

# 636th Knowledge Seekers Workshop April 2, 2026

(Quick Index 17 pp, Introduction, Topic Index ; Need to do; Key Phrases, Words)

(Auto transcription from Elias)

Smallest affects biggest - tiny thorn pain to elephant; Man is thorn & elephant is U; Man's bad behavior affecting U - problems for Creation; U Teachers educating Man; War causing huge death - built up killing structure; Sciences - don't considered M fields; New changes - 4th D is about fields; Tiny thorn elephant - transfer emotion across elephant - likewise U; Connection of Souls of U - Galaxies, Solar System (SS), planets, STM, to Soul of cell; Sun in center of SS; Soul of Unicorns in center - each U own Soul; STC - Essence of Creation; STM little speck in center; All Souls are connected - why elephant shakes; STM does wrong STC feels; U Teachers correcting STM; Emotion dictates understanding Totality; Soul of cell connected to STM - Soul of Planet - all way to STC; Emotion of STM & STP match - create an effect; Connected to Creator through emotion; Father feels betrayed by son - prostate cancer; Creator feels same; Final phase Man's cycle - stop killing; Man created mayhem in his emotion; Emotion connected between Soul of cell, all way to STC; Same structure used in transmutation - find right emotion & how connected; Reach Creator through emotion; Teaching of Mitra - Think, Speak, Act Good; March 27 Nowruz - birthday Zoroaster - life example - Ethos of Mitra - STM becomes in unison with STC - connected through emotions; Now go deeper; Create pure Soul through thoughts, speech, action - completes cycle with Creator; Importance of P conduct - connect to STC - became same as Creator; Creator - weakest - most humble & giving; Using Enlightenment & Peace Game - understand truth; Provide for people - live by Ethos; Emotion - key to transmutation; Don't need to be monk or nun - live active normal life - attitude changes - one with life; Become true to self - enlightenment - match emotions of Creator; Think what need to transmute - create emotion to Creator; Soul is hardware - emotion software; Purpose of teachings - not religion - understand purpose of Creation; Learn from vegetation not to kill; Carrot uses energy available in environment; Man not able to learn about life from grain of rice; Process of Creation - everything connected - transmute within STC - become part of Totality; Wish for STC; Understand weaknesses; Secret in 2026 - destiny; Prepare - understand true purpose of life - not force; If move cup - move Creator; Teach you to fish - eat for lifetime - purpose of teachings; 2026 - Man will mature - here to guide; Go through CR of STC and back to Man - completion of process; Don't need Prophets; Water evaporates from ocean - returns as rain; No difference between STC & STM - ocean & rain; Everything connected, gravitated, pulled back to Myself - confirm My existence; Emotions path to Creator; KF commercialize plasma inventions; KS to teach plasma - advisors - primary to University - national school - understand Ethos; Soul of Children of Mitra (CM) - through fields; How race of U mix - M fields of love; Gay couple - CM - no limitation; Emotion - energy down spine; Emotion non-dimensional; STP is Spirit; STP back into body - Resurrection - energy through emotion; Religions - torturing P & abusing Soul; Village of Catholic nuns - deprive themselves love; Monsignors of Vatican - same as Muslims & Jews - hide emotion of love; Humans born to love; Humans trapped in wrong emotion; Love needs feedback - meaning to life - purpose of life; Tennis Bracelet; One bad intention - brings down STM; Dark side Earth more active; Reproduce at night - everything in reverse; Soul is conscious by itself -

omnipotent; War - offer KC to Iran, Philippines & Cuba; None to Israel - US has to pay for damages; Produce energy of apple; Test fish - only energy; Killing habit - position of planet - angle CR - inclination, Inertia, etc - changes Man; Earth & STM - complex composition of energies; Why differences behavior, color, etc - around world; Why all religions from Jerusalem; Get rid of Great Wall - peace; Believe in fake things - Wall; Jews paid Moslems move to Mecca - changed scriptures; Scientist M fields affect behavior; British created everlasting conflict in India; Blue eyes common ancestor; Eyes dark blue in womb; KF agricultural trial - plasma instead of fertilizers; Largest research center; About Markray; Dollar collapse; Israel radiation contamination - non-livable; Jews - build third temple - Messiah 2027; Moslems - Methi; New war to accept Messiah; Religious war - timed to match scriptures; Rabbis fooled Trump; Nuclear bomb; Both sides corrupt; Losing & making money from war; KC - guaranteed pension - work for joy & serve; Need financial & scientific support; Purchase ONN Units; New Space Center - live in peace.

## Topic Index

How smallest affects biggest - tiny thorn in foot of elephant - pain; Man is thorn & elephant is U; Man not aware - bad behavior affecting U - problems for Creation; Why educating Man to change; War causing huge death - understand how we are connected to each other - built up this structure of killing; Our sciences - don't considered M fields; Many scientists listening to us - seeing new evolutions in sciences - 4th D is about fields; Tiny thorn in elephant - transfer emotion across elephant - likewise U; Connection of Souls of U - Galaxies, Solar System (SS), planets, STM, to Soul of cell; Sun in center of SS; Soul of Unicos in center - each U own Soul; STC - Essence of Creation; STM little speck in center; All Souls are connected - why elephant shakes from tiny thorn; Universal Teachers come to correct STM; When STM does wrong STC feels; Today mass killing & destruction scale never seen before - in name of Creator; Man's emotion dictates understanding Totality; Soul of cell connected to STM, Soul of Planet - all way to STC; Emotion of STM & STP match - create an effect; Man connected to Creator through emotion; Father feels betrayed by son - prostate cancer; Creator feels same - sees STM killing and destroying; Time to stop killing - final phase of Man's cycle; Not wish of Creator - Man created own mayhem in his emotion - never seen this much destruction in history of Man; Set to bring this to an end; Connection of emotion - same - between Soul of cell to STC; Same structure used in transmutation - find right emotion & how connected; Reach Creator through emotion; Teaching of Mitra - Think, Speak, Act Good; STM doesn't talk - receives fields of conduct through talking - same as thinking & action; March 27 Nowruz - birthday Zoroaster - conduct of life - example of Ethos of Mitra - STM becomes in unison with STC - connected through emotions; Mankind given time - now go deeper; Create pure Soul through thoughts, speech, and action - completes cycle with Creator; Not imaginary - importance of conduct in P to connect with STC; Conduct - has to be same as Creator; STM & Soul of cells of body - have to be image of Creator; STM has to be corrected - not damage Creation; Man tries to be most powerful; But line to Creator - weakest of all - most humble & giving; Man's conduct going totally opposite direction - has to absorb more, so he kills & destroys more; Universal Teachers sent to fix problem; Using Enlightenment & Peace Game - to understand truth - dangling carrot;

We'll provide for people & nations - not greedy - live by Ethos & conduct of Mitra; Emotion is key to transmutation; Not just devotion - don't need to be monk or nun - live active normal life; Creator doesn't stop creating - because He does good; All life continues on - difference - attitude changes - become one with life; Human's - become true to themselves - receive & understand enlightenment & have peace; Match field strength of emotions of Creator; Enlightened to totality of Knowledge of Creation; Man becomes humble & correct conduct; Connect himself to field strength of emotion of Creator - enlightened; For transmutation - think about what you need to do - how to reach right field strength - how to create emotion of wanting to meet Creator; Transmutation - no limitation - go to Creator - true enlightenment; Provide for needs - no one needs to kill to live - or develop knowledge and T; Don't need Bill Gates & other like him - call themselves philanthropists from stealing; Live like every other creature in U - live through fields made available - not stealing from others; STM - misconduct infecting Creation with killing and destruction - fix at root of problem - Earth; Understand emotion which touches Creator; Soul is hardware - emotion software makes all connections - transmits everything across; This is purpose of teachings - not ask about religion, nationality, etc.; Teach evolution of STM to understand purpose of Creation; Learn from vegetation or Vertical People not to kill - stay in one place & receive energy given to them; Tomato, wheat, carrot don't kill others; Creator put this image in front of us - but never understood - instead we use them to become powerful; It's a mirror we don't look into - look at ourselves become more aggressive - better killers; Carrot uses energy available to it in environment; Man has to learn this; Through ignorance - steals their life; Not able to learn about life from grain of rice; Process of Creation - not through division - everything connected - can transmute within STC - become part of Totality; Have not understood where you can transmute to - its purpose; KS who came to Linz - didn't know could become part of STC - STM already connected through emotion; Wish for STC; Teachings - step by step - understand Man's weaknesses; A secret in 2026 - explain later; Meet Man's destiny; Prepare - understand true purpose of life - how it will happen - not force way - not mentally force a cup to move; Understand - easy to use emotions to move cup - then can move Creator; No difference in D of Soul - once understood; Teach you to fish - eats for lifetime - purpose of teachings; 2026 - Man will mature; We are here to guide; Why we talked about Cosmic Rays (CR) and Soul connections; Only way - go through CR of STC and back to Man - completion of process; We are connected to Creator - don't need Prophets, ayatollahs, gurus, etc; Be enlightened to truth about own creation - how created & how he returns to Source; Water evaporates from ocean - cycle of creation - returns as rain; Maintains oceans; No difference between STC & STM - ocean & rain; Understand full meaning - I made Man in image of Myself - I'm ocean and drop of rain - it's all at same time; Everything connected, gravitated, pulled back to Myself to maintain & confirm My existence; Rain upon Man beauty of My love and his life; Key to your Creator - find path through emotions;

