a certain time God will build a temple, it will be built under God's leadership, not Man's. Has this temple already been built? Is that the kind of thing you'd rather?

K- Ask the writer if he knows... I don't know who wrote it. This is something which we... I get a lot of questions like this from people. What do you think is... Go and ask the writer.

Q: Well, what about this, the third one, which he says, the manuscripts say that two Messiahs and one Prophet will arise. One will arise from the royal line and the other will be a priestly Messiah arising from among common people. Are you a common person? Or are you from royal lineage such as the ?? Achaemens?

K- Read the sentence from the beginning.

Q: The manuscripts say that two Messiahs and one Prophet will arise?

K- Just wait, we are not Messiah, we are not a Prophet. So it doesn't apply to me, go to the next one.

R: ... (2:10) What would you say that you are then? A teacher? You did say you are the Messiah at one point .. ?? .

K- We are all Messiahs. We always say every one of us is Messiah of our own Soul.

R: Yeah. You're very quick to qualify that.

K- Yeah. very, very. We are. Now we know our position. We are responsible for it. We create our own suffering because we are aware of it. I always say, and I, it's something I always do, even done with my children, never humiliate. Who are you to humiliate? But we don't need to accept the pain. It's us who creates our condition. And so we are the Messiah of ourselves. Yes, I am a Messiah, but for myself.

One of our Knowledge Seekers went through roasting because of this with the Iranian government. They called him in and they said, "He says he's a Methi, he's a Messiah." He said, "No, he says he's a Methi of his own." Very hot because the Iranians are waiting for the Messiah but they can't find it. And I know exactly what it is. One of our Knowledge Seekers with Vatican has the same kind of problems. They're looking, or they think they know, it's time is there for it, but... I am the wrong shadow. You have to look for the 'Daughter of Mitra,' in time to come. And even that, she's not a Prophet, she's just the, what you call, the light in the darkness for the Man to find his path. (2:12) But if you read this two to come and then the Prophet, this is in Koran. They are waiting for two. One to come to announce the coming of the second, and then if you look at the Bahá'í Faith, they say, "Oh, the first one came was Bab, and then said the one, the second one was Baha'u'llah, and they tune into the Islamic pattern." And then you have the same in Christianity, in different way, and the same. One written years ago, they heard, they copied, and it come out different situation ?? and the verses.

Don't believe none of the Holy Books, in the way they are written. The way the Bible is written is the copy of, collection of what we call, Mithraism, tuned and accepted because they built a church in the houses and everybody believed in it, now it's become the norm. Never accept what sits with the, or the way they explained, Mecca, Medina and the rest of it. Jews have rewritten too many books to benefit themselves. And so, ?? you read and they say?? there will come 2 Prophets, 2 people, and then the Prophet go look into Koran, exactly the same. And then to justify, they look at the Bahá'í faith and see what is it called, the first one Bab and the next one Baha'u'llah, 19 years difference, this is what Koran says, so we are there. Go back into Judaism and see what they are looking for in 2025. The Messiah is Netanyahu. (2:14) Use your own wisdom.

Shall we call it a day?

R: Sure, yes.

K- Thank you very much for today. We'll see you next week. And hopefully we have some more fun with the Knowledge of Creation. Thank you very much for being with us. And I still repeat we need huge amount of support with this Units, as they have to be 10,000 of them around the world. And don't tell me, you can make gold, ?? so can you (raise money)? We don't go in that process, our job is not there. We even ask Knowledge Seekers to help us with gold, because if we make the gold we make, will bring wars on Man's life. One day I explain why. But we develop it, that it brings peace to Man. And it has to be done through the Man. If it's done through us, it becomes magic. When it's done with Man being in it, supporting it, developing it, being part of it. ...

Thank you very much for today. And please support us to do what we have to do, to complete this journey. Thank you very much and see you next time.

618 KSW – November 27, 2025
