

# 628th Knowledge Seekers Workshop February 05, 2026

(Transcription, Editing and Proofing done by KF Brazil)

(Auto transcription by Elias)

Clarifying Newton's mistake 300 years light both particle and wave; Light is M fields - H & C14; Light is both wave and particle - photons; Particle - manifestation of God in matter state of Creation - waves interact to create particles; Particles can become waves - One is creator of other; Newton forced theory; Newtonian Laws - some incorrect; Particle creates wave of itself; H wave becomes particle C24 or C16 - becomes matter; C14 becomes Mass - creates wave then particle or matter; 2 slits test proved wave - Newton's proved particle - both right; Depends on frequency of wave & pulse of particle; Light of Creator as H - changes to particle - becomes C14 - how matter created on planet; Particle or wave - frequency; Longer wavelength becomes emotion - AA; Transmutation - emotion is connection between STM & STP - squeeze to target wish; Wave between STM & STP creates light; How Man created - same as light becoming particle; Use breathing change emotion - transmute; Become light beam; Wave interacts with reflection of another wave - creates matter; 2 slits experiment makes white & black stripe - is Black Hole (BH); Same as brain - STM is BH - white brain matter; Higher and lower order wavelengths interact- creates BH - STM -Yin and Yang; Dark Matter; Become invisible; U has no boundary - keeps creating waves & matter - it's never ending - see as far as knowledge; Collection of centralized positions; U is really Unicos; Direct path to light of Creator; Ethics & understanding Creation - Creator in center - Man made up concept of Universes; Light of Creator within every STM - vibrates - waves of lower strength create emotion - where our emotions come from; Receive Creators light everywhere - back side; Barrier put by religions - Prophets for own profit; Don't need intermediaries - keep from understanding Creation; I am the return of Christ - Methi, of my own Soul - I reflect light of Creator within me; I am Him, I reflect His light through my Soul; At death - free Being - land anywhere in Creation; Light reflected in prisms - spectrum - each color same position rainbow; Same with light of Creator - creates life in every position - not exclusivity of Earth; Wave of Creator interact with itself - create sun & enlightenment - interact with waves of themselves create P - stars, human race, living Beings of U; Remove myths - nothing between us and Creator; Receive same fields - same love; At death become part of STP of Creator; Our Creator part of bigger structure of the Creators; Temples, concepts of planets, Galaxies, and Universes deny the truth; Prophets got enlightenment - abused others; Children of Mitra - from waves and emotions; Enlightenment Games, ONN; Purchase Keshe Coins (KC) from March - start trading; Need a lot of support; Become registered member KF internationally; Receive donations; KC not traded outside KF - no speculation - tight control; Income from Game - enlightenment; Gift Units to world leaders; 6 months take hold; Subconscious take over conscious - bring changes; Don't have to steal to eat; Later buy food; KC not lose value - earn 3%; Supported us 20 years thanks; KF Store seasonal packages; Become retailers and resellers; Ray creates wave - light - collection of M fields - interacts with itself - creates own Weight - particle; Connected to source; Penetrate object - change frequency; Source cannot block - undetectable strength; Frequency - matter & pulse - plasma; No matter in plasma - no interference; No difference between particle & wave; Wave creates particles; Different strengths of light; Wave creates particle in condition of gravity; Light

travels through vacuum of Space - needs to hit - to see; CERN - trick; Center of Sun has pulse; 3I - Atlas poked holes in surface Sun - charged itself -eruptions; Medium of wave - environment; U - soup of waves - depends how waves interact; Galaxies - third wave; Field barrier between galaxies; Energy soup; Space probe - became intelligent; They limit our knowledge; Netanyahu setup Trump's son-in-law - Messiah - 666; Teach through Enlightenment Game - no abuse; How light becomes you - respond back; Part of Creator; Teachers - open hand of crooks; Fly without craft - craft is you; Not on edge of U; Light of Creator touches STM creates a wave - Creation - Soul of Mitra; Don't measure love - giver; Strengths of love felt differently - own fields, waves; Reflection of love; Feel emotion of H; H - all contained in one field; Emotion connects all layers - reflection of P in energy; Everything has Soul & emotion; Kicking a stone; Special session - Valentine's Day - make you fall in love - bandwidth of love; 2 different physicality's; Change society through love; We classify love; Real or fake love; Fake charity Social Media; Birthing & new born - KF T - help emotions; Natural sugar CH<sub>3</sub>; Ca seed in every cell; KF energy essence products - in European pharmacies; Peace Game is not money game - peace of mind - money to survive; 23 million dying of starvation in Africa; Mothers not sell children; Everyone gets KC; Needy will make it a world currency - get enlightened - not the wealthy; Nobody between you and Creator.

## ENGLISH TRANSCRIPTION

(:07)

K- Yes, thank you very much. Good morning, good day to you as usual wherever and whenever you listen to these series of Knowledge Seekers from Keshe Foundation Spaceship Institute. (:08) We welcome you back and hopefully we'll have much more to understand.

Today, part of learning is in a way, bringing the past two or three weeks into a point of completing what started 300 years ago, plus by Newton. And then as usual we saw a crook called Einstein try to get into it and he couldn't find out, he couldn't understand it. And he came out with a coin phrase of "God doesn't play dices." We talk about the light, now that we know the light is made of Magnetic (M) fields. And now that we understood about Hydrogen (H) and we understood about Carbon 14 (C14), we understand that Einstein has no clue, he wasn't a scientist, this is most arrogant things he ever made out of his stupidity, saying that, 'God doesn't play dice.' Because, if you are a physicist, and you understood, and you would have come to the depth of understanding, that there is a difference between wave and particle, or what we call, photons, and we have called it different names.

In a way, manifestation of God in a matter of Creation. What does this mean? It means, if you have wave, from the interaction of the waves, you create that particle. (:10) And if you have particle in working in a direction of interaction, you lead to creation of wave. One is the creator of the other, where Newton tried to say, "'the light is a particle.' He came up with different tests, and then another scientist came out with a test that proved that the light is a wave, and after a couple of centuries (decades), because Newton was

desperate for a position in the society which he was in and he wanted to go his. He put it slightly in the half way direction to protect his position as a head of the, what we call, ?? (Royal) Society (of London) and the rest of it. (Whatever) he was part of, and he fought all his life to become the head of. And that's why we got stuck with the Newtonian Laws. In fact, Newtonian Laws, some of them are not correct. Because when it comes to the particle, and when a particle moves in the dimension of, what we call, dense atmosphere of its own vibration, it leads to creation of the wave itself. So one is creator of the other, and both are creator of themselves and the other.

In this position, as we talked about the Hydrogen, Hydrogen becomes the particle. Or behaves like a particle, as a wave, as a photon. And then interacting as we said, with a C24 or C16, in reflection of itself, it gains momentum that becomes a matter state, (:12) C14, which now that it has a Mass, it creates a wave, that the vibration of the matter is created, leads to creation of particle again. So, if we understand this, which has not been understood by the world of science, we have up till today, that in fact, in a way by the test we've seen, scientists try to show us, when you shine a light between two grooves, then they show a wave pattern, and so light is a wave. And Newton with his test confirmed that it is a particle. But light, depending on the frequency of the wave, depending on the pulse of is what we call a particle, it creates the dimension of the conversion of the light to matter state or wave, and the wave into particle. This is important for us. This is where the light of the frequency or the light of the Creator as Hydrogen, in interaction with conversion or with the higher order, changes to a particle which becomes C14, which becomes the essence of the creation of the matter in this planet.

