

**KF Systems Running 3 days - KS and Planet  
Connecting to 3I Coincides with Mitra's Birthday -  
Pure Plasma Systems - Understanding Soul & P  
Together - Not Prophets  
Introduction to 621 KSW**

Note: Not checked by KF interpretation by KS of KF Brazil

Today's workshop was dedicated to our encounter with 3I - Atlas and what it means to the future of Earth. For months Mr. Keshe has been preparing us for December 19th when 3I came closest to Earth and the M fields would reach their peak in intensity. To add to this encounter he set the KF Plasma systems in a specific way so that not only us Knowledge Seekers (KS) who were listening could connect directly to 3I, but also all the Beings on this planet including the animals, plants, fish, and every Being with a Soul will receive the elevation in the M field strength through their Soul. For those of us who have been following the teachings we already know that 3I is not a meteorite, and he made it very clear today that it is a living Being with a Soul and inside its outer shell it is made of Gans plasma like ourselves. Because its a plasma it automatically shares its fields with all other plasmas according to the Law of Plasma, in which the stronger always give to the weaker to make it equal with itself. Therefore, every plasma on this planet will receive elevation, not just humans. But the exchange goes both ways, which means they will receive what fields and knowledge humans have accumulated in our life experience on Earth with the matter state. Plasmas always find a balance with each other and they will give to us what fields they don't need, and take from us what we don't need. This is how peace and harmony is maintained in the Universe (U).

The KF Plasma systems were kept on and the Zoom room left open from the Thursday's KSW until the day after Mitra's Birthday on the Solstice, December 21st. It was an amazing and Soul changing experience. The KF Brazil Group kept their Telegram channel open and between 100 and 200 KS attended the whole time. At night those who needed went to sleep to the silence of the fields and knowing they were connecting with the Souls of those Beings in 3I who are here to help elevate humanity. Obviously, they were being deeply effected otherwise they would not have stayed the whole time in full force. I am sure they will share their experiences in next Friday's Brazilian Teachings. Mr. Keshe spent a lot of time preparing us not to expect something in physicality (P), but to try our best to open ourselves to the Soul connection. After some time KS reported that they did not need to have the systems on, because they were already connected continuously with 3I.

Just for the critics to know, we are not a cult group that has been taken over by Aliens. Mr. Keshe has been preparing us diligently for 12 years of advanced scientific based Knowledge of the U and Space technology to be ready for this specific encounter with the Universal Community (UC). He said today that he had been waiting a long time for

this meeting to happen and that he hoped he had done enough to prepare us to behave in the correct way. In the past due to ignorance, whenever 3I visited Earth on its 3,000 year cycle humans had the tendency to worship the "Aliens" as gods, and the result was that only a small group of humans who understood a little of the knowledge, made themselves into Elite Rulers abusing humanity. This time due to the Internet and mass communications, and the KF teachings the whole planet is receiving the fields. While we respect and appreciate their help, we don't consider them as god's to rule over us. Unfortunately, the present Earth Rulers are hiding all this from the public so they can continue to rule. Otherwise, we could have had a physical encounter with the UC. Hopefully, that will come soon.

Every time 3I passes Earth humanity elevates in 'one way or another.' This time is no different. But what is different is that this is the first time humans in the form of KS are connecting consciously to 3I and actively participating in the process of change. Some of the things that may occur due to this interaction of fields include the following. Man may lose his greed for needing to exist in P. Maybe our generation will be the first to produce Children of Mitra. This means that the way we are programmed as children to believe only in the physical body as reality is a block to being able to achieve a life surrendered to the Soul of the Man (STM). And that for spiritual practice to achieve something it has to be able to elevate the M field strength of our Soul. Just reading books or practicing what people call, meditation is not enough. It requires something that truly changes our life and then our relationships will be less superficial and we'll start to have true feelings with each other. Mr. Keshe has asked us to observe what changes in our lives over the next 5 to 10 years. The changes that occur will be a reflection of how we were able to open to the fields we were receiving during this encounter. The fields we are receiving are so powerful that he is afraid they might blow up the systems. Some may get enlightened, others may gain in intelligence that goes beyond what Man can currently understand. For those who have been here for a long time they may be released from the bondage of being attached to the P and return to their home planet. We may hear that certain people died suddenly or just disappeared. Every time 3I passes Earth changes occur within a short period of time from the encounter like the uprooting of traditions.