## Part 2

Responses from KS - still looking for experts to develop plasma; Help KS who invented products to commercialize as part of KF T - send us your inventions - be more precise; Looking for KS who understand KF teaching become guides to school teachers from

primary school to University level; Don't want you to teach - only to advise teachers; Setting up national school structure - 18 months to complete; Understand the ethos behind KF work - what advanced T will bring - not just making Gans; Have to make first national school structure correct way; Learn as we go along; Teach all ages so they can understand - both matter & Energy side of creation; Scholarships - students work in laboratories - experience T first-hand; Students decide what interested in; Already have facilities & environment - more getting setup; Don't want time wasters - people to set knowledge for next generation; Need full clarity about teachings - can share knowledge - that can be understood by different levels students; We can bring whole team; Won't happen by accident - by design; Time to bring out T; We'd like to add you to collage of technology; Soul of Children of Mitra (CM) created through fields - then P decides to manifest according to Possession and Position; Now go from matter to Energy; CM from Energy to matter; CM can be field in womb of SS, Galaxy, another planet, or another D - or in Mother; It's a different level of M field strength - knowledge of plasma; Different races of U cannot physically mate and mix - have to go through M fields of love; The 2 interact - feel each other - create an Energy of their love; Environment decides how child from emotion of love manifests; If man & woman connected - child takes shape in womb of Mother; Gay couple - Children of Soul - no limitation; Understand how it works; Try using emotion - create Child of Mitra - no sperm - energy transfer down spine; Mother decides about transferring into womb - experiment; Couples prepare themselves to create Children of Mitra; Transfer of energy between male & female; Transfer love of Creator through STM; Children of Mitra need devotion to peace - love of Creator; How Universal Community mixes races; Same way transfer love to child, mother, father, etc - they feel you by your emotion; STP is interaction between STM and P; Emotion is non-dimensional; P interacts with Energy level - creates STP - Spirit; STM & STP different - becomes emotion; Easter Sunday - Christ on cross - STP - not STM; STM freed - bring STP back to body - Resurrection - really a generation of life; Resurrection - connecting energy through emotion; Emotion of Christ - loving Man to put him on correct path; Islam, Christianity, Judaism, extremism - separation of Soul from P; Torturing P and abusing Soul; Story of village only Catholic nuns - wear black habit - totally female society; All the women carry innate love to have a child - love another entity - crime to deprive themselves of that; Where does that emotion go; Monsignors of Vatican - opposite no women - Christians separated males from females; Muslims & Jews do same; Hide emotion of love; Humans are born to love - our emotion; Our own decision to hide & deny it - instead - try to understand it; Advisor to governments - want to know what's coming next, what to do, and how does he see it; Biggest problem - wrong emotion - trapped in them; Change emotion to peace - people won't listen to these leaders; Mankind misunderstands own emotion - the energy that keeps P going; When we lose everything - want to get rid of P; Or we fall in love - world not big enough; P in both situations remains same - part of being human; Possible to love even if no one receives - but we need feedback - know how much we are giving - adds value to life; Can't clap with one hand; Loving is purpose of life; One part Creation illuminated by material light - other part by light of Creator; Analogy of Tennis Bracelet - chain of matching stones - one wrong stone doesn't work; Like STM one bad intention - whole structure of Soul goes dark; Dark side of Earth more active - celebrating - daylight side absorbs; Humans reproduce at night - brightness of STM; A bright light to be conceived in dark of night;

Man does everything in reverse; Children of U created in dark of Space by light of emotions; Does Soul have consciousness - put in computer; Soul is conscious by its own structure - doesn't need consciousness - connected to the fields of U - always conscious of its behavior - not like Man, who has to think about what to do; Soul is always doing & conscious - omnipotent and omnipresent; Offer of 2.7 trillion Keshe Coin (KC) to government - they are considering; KC given by KF to government is different than KC earned by playing Game; Have to finish T in background; Because of war - millions have lost income and livelihood - give KC; Iran - first government and all Iranian nationals - receive KC; Next Thailand and Philippines & Cuba; Citizens of US only get 30% of shares - 10% to run government - 60% given to countries damaged by US; Citizens of Israel - get zero - enough robbing and killing; Talking to 8 governments - to accept KC; Want to get out of American structure; Takes time; Haven't started promoting Game - finding pitfalls; Already mined Coins - become peaceful with it; KF scientists taught how to produce energy of apple without eating it; Receive emotion without destroying it; Man get used to not chewing something; Test feeding fish only energy - demonstrate Man doesn't need to eat; Change Man's emotion; Looking for experts in blockchain; Killing habit related to position of planet - angle CR intersect Earth; Combination of inclination, Inertia, position - many things; Tested in research - observed what effects it has; Earth & STM - complex composition of energies; Seen differences in behavior, skin color, attitude of Aborigines - same Man went to Africa - same color - different behavior - then South America - Central & North America - Red Indians - features and emotions changed - closeness to work of planet; Canada - different culture - Eskimos - Russian territory - Central Asia again changed color - back to Iran & Middle East - different behavior, social structure, skin color, way of emotion; Partially changed by environment, Inertia material, climate - but always same Man; Fields created different changes - became mixture; Not present Americans - not come through evolution; Indigenous people evolved through time & environment; Recent movements by revolution; Effects of fields of planet, position, climate, land - culture of fear; People who live open life - have no fear - Red Indians; Why all religions in Middle East - conflict - plays with emotions; Chinese - shape of skull - Yin and Yang; Middle East division between white & black - emotion of religions - structure of planet; Vertical axis - no variety; N Africa, Middle East, S Europe - very emotional - pivotal point between North & South; Turmoil with races - from inside planet & that position; Interaction of Soul of Planet with STM creates these conditions; Play with; Fields interact - create P in these dimensions; How energies & Inertia of planet interact with STM creates dark skin in South, brown in middle, white in North; Fields of Jerusalem Palestine - special effect on field line - religions; Get rid of Great Wall in Jerusalem half conflicts in world finish; Fake wall - people believe in fake things; Stone in Al-Aqsa Mosque in Jerusalem - original for Mohammad; Jews paid Moslem leaders to move to Mecca - changed the scriptures; True Muslim prays towards Jerusalem; Israelis trying to wipe out old mosques in Iran - prayer walls face Jerusalem not Mecca - how fake Judaism is; Understand what's behind things - clever people manipulate masses; Russian scientist measure M field - tell if Amazon tribe was peaceful; It's reality - not concept; 1940's British created everlasting conflict - divide Muslims from Hindus in India - Bangladesh and Pakistan; Hindus vegetarian - Moslems meat eaters - face of Pakistanis changed; M fields of food & environment changed Man; M fields affects our features and behavior; All with blue eyes

come from common ancestor; Everyone's eyes dark blue in womb - change; KF running massive agricultural trial to prove use of plasma instead of fertilizers; Open largest research centers on planet; See KF logo on products in market; Next 3 to 5 years; Start collecting data; About Markray corporation; KF - no hidden agendas - like Black Rock; Decision 3 to 6 months; KC, Markray, new research center - together; Enter Chinese stock market 2028; US will diminish itself - Dollar collapse; Israel radiation leak; Jews trying to build third temple for coming of Messiah by 2027; Moslems waiting for Methi; Would they accept same Methi - or start new war; Jews have 5 red bulls to slaughter on Promised Day; Religious war - not nationalistic - timed it to match scriptures; Rabbis fooled Trump - Promised One; Will they use nuclear bomb; Supposed to end war March 28 - didn't happen - instead end of Israel; Iranians spent trillions over 40 years preparing for war; Israel supposed to destroy Al Aqsa Mosque; Israel nuclear contamination - unlivable; All in it together - President of Iran in Zurich - seen in bank; Mullahs leaving to Canada with billions; Same with Netanyahu group; Caused slaughter - now running; Bigger forces behind - lost money - lots making money; KC is guaranteed pension for life; Work for joy not to survive; Live to work and serve; No fear of survival; Not exploit people; We need a lot of financial & scientific support; KS to teach others plasma; Purchase ONN (One Nation Network) Units; KF become permanent structure on planet - re-emerged with new structure; New Space Center - for future generations - live in peace - not see wars.

## **Introduction to 636 KSW - Thorn in Elephants Foot - All About Emotion - Not Renounce Life - Love is Key - Commercialize T - Creating Child of Mitra - Nations & KC - Angle - Why Jerusalem**

Today's teaching continues to take us along the path to the Creator through different analogies of how we are connected to the Creator and everything else in the Creation. The Micro is in the Macro and vice versa, and the pattern of Creation is the same on all levels. Therefore, we can start with ourselves and trace all the way back to the Creator, or we can start with the Creator and trace out all the subdivisions until we end up with ourselves. In the essence of the Energy it is all the same, but the manifestation into physicality (P) makes it look different, and the variety of created things comes by the interaction of the M fields, which is the Plasma Science and the Knowledge of Creation. This is why it is very important that humanity start to teach its children that we exist in both dimensions (D) of the Energy or Soul, and the matter state or P, then accepting the science and transmutation will become easy.

If we think about the huge elephant being brought down by a tiny thorn in its foot in a normal way, it doesn't make much sense. But if we understand that each cell in the body of the elephant has a Soul and it is connected to all the other cells, all the way back to its creator, which is the Soul of the Elephant and sits in the middle of its brain, then it makes perfect sense. That pain response passes through all the plasmas and instantly connects to the Soul in the brain. This part of the analogy shows us that everything is connected together. When the elephant receives the pain signal it will have to react in a way to get rid of the pain. The other side of the analogy is, Man is that tiny thorn and the elephant is the Universe (U). During the past weeks of this war, the killing and destruction have been

so huge that is it being felt by the Creator like a painful thorn in His foot, and the time has come to make a change. It has to be stopped. This is why the Universal Teachers are here on Earth teaching the Man about the Knowledge of Creation so he stops the killing.