So the particle, what we try to say it is, creates a dimension on frequency, how it becomes a wave, and how that wave, what it creates, what frequency does it. As we've seen in the later stages of the science, we know that the higher frequency, which means the shorter wavelength the more straight line the particle becomes, it behaves like a light. And then it has a power, (:14) it has a structure that it can destroy. When we put a high laser beam as a light on the surface we can melt it. But if we open it and make it much, much longer, then it becomes emotion, does not penetrate to destroy. It creates a vibration which moves the cell structure of the amino acid (AA) of the Man to give answer to emotion. This is where us as a human being in transmutation we have to understand this. This is why if you go back to the teaching of early last year or mid last year, I explained that emotion is the connection between the Soul and the Soul of the Physicality (STP). So you start with a lower frequency, which is the longer wavelength, in the understanding of the emotion, and by squeezing it, by making it more direct, making it so narrow, in the target of the wish, you create that wave that it allows you to create the interaction of the two Souls, which is the Man's Soul and STP, in direction of pressurizing, interacting with each other, lead to the creation of light.

I made Man the image of Myself, where Man comes from the interaction of the fields of Me, in a vibration of his own wavelength, that leads to creation in interaction with the atmospheric condition of the Earth, the manifestation of physicality (P) of the Man. Where now the light becomes particle. When you as Knowledge Seekers (KS) understand this, and this is how I said, by breathing you change your emotion and directly in the

dimension (D) of the fields of the emotion to tightening it, (:16) to bringing the Soul and the STP together, you create a new Time, and that Time becomes the creation of the dimension of the transmutation. Which means now you become a beam of light, and with it, as it's Magnetic field, has no speed, and is beyond the speed of light, has its own dimension, and its dimension is dimension of the Creation. And where the Magnetic field of the Soul of the Man (STM) and the STP finds balance within each other, leads to the manifestation of the Man in the Time, Place and point of position. Which means Man's true emotion at the lower strength of the emotion of the physicality, can lead to dimension of the higher frequency, faster speed and light, in dimension ?? and transportation of his own Soul, which creates his own new Time.

Einstein never understood this, and Newton understood half of it, because he was too eager to prove that the light is particle. We know this, and he emphasized it in his book, as what is known as optics. But we understand now that the light is the Creator, which is the Hydrogen, and becomes the particle, when it becomes C14, which creates a wave, and in interaction of the wave with the wave of another dimension of reflection, leads the creation of matter.

But if we understand this, and we go back in history of the physics of the Man, we understand something very interesting. The theory that the interaction of waves, if you ever tested this in your college time, university time, (:18) it brings you a fraction and it brings you a friction of the particle together, where you shine two lights, a light through two groves and then you see stripes of white and black, white and black, which means you create a wave and you create particle at the same time. But if you understand this, that the interaction of the two lights leads to the creation of the black stripe, means, with a simple understanding, the creation of the Black Hole comes from lights of two entity. The Soul of the center and the Soul outside. The STM and the STP, in interacting within the center of the brain of the Man, creates that Black Hole. And the white is the brain of the Man.

Go through the books of physics, try to understand the interaction of the light. And then read some 2-3 centuries ago. We saw, we never understood. And as I said, the most crooked scientist have been given credit for all his wrongdoings a wrong talking, he says, 'God doesn't play dice.' God never played dice. The ignorant don't understand, the interaction of the light with the entity creates what we call wave. And the wave interaction with themselves creates the light, the what we call, Mass. What we call light, in the dimension of photon. And then, we understand how easy Man could have solved this problem centuries ago.

And, once you understand this, once you understand that when two waves, two come together, (:20) they lead to the creation of the... what we call matter, or whatever we call as the light itself again, it breaks the light to the light and dark. And then, even we understand why the brain of the Man has the color of the white. Why is it not any other color? Because when, as I said, you find that Soul, which comes from the interaction of the energy inside, and the energy outside, which is, one is the energy of the STM, and the one is the energy of the STP of the Man, they create that black light. And Man has called

it a Black Hole, where inside is the Sun, inside is the light, because if that was not that source, and it wasn't interacting with the STM, we could have never had the structure of the white of the brain.

It's a confirmation of the World of Creation, where the higher order, lower wavelength leads to the creation of the plasma of the center of the STM. And the same thing of the higher wavelength, or what we call wave of its own frequency, with it creates that Black Hole, which we call in the center of the Man, the STM, cascaded by interaction of the field of itself with the field of the Soul, create that dark position, which we have seen in X-rays and everything else. And this is why, if you cut the Soul, if you manage to get to the Soul, you see the light inside, because it's a plasma of itself in center. And go back to the test, three centuries ago, two and a half centuries ago, during the Newton time, (:22) that scientists trying to prove that Newton was wrong, and the light is not a particle but is a wave, he clearly demonstrated it. But Man never understood. And as I said, we come back couple of centuries later, we find a charlatan like Einstein, saying that the guy plays, does not play dice. Does not need to play dice, because exists both at the same time. In the Chinese language we call it Yin and Yang. And the interaction of the two, as a center fields, always creates a point of balance.

And then, if you understand this, it solves another problem for humanity, which we call the Dark Matter. In fact, you become a dark matter, you can become invisible to the point of observer, due to, if you can create Magnetic field strength inside, that balances with the outside. In the dimension of the plasma of the Universe. And this is what Man, when becomes Man of Universe (U), when become the traveler of the Space of the Universe and Unicos, will understand something very interesting. And that is, the light which we talk about, the Universe which we say we see, is actually never ending. We only see as long as the torch of our knowledge can show us. In the world of the physics and in the world of astronomy and cosmology, what we have seen, it's very, very simple.

The world of science tells us, the Earth is in this position, and... very interesting. (As usual, the system doesn't work when you need it). (:24) So, what we see (draws on Whiteboard), this is the Earth, and we are in a Galaxy, and they tell us that the Universe is this. And then we say there are Universes. In fact, if you understand deeper, understanding of between the light, between the matter state of itself, as a cylindrical, what we call, plasma. And then, the wave which it creates, that wave creates, even though the Space is vacuum condition, it still has a friction, and to get through, it creates that wave. It leads to, and when it hits, when it comes in interaction with another reflection of itself, it leads to creation of matter state. So, what we are actually seeing, that they've told us that, "This is our Universe, and this is what we see, and we call it the Unicos." Is that, like a Man standing in the dark, and lighting a torch. His world is as long as that torch can see.

So, when we stand on Earth and we say, "This is the shape of Universe", it is as far as we can see. Or we have managed to see. When the Man understands the position of the particle, and the wave, and the creation of matter, Man will find out something very interesting. And that is, in fact, in reality of the truth, very simple. And the simplest part

of it comes with this, that there are no Universes. (:26) There is no end. Because we have seen in the torch of the Man, in what Man can see. When we become more educated, and we see more in depth, this Universe will increase. Because it's our knowledge which has given us dimension restriction of the Universe.

At the beginning we thought the Earth is the center of the Universe. Because we never understood the process of the Creation. And now our scientists tell us this is our Universe. But in fact, it's the dimension, same as this Man, what he sees as a torch of it. When our knowledge increases, we understand that the Unicos is the collection of the totality of the creation of the fields of the Creator, where the center is not us. Because even today's dimensions we teach us, the pictures we see, is this. How do you as Man see in the dimension? How long does your torch, how far your torch can see, this is your Universe? We were centralized, we thought the Earth is the center, now we moved. And from the new understanding, if you understand the condition of the wave and Soul and the interaction of the STM and the wave, we come to understand the reality that in fact, not we are not only on the edge of the Universe, the galaxy, we are part of unknown size of the Creation, the Creator. And our Creator, what we call the God, is here, but we have not extended our knowledge to be able to understand His presence and His position. (:28) We call a center of Universe, but in fact the center of the Universe we have not ever seen. This has been the center of our Universe, where the reality is the Creator is there. When our knowledge, our purity of understanding the knowledge of Creation extends to the point that we understand the totality of the science of the Creation, there will be no dimension except that we will see our Creator in the knowledge of the Man direct.