It seems that after humans were created on this planet, other entities in the U have been responsible to look after our development. It doesn't just have to be 3I -Atlas, it can be other races like R2 -SWAN, or even others. And then we have Mr. Keshe who has been living on the planet for thousands of years and he seems to be coordinating things. If the Guardians of this planet want something to appear in what we call, scriptures all they have to do is influence the emotion of the writer through the M field strength of their own emotion, and because they have a higher purpose, their wish is their command. But since we lack the knowledge it seems like magic to us. In the same way, people are trying to figure out what the Star of Bethlehem could have been, but they do it in the dimension (D) of P, which is very limited. To say it could have been Venus and Jupiter conjoining doesn't say much. Observe the Morning Star which is Venus and ask yourself, does this light stand still over a village. No, it keeps moving with the Earth's rotation. And if you are an expert Astrologer you would see it every morning, it wouldn't be something special. However, if you have ever witnessed UFO's in the sky they can hover over the

same place for hours because they can control their MG field balance with the Earth. The point is not how they did it physically, rather what does it signify.

The Star of Bethlehem was setup to be there to herald a new development in human consciousness. In a way, it was like the birth of unconditional love in the human consciousness. And 3I - Atlas was set to be here to herald another change, the elevation of the STM along with the Souls of all the Beings on this Planet to stop the killing and to live in peace. Both today and 2,000 years ago they chose the Winter Solstice as the symbol for that change, which is also the true root of all the religions, the Birth of Mitra. Our Souls chose to be part of this wonderful event, while the rest of the planet remained asleep in the darkness of ignorance. It's for us to be proud that our Soul brought us here to be part of, and not to become arrogant because of it. It is our responsibility to share the knowledge and be a light unto the others and this time we'll bring the change to the whole of humanity and not just a few Elites. And hopefully soon we'll see the 'fall of kingdoms' especially those who want to dominate the others. Then all the nations will become one and we'll call ourselves citizens of Earth, and the 'Lion will lie down with the Lamb.'

The Messengers like Mr. Keshe are here to teach us the Knowledge of Creation and not to be controllers of this planet. They are here to enlighten us and to connect us to the UC. When he says, 'and nothing more,' it means they don't want anything from us, they are showing by their example what unconditional giving means. They are not like the humans who had an enlightenment experience in the D of physicality, and then tried to profit from it by becoming what we call, Prophets. Even today humans have not yet understood that we live in 2 dimensions of the Soul and P. As the Soul or Energy D is being denied, that means we are not able to recognize the difference between knowledge from the Soul, and knowledge from P. Physical knowledge is mainly based on repeating concepts given to us from others, such as what we study in books. Soul knowledge is when we have direct experience of something and feel its knowledge from inside. Physical knowledge can be tampered with and made into lies or half truths. This kind of knowledge is given in our education system, which means it is more about indoctrination than understanding. Soul knowledge comes from a pure emotion and cannot be falsified, because the Soul is connected to the essence of Creation. But the P can misinterpret it like what we saw with Moses. A Prophet usually connects to the Knowledge of Creation, therefore the scriptures contain elements of Truth in it, and then it gets mixed with the ignorance, arrogance, and intentions of the physicality. The STP of the Prophets did not understand the true essence of Creation and therefore they could not make the distinction. Later, those in charge of the religions changed certain parts of the texts to achieve what they wanted. This has led to all the bloodshed we have seen in all the religions over time. What happened to the historical records of Jesus? When the Vatican gained power did it destroy them and rewrite things the way they wanted? We see things that indicate this in the historical record like how the Vatican massacred Gnostic Christians as heretics, since they had direct experience of Truth and did not rely on written texts that can be altered by humans. The most dangerous idea to the ruling Elite is that the masses should not know, that we are the ones who give them permission to rule over us. This is why they support the religions and are against KF, because we are opening the light of truth and knowledge within each of us. The difference between Messengers and Prophets is that Messengers

don't get involved in ruling, rather they educate us to rule ourselves from the Inner Guide, which is the Soul.