The Creator is like a womb and the body is the Unicos, and the Soul of the Creator (STC) sits in the center of the Unicos, just like the Sun sits in the center of the Solar System (SS). Inside Its womb, the Universes get created, which each have their own center, and the Cosmic Ray (CR) of the Creator keeps on subdividing into the Galaxies, (SS), planets, then to the Soul of the Man (STM), which interacts to create the Soul of the Physicality (STP) of the Man, and then they create the Souls of the Cells of the body, which manifests our physical body. It's the same pattern, the same flow, the same plasma inside a plasma, inside a plasma, and on and on throughout Creation. Since everything is inside the same womb, then they are all connected to each other. This is the same way the human body gets created inside the womb of the Mother. We take for granted we have this body because we see it there all the time, but we never really understood how it came to be, or how it was formed.

As humans we are taught to think only the matter state side of existence is real, and everything else is imagination. In this way, we always try to make the biggest material object, or we think the biggest sound needs to be made to be heard across the U. Or that we have to show something physical to be heard by the Creator. So it may seem a little strange when the workshop started out by Mr. Keshe saying, it's the smallest that affects the biggest, hence the example of the thorn in the foot of an elephant. We understand now that it is the weakest field that reaches everybody. When a field is too strong the weaker fields cannot interact with it. Therefore, they have to first lose some energy before they can interact with lower fields. This is also why the Creator has the weakest fields so that He can contain all of Creation. This is what unconditional giving and loving really means and why the Creator is most humble. If you observe carefully you can see this quality in Mr. Keshe. If someone has very strong opinions, which is the same as strong fields, then we might observe Mr. Keshe becoming silent, or he'll start to be very nice to the person, because they are not open to receive. But I have never observed him trying to force his way on others. In this workshop he said, I made Man in the image of Myself, so the Man should try to behave like the Creator. Even the Soul of the Cells of the body should behave like the Creator. We can test this ourselves to see if it is correct. If we are in an aggressive situation and internally we become weaker, or should we say more humble, the person with the aggression may sometimes change if the conditions are right. The main point seems to be for us to change our approach to living life from the perspective of fixed matter state to the fluidity of the interaction of the M fields.

The connection to our Creator is through the M fields of emotion. The example of how when the father feels disappointment in his son, through his emotion he gives himself prostate cancer. It's the same process with the Creator and His creations, which are us. When Man kills and destroys so much, that emotion passes through the rest of Creation and reaches the Creator. There are two sides to the "magnet" of the emotions, the good and bad side. Thousands of years ago there lived a man among the Aryan tribes called Zoroaster in the land that became known as Persia. He was the father of all the religions

and he lived the Ethos of Mitra and became an example of correct living. He lived in a way that his thoughts, speech, and actions were good. The emotions of his Soul became in unison with the emotions of the STC. Over time the religions became corrupted and they forgot their roots and changed into separate dogmas, today, of which we see fighting each other, because they think only their limited understanding is the truth for everyone else. Mr. Keshe is reminding us that our roots are one, and we are all one big family. And that we have forgotten the true purpose of life, which is to give and receive love. When we make the emotion of our Soul to be in unisons with the Creator we'll be able to transmute. Years ago, when Knowledge Seekers (KS) came to Linz to transmute they said they went to different places and did different things like going to the Moon, or in the depths of the ocean, or meeting the Soul of Christ. But one thing they overlooked was they could have used that Energy and opportunity to go towards the Creator. This is the enlightenment we are all looking for. When we meet our Creator we realize our own Self, and then the true life of the Soul begins.

One of the ways the Universal Teachers are helping humanity is to bring in this Enlightenment and Peace Game. Humans like to play computer games and when all our needs are met we'll become peaceful. This Game will do both, it will help us meet all the needs of living a comfortable life and in the background through CR the field strength of our Souls and emotions will be elevated and we'll get enlightened to the Knowledge of Creation. Our whole life will change and we'll forget about killing.

In both the first and second parts of this workshop Mr. Keshe talked about the clergy and the religious life. In the first part he said, we don't need to become a monk or a nun to live a good life and that we should remain active in the world. And in the second part he was, in a way, making fun of the village of Catholic nuns he had visited recently in Europe. Nature has put inside every woman an innate desire to have a child and to love another entity. And then he questioned whether it was a crime to deprive a person of love. Each person will unpack what this means to them, according to their upbringing and beliefs about life. Maybe it's appropriate to share my experiences in this area as I almost became a Catholic priest early in my life, but by the grace of God and diligent inner work I was spared the tribulation of wanting to find the Truth, while being in an organization that only wants to maintain their power structure and the status quo.

Early on, I understood that the life society was selling us was not as happy as it seemed on the surface. But there didn't appear to be many options, either it was to live a householder's life of marriage and children, a single life, or to enter a religious life. When I started looking into the religious life, to my surprise I discovered that very few religious people were spiritual, and instead of trying to find the truth about themselves and life, they accepted to believe in certain concepts and dogmas. I understood that following religious beliefs and rules was no different than going to a 9 to 5 job in society. They pay for your food and shelter and you give them your Soul. And the problem with marriage was that we are programmed to remain immature and to accept physical love as the real love, and only pretend to want to understand true or spiritual love. And the thought of waking up after 20 years of marriage and discovering you don't really love that person,

and they don't really love you, it was all a business deal to keep ourselves from growing up, was not very enticing.

Having said that, I also know that if taken sincerely and with awareness and devotion, both of these paths can lead to awakening. It all depends on what we understand about ourselves and life. I was married for a short time and I grew from that experience, and likewise I lived in a community of monks and nuns and I received the fruit of that experience. So wherever we are in life, it doesn't matter. What matters is, to live our life in a way that is truthful and honest, and trying our best to become aware of who we really are. Many times Mr. Keshe repeated there are no shortcuts. And I understood this to mean, that our life always remains ours, if we give it away to others, at some point we still have to take it back and live it in an honest and truthful way. The Plasma cannot do it for us, but it can help us through the difficult times of looking in the mirror, by adding to our field strength and satisfying our emotions. But we still have to understand how our life is ruled by our fears and desires. And when we face that fire of our self-created emotions and pass through them, we'll also pass from childhood into adulthood and be able to contribute to society and serve others. For the most part, religious life was setup as an optional way of life, for a sick society that is not able to understand and heal itself. It allows weaker Souls to exist in physicality until the change on the planet can come about. I hope I haven't offended anybody, this is what has come spontaneously. If we understand our emotions deeper, then we'll understand that there is a huge difference between a spiritual life and a religious life. It very similar to the difference in the Scientific World, between the Energy state and the matter state.

Man should have learned from the vegetation, or what we call, the Vertical People not to kill and destroy. They live by what the environment provides for them. They don't move around and yet the energy they need comes to them. They provide a mirror for how Man should live. But instead, we see their immobility as a weakness and we dominate over them and kill them and steal their energy. Then in our arrogance we make up concepts of how they don't have Souls, so we have the right to kill them, and then we blamed God by saying, He made them for us to kill and eat. This all shows how ignorant we are to the Knowledge of Creation. Man has intellect and feeling and if he develops them, then he'll be able to learn even from a grain of rice.

There is a secret that will be revealed in 2026 and it will help us to understand what Mankind's destiny is. We can prepare for that day by trying to comprehend the purpose of our life. And we should try to overcome our habit of trying to force life the way we think it should be, rather than understanding how it works through the interaction of the fields. We can learn to work with life through our emotions, because they are root of everything. When we can learn how to use our emotions to make an object like a cup move, in the same way we can also learn how to move the heart of the Creator. In today's teaching we learned that everything is connected through the plasma which are the M and G fields. Likewise, the emotions are the way in which we can control the M field strength to achieve the things we want to achieve. When we learn how to create and control the emotions then we can survive, live, and enjoy the experiences of the U. It sounded like Mr. Keshe was saying that something will happen in 2026 where all the fields will match

in such a way that Man will mature to understand enough about Creation to be able to change his life drastically, to the point of not having to kill anymore. There will be no need for intermediaries and we'll be enlightened to the truth of our own creation. Then we'll know that the STM is connected to the STC, and in this will be the key to finding our Creator and reuniting again with all of Creation.

Now is the time to start commercializing the KF Plasma Technology and this will bring it out into public. To do this we need KS to be part of it, because we are the ones who love and understand it much more than ordinary people in society. Many people want to enjoy the benefits of the T, but do they want to become part of it, because that will totally change their life? As we gradually increase the M field strength of the planet all will benefit regardless, because we are one unit with countless parts. Therefore, Mr. Keshe made a call for KS who have invented things with the Plasma Science to come forward and work with KF to commercialize them. Please give more details about your invention, what steps you have taken to accomplish it, and what you see as the future, and what kind of help you need to bring it out. Don't expect that KF is going to do everything for you. You need to be an active part in the process. In the same way KF is looking for KS who know the plasma well enough to be able to guide the teachers in the upcoming schools to teach the Plasma Science starting at primary school all the way to university. You will not be expected to do the teaching yourself, rather you will be advisors to the teachers.