We started as Earth to be the center, now we have changed our mind because we understood a bit more, and the way we teach we open the path directly to the light of knowledge of the Creator, where there is no Universes, restriction, and there is no, as I call, dimension of the torch of the understanding of the Man, in how far his torch goes, and how much can enlighten. This is the enlightenment of knowledge. And then we understand there are no Universes as a Unicos, but it's a collection of what those who are created can see in the dimension of their own creation, which makes their own world and the Unicos. It is as we said, collection of the centralized position of where the source of the energy comes as a light which itself, through the friction of the creation of itself, created to shake and create a wave, which that wave, with the reflection of itself, lead to creation of the matter, what we call entity, and then that entity in the vibration of itself, lead to creation of waves, and again the waves with each other, lead to creation of interaction, particles. (:30)

Now we understand why they have told us that our Universe is this shape, because that's as far as our torch of knowledge goes, not a torch of light. But, once we come to that point to understand, there is no limitation. And it's us who has created the false flag, what we call, Creation, that our Soul is somewhere in another dimension of Universe. Where in fact, if you understand knowledge of the teaching, especially in past two, three weeks, as I said many times to you, they are most important teaching of the Man in the dimension of Ethics and understanding World of Creation, this is where your Creator is. You have made Universes, not Him.

And with the teaching we do, we try for you to understand that you made the barriers. This is why we say, the light of the Creator is in, within every STM. and in vibration with its environment, creation of the wave, and a lower strength, we call it the emotion, leads to creation dimension of the Man's emotion of life. Now you understand it. There is no barrier in understanding the World of Creation, and where the Creator is, except our own limitation of understanding, of our own creation, the limit of the Universe has been the limit of Man, knowledge of understanding itself. And the further we look we see our Universe is nothing but a Unicos, which in fact is the collection of the Totality of the World of the Creator. And we all receive the light of it, the same as we receive the light of the Sun, (:32) does not matter where you are, even you are on the back of the planet, still lights onto the moon and shine backs on the Man and this is what exactly what the Creator does.

Limitation of understanding of the Man has been limitation of understanding there is no barrier between him and his Creator, except those who created the religions to make themselves profitable for their own profit. Man has to understand, I made Man in the image of Myself. I don't need no intermediary, and I don't need anyone to make the Universe for the Man, for him to be separated and barred from understanding the creation of Me. I am the return of Christ, as I, much as I am the Methi, of my own Soul, as I reflect the light of the Creator within me. Now as Knowledge Seekers you understand your position with your Creator. There is no Universes, and the Totality sits within the structure of the life of the Creator.

It's the Man, it's like you being in the jungle, and there is another animal in the jungle, and each one of you have a torch and the eyesight to see a distance and this is your Universe. Now you understand, there is no limitation between the light and the creation of the STM. And the interaction of the waves of the STM and the Creator and the STP of the Man leads to creation of the physicality of the Man, and then you become the STP of the Creator in respect to the Soul of the Creator (STC), which reflects in the Creation of the World of the Creation, is physicality. I made Man in the image of Myself. It is the Man who has denied my existence, (:34) by charlatans, the crooks, Ayatollahs, Mullahs, priests, and the rest of it, that they can abuse the STM for his existence.

Now you understand, your Universe is part of the Unicos. You made the Universe as you made the Earth to be the center of the Universe. That was the level of your understanding. And if you understand this, you can travel anywhere within the dimension of the Creation. There is no limit. If there has been no limit for the Love of the Creator, the star which shines within us, how come Man has made, the size of it, and he has called it Universes, because that's as far as his torch can see. You're not out of the jungle, just because you don't see any further than the end of your torch. You're not out of the World of Creator, just because you decided, this is how my Universe looks with these galaxies in it. Because, if the knowledge of the Man extends, you understand, there is nothing between you and your Creator.

Now you understand what's the difference between the wave, and how wave leads to the creation of the Man. And how the particle, which itself is the essence of the light, which is the Creator, is the connection directly with the Man. Nothing can stand it, like a, what we call, neutrino, crosses the whole of the Universe, to reach to the Man. The barrier of creation of the Universes is the lack of understanding of the knowledge of the Creation and the Creator itself. As there is no barrier, (:36) there is no limitation in access of the Man to the knowledge of Totality of the Creation, as he has created, and what is available for Man to understand. But Man has to understand, to what wavelength, to what frequency, to what pulses of the energy from the Creator ?? leaves (?? leads), where, within the atmospheric condition of the field of the Universe, from the Creator is pulses, and within the structure of the matter state of the creation of the interaction of the waves, lead to creation of particles and frequencies.

Once Man understand this Man has tapped into understand that I am Him, I reflect His light through my Soul and through interaction of what I have created with the interaction of the dimension of the physicality of my existence, has become me. On this part I look like a Man in a dimension of field of the another, it creates a creation of star. Now you understand, when I tell you, when you leave your body and when you become the Soul on itself with the dimension of physicality, you as an entity, as a being, as being part of, in effect you are free and then with the new balance of energies you can land anywhere in the dimension of the fields of the Creator and you're still enlightened by His existence.

Now Man understands there are no Universes except the Unicos. Universe is as long as a position that the Man's torch can see, exists along the line of the creation, exists in the dimension of understanding of the Man and enlightenment of the Man of the knowledge of itself. (:38) We all have, we all get shined on, we all see one thing, that is what we call the Hydrogen and in interaction with the dimension of reflection of its fields, in C14, in the environment of the existence of us, to C12, we manifest ourselves in the body of the Man.

In a way, if you ever played physics, and ever played with the prisms, you know, that light is always there in that color, in that spectrum, in that position of the rainbow. Because, if you, whatever you do with it, that's where it's going to be, then you understand, if you ?? play the light of the Creator, and interact it with the dimension of, you understand, if that color happens to be and always is there, then you understand, in any position with the interaction of the field of Creator, there is life. In respect, manifestation of his own Time, Place and Position, and life is not exclusivity of this planet. Wherever the wave of the fields of the Creator interacts with this light of the Creator itself, leads to creation of the Sun, Enlightenment. And then, when the interaction of the fields of the waves themselves interact, lead to the creation of what we call physicality, which is life, in dimension of stars, human race, and any other created living in the Universe. And His light has reflected back on Itself so many times, and we understand, life is not exclusivity of this planet. As we create a dimension of the connection to understand the Totality.

And if we take all these myths away from it, (:40) we understand there is nothing between us and our Creator, except the veil imagination of the Man himself. As now, we have extended the light, that torch which is in the hand of the Man, which is a torch of knowledge for Man to understand. There is nothing between him and his Creator, except him, he has made that division, that separation, that it allows others to abuse Man. There are no need for Prophets, except profit making. And there is no need to understand anymore than knowing that the limitation of the Universe, is not for the Man to understand, to live with, but for Man to understand that he has a direct connection, directly from the Source. In a way, by clustering yourself, you receive the same field, the same love. If you have a kidney, do you love it less than your heart? Do you have less love for your lung than you have for your intestine, and for your arm or leg? Because it's all part of the same.

As the most beautiful poet of Iran said, and he's on the head of the United Nation, << Farsi language >> Now it means, humanity is part of the organ of the Creator, and for Man to understand. We are part of that heartbeat, and in that heartbeat, we decide, in what condition we, as a entity of living, dictate to manifest ourselves in the dimension of physicality, or at the point of death, when we separate, in the dimension of interaction of us becoming the STP of the Creator to manifest ourselves in dimension of physicality of existence, (:42) any point in the fields, where His field exists and interacts.

I hope you understood for the first time how close you are, how connected you are directly to the light of the enlightenment of the Creator. This is why there is no difference in love and understanding of the process of the Creation, between the Creator and the STM. It's the dimension of physicality which Man has made himself to be separated, through the lack of his knowledge, not understanding, and not being in possession in the process of understanding of the Totality.

But, there is one thing which is interesting. In what field this Creator moves? Is this Creator part of the bigger structure of the Unicos, of the structure of the Creators? Singularity in Totality is the limitation of the Man's lack of understanding of his own Creator and no more.