The reason we cannot say what the outcome of this encounter with 3I will be is because it is not in the hands of the STM. The Energy is coming in the dimension of the Soul, which is essentially higher order M fields and the Soul will receive them. But how the STP and P will respond to them is a different matter. He said, there are a lot of things happening that are in the hands of the STP and P, and not the STM. There are different levels of reception for instance, how will the STP of the Earth, Soul of Humanity, and each of us respond individually? There are many different interactions going on that need time to respond. If they would have done something to change the matter state of the planet then we would see the results right away. Another way to think about it is the difference between pharmaceuticals and homeopathic medicines. Pharmaceuticals change the matter state chemistry of the body and we see a quick response. Whereas, homeopathic remedies are plasmas of the essence of plants and minerals and they take longer to rebalance the body because of MaGrav Positioning. The first one forces the change and the second one accommodates the wishes and emotions of the Soul. In a way, is 3I like a homeopathic remedy from the Creator? But why then are people reporting physically feeling the effects of 3I? One of the reasons is that these people are open to receive the Energy and their mind is not blocking the flow. Normally when I take a homeopathic I don't feel it. But if I am really exhausted and I take Aconite then I can feel my Energy restored within minutes. But if I repeat the treatment again I won't feel it. Therefore, when working with Plasma we have to always consider the conditions and how things interact. In Matter state thinking something works or it doesn't. But in Plasma it's about finding the right field strength and connection for the interaction and flow of the M fields to take place, and one has to be a very good observer.

We have discussed before the dilemma scientists have in thinking about light or electrons as having both properties of particles and waves. So now since they can't understand it they call it a particle-wave duality. The problem is inherent in the 'concrete thinking' of only believing in matter state as the only reality and denying the Energy state. In Plasma Science we don't have this problem because we understand that everything is created from M fields. It means the origin of everything is M fields, these are what they call the waves. When a M field interacts with the local Inertia and environmental fields they become matter state, this is what they see as particles. So there is no problem. It's not one or the other, it's understanding how Creation works and that it has two dimensions one of Energy and the other as Matter. This is what happens when Cosmic Rays (CR) enter the eyes of Astronauts when they reenter Earth's atmosphere. The flash of light is the release of high energy and it interacts with the Gans of the brain and body. If they learn how to work with their Soul, well first they have to admit they have one, then the Soul as a plasma can absorb the energy without damage to the body. If they can't release the energy then the body has to absorb it. This results in epileptic attacks, tumors, or other diseases. Mr. Keshe has helped them with this, but they still insist on keeping it secret and letting the people suffer because of it. When the Plasma Science starts to be accepted all these problems will disappear.

The question about a Savior means we still believe ourselves to be victims and weak and we need someone else to save us. This is exactly what the religions promote subconsciously. If we understand about our Soul and can work with our Energy and balance our emotions, then there will be no problems with the P. For one thing, the P is created out of the emotions of the STP and STM. When we mature to this knowledge then we'll open to receive the Universal Energy and stop killing and this will bring us to be part of the U Community. Then why do we need to believe in a Savior?

Years ago Mr. Keshe introduced the idea of pure plasma reactor that don't need electric motors to spin Gans Balls to generate M fields. As KS we were not able to figure that one out. Today he is announcing that for the first time KF systems will be made purely of plasma and there will be no matter state components to interfere. The new UBESUS Headsets are at this level. When you receive them you will connect to the main system through your Soul. He said before that many KS are already connecting to the KF systems even before they are turned on. After years of work we have finally reached this higher level of development.

On the world scene Mr. Keshe suspects the recent attacks in Australia against Jews is really initiated by Netanyahu to scare Jews to coming back to Israel. They have the habit of doing this which started back in the 1950's when Mossad carried out a number of attacks on their own people to scare them to coming back to Israel. He says, there will be no peace in the Middle East because they are making too much money from it. It's the same now in Ukraine the British have gone bankrupt and are pushing the Americans into war with Russia to get revenge for getting all the money the British stole from the colonies to save them from Germany. This is not talked about publicly, that the Americans got 400 billion out of the British for a 4 billion loan in 1939. The British want to come back into the power scene so they are trying to pit the Americans against the Russians and Chinese.

At the moment China is colonizing the world through its control of Rare Earth materials and this is creating economic problems for Western industries. There is a chance for KF technology to be used, but it won't be done at the expense of China. KF supports all nations equally. Mr. Keshe has a very difficult job to be able to satisfy all the nations needs, but at the same time not allow the "Bully" nations to continue to dominate over the others. A lot of KS are helping in the background and we hope to see some progress soon.

### **Other Topics:**

Try to understand yourself. Do not judge others as you do not know how they've been enlightened or what light and knowledge they have gained. Try to discover what you do not know about Creation and then go in the direction of gaining more knowledge;

3I already connected to our human ancestors during their past visits. Whenever they passed over our planet they also established a connection to us and that is recorded in RNA and transferred to DNA.

The Soul is always free to decide. We cannot force a Soul to go against its own direction and wishes;

We hope everyone has a wonderful experience receiving the fields of the Creator on Mitra's Birthday, which is really the same as Christmas.

Thanks for listening.