The Children of Mitra is another way to talk about creating children through the fields of the U as opposed to using physical bodies with an egg and sperm. When Man travels the U he will inevitably fall in love with Beings from other planets, but their physical bodies will not match to be able to create physical children. Therefore, the only option is to interact the M fields of the emotions to create a new plasma, which will be a child of their love. There are different options as to how that child will want to manifest in the physical D of the planet they exist on. One is to implant the fields in the womb of the Mother of that planet, and another is for the child to manifest its own P of that Time, Place and Position. The same possibility exists for Gay couples on this planet. There are no limitations, but they will have to have enough plasma knowledge to find a way to manifest the fields. On Earth when a man and woman want to have a Child of Mitra the man has to learn how to release energy down his spine without ejaculation. One will physically feel the energy being released. The women will also have to be receptive to receiving the energy into her womb. The rest of the details were not given, except that one has to prepare the body and the emotions to do this. The Children of Mitra need the spiritual love and devotion to peace, and the understanding of the love of the Creator. It's about transferring the love of the Creator through the STM and the woman has to be in that position to receive it. But it is the same way when we share the True love with the people in our life, it is done on the field level. This is not a fantasy, even now there are some women who can feel when their egg has been fertilized, but that is in the physical D, this is totally in the Energy D.

There was a long discussion which was a kind of follow up to the teaching last week about how the Sun only lights up half of the Earth while the other side remains dark. Mr. Keshe talked about how the light and the darkness bring out each others qualities. This

seems to be referring to the STM and the P and how they compliment each other, even though at this time on the Earth the P denies the Soul. The understanding of light and dark is relative to the P manifestation, because in the U they don't use physical eyes to see. They sense the M field strength through the Soul, or the Energy. So when we say the darkness of Space that is only from the perspective of the Man on Earth. To the Universal Community Space is the medium which everything exists, they don't have fear of the Infinite, as we humans do. But what did Mr. Keshe mean, most humans are conceived in the darkness of the night? The brightness of the STM is created in the darkness of P, and Man does everything in reverse. We do it unintentionally out of ignorance. But maybe it has to be done that way because it reflects the truth of our denial of the Soul. And maybe when we consciously and with full awareness create Children of Mitra it won't be that way. Another thing to think about is during the daylight we absorb the rays of the Sun, and at night we dance and celebrate, which is a kind of giving out of the energy we absorbed.

If I remember correctly, a few teachings ago Mr. Keshe talked about putting a Soul in computers and robots and the way he was talking about it seemed to imply that the Soul and consciousness are different. Therefore, a KS asked this time how does the Soul have consciousness? The answer was that, the Soul is conscious by the nature of its own structure and that it is connected to fields of the U, therefore, it is always conscious of its behavior. It's not like the Man who needs to think about what he is going to do. The Soul is always conscious, omnipotent, and omnipresent. In previous teachings we talked about the different levels of consciousness and types of Souls. To be omnipotent and omnipresent he must be referring to the level of Soul equal to the STM, which is directly connected to the Creator. The STP of the Man is a lower dimension and is not necessarily self-conscious, but it can evolve to that level through awareness and an elevation in field strength.

Because of the war millions of people have lost their income and livelihood. Mr. Keshe has offered 1.7 trillion in Keshe Coins (KC) to the Iranian government and to the governments of Thailand, Philippines, and Cuba. If they accept this will be the start of the new change. America has been behind a lot of murdering since the Second World War, and some say it's around 70 million people, probably most of these are women and children. Therefore, when Americans play the Game approximately 60% of what they earn will go to the countries they have damaged. So for example, if an American has 100 KC, only 30 KC can be used to purchase Plasma products. The Israelis will get no KC. For those who think this is harsh please watch the following documentary video on KF Brazil Youtube channel, 'Abby Martin Went To Israel. IT'S WORSE Than You Think.' I hadn't done much research on my own into this matter and had assumed the problem was with a few Israelis who took over the country. But this documentary shows that the average person on the street talks and thinks like Netanyahu. There is a clip of him saying publicly that they have to control the Media, and they are trying to buy up Tik Tok. It's very similar to Nazi Germany in the 1930s and 40s, therefore, the whole nation is responsible for the atrocities and they are done with an evil calculating mind, worse than the Nazis. They use AI to monitor, select, and then bomb people they deem unworthy to live. With the use of American technology they 'drone' the people in their homes. It's

horrifying to learn. They proudly do it and they know nothing will happen to them because their supporters control the world politics and media. They have no problem to kill their own people, and then twist the story around. If you do the research into 9/11 then you'll understand how far reaching their power has become. They have almost complete control over the world. Only a Divine power can help us now. When the new Enlightenment Game spreads across the world, then their power will slip from their hands.

The reason for Man's behavior is the combination of a lot of different things and these include the angle of inclination when the Cosmic Rays enter the Earth, Inertia fields, and the position on the planet. Then we would have to understand how the Earth and the STM interact to create very complex energies. We can see the result of these interactions by going around the globe and analyzing the characteristics and traits of the different races on Earth. Keep in mind that if the planet were vertical these varieties would not exist. The varieties exist because of the multitudes of interactions of the fields. Mr. Keshe went continent by continent pointing out the different changes that occurred to the same Man and he became the different races, not necessarily because of evolution, but because of the field interactions. It was the field interactions that caused the skin colors to be black in the South, white in the North, and brown in the Middle. This is why Jerusalem became the center for 3 major religions in the world and why they are so emotional. It's the concentration of certain fields in that area. Then there was a Russian scientist who could measure the M fields of an area in the Amazon and tell if the tribe would be peaceful or not. This confirms what Mr. Keshe has been teaching us for years. There are a lot more subjects you can explore on your own. In ending the workshop he said, that we will be pleasantly surprised when we see the new KF Space Center, it may not be for us, but for the new generation so that they don't have to experience the wars that we are experiencing.

### **Other Topics:**

We don't need people like Bill Gates and the other ones who steal and then make themselves out to be philanthropists from the stolen money. The citizens of the U are naturally philanthropists through their emotion and Man will understand that when he feels connected to Creation;

The Soul is the hardware, and the emotion is the software. The hardware sits in the center and the software transmits the energy across the U.

Thanks for listening.

## **Quick Index**

(Together we can share some more knowledge and understand more about ourselves and the position and possession of our Soul in this cycle of Creation. Usually, it is such, that the smallest can affect the biggest. (A little thorn in the foot of an elephant can shake it with pain. In a way, Man is that thorn and the Universe (U) is the elephant. The Man is

not aware that when he does something wrong it affects the whole structure and he causes a lot of problems for the Creation. This is the purpose of all these teachings, to educate Man to understand himself and to bring him in line with (the knowledge of Creation). Even if he thinks he is insignificant, still he is the cause of huge problem in humanity (?? Universe))).

(In the past few weeks we have seen how Man has caused so much death. (?? We should understand how we are connected to each other, and how we have built up this structure of killing over the past few weeks).

(?? We have our sciences like Cosmology, Physics, Chemistry, and the others, but nobody has ever considered the Magnetic (M) fields. In our teachings, we do. And there are many scientists who listen to us and understand that now it has to be considered. We are starting to see new evolutions in the sciences, and they came up with something they call, the fourth dimension, ?? which is about the fields. We call it the plasma of U, ?? and now it's time for humanity to bring this into play))

(?? Back to the tiny thorn in the huge elephant. How does that little thorn operate, that it can transfer emotion across the whole body of the elephant, or likewise the U? In the past few weeks we have spoken about the connection of the Souls of the U to the Galaxies, Solar System (SS), planets and to the Soul of the Man (STM), and the Soul of the cell of the Man. (?? There are two pieces of information that links to and encircles the whole lot. Some of you by now should have understood and been able to connect to it. ?? Part of it is understanding that it is part of the structure of the Totality. In other words, if we are looking at a structure, and then suddenly we come to understand the Totality. If we sit amongst it then we can understand the totality of it. This is what we have learned in the past months, and what we are about to learn in the coming times)).

(We spoke about the U, but we never understood how it works. The U has a Soul that sits in its center. We cannot have a SS if the Sun is not in the center. In the same way, the Soul of the Unicos is in its center and cannot be outside it. And within the Unicos sits the elements of the Universes, each with its own Soul. And within the U is the SS, which has its own structure. These structures keep getting smaller and smaller until it gets to a little dot, or what we call the Soul of the Man (STM). In the center of the Unicos is the Soul of the Creator (STC), or the Essence of Creation. And the little speck of the STM is the central life of the created).

(In some ?? understandings of plasma M fields, these Souls are all connected. (?? Because all the fields are connected, is why the elephant shakes when a tiny thorn is stuck in its foot. When we understand this, then our whole understanding changes and we see that the whole structure is connected to each other from the STM to the Soul of the SS, Galaxy, all the way to center of the Unicos where the Creator sits). (Then you can understand how we as Universal Teachers come into play. When that little thorn as Man does wrong, the STC feels the pain he creates. When the brain of the elephant feels the pain it does something about it). (This is what we see in our world today, there is the pain

of mass killing, and having the power to kill and destroy in a scale of destruction never seen before. And it is being done in the name of that Central Soul, the Creator)).

(Mr. Keshe draws on a Whiteboard). (?? The emotion of the Man dictates the understanding of the totality. And come back to this point that the Soul of the cell of the body is connected to the STM, to the Soul of the Planet, and all the way to the STC). (When the emotion of the STM and the Soul of Physically (STP) match then they create a dimension (D) of effect. The only connection between the Man and his Creator is his emotion. For example, when the father feels the emotion of a betrayal of a son, he gives himself a cancer in his prostate, because he doesn't want to experience that pain again so the reproduction organ is taken out. For this we can understand what the Creator goes through, and how he feels when He sees the STM he created doing all this killing and destruction. He feels that through the connection of the field-emotion)).