Today's teaching opens a Pandora Box for those who are understanding the process of Creation, and for those who understand the process of Creator. And for those who want to be cheated by the knowledge of denying of the process of Creation. One day, the world of science understands this, (:44) and one day there'll be no crooks to be called the Prophets and clergy to rob the STM for him to understand there no intermediary between him and his Creator. We made the temples, we made the (concepts of the) planets, we made the galaxies, and we made the Universes to deny the truth. And now the Man knows the truth. One day Man will understand that what I call the Prophets were nothing but those who were enlightened, they abused the enlightenment for their own benefit. I made Man in the image of Myself, because I shine on the STM direct, and the vibration of the waves of His existence, leads to creation of the new cycle of life.

This is how the Children of Mitra will be born, out of the wave and the emotion, and not out of the dimension of the physicality of the Man. Does Man need a Messiah. Or Man has to understand, the only Messiah in the life of the Man is the Creator Itself. And this is why we call ourselves Universal Teachers. As we understood the Essence of the Creation, and not fooled ourselves with the robes of the name of Prophets. We go for a break, we come back. And I hope as Knowledge Seekers, I have opened the truth into your eyes, and for you to understand how close you are to your Creator. You need no intermediary, unless the lack of understanding of yourself, and the process of Creation has brought you to that ignorance, which you'd like to be abused. (:46) We go for a break and we come back. And I hope we opened a new chapter in the life of the knowledge of the Creation. Rick, take us for a break please.

>> **BREAK** >> 628 KSW February 05<sup>th</sup> ... (:51).

K- Thank you very much. I have a very good news for you. Hopefully, the masters of the, what we call, the Games, have managed to complete, and we test the completion of the Units, we've been told they are completed today, by next week. And once we test and get a confirmation of the, what we call, system working perfectly, the first 25 ONN's (One Nation Network) will go out, hopefully before end of this month. (:52) And then, from there on, we add our pieces together, to make it to, whatever it's going to be by mid-March, and we try to cover the 10,000 Units we need within 2027, or 2026-27. Thank you very much for your support.

And in a way from now on you'll, once the system goes on, you can go to our points in purchasing Coins, and from March onwards, we can start trading with other Knowledge Seekers, for purchases and everything else, through the, what we call, the Keshe Coins (KC), as part of the Keshe Foundation internal structure of the currency. We try to bring this very rapidly on the International level, that you can trade around the different countries, with different Knowledge Seekers, with different organizations, pay for tuition fees, which is guaranteed, will be guaranteed, by the assets of the Keshe Foundation, Markray Corporation, and backed by gold. And, this will bring us, I've been waiting a long time, as you lot know, for months, and a long time, to get to this position, that we set up our structure, that, through what we call, Coin Currency international dimension to Keshe Foundation, that through playing games you will start understanding, for the first time, games can be cashed in, games can be part of the sources for Man, that makes Man independent of what we call financial structures.

We need a lot of support to complete this 10,000 Units. It does not stop. And the beauty of it is that as of today, you Knowledge Seekers can and you can become, (:54) does not matter where you are in on this planet. Part of the Keshe Foundation, registered as a members of the Keshe Foundation Cooperation Organization internationally, that allows you to register yourself and this will be used later on as what we call the link for the structures of the Keshe Foundation worldwide in different dimensions and ways to go. Rick, I have sent you a link that this link is the Keshe Foundation, you have to be part of the Keshe Foundation structure which is we setting up in a further dimension. For the time being, you can go to this, what we call, link, register yourself as the members of the Keshe Foundation. It's on your link, Rick, if you want to put it out. We will put this out furthermore, to become a member of the Keshe Foundation, you have to register. And by law, to pay a fee, 1 Dollar, 1 Euro, whatever it is, that you are. Then you want to be a registered member, or whatever.

And there is a certain type of donations opened up to this channel, it is an International Structure Foundation. As what we call, the structure that will operate, till we sort out the Keshe Foundation structure in Holland, through the fraud which is, we were entangled with, and then restructure it, that the way it'll be. (:56) So, if, and further on with this, we will allocate, through the Keshe Foundation, the International Cards, which means you are a member, and that membership becomes your International ID, as part of the Keshe Foundation work. But you have to register for it. You can donate whatever you like, there's a donation sign, you can pay towards the buying of the ONN for, and you can donate anything for any research you like. But, what we lost the structure in Holland some 4 or 5 years ago, now it's structured this way, you have to go and sign yourself, as a member of the Keshe Foundation, and then in the future, very soon, you'll be given an ID number, your international ID number, that will take this one even to the players, that they all be registered. And then you can literally exchange, buy, sell, and do anything you like, or support the Foundation to for research as it's set up.

<< Rick have a problem with the link posted by Mr. Keshe. ... >> (:58)

K- So, you can go to Keshe Foundation dot AT and register yourself as a Knowledge Seeker, as a member of the Keshe Foundation. And if you can put it up on the screen that people can take it.

R- Okay. I'll post that in the chat as well.

K- This is part of the next steps of the, part of the Keshe Foundation International work. That we keep the Coin within the structure and we'll bring everything to be signed, to be part of the Foundation. This covers us for a lot of legal terms in the future to come. And, many of the people who play the game, have to connect to these kind of structures, to be registered as a member of the Foundation, that the Coin does not become a trading Coin outside, that there is no speculation. (1:00) And we can keep, we can keep control of the structure. And how things works with us.

And hopefully, as Knowledge Seekers start receiving your, what we call, the Units, you have to go in, you have to log in, use your, what we call, connections, and then your registration, and gradually start playing the game. It can give you an income, and at the same time, it's not the income, it's bringing enlightenment. It's trying to get you to think about peace, and live in a peaceful way. A number of these will be gifted to the world leaders in our meetings, in the upcoming meetings with ambassadors and the rest, that they can connect themselves into play with a game of peace. And we'll see how far this will take us and where we'll end up with, and how we become part of the structure to bring One Planet, One Race, One Nation, and One Currency that, then we don't have to be better than the other, and we need to dominate, because we are all equal in using it.

We'll see the connection between the Foundation and the Keshe Coin, maybe it takes about 6 months to a year, when hundreds of thousands of people start playing to earn a living, but as they play every time, the Ethos sinks in. The subconscious will take over the conscious, and will bring changes. Is not to play anymore, as what you understand, I don't need to take to play more than what I need. I don't need to buy 10 games, 10 different names, and (be) fraudulent to make 10 times more. In a way, what takes it the wrong way, will pay it the wrong way. (1:02) And we'll see that process. We'll see how the structure will take place.

And, sooner or later we introduce different structures, and more elaborate game plays in this structure. It'll take time, as you are helping us, we're finding the problems. And thanks to those who help us with this, the structure should change gradually, in a way that you come back for more, and in coming back for more to understand more about knowledge of the Creation, become more peaceful to understand what we know is nothing, compared to what is the knowledge of the Creation.

I hope you enjoy the... it took a long time to complete this system to be, and I received a message this morning that the Units tested are okay. We do a further test next week, and then the Units will be distributed through our offices in Austria, and then as you receive it, please confirm you received, and just plug and play. And you just plug your Unit in, our system sees it, recognize it, and brings it into play, and you become part of the structure, that no nation, no government, can bring this system down. And the more we put out, the more become... we become independent, One Nation, depending on its own finances, which is the whole of humanity. The game really starts from 21st of March this year. Not only the game of the playing of the game of the, what we call, enlightenment, but the game to change everything, as more and more people, initially out of the greed, they walk themselves into the peace. There is no more need to be on the street, to steal, "I sit and play a game and I have the money to spend what I want." (1:04)

You will hear in time coming that people walk to a kiosk in the shop, "Do you accept Keshe Coin? I want to buy a bottle of milk." "Do you accept Keshe Coin? I want to buy a piece of bread." And gradually, the Man who runs the shop, goes to the wholesaler and says, "Can I pay with Keshe Coin?" And he has that value, he don't lose it, there is no currency plate, stays as a thousand Euro, and it keeps its limit, which promised to everyone. We started the game 19... 2017-18, and now the real play, game of life starts

with this process. No nation is higher, there is no dollars and there is no RMB's, and there is no whatever, whatever. Even those who change into currency of the Keshe Foundation Coin, which means security, that your money stays your money, and there's no fluctuation that one day you are rich, and one day you are broke, because depends who decides how it goes. Stays as a solid stay space, you can buy Coins and with it, earn a 3% living, as we agreed from the beginning, in Keshe Coins, and then spend it, it's your investment. I thank those of you who supported us for decades, for ten .. twenty years, to get to where we are now, and those who are joining us nowadays, to support us for the next generation to change, and bring that change across.

