## Topic Index

Teachings on Christmas day - never stop 13 years; Discussing 3I - Atlas - deep understanding - tracking past months; Last week tested different things with you - 4 days with KF Plasma Systems on; 3I came closest to Earth Dec 19 - monitored how it behaved; Space Agencies still hiding this encounter with Universal Community (UC); Only KF looking scientifically - effects plasma fields of 3I having on us; They don't have knowledge to understand; KF has basic structure for understanding work of plasma; 3I violating Laws of Physics - correct with Science of Plasma; Now departing our Solar System (SS); Visited every planet - why; Should have disintegrated when it went close to Sun; Split into copies of itself; Traveled specific path through SS for specific reason; We carefully studied it last week for 4 days - amazing discoveries - beyond understanding of human; Passes every 3,000 years - last time 2,000; 3I Captain intelligent and caring - purposely kept 160 million km away from Earth to protect us; SS constantly moving in U yet it finds our position - arrives on time - like tour bus making stop at Earth; Monitored 3I on 2 channels with our systems; Knowledge within KF so deep frightened to share; Recorded graphs before 19th, during, after; I'm man of wisdom in Space T in Universal waves, plasmatic fields, creation of life; Explains graphs; Shows normal condition from 4 weeks ago; Saw that 3I is downloading passengers from its ship to Earth; No doubt 3I downloading entities; Graph shows change in line before and now - downloading 'seeds' to Earth; Impregnates D of P; Places seedlings on Earth to grow - nourish according to environment - work on physical side; Many hours of recording; 3I transmits seeds at Energy level; Graph shows a STP and P merge into one and in pulses; Type of seeding - same as how life formed in womb of mother with child; 3I using Earth for specific jobs - bringing new cycles of life - leaving them to grow; Pulses move in and out - downloading; Like passengers getting on and off a bus - pick up again in 3,000 years; Have recorded everything - keep in our files - future release for Science to analyze; Only see STP on graph - because Soul & P don't exist yet for these entities; Only download

Energy of STP - it gathers its own Soul and create its P; Explains why ancestors recorded 3I system in caves and rocks; Seen this system in my journey; Watched videos of graphs hundreds of times - using Earth as a nursery to grow Souls; Deals with each planet in SS according to own conditions; Like manager of series of zoos - takes care of each animals according to needs; Earth is one zoo - Jupiter, Saturn, others; 3I carrying lives from all over U; Train full of Universal life, including knowledge, food, culture; Has knowledge how to grow each seedling; Earth's atmosphere allows for two arms and legs - Jupiter different form; Releases certain energies that match each planet; Hundreds of graphs & hours of videos as data - deep understanding of this process; 3I highly intellectual - handles diversity of life forms - knows needs of different planets, SS, galaxies it passes through; Delivers different field strengths & different creatures to different planet; Probably can feed creatures living in different zones of our planet - high temperature magma - cold glaciers; When they pass over they feed us - energy download; 3I feels and affects our intelligence and life; Close to meeting its match on this planet - explain later; I deliberately set communication on bandwidth of Universal Line of Communication; They're not used to receiving this; Universal systems don't work on matter frequencies which have sound limitation & time delay; U Energies work on field strength without limitations; We received a response; All data and recordings stored; We are not alone in U; Maybe we were seeded by 3I thousands of years ago - have evolved; Earth seeded where Jupiter and Saturn are today - prepared for 'Zone of Life' in this SS; U does not need only to have humanity - grows a variety of seeds; Saw flight of a Soul on graph - Energy without D of P - like Souls queuing to get on bus when it arrives; What nourishment did they receive from Earth; Do they die first as man or animal to become Passenger of U; They choose to be educated here; Leave like tourists; Closer than 160 million km - would enlightened life on planet; Means they respect life; Protecting their investments of past millions of years when Earth started on outskirts of SS; What kind of creature behaves like 3I - not intelligent enough to transmute - but smart enough to transfer Energy and mass together to planet; Can send Energy - convert to a mass or physical entity; Understands emotion can switch on and off; They can work with our consciousness - in pulses - transmits certain field strength; Can transfer living thing with emotion and life - then can switch it back off; Transmits a Soul as single package - millions of Souls inside; Anchor directly to STP - then manifests itself; Other strange characteristics; Cannot pinpoint on graphs who is from this planet; Deliver a STP - decided for itself - to be dog, cat, tree, whatever; Different Energy fields of citizens of U match field strength of Earth - can be grown here; Graph shows it doesn't carry a Soul - created according to its emotion & fields of planet - let's them decide how to manifest; Future scientists will study these graphs; Different Energy packages for - human - plant - ocean life - deeper layers of Earth - life in upper atmosphere, etc; Which one of us listening is not from this planet - waiting Soul to mature - not die - get back on 3I; SS - galaxy moved billions of km since 3,000 - 9,000 years ago - yet 3I knows where everyone is - pick up at right place; Cosmologists don't have knowledge to understand what's really going on; 3I - huge intelligence - coordinate itself in relation to U - moving all time; Visits frequently - knows everything in SS & every galaxy; Independent spaceship - can go anywhere - more precise than German train; Plasmatic biological structure - not rock; Made fool out of Man - thinks he is only creature in U; Arrogance and lack of understanding Creation blinded us to truth about Creation; We sent messages

- we matched 3I with our plasmatic systems - connection cannot be broken - aware of its interactions and processes; All KF plasma systems will be connected to 3I; Our systems set to theirs - opened U channel & channel with M field strength of Creator - learn and share knowledge; Our system is physical entity - carries knowledge of energy fields of U; 3I works like blood - knows what liver, kidney, brain, all organs need; Replenishes energy - take care of each cells - feeds and replaces dead cells; 3I transfers energy like clockwork - beauty of its communication - beyond Man; Laughed when heard scientists of NASA and others reacted to receiving a reply back from 3I; Like a Mother speaking back to her child; Man got message back in same frequency; Mother knows every language & maturity of Beings in U; Take years of study to understand what happened - see changes; Every time 3I passes brings new energy, understanding - delivers spectrum of fields; Matures us in D of fields; They match environmental fields of what they want to grow here as humans, fish, trees, etc; Was a week of confirming Creation; Human race doesn't understand process; 3I works in both plasma & matter state; Has a Soul, STP, P - aware of all within itself; Grateful to be alive and present to record historic moment; One day Man will mature to become Passengers of U - understand what needs to do to achieve it.