(This process of the Man killing has been going on too long and it is time to do something about it. We are reaching the final phases of (the Creator releasing that thorn from the foot of the elephant, and this will be the ?? end of the cycle of the Man. It's not by the wish and emotion of the Creator, rather it is coming through the conduct of the Man in the D of the mayhem he has created in the emotion of himself. At no point in the history of the Man have we seen such a conduct as this. (The structure is set ?? to bring this to an end).

(?? Man has to understand that the connection of the emotion is the same, (whether it is between the Soul of the cell all the way to the STC in the D of emotion). (?? This is the same structure that is used in transmutation. You need to find this path of the emotion and how it is connected. It's through the emotion that we can reach the total destination of the Creator. It's through the teaching of Mitra, which is to Think, Speak, and Act Good. In a way, the STM doesn't talk, (but it receives (the fields of the Man's conduct through talking. In this sense, talking is the same as thinking and action)). (?? The 27th of March this year was Nowruz, or the birthday of Zoroaster was celebrated in Iran. In this celebration we understand the importance of Zoroaster and that his life and conduct was an example of the Ethos of Mitra. His thoughts, speech, and behavior were all correct. When this happens the STM becomes in unison with the STC, and they are connected through the emotions)).

(It requires a lot of time to understand this. And Mankind has been given a lot of time, ?? but now he needs to go much deeper in understanding this process. We need to understand how to create a pure Soul through our thoughts, speech, and action. When we do this, we complete the cycle with our Creator. (This is not an imaginary idea. It's the reality of understanding how important our conduct in P is in being able to connect with the STC. ?? Our conduct has to be the same as the Creator. That's what it means 'I made Man in the image of Myself.' It also means the STM, and the Soul of the cells have to be the image of Me). The thorn has to be taken out of the foot. (That way, as each STM finds its place in the Unicos according to its fields, it won't create new problems)).

(?? In Man's world he tries build the biggest structures to show his power, and he tries to develop the most powerful systems to show how powerful he is. However, the line to the Creator is actually the weakest of all, it's the most humble and giving. Try to understand why the Man's conduct is going in totally the opposite direction. (To become more powerful he has to absorb more, so he kills and destroys more. This is where everything has gone wrong, and the reason the Universal Teachers (have come here to remedy the problem)). (And now since you are all computer game players, we have brought you the 'Game of Peace and Enlightenment,' as a way to bring you to understand (the truth). We are dangling a 'carrot' in front of you, but underneath we are bringing peace. Now you understand the connection. When we provide for the people and the nations, then they do not need to be greedy anymore, and can live by the ethos and conduct of Mitra. Then we will understand the totality of the message)).

(The key to transmutation is the emotion. (?? But this emotion is not just devotion. You don't need to devote your life to becoming a monk or a nun. ?? You don't have to do anything like that. You will continue to live an active normal life, because the beauty of the Creator is, that He doesn't stop creating the different parts of the U, just because He does good. (All of life continues on. The difference is your attitude changes and you become one with life. Human's will become true to themselves and receive and understand the enlightenment and have peace within themselves. Then all will match with the field strength of the emotions of the Creator. Then you will be enlightened to the totality of the Knowledge of Creation). Man will become humble and his conduct correct. (?? This is achieved by connecting himself to the field strength of the emotion of his Creator and he will be enlightened to the knowledge of the Creator)).

(For those of you who want to transmute and want to go from one place on this planet to another, now you can start to think about what you need to do, and what (it takes to reach the right field strength, and how you can create the emotion of wanting to meet your Creator).

(Transmutation is not limited to just going to the Moon or Mars. Transmutation has no limitation, and you can go to the Creator. ?? This is the true enlightenment. Man needs to understand this. (We are providing your needs so that no one needs to kill to live. ?? And no one needs to kill to develop the knowledge and technology (T). We don't need people like Bill Gates and the other guy to steal, and then call themselves philanthropists from what they stole. Man has to be a philanthropist through his emotion and by connecting with the U. It's not limited to any one place or position on this planet in the physical life. Man needs to live like every other created thing in the U. He needs to be active. Man needs to live through the dimension of the fields made available for him, and not by taking the energy from another living Being)).

(Now you understand why the Universal Teachers have come to teach you, because of the misconduct of the STM, (and because it is infecting the whole Universal Creation (with his killing and destruction. We need to fix this at the root of the problem, which is here on this planet). Mankind has to understand his emotion, which touches the Creator, not his Soul. The Soul is the hardware, and the emotion is like the software that makes all

the connections. The hardware sits in one place, while the software transmits (everything) across. This is the purpose of the all these teachings and (what we are bringing to you. We do not talk about what religion, nationality, color, or race you are. We talk about the evolution of the STM in understanding the purpose of Creation). (Then this Tulip of the STM in this greenhouse of Earth will not become a poison Tulip spread across the U)).

(Man might think he's been here for 4 billion years and eaten, killed, and destroyed so much. But really he should learn from the vegetation or Vertical People of this planet, They do not kill. They stay in one place and receive the energy given to them. We don't see the tomato, wheat, or carrot killing others to create life. The Creator put this image in front of us, for us to see the reality of it. But we have never understood it. Instead we use them for us to become the 'King of Creation.' In a way, He has given us a mirror, but we don't look into it. Instead, we look within ourselves to become more aggressive, better killers, and the rest of it. The carrot doesn't kill, rather it uses the energy available to it in the environment. The grain of rice doesn't kill. It also uses the energy available to it. The Man has to learn this. Instead, the Man through his ignorance only looks at them as source to steal life from. This is how ignorant Man is, that he cannot even learn from a grain of rice. This is how low the Man is in his intellect, and his emotion, that he has not been able to learn about life by examples of a grain of rice)).

(The process of Creation is not through division. It's through understanding how everything is connected. When Man, or any of you Knowledge Seekers (KS) understand this, then you can transmute within the STC and become part of the Totality. A lot of you have been trying to transmute, but you have not understood where you can transmute to, and what is its purpose. The KS who came to Linz, went to the Moon, Mars, in the ocean, they met the Soul of Christ, and they wanted to do everything else. (But did any of you want to become part of the Soul of the Creator, of which your Soul is already connected to through emotion? You made a wish and you went to where you wanted to go, but you never understood that you could have wished for and reached the STC. Why do we need the Soul of the Planet, Man, or whatever? Now you understand how we are teaching you step by step over the past years, and how we are bringing you to understand the weaknesses of the Man)).

(There's a secret in 2026, which I will explain to you in the coming time. We'll bring you to meet the destiny of the Man. (In the meantime, you can prepare for that day when you will come to understand the true purpose of life, and how it will happen. You have to comprehend that the purpose of life is not to force your way. It's like that story I always tell of the Italian couple who were in Barletta, and the man was trying to forcefully push the cup on the table with his thoughts. Rather it's to understand how easily through our emotions we can move that cup. If we can move a cup with our emotion, then we can move the Creator. There is no difference in the D of the Soul, once we understand the way. But we have to teach you how. It's like the old saying, if you give a man a fish he eats for today, but if you teach him to fish he eats for a lifetime. The purpose of the teachings are to teach you how to fish. You have killed enough fish, but you still have not reached that point)).

(?? In 2026, all the days will match for that point of when the Man will mature to understand. We will be here to guide you to that day. I hope you understood why we talked about the Cosmic Rays (CR), and went in the depths of understanding the connections of the Soul. (?? Because the only way, is by going through the CR of the STC ?? and back to the Man). (What comes from Him is the completion of the whole process. We have to understand how we are connected to Him and that we don't need Prophets, mullahs and ayatollahs, and definitely we don't need rabbis, or the gurus of the East, and the rest of it. Man has to be enlightened to the truth about his own creation, how he was created, and how he goes back to what created him. The water evaporates from the ocean and goes through the cycle of creation and returns as rain. That water creates and maintains the ocean. There is no difference between the STC and the STM, they are like the ocean and the drop of rain)).

(Now you understand the full meaning of, "I made Man in image of Myself." Because I'm the ocean and the drop of rain. All at the same time. (Everything is connected, gravitated, and pulled back to Myself to maintain My existence, to confirm My existence, and at the same time to rain upon Man the beauty of My love and his life. I hope you KS have found the key to your Creator. In time, mankind will fully understand this. I hope you find your way to your Creator through the path of the emotion, rather than through the D of jumbo jets and rockets)).

### **End of Quick Index Part 1 - 636 KSW April 2<sup>nd</sup>**

(We have had some responses from KS and are still looking those who have developed plasma products and want to commercialize part of KF Technology. Please send us your inventions and be more precise than just a drawing of a product, explain it in more detail of what you think is needed, etc. It'll take weeks to get back to you but we are starting the process. We are looking for those KS who are already deeply involved in KF teaching to be guides to teachers from primary school to University level. We don't want you to teach, only to advise the teachers because you understand the plasma. We're setting up a national school structure and have 18 months to complete it).

(It's important that you understand the ethos behind our work and what advanced technology will bring, and not just making a few Gans's. This is the first national school structure we are setting up and we want it to be correct, but not necessarily everything will be perfect from day one. We'll learn as we go along. We want to teach in a way all ages can understand. The teaching will be of both the matter and Energy side of creation. Right now people are only taught the matter state side and the new generation will learn both).