Those of you who have time, when you go to the stores of the Keshe Foundation, the new sessions or parties gets divided into the Spring, Summer and Winter packages, and the Spring package has been set up by the Keshe Foundation, what we call, team in the background, that whatever you need for Spring, is not anymore Christmas and New Year. But, it goes by the season, what you might need and what is there. (1:06) And soon, and the collection of the Keshe Foundation products, will increase quite drastically. You can buy from potatoes, from lettuces, from what we call the ONNs, to generators and the rest, and what we are setting up is, as you helped us for a long time, to move and change, to be in stock delivery.

Start looking for the Keshe Foundation logo goods, from the household goods, and to groceries around you, then you can buy plasma products, in what we call Cosmic Rays products, that guarantees Keshe Foundation has a hand in it, and support it to come in forward. And gradually, in next few months, you will start seeing these products around, the Keshe Foundation. You can open shops, and buy Coins of the Keshe Foundation, shop from us, and retail from us, become reseller of the goods, through the Keshe Coin, and purchase Keshe Coins, and get paid by the Keshe Coins, and you know we guarantee in the background. Gradually, we build this process up, and we are step by step getting closer to complete. As I said, we do not discuss anymore what we do, till actually hits what we call, the confirmation of delivery.

Are there any questions?

Q: ... I have some questions. (1:08) Regarding the structure of the Universe, you say, a ray comes into an environment, and it creates a wave. Is that wave...

K- It is in interaction with its environment. A wave is not a precursor, it's the confirmation of a frequency. We speak about this scientifically, and it's got, it's got, not only the frequency, but it has a pulse to it. A ray, or what we call a light, as a Magnetic field collection, which the interaction of itself leads to creation of its own Weight, or what we call, particle. And in that process, it has a condition of continuity from the source, but separation of the continuity. In the world of physics, when we want to penetrate an object, we change its frequency, till we penetrate. We see Faraday's box, we see Professor Meyl, what he speaks about, his side of the point of understanding, that we say nothing can penetrate a Faraday box, but everything can go out of the Faraday box, (1:10) because when it goes out, it goes from the source. Scalar waves, or what you call,

Faraday box, what we call, whatever scientists have put a name to it. The wave can move, Source can always release, does not matter how you block it, just because you can't detect at that strength, you send it out, on the other side of the ?? body, it doesn't mean it doesn't exist. You have to look to see where and what strength that comes out.

So, the... when you work with the plasma, when there is no matter state, frequency is the attribute of matter state. Pulse is the attribute of plasma, which means clarity, which means no interference. And once the world of science understand this, the game of the science changes. We don't have a difference between the particle and a wave. And is the wave creation of particles, because we understand both sides. This is a crucial point in the world of science. But, you have to find a matching wave to be able to create that particle, that light. And different field strength light, creates different, what we call, strength of light. Where in prism you see reflection, when you put the light through two grooves, you see the wave of.

For nearly three centuries Man has been trying to do this, and everyone who's tried to work it out, to understand it, has come up with different games to do. (1:12) Go back and read about the history of the Newton. Our science of physics would have been slightly different if Newton didn't push his way. Because, it was the same at that time, the Einstein of today. He understood the gravity, but when he came, when he got too involved, he became arrogant in his own time, and he forced his way. If Newton would have not done what he did, by becoming the head of the scientific, what we call, Institute, and forcing his way through, and he would have allowed to say, "Yes, my word is part of it, my knowledge, my understanding part of it." Let the others say, and he would not (have) destroy those who tried to confirm the wave, the world of science of today would have been in a different position.

We never understood, with the purpose of the wave, we never understood the purpose of particle. We never understood, in totality, that the wave leads to the creation of the particle, in a condition of the gravity. He discovered the gravity, but he never understood that the wave itself, is, has, possesses gravity and the interaction of it leads to creation of, what we call particle, or light, or wave. This is why, when I speak a lot of time, we talk about the light as a particle, or light as a photon, as what we call, energy. The energy side of the light is vibration of it, which is the wave, and we see it as particle when it's itself.

And then again, how... what is the frequency of the wave? What is it meeting in its environment, that it leads it to create? (1:14) Put it this way, if I shoot an arrow in the open space, it goes on a straight line, doesn't make anything, unless it hits a target and makes a noise, and it creates that noise, it's a frequency. And this is what the light is. It carries on, it goes, and does have nothing, it doesn't create any vibration in the vacuum of the Space, unless it hits, it comes in touch with another denser of reflection of itself, of the light of the Creator. In that point, because it hits it, it creates a wave. If there is nothing, no wave can be made. You cannot drop a stone 100 kilometers up, and try to see a wave on the sea, because he hasn't arrived there, it's still traveling. You only see the wave when the stone hits the water. So, it has to be an interaction, even for the light.

This is one of the problems which now we face in CERN, and they are tricking their way in, out of everything, trying to create a beam to reach the temperature of the Sun. Because they haven't understood. The temperature that they claim to be in the center of the Sun, is actually on the surface of the Sun, not in the center. In the center is plasma, it is a ?? beat, it's not a frequency. This ?? boom which left two days ago, three days ago, the surface of the Sun, is the interaction of the field inside, with the surface. And 3I has agitated this, nobody had understood what this 3I has done to the Sun. He has made holes in the surface of the matter. It's like when you see a volcano, and you see the lava coming out, it's black and it opens up and there's more red inside it, more hotter lava. (1:16) They're in that position, and you need to poke it to open up, and 3I has opened, has poked it.

I'll explain this very soon, why it's done the way it's done, and how it happens. You do this when you need to be charged, and you need to get a spectrum. You literally suck it out, and the system delivers it, and then it's void of energy. It's trying to rebuild, we see these huge eruptions, we see this year. The worst one up to now has happened two days ago, in July 2nd. Sorry, February 2nd. And we're going to get hit in the next few days, or we already hit partially by it, and we're still waiting to see what happens to the Corona. Because, plasma does not have a Mass. So, what we see is a conversion of the energy into Mass, which is on the surface. So, inside is clean and cut. It's just pure, pure fields. If we thought December, January eruption was bad, and you saw all the snows, oh, you wait and see what this one does. Which is left today, got three of them in one go, in one day. Carry on.

Q: Okay. So, I understand some of what you said, I think, but, back to my original question. The point I was trying to ask about was, when that wave is created, a wave needs a medium. So, the wave is actually composed of the environment?

K- Matters of the environment, yes. You see a wave on the ocean? You see a wave on the water? (1:18) You see a wave on the sound barrier with the gases? We see a wave when you hit a block, and it shakes.

Q: So, the matter that's being produced by the interaction of the wave structures, is actually of the environment?

K- That's it. And, and the, and the thing is, when you have an environment like our Universe, is a soup of waves, and somewhere, somehow, always, they're always in interaction with each other, that their wave, in interaction with the others, creates the particle. Or the matter state.

Q: But those waves to interact, need to be of similar strength.

K- Eh, partially, it depends. Partially it depends. Sometime, sometime, accumulation of waves, lead interaction with a third wave, which they can do. This happens in the condition of creation of the galaxies. Which means, combination of the waves of the stars, lead to the creation and what you call, or dimension of the galaxy. And then it creates a boundary of the fields.