(We are prepared to give scholarships and students can work inside our laboratories to experience every aspect of the T first-hand. They will decide what they are interested in. We already have the facilities and the environment (and more is getting setup). We don't want time wasters, but people who can set the knowledge for the next generation. We need people who have a full clarity about the teachings and can share the knowledge so that it can be understood by (different levels of students through different ways of

teaching. If you are a team, we'll bring the whole team). The structure is set to support this, but it won't happen by accident. It'll happen by design and we are setting this up especially for that purpose. Please have in mind that the time to bring the technology has started. We are already in it, and we would like to add you as another string in what I call, the guitar music of this technology).

Q: You have taught that Man has miserably failed to create children of peace through the P, and that the Children of Mitra, created through the Soul's field rather than the physical interaction of Man represent a new path forward for humanity. How is a Child of Mitra created without being born through the physicality process we are all accustomed to? And if humanity were to raise even a small number of such children, what field change would this create on Earth? Would it be sufficient for the Universal Community of other star systems to finally recognize us as a Soul that has come home and is ready to integrate?

K- (The Soul of the Children of Mitra are created through the D of the fields. Their P takes the D according to the Possession and Position. At the present time on Earth, first we create the P and (then add the Soul. The Soul is created first for the Children of Mitra. At the moment we go from matter to energy). The Children of Mitra created through the Energy and then to matter. Would this matter be in the mother, or in the environment of womb of the SS, Galaxy, another planet, or another D? (?? Science talks about different dimensions, but we mean a D as a different level of M field strength in the knowledge of the plasma)).

(If a man from Earth falls in love with a woman from planet Zeus, who doesn't have a womb, then she doesn't have a reproductive part that fits with the man from Earth. Nevertheless, the two can have an emotion of love for each other and that will bear a fruit. They can interact and feel each other, (and create an Energy of their love. ?? The problem is the woman of Zeus does not have a physical womb to bear a child on Earth. (?? This was not answered clearly. 'It creates in that environment which allows it to.' The child takes the image of the place of manifestation)). This is the difference. (?? This is about going from Energy to matter and matter to Energy. Energy to matter was demonstrated in Beijing last May, where the fields of Gans's produced matter. The environment decides ?? how the child through the emotion of love will manifest). ?? If the man and woman are connected, the child will takes shape in the place, or in the womb of the mother)).

(A gay couple asked if they could have children through the Soul together. There is no limitation, but you have to find out how to do it. Would that bring another dimension of the Creation? This is what we have to understand. (When we become Passengers of the U having children with other Beings is not the exclusivity of Man. Man is not the only created thing traveling the U. We have to understand how it works and not just accept the words of Mr. Keshe. Iron circulates in our blood, what if the other Being has acid in their blood. The two cannot physically mix. How do we mix the Amino Acid (AA) of the Man with the acidity of another life form. This is how deep the teachings are)).

(To humans you just call them a Child of Mitra, but to us it's about introducing you to the reality, which Man will encounter when he start to travel in Space. However, you can even create a Child of Mitra today if you set yourself emotionally to do it. You don't physically produce any sperm, but you have the emotion of wanting to create a child. Then you need a woman who is there and can feel it. (You feel it the same way as you do in the physical life when you ejaculate, and the woman has already released an egg and they meet in the womb. ?? In this case, you will feel the energy transfer from the Soul down the spine. It's a very emotional position. You don't feel the matter state of it, instead you feel the energy of it. The mother decides about transferring that energy into her womb. You can experiment with it)).

(?? In the future, those who will create Children of Mitra as a human, will prepare themselves first, like what we talked about with the Chinese couple's who prepare themselves to conceive a perfect child. They prepare themselves with a special diet, and other things, and rituals from their Taoist Priest. In creating a Child of the Soul you don't use sperm and there is no ejaculation. Instead, there is a release of energy. This might sound funny to you, but we know exactly what we are talking about. It's a transfer of energy between the male and female. You don't need billions of sperms and having one find its way into the egg. Instead, you transfer the love of the Creator through the STM. If the woman is (receptive and wanting to do this, then she'll create a Child of Mitra). Children of Mitra need devotion to peace, the understanding of the love of the Creator. It's not just something that you do. Your heart and Soul have to be in it)).

(This process will not be unique to Mankind, it's already happening in the Universal Community, and many races have found out, that's the only way they can create mixed races. (?? And this is the way you transfer the emotion of love to your child, mother, father, wife, or any other form, and they feel you by your emotion. Man has to learn how to do this ?? to create the next generations). The Children of Mitra will stand out like a red rose amongst those who are not created by the fields. Man will gradually learn how to do this. (?? In the coming time Man will be able to decide whether to create children of P or Children of Mitra through the love of the Soul. To you it might sound like a fantasy, but it is the reality of life in the U)).

Q: As I understand, there's an analogy between the states of matter and the Soul and the emotion. Is the STP an effect of the friction between STM and the P?

K- In a way, you're right. But it's an interaction, and not a friction.

Q: In this analogy would the STP be the Principle matter, the STM the Transition matter, and the matter would be the P? Then the anti-matter or Principle matter should be the emotion, is that correct?

K- (The emotion is non-dimensional. Your P interacts with the Energy level, which creates the STP. We call this the 'Spirit' in English. There is a difference between the Spirit (STP) and the Soul (STM)).

Q: The STP would be the Spirit?

K- Yes. (And the connection between the two is the emotion and is the balance).

(This Sunday is Easter and the putting of the Christ on the cross is the D of the STP, and not the STM. Because the STM was freed at that point, and could bring the STP back to ?? the body, (and you believe that as the Resurrection, which is really the generation of life). When the P was pinned to the physical cross, he had no choice but to manifest himself in a new dimension. In those days, thousands of people were put on the cross every day from Rome to Palestine and around Italy. It was how they did things. Didn't any of them resurrect? (Resurrection is connecting energy through the emotion. The emotion that Christ carried within himself was the emotion of loving Man so much that he wanted to put him on the correct path. This is what the difference was. He had this emotion of love)).

(We now see the extremities of the structure of the religions. In Islam, Christianity, Judaism, and the rest, there is the separation of Soul and P. And by torturing the physicality, they abuse the Soul. This is the crazy situation we are in).

(Mr. Keshe tells a story of how he visited a village in ?? Austria that is only made up of Catholic nuns who wear the black habit. It's a totally female society. Still, all these women carry (an innate love to have a child, and to love another entity. Isn't it a crime to deprive themselves of that? They are deprived of a person to love? Then you tell me, where does that emotion go?))

(He had also visited the Monsignors in the Vatican where it is the opposite situation, and there are no women. The Christians don't talk about this part where they have separated the males from the females. Isn't this what the Muslims do in their mosques? The Jews do the same. How can we hide the emotion of love, from (the males to the females)? (Humans are born to love, this is our emotion. It's our own decision to hide and deny it. Instead, we should try to understand it)).

(He is an advisor to some governments and he has been talking to them about what's been going on around the world in the past few days. These world leaders like to know what is coming next, what to do, and how does Mr. Keshe see it. He said, the biggest problem sits with the wrong emotion, and how we create that emotion, and how those who (are trapped in these kind of emotions follow them). If we were to change to the emotion of peace, then (?? there will be no grounds for the people to listen to these leaders). It's very interesting how Mankind misunderstands his own emotion. But the emotions are important, because their energy keeps the P going. Man has not yet realized this. (When we lose everything, then we feel the emotion of (wanting to getting rid of this P. Or we fall in love, and the world is not big enough to accommodate our love)). But the physicality in both situations remains the same. This is part of being human).

Q: But, shouldn't it be possible to love, no matter whether there's somebody receiving it or not? Shouldn't it be possible to just be in this emotion?

K- (It is possible, but we always need a feedback, to understand how much we are giving, and for us to value our lives. ?? It gives us a purpose to live. You can't clap with one hand. (?? And loving is the purpose of life)).

Q: When you mentioned two teachings ago, about the alternating functioning of the organs, and about how sunlight illuminates one side of the Earth while the other remains in darkness, it gave me the impression that, in fact, while one part is illuminated by material light, the other part might be illuminated by the light of the Creator, in another dimension that we are unable to see. The idea of the bracelet that you introduced last week, would it be like a dynamic bracelet, in which each link receives a dimension of energy on one side and delivers that modified energy to the next link?

K- In so many ways, yes.

(Mr. Keshe tells the story of being a diamond dealer. They make something called, the 'Tennis Bracelet.' It's a chain of matching stones in one line. The stones have to be exactly the same so you don't see the clip connecting them together. If you choose one wrong stone in color, or purity then it doesn't work. Then there is a double bracelet with two lines of stones. This is like the STM and the chain holding the stones together. If you put one impurity of a slightly different color in one of the stones it reflects back into the next one, and it ruins the bracelet. It's the same with the STM, if you have one bad intention, the whole structure of the Soul goes dark. The light changes. There is a way to work with black and clear stones. This is like the STM. The dark side shows the beauty of the clear side, and shining light on the clear stones shows the beauty of the black stones. Just because the Sun shines on one side of the Earth and we get daylight, does not mean that life has stopped on the back side. Sometimes the dark side is more active. People party at night and celebrate while it's dark. It's for us to understand. It depends on which side and what wants to be part of what. The daylight side absorbs, while the dark side celebrates and gives).

(Why does the majority of humanity reproduce during the night time, which is the brightness of the STM? Very few children are conceived during the day time. The STM is such a bright storm, such a bright light, to be conceived in the dark of the night. If you understand the logic behind this, then you'll understand everything else Man does in reverse. Do we need the Children of Mitra to be created at night? And when we fall in love with other creatures in the depth of the U, where there is no Sun, what do we do? Or are all the children of the U created in the dark of Space, by the light of the emotions? It's not that nothing happens on the dark side, it is that we destroy some of the most beautiful things in the light of the Creation).

Q: We talked about putting a Soul in a computer, and how it would have no consciousness. So, how does the Soul have consciousness? Does consciousness have a Soul that connects to the human Soul?

K- (The Soul is conscious by its own structure. It doesn't need consciousness. The Soul is connected to the fields of the U. It is always conscious of its behavior. It's not like Man, who has to think about what he's going to do. The Soul is always doing and always conscious. It is always omnipotent and omnipresent).

Q: (A KS asked for an account number from the Minister of Finance in his country so the KF can send the money to them from the Game. When they found out it will take years they lost interest. And asked KF to speed up the process).

K- (It's not irrelevant and I can give you a date of when it will be completed. Last week we made an offer of 2.7 trillion in Keshe Coin (KC) to a government. We are going to allocate 1.8 trillion KC to the citizens of that country valued in Euros. The government responded by saying, this is a generous offer and the government is considering to accept it. This example Mr. Keshe gave was for when KF gives KC to the citizens of a country. The one that will take a few years is from when the citizens play the Game to earn KC. But first KF has to finish the technology systems in the background).

(KF wants to give the KC because of the war situation and millions of people have lost their income and livelihood. We are coming in at just about the right time. There's a lot of things that need to get done. We are planning to allocate to the first government in the next few months. The first government will be Iran and all Iranian nationals. And then other countries that have been heavily affected by this conflict like people from Thailand and Philippines. The fourth nation will be Cuba. We are working around the clock to get these things sorted. The citizens of the United States will only get 30% of their shares, and the government will get its 10%, but 70% will be distributed to countries who have been damaged by the US (in the past wars they created behind the scenes). Their National Reserve will go for this purpose too. The citizens of Israel will get zero. KF will never allocate KC to anyone who carries a Jewish passport. They've done enough robbing and killing. I'm talking to about 8 governments at the moment, and they're all receptive to start accepting the KC, because they want to get out of the American structure. This is not going to happen in 3 to 5 years).

(We haven't yet started promoting the Game, because we are still trouble shooting it and finding pitfalls. We have already mined the Coins so now the people's only task is to become peaceful with it. Soon we'll start approaching 15 to 20 countries and slowly we'll bring it in, like we did with the patents on the USB Key. We have to be structured and ready for it. Everything is set and we are now growing the seed, which will be much more involved). The Game of Peace will change the whole humanity and you won't need to kill. Our scientists have been taught in the past few days how to produce the energy of an apple without having to eat the apple, and you'll receive the emotion of it without destroying it. But it will take time for Man to get used to not chewing something. I learned this in 2009, when we had the first coma patient. The girl asked for something to chew, even though she didn't need to eat).

(Right now we are working on feeding a school of fish only energy from a few days old to full maturity. It'll be videoed and recorded. Our team knows what they are doing.

We're endeavoring to show the Man that we don't need to eat. The fish will grow through the D of the attraction to fields of the U. This is not theoretical, we can show you the shape, the physical pull. This is the prelude to start feeding the Man, by creation of the (fields of an) environment and not by killing. We've all been fed the wrong way because it suited some, (for Man to take the path of greed and killing). This will change the emotion of the Man and the Game of Enlightenment and Peace is part of this process).

(We are looking for developers, computer game developers, and those who are experts in what we call, blockchain. If you are a programmer, we are urgently ready to employ a number of you. You can stay in your own country).

Q: In your last week's teaching you said that the killing habit of Man has something to do with the position of the planet and the way the Cosmic Rays intersect the Earth. Could you expand a bit on that subject?

K- It does, and it has a lot to do with the field interactions.

R: Is it specifically an angle thing?

K- (Partially. It's a combination of the inclination, Inertia, and position. It's a combination of many things. We test these things in some of our research and we try to observe what effects it has. It's a combination of many things. The Earth and the STM have a very complex composition of energies, and each one plays a factor. (For example, we've seen differences in the behavior of Aborigines, their skin color, and attitude. (?? When the same Man ?? was taken to Africa he had the same kind of color, but different behavior. It's according to the environment of the Inertia. Then when he moved to Brazil and South America, we saw the same but slightly different color, and different behavior. As the Man went up to Central and North America we got the Red Indians, and we saw how the features and emotion changed, and they developed a closeness to understanding of the work of the planet. As he went further up north to Canada we saw a different culture develop of the original tribes of North America. Further north we got the Eskimos and then the same race went down into the Russian territory. And then they went to Central Asia and again changed color. And then he came back to Iran and Middle East, where we get different behavior, social structure, skin color, and way of emotion. He was partially changed by environment, partially by Inertia material within the structure, and then the climate. But it was always the same Man)).

(?? The fields created different changes and it became a mixture. (We are not talking about the present American because you haven't come through evolution. We are talking about the indigenous people, like the Red Indians, they come through the evolution of time. The present Man in America came by the greed of time. They have not gone through the evolution (of the environment, which happens naturally. Man recent movements are by revolution). (?? We see the affects of the fields of the planet, position, climate, land, and then we look into the culture of fear. People who live an open life and evolve with time have no fear. We see this with the Red Indians and the tribes in Northern and Central America. We have to ignore all the whites and Europeans who

flooded into North America. We look at the indigenous people who still live that free spirit, and then we look at how the land (has been and is). It's the same with Africa, Australia, and South America, etc. The South Pole creates a darker color than the North Pole, which creates a lighter color. Somewhere in between is the Middle East, which has a conflict in everything, which plays with the emotions. This is why we have all the religions there. There are no whites or blacks in between.

(It's like the Chinese (?? separating their left and right eye). ?? There is the process of emotion, because of the shape of the head and the position of the eyes. They believe in Yin and Yang, because they have to decide, (they always see two ?? in front of them, because the left eye doesn't (always) follow the right eye). The Middle East is the division between the white and black, and this is where the emotion of all these religions come from. Why? Because it's all part of the structure of the planet. If the Earth would have been on a vertical axis then everyone would have been the same. If life exists on a vertical planet it is all the same, (because the field strength doesn't vary. When Man becomes part of the Universal Community and we travel to other planets that don't have an angle, we'll see this. It still can be full of life, but we won't see the diversity).

(The people of North Africa, Middle East, and Southern Europe are very emotional, because it's the (pivotal point between the North and South of the planet, and of the giving and taking (M and G). The turmoil is not just in the races, it's what happens inside the planet, and at that position. It's the interaction of the Soul of the Planet with the STM, that creates these conditions. (And if you have the knowledge you can play with it). (?? We are looking at what (scientifically) brings these (behaviors) to us, because we look at it in the D of the Energy or Soul, and not the P of the Man. (?? The fields interact and creates the P in these dimensions. When you have this knowledge, then you'll look at the whole structure of Humanity in a different way than what you are used to. You are used to looking at things only in 'black and white.' We look at how the energies of the planet interact with the STM, which creates dark skin in the South, brownish lighter skin in the middle, and white skin in the North. This comes from the interaction of the Soul with the conditions of the physicality of the Inertia of this planet)).

(We analyze life (according to the field interactions, and what conditions are created in which positions, and how we change according to the position. For example, why are all the religions concentrated into Palestine, and Jerusalem? There's a special effect on that (field) line. They have come up with a new concept of, instead of Greenwich Mean Time (GMT), they now call it, the Universal line. They made England the center of the Universe. That's a funny one. But the real line goes through Jerusalem, in Palestine. (Therefore, somewhere in that area we should see a lot of hype of emotion. Because that's where the STP of the Man sits. And that's where all the religions come from)).

(I said to some officials in the past few days, get rid of the Wall in Jerusalem, and half of the conflicts in the world will finish. (What the Jews call the 'Great Wall,' or the 'Wailing Wall,' is a fake wall. (It's used as the boundary with what they call, old Jerusalem). (In 70 AD the Romans totally flatten Jerusalem fulfilling the words of Christ, that not one stone will stand upon another. They didn't know where the wall of the Second Temple was, so

they picked this wall and said, this is the wall of the 2nd Temple. Archeologically, it turns out to be the wall of the Roman Fort Antonio. Maybe this is why he is saying it is fake, but it is fake for other reasons too). (He told a story of a Jewish man who was mean and stingy, and to save money he put the butter and honey in a glass jar in a locked cupboard, and his children were only allowed to rub the jar with their bread and eat it. In other words, they had to eat their bread plain and pretend they had butter on it. One day he was not there and his children couldn't get into the cupboard so they rubbed their bread on the lock. The father came home and saw that and said, can't you go to school without breakfast). This is the mentality of that area. It has made the people to believe in fake things, (and to make up what they wanted to have, and not necessarily the way things really are)).

(All of this happens because of the interaction of the STM with the Soul of the Planet, and then the Inertia plays with it. (The most fake thing they have managed to sell the world is this Great Wall. They are a bunch of thieves, and they believe in it). (In the Al-Aqsa Mosque in Jerusalem there is a stone related to Mohammad. So what did the Jews do? They wanted to get the Moslems out of Jerusalem and Palestine so they could control the whole area. They found a black stone somewhere in the south of Arabia, as far away from Jerusalem as they could get, and they paid the Muslims khalifas (religious leaders) to move Mohammad to Mecca and Medina and they rewrote their scriptures. As time past everyone believed in it. This means, Mecca and Medina were made to be fake places made up by the Jews. The original stone they believed in, is in the Al-Aqsa Mosque in Jerusalem. Now you understand how much Man plays with his life. True Muslim pray towards Jerusalem where the real stone is, and not Mecca.