Q: Okay. That comes to my next question, the boundary. You said today's teaching, there really are no boundary, no Universes, as we've been, as I've been seeing them, that each galaxy has like a barrier, like a cell structure. A Universe has a barrier, but each one...

K- It's the field, it's the field barrier, we don't see a wall.

Q: So, from C14 to C16, it's just a change of energy structure? (1:20)

K- In a way, you cannot get if you are 14 to outside 14. Stronger gives to the weaker, to transfer to. So, inside the galaxy, inside the system, inside the center, you are 16. But, you are in the soup of Totality of the fields of the Creator, which is 24 energy or 60. Depends on the condition and manifestation of Time, Place and Position. Very tricky. Very, very tricky. Very tricky, but you have to understand in which soup you are traveling, and what you have converted to.

Something interesting happens with one of these bits of machines, we sent out six, 50, 60 years ago, up, and then suddenly it's become intelligent and it's charging itself, and it's doing things that the system was not supposed to do, as we hear from NASA, what they are following it. But, what they don't understand, they have entered, outside the gravity of Gravitational field of this Solar System (SS), is not that you just go in the density of the Universe, you go into density of the fields of the Universe, which is combination of C16 and C18, and partially interaction of C24. You see...

Q: Didn't they say it saw a barrier of some sort?

K- It has felt a dimension of field barrier, but it hasn't touched, it hasn't smashed up.

You got to understand the process of the Creation. We are told and they put a limitation on what they want us to see, because it fits their agenda. (1:22) To prove their intelligent. As I said before, people make things up, to be in the position they want to be and then they are important, because I said it and it's been, we've seen that with Newton, we've seen that with Einstein, we've seen that with Stephen Hawking, And we've seen that with a lot of people, which the notoriety, brings them disaster of lying, cheating and the rest of it. I mean we've seen that very recently with British Royal Family. Nobody comes, becomes somebody and then can't handle it, because, they don't know how to handle notoriety, and this is what happened to Einstein. Einstein was denied, rejected by the German Society of Scientists as a crook. And what did he do? The Jewish picked him up, locked him up in Belgium, made a new Man with pack of lies and support him, and we see what he was become. And this is the problem with the society, with the knowledge. And they are nobody, and they get attention and so, they are made to be. And we see now another one, there's another one which is coming in the pipeline, soon later you'll understand what it is. It's the son-in-law of President Trump. He's coming up very set up by what we call Trump and by Netanyahu, to become the Messiah. They're working on it. They call him the Man of 3 Sixes (666). So...

R: I think he bought the most expensive building, and the address is 666.

K- Yeah Mr. 3-6s. He. They started this a long time ago. He is set up on the throne, that's why he's got Trump by the neck, or by the nose as we call it. (1:24) He sold him a son which is a Messiah.

The whole structure of understanding the working of the fields, and once we understand this, there is no limitation. That barrier, if you understood the teaching of today, that taboo which has been around the neck of the Man for thousands of years, today it's finished. You understand, very clearly with the teaching of today, there is no limitation, there is no barrier, there is no separation between you and your Creator. Now you understand. So, if you put that barrier on, you say, do you need somebody to be in between you and Man, cheat you with the name of the Mullahs and Ayatollahs and, priests, Christ, Moses and the rest of it. Now you understand, it's you, we could, we can teach this one, because it comes to the Enlightenment Game. You are Enlightened, you understand, it's me who puts the limitation, I mean it's me which allows the abuse. No one has ever put this so directly. Because now it's for Man mature to understand, Man is enlightened.

And once you do that, you have to understand how that light becomes you. "Okay, I have a connection, what does it do? How do I respond back?" When it hits me, when the radar hits a plane, it sends a wave back to say, "I'm here." When the light, the knowledge, the Love of the Creator hits your Soul, was it just there absorbing it? Or it sends a message, "I'm here, I exist, and I return your love." That's all it is. Does it need any intermediary to tell you what the Creator said, because you feel it, it's part of you. From today on, the barriers of the Man to understand, direct line to his connection to his Creator is there. (1:26) We are teachers, and we know how to open the hand of crooks.

Now you understand, with the teaching of today. You try to twist it and turn it, there's nothing between you and your Creator, unless you create it, because to cover your ignorance. We create the tools for Man to connect themselves to their own position. As I said to a Knowledge Seeker, we've become like the aircraft builders. Now, but this time we teach you how to use, to be the pilot without the craft, because the craft is you. We got rid of the intermediaries and the machinery. Then, if you understand this, you, you decide where my Soul has to be.

We are not on edge of the Universe, as they've been trying to tell us. And this and that. We are a part of the field forces, we call Solar System. It takes our planet 365 days to go around the center position of field forces. And this cluster, our star... Do you know how long it takes for our star to go around the Solar... this light of Universe which Man calls the Universe of itself? Estimated, calculated, is it 250 million years? So, it's us who has created... we claim to be the center of the Universe, the Creation. Then we found out, we are ourselves rotating around. (1:28) And then we say, "Okay, we're turning, so that must be rotating around something, as we made the galaxies, we have been part of the galaxy." And then, we saw too many galaxies, then it had to be something containing it, so we put a barrier in.

In a way, as I explained before, years ago, if you go to it, we call it the central line of the Universe. Is that central line, that eruption we see from the Sun towards the Earth today, and the waves of it lead to creation of matter in that condition, in this environment, that we call that the center of the creation. Where is the next one? Is the Creator spherical in the field forces of shapes and we get the option of the Sun, we get a direct, what we call, fields and matters, rushing towards us on the straight line of us, but there are other bits in the middle and behind us, but if we get hit towards us and we pick it up. We are in that line. And now we understand, this is what I explained in the Creation of Black Hole, when something drops in and then you see a different field, you see a light and it leaks.

So, you have a light which is the light of the Creator, you see the light of the Man's observation point of view, in interaction of his Soul, and you create that black line, that Black Hole, and then, you call it's black. Because it's two lights coming together and the spectrum of the waves, create that separation of two lights. Inside, the light of the Creator is so bright, and in this body of the Man, the brain of the Man is white. Do you have been seen a black brain? (1:30) It is the splitting of the science, understanding, knowledge of the creation of the, what we call, the light and the wave, or particle and the wave, or photons and particle. When you become a photon, you have to interact with the environment, you create the wave. And that way, read the creation of that particle, which you were denied to exist. The light of the Creator touches, comes in touch with the STM, and creates a wave, which itself becomes what we call, this creation, the Soul of the Mitra. One day Man will understand.

Any other question?

Q: The last little question I have is, what reflects the light of the Creator?

K- Its own interaction of its own fields. It is non-dimensional, non-directional, and is non-observable from the standing point of the Creator. When you love someone and you give to someone, do you measure the love you give? Because you are a giver. It's not a pocket money, it's the emotion you give and there is no limitation. Have you ever tried to cuddle your child and show love? (1:32) And you tried to cuddle your partner and show your love? And try to cuddle your brother, your sister, your mother, your father, or a friend. And each one creates its own field, wave, frequency, and in return you receive emotion, field, frequency, and wave.

Q: So that's the reflection?

K- Yes, of course. There is no confirmation of the plane in Space, unless there is a plane, and when the radar hits it, reflects back. If it reflects back, it means confirmation of interaction.

Any other question?

R: I have a question that's come up, regarding, is the emotion of the Creator the same as the emotion of the Hydrogen atom? And, can we feel the emotion of the Hydrogen atom?

K- Of course, if you understood teaching of today, you understand. The Creator only transfers one line and the emotion of it, is within it, part of it. He doesn't send out a field or strength of, this is my love, this is my hate, this is my blah, blah. It's all in one, it's part of it, and what we call it the Hydrogen. Hydrogen is what we call the Fundamental Plasma. (1:34)

R: Okay, so we were doing some experiments in the Keshe Plasma Reactor Group, under the suggestion of Mosfeq, and regarding visualizing and feeling the Hydrogen atom. And can you give us some feedback or advice on how to do that? How can we feel, learn to feel that emotion of that tiny wee thing we call the Hydrogen atom? And you mentioned weaker...

K- It's the atom.

R: ... Weaker fields today.

K- Yeah, an atom, the field strength of the atom, is a point of our observer dependent. We are all citizens of this planet. And in one part of this planet today is a snow. Once one part of this planet is blizzard, part of us are sitting in the sunshine of 40-50 degrees. Some are on the beach and some of in the fur coats and sitting next to a fire. It's the same planet. Local condition according to the field strength of it. And at the same time, the air on this planet travels around and we all breathe it. None of us has ever had a first hand full (pure) breath. So is the Universe. The field of the Universe, the Love of the Creator, flows amongst all created. Some are in infancy, some are just becoming galaxies, some of them a star just being born. (1:36) It's like in China, a child is born, in Africa a Man dies. It's no difference between cycle of what we see on this planet, in full force of it, within full understanding of it, and the life in the Universe. The only difference is we have rain and snow, there we have Magnetic field pressures on the rest of it. The only thing they don't have there is a barbecue, huh? You can imagine if you want to barbecue a galaxy how it must smell. So, this is what we understand, and this is what the whole structure is.

As I always say, is the point of observers, field strength. Have you ever been outside and everybody says, "Look, the balloon, the air balloon, look at the kite." And say, "Which kite? Where? Is there ten of them." "I can't see. How, I'm looking in the same space." "Let me get my glasses." "Oh, there it is." Now, let me get my enlightenments and I see the truth. That's the only difference, understanding. It's always said in all the teachings from day one, Man takes from this knowledge according to his intelligence. Not his tradition, teaching, or position and possession. For the few Knowledge Seekers know who I am, because I know he listens attentively all the time. (1:38) He used to be an ambassador. And he said once, "The office of ambassador has become Keshe Foundation laboratory. Now I have moved into the meeting room to meet with the officials." He's a professor, and a leading scientist, as well as, used to be the ambassador. And he's done a

lot for fishery in Norway. He's a devoted Knowledge Seeker. He lives, reads, even changed the office of the ambassador to the lab, producing Gans's.

Any other question?

Q: ... I have a question I'd like to know. Man, like onions, have many layers. How does each layer connect to each other?

K- Emotion. Next question.

R: I thought you were going to say that.

K- No, it's emotion if you haven't understood that.

R: Yeah, and that's what you've been teaching for quite some time with the layers in the brain, for example, you use the emotion as the connecting between the layers there.  
(1:40)

K- Emotion is reflection of the physicality to dimension of energy. That's all it is. And if you understand that, you understand everything has emotion. As I said, even a stone has a Soul. If you have a Soul, you have emotion. Next time when you kick a stone, remember what do I kick. It's the noise of hitting a stone, hitting a wall, the pain of the stone. You say, "Ooh, it made a noise." When I hit you on the head, you go, "Ouch!" So does the stone. It's a Man understanding of the Creation. Yep.

Q: ... Good morning Rick, good morning Mr. Keshe. Mr. Keshe you know in the introductory...

K- Where are you Azar first to start? Which part of the world you're talking to? New York?

Q: I'm in Mexico.

K- Back in Mexico? Ah, okay.

Q: When you talk about, when you talk about love, when I look at Creator, He has unconditional love for everything, not only human, for everything He has created, because it came out of His love. But the love of human is not the same as love of the Creator, because I look at people like somebody falls in love, and then when their love is not reciprocated, they hate. (1:42) Then I was thinking, if I love someone and they intend to, I mean, they go to love somebody else, if I see them happy, I should be very happy because I love that person. And initially, I love them because I want them to be happy too. But then if my love tends to hate, then what kind of love is that? And then the love of Creator is not like that. It doesn't become like, if you don't love Him, He's going to hate us. So, the human, does human understand what is love is, to begin with? Or just because our love comes from our selfishness, not really is love?

K- Thank you very much for coming to this. On Saturday the 14th, next Saturday, is a Valentine Day, in a calendar of European time, or Western Europe, Western World. And, we're running a test (right now with KF Plasma Systems), to see how much we can get you to fall in love. And, part of that test, is ongoing at this minute with you lot in the background. We are testing you, we are running a very nice test in the background. I see the results, it's very interesting. That how you fall in love, in what bandwidth you fall in love, and what causes you to behave when you're in love. And it's very, very interesting. More and more data I see, is amazing, that when we do that, when we show the confirmation of the love and devotion, Man creates two clear physicality's. One in dimension of the STP, (1:44) one in dimension of the physicality of itself.

It's a very, very interesting, extremely interesting. As I teach, we're receiving data in the background which we are monitoring, And it's absolutely amazing how you lot are masters of loving. And we extend this into next week, next Saturday. We know how it is, we are pushing you to love, doesn't matter what you love, if you felt any emotions, let us know. And we are doing another thing, we are doing it from, we are naughty people, you know, you give us the freedom and we really, really use it to understand more of it. And today's we are testing the fields and what the parameters needed, to see how you lot, when you fall in love, do, or we can make you to fall in love. Physically it can be done, we have a lot of you under the pressure to make it. But, it needs something missing, which you lot don't have, and it'll be there in the, what you call it, February the 14th on Saturday, we have a special session. And it'll be very, very interesting. Very interesting, on how you lot fall in love, and how we can make you fall in love. And, this is how we will change the society in the coming time. Let Man fall in love with humanity and not just a man and a woman. And then we'll see how you got to react. And you see how humanity reacts to such a thing. And it's very, very, (1:46) extremely interesting. You know what it means to fall in love. I know how you feel when you're falling in love. But, it's loving a cat, loving another person, loving a child. It's all have its own field strength and we separate them.

Q: You know, because Mr. Keshe, the reason. There isn't, because you know when I, when I pay attention, for example, say, I have a son and I have my daughter. So when we love them, then I look at my neighbors and say, "My neighbor's daughter, my neighbor's son." Then I say to myself, "They should be like my daughter, and my son. Do I feel like something happened to them? Do I feel the same?"

K- We classify emotion when it comes to love. What we feel emotionally, we direct that kind of love to it, or attention to it. That's how it works. Love in Man's life is emotion dependent. That's all. We create that way for it to be.

Q: Okay, so my next observation, my next question I can say is this, you know when we say, because, you know, sometimes it has happened to me, then I realize, maybe this is, the way I think, is correct, or maybe not. If I close my eyes, suddenly, you know, when you close your eyes, it's dark. But this darkness is not dark. You're in a space. Then I said to myself, if I'm in a space, it means I'm actually, inside of me is a Universe. But what is

outside of me must be fake. (1:48) Because then that's why if I go to the one I want to create or go to other Universes instantaneous because I'm already there. So when you talk about C14 or C16 or whatever is already part of me so everything is instantaneous so it's nothing outside of me. So when I open my eyes I feel like this lenses on my eyes projecting something from inside which is the Universe to outside and just like a, it's a set up, like when you go to the, how you go to the, you become an actor, they put a scene for you, you go act on it, so when I open my eyes there's a setting, so I'm acting on it, but actually inside of me is the whole thing is inside, I don't know, maybe I'm wrong. I ?? I thought I learned it by you.

K- Oh, it all depends how we define our love and how we want to love. And what strength we put into that, what energy we put into that. That's all it is. And we classify love and emotion. If you have no restriction, no classification, you die for every single child you have. Every Man you see on the street, every woman you see on the street, but it depends how they treat your love to them. There is some real and some fake ones and it's for you to understand. Is it real? Do we have a lie detector for love? You understand? Now it's become very, very, what you call, common on the social media. (1:50) That, everybody is charitable. They go on the street finding a poor Man, homeless Man, and they give them thousands. But they don't tell you, that, "Actually, I have this thousands (?? on my Youtube channel) because, I managed to get some of the people to look at me, and I get 10,000 and spend 2,000, and I become more charitable, and more people see who I gave to." It's not mine, if it was a money from me, I never had it, so I never spend it, but I'm charitable, I show I'm a very generous Man, because, "With what I fool you with, you pay me to pay them, and I'll have a good life, and bit of it goes to them, which gives me a better life." That's how social media works today. And it's become very common, you see them helping a homeless, and paying somebody on the street, or going to a supermarket, giving people money. But, the fact is, they're playing with your emotion. Because, they used to pickpocket you, now they pick your emotion.

Q: Thank you Mr. Keshe.

K- You're welcome. Something I explained to Rick. On the 19th of March, Thursday teaching, is changed to 6 o'clock in the afternoon, and not 9 o'clock in the morning, as usual time. And as you all know, Friday 20th, sometime around 3, 4 o'clock in the afternoon, somewhere out there, or somewhere in the afternoon, is the Iranian New Year. So, those of you who understand in that position. We try to fix the 27th teaching, because, what we call the session, as it falls with the, (1:52) what we call, the Easter. Where the 20th, the Friday before, is the Iranian New Year. And so, we try to find a catch up, somewhere in between, that we can keep the sessions, but the session of the 27th of the March will be reallocated, maybe to one day before or after, or earlier on in March, or first week of April, after the Easter holidays, the Catholic or Orthodox one. Just for your notes. Carry on.

Q: ... What further advice is available regarding the development of newborns birthed using Plasma Technology and the postpartum recovery of mothers? Additionally, are there child care services available within the Keshe Foundation Wellness Center?

K- This goes in the realms of Wellness and medicine, and we try to avoid it. But as the... as scientifically known, the presence of many of energies of materials like Zinc, brings calmness. (1:54) Energies of a lot of, what we call, emotional conditions. We try to use Gans's in saturation of the fields. A lot of post-mortem (post-partum), what we call, after giving birth or before giving birth, change of hormones, which is a combination of fields of the environment, within the body of the Man, to convert the energy, into process of absorption. You need to strengthen the energy within the house. Fast energies, energies which connects to the emotion. The energies which connect to what we call, the feeling, which is within the structure of the body of the Man. And especially for women, we see presence of Magnesium, presence of Zinc Gans's as an energy, seems to be and intend to be very positive. It's especially when you have the presence of CH<sub>3</sub> within the environment in the house. What it comes short, you, you run out of energy, because then it creates intolerances, and all sorts, and the natural sugar is not the white sugar, the natural sugar, we are born, our system works, it's CH<sub>3</sub>, which is a most... the original sugar, which life created from, and the oceans use it to create life.

And so, it's a combination of making available free energy of the environment, (1:56) through materials like CH<sub>3</sub> Gans's, which helps quite a lot. And the same way, the presence of Zinc, which is on the way, in fact interacts Zinc with the neuro system body of the Man, and then you find Magnesium and Calcium, especially a lot of problem with body of the Man, is that every cell in the body of the Man, newborn or whatever, with a mother, has a seed in it, without that seed doesn't exist, which Calcium. And so, Calcium is one of the most important things to allow its availability. When, for example, you're short of in the environment to be that it's there. It's the energy which converts within the body mass. We've seen that with Corona clearly. So, a combination.

We have released from the Keshe Foundation Store in Europe, in EU, the energy essence products, which is the... you can buy it from the pharmacist in Europe, or you can ask the pharmacy, "I want such a product from Keshe Foundation" and this is it. It's now used in some of the pharmacies in Austria and other countries. You can apply for it and use it, look for energy essence material and it's there. You can see it in the store. Very soon, we'll release products on the C certification as a medical class 3 and 2. Next 12 months maximum, the Keshe Foundation products. Which then, openly we can explain to you as it's certified materials. (1:58)

Any other question?

R: ... You want to wrap things up?

K- No, give me the last question. Maybe the last question and then we'll wrap it up.

Q: ... Great Professor Keshe, since the breaking of the gold-backed standard in the United States in the 1970's by President Nixon, money in fact no longer exists. Without the backing asset, only trust in fiat money remains. And if the American public debt is un-payable, then the fiduciary guarantor, no longer exists either. The game of financing

everything has entered a speed that no person or institution can keep up with. AI is a consequence and is there to serve this game of financialization, in this phase of Capitalism. The Keshe Foundation Peace Game, however, has a Raios C3smicos (Cosmic Rays) back that serves not only Earth, but throughout the Universe. Will the money in the Keshe Foundation Peace Game save our money as it is now? Or destroy it once and for all? The Peace Game would also be the new money game? (2:00)

K- It's not a money game, it's a peace game, it's just not a peace as a peace as a World Peace, it's a peace of mind. It's peace for you. You don't need to fight for it, you don't need to work for it, you need to enjoy and become peaceful with it, and that's the beauty of it. But, we don't enter the world of, what we call, money game. We entered to use the name of the money, to create the condition outset for Man becoming peaceful within himself and with his society. We don't give you money to do this and you can become a millionaire, no. There's money there that you don't need to live a harsh life. Money is... the Coin is there to support you when there's a bad time. And you do it yourself. It's not there that people will build palaces out of our process. But it's there to give life, make life easy for those who can't. 23 million people today are dying of starvation and lack of food in Africa.

In Germany, today, due to a fantastic summer, and in America, and in most of Europe, Belgium, the rest, due to a fantastic summer, has been one of the biggest harvests, that the farmers are feeding the potatoes to pigs. (2:02) Now you understand where the Keshe Coins comes. You live in Africa, you have access to two Coins, the son of the family plays the game, and maybe the mother learns, 2,000 Euro pays, and nobody can abuse, and pays for food on the table. Don't need to prostitute, don't need to sell your child, don't need to die of hunger, and the woman, Man in Africa pays the German to feed the Man and not a pig. That's where the change will come. This is why we release up to a thousand Coin to every citizen on this planet within the next 12 months. Life is a God given right, living a peaceful life, it's a God given life (right). Man is not born to suffer. And this is what we work, all of us have done in Knowledge Seekers and Keshe Foundation as a whole.

And this is the reality which will hit many governments. When African dying of starvation has a mobile access to a mobile, the whole village has registered, pays, Keshe Foundation does the rest. They have the money to live, they don't need to work for guns, prostitution, selling their children and everything else we've seen. 23 million men does not know what to do tonight to suffer the child and the rest. (2:04) Now you understand where the Game comes in. We are not there to play a game to be addicted. We use the game Man has created to give the Man to live. And, it's not I give you a phone, you play, you give the money. We trace the money, we know where the money goes. The Game of Enlightenment, we'll see how it'll develop in the next 12 months, 18 months. When the needy makes it the world currency, not the wealthy which loses their power. We shall see. It will not be played in the gambling rooms and in the game rooms. They'll be played in the houses where children are hungry, and there is no food on the table. They'll get enlightened, not the Man who lives in palaces.

Shall we call it a day?

R: Sure, yes. Sure Mr. Keshe.

K- Thank you very much for today. We see you next week. And hopefully we'll see another side of the coin, what might be next week. But I hope today you found out, there's nobody between you and your Creator. It's you who has put the barrier of the planet, Solar System, galaxy, the Universe. And now your torch shines in the Soul of the Creator. It's you who's got to light it up. Thank you very much indeed, and see you next week. (2:06)

R: ... (2:08) A message from the Universal Council. Let me open that and put it on the screen. And, I will read it for you, it goes, "We, the Universal Council, invite the Keshe and Universal Family present at the Earth to unifying at the Soul level every time, every day, at 9pm Central European Time to give from our field strengths to enlighten the Souls of world leaders, to negotiate and sign the World Peace Treaty, pledging their nations to everlasting peace on Earth and throughout the Universe."

**628 KSW – February 05<sup>th</sup>, 2026**

**End**