(It's the sentimentality of the field of the Earth, with the environment of the Inertia, that creates this race of the Middle East. They are emotional, sentimental, and (?? you can easily control them through the religions). This is why in the present war, the Israelis are trying to wipe out most of the mosques in Iran which have their prayer walls facing Jerusalem. Then it shows how fake Judaism is. You have to understand what's behind this. (There are some clever people who like to play with the illiterate masses)).

Q: Dan Winter shared how a Russian scientist could tell if a tribe in the Amazon would be peaceful or not by measuring the magnetic fields of the land.

K- (This is not a concept, it's the reality).

(In the 1940's the British decided to create an everlasting conflict, so that they could always benefit by it. They separated the Muslims from the Hindus in India into what they called, Bangladesh and Pakistan. (Before they created the borders they were all the same. The only thing that changed is that there was the food. The Hindus are mainly vegetarian, and to the ones who were converted to Islam they started slaughtering animals to eat. (?? You can see how the faces of the Pakistanis changed. And the ones in Bangladesh ate fish more than meat. You can see how they are totally different, and how people from the same area changed features because they switched to meat. They changed just by the food, and also by the environment)).

(It's no surprise that the M fields affects our features and behavior. (Mr. Keshe again talked about how the research showed that everyone on the planet with blue eyes comes from a common ancestor. Who changed the color of the eye. What was the reason it genetically got changed? All of us have dark blue eyes in the womb of the mother, and then it changes to the color we are born with. Some children don't change eye color until they are one or two. Does it have a scientific reason for it? It cannot be irrelevant)).

Q: We are having a fertilizer shortage in Australia. Is there a plasma technology that can help us farmers to grow without the inputs of expensive fertilizers?

K- (Yes there is. KF is running a massive agricultural trial to prove this. We should be able to collect enough data by say July or August).

(KF is setting out to open one of the largest research centers owned by us on this planet. We have already started and soon you should see products with the KF logo. We will offer this alternative for fertilizers which KS can do. We are using the latest tools in science and technology. We are putting hundreds of thousands of square meters under Space research development over the next 3 to 5 years. Every KS who works for us has to sign a nondisclosure agreement. Give us time. We need a lot of financial support, but we are structuring it. It will become self-sufficient in financing itself for massive research. We don't need to have any government dictating what research we can do or how we can develop. You will see the first agricultural products soon).

Q: My understanding of plasma T is very little, I spray and put some Gans bottles around. It's very hard to measure the effects. All the crops look good.

K- (In past years, we did a lot of tests and things without collecting data. Now we have brought in people to collect the data. We fill out a pre-data sheet on a plot of land before testing. We look at how fast and how much bigger the harvests are. We want to follow it to the retail shop and see how long it lasts on the shelves. We want to see what interactions it is having with people, because we are transferring energy. Then we'll spread this across this planet. Give us a few more months).

Q: Is the situation in the world with the aggression of the US and Israel having a negative effect on the Markray corporation?

K- (You have to understand that there are a lot of things involved with the KF. No organization is as open as we are. We have no hidden agenda and we don't have a board of directors who decides, like they do in Black Rock. We structured Markray to become one of the most powerful organizations, financially, in the world. Thank God it didn't happen. (It will happen very soon in the coming time. We'll make a decision on in the next 3 to 6 months. The KC, Markray, and our new research center, will all become back of each other. We'll go into one of the major stock markets in the world, in around 2027 to 28. Then we'll split the structure of KF between China and the United States)).

(I believe the UC will diminish itself, so we are looking at the third option. We might enter the Austrian stock market and move away from America, because we see big problems coming up there in the very near future. (The Dollar will most likely collapse. The KF Coin is based on Euro, and we might look into the movement of the whole structure into the Euro).

(The situation has changed, the chemical and pharmaceutical industry will go through a mayhem in the next few months, with the destruction of one of the major chemical plants in Israel. A lot of scientists have gone with it. Over 1,200 Israeli nuclear physicists are missing and 5,000 Israeli top scientists have disappeared. We asked for monitoring of the radiation from the Israeli power station, but the European countries are all keeping quiet. The radiation levels are beyond and we know this is true because one of the top UN nuclear leaders has resigned. They don't want to say Israel has lost. The devastation in Israel is beyond imagination. They just control one Man, one screen and that's it).

(Mr. Keshe wrote to some Islamic world readers and he reads from it. The Jews are trying to build the third temple for coming of Methi (Messiah) by 2027. And (the Moslems are also waiting for the Methi. I ask you a question. Would you accept the same Methi if he is Jewish? Or is the Islamic Methi different than their Messiah? This puts your nation and leaders are in dilemma. Then, what are all these wars about? You are religious (group) waiting for Methi, and they are doing the same, for the same promises. Which Methi will you accept as the right Methi? How are we going to solve this problem today?)

(The Jews have chosen five red bulls to slaughter on the Promised Day, and are bringing them from outside Israel. They are waiting to finish war with Iran so they can confirm the coming of the Messiah and according to them, they will start building the third temple. In Iran they are working to receive the same promised Man. I think one solution for ending the war is to call upon the Jewish religious leaders to come to Iran and agree upon who is the Methi. This will end the war the same day. Now I call upon both leaders to call a meeting and bring both sides and the Christians together. (Otherwise, when this war finishes, you will start another war to decide whose Methi is the real one). I call upon the religious readers to bring an end to all wars. It's time for lasting peace, and this will only happen when all religions agree on one Messiah. I think the Islamic and Jewish religious leaders understand exactly what I mean. This war with Iran was made by the religious leaders to pave the way for the coming of their Messiah, according to their scriptures. Whose Methi is the real one? Or can you both agree that when he comes, (you will stop fighting?)) Now you understand the problem).

(Yesterday, we heard the most evil Soul on this planet, Netanyahu, welcoming the start of a Jewish religion holiday celebrating the killing of 300,000 Iranians. Officially it was 75,000, but unofficially it was 300,000 Iranians in one slaughter through the betrayal of a woman inside the system. Read the history. (They want to do it again)).

(This is a religious war and not a nationalistic one. (They have timed it to end this Sunday, so it matches with their scriptures. This is why Trump said, very soon we'll finish. This has nothing to do with their war tactics). Trump (converted to Judaism and

was told he was the Promised One. The rabbis fooled him into believing it. And they decided they have to end the war by this Sunday). We'll wait and see. Will somebody use a nuclear bomb. The reason they attacked Iran on February 28th was so that 4 weeks later they will end the war on March 28, but it didn't happen. (Instead the end of Israel has come. The Jews got it wrong. All the aerial bombing, killing some 200,000 Iranians, and damaging some 10,000 infrastructures, did not save Israel)).

(The 13th of the Iranian New Year is a bad omen day for Iran. Everybody goes out of the house, because our last Emperor, the Shah, was killed by the Muslims on that day. The Jews are using this day to overcome the Iranians. They planned it, and the Iranians were waiting for the Jews to come. The Iranians spent trillions over 40 years preparing for this war).

Q: Israel (is supposed to destroy) the Al Aqsa Mosque in the next couple of days.

K- (We have to wait and see. Israel is unlivable today according to the IAEA confidential report, the Jordan Valley is unlivable. It has nuclear contamination. Yesterday they announced themselves, not to drink water, or breathe the air ?? from a damaged chemical plant. There is no power, water, and the airport is gone. They'll start eating themselves. They're getting demolished and people getting demoralized. Look at the pictures coming out of Tel Aviv this morning. The streets are deserted. They have controlled the television and the radio). (You can read more about the war on your own).

(One Man has brought all this to the whole of humanity. It's not short of Hitler's position. They are all in it together. It's not just one. We have pictures of Rohani, the President of Iran in Zurich going into a bank in civilian clothes. How much has he taken out? All the Ayatollahs who caused mayhem in Iran, and the Mullahs with all the power have already left with billions to Canada, Australia, etc. They are being welcomed with open arms. It's the same with Netanyahu group. They caused this slaughter, and now they are getting out. We have to see what happens. There are bigger forces behind who have lost a lot of money. And there are a lot of people who are making a lot of money. The oil is going to \$200. Who's making all the money?)

Q: Russia.

K- Black Rock, the American defense group.

(One of the advantages of the KC is that, it's a guaranteed pension for life. People don't need to stop working at 60 because they are in pension from the day of birth. The KC will change the dimension of our thinking and we won't work to live, but we'll live to work and to serve. (We won't have the fear of survival, because from the moment we're born we'll be guaranteed an income. Our nation will be responsible to create comfort for all its citizens. It won't be like Social Security, (where people try to cheat. We'll fully control how much KC a person can cash in per year. We won't be able to spend it all at one time. Government spending and structures will set around it, have a very detailed position. We'll control through energy development, so that nobody can be exploited. People won't

be able to sell an apple at a thousand dollars a kilo. An apple will be one cent on the KF App. Exploitation of others will end. It takes time and we have set the structure for it).

(We need a lot of financial support, as well as scientific support from KS. We need KS to teach the others how to work with plasma. Production employees will be taught about the plasma before entering the factory floor).

(The best way KS can help us is purchase an ONN (One Nation Network) Unit, or partially pay for one. The cost is rising to three thousand Euros per Unit, because of the crisis. (The April Monthly Flight session is for addiction. We want to test something because it's part of the new technology. The transmutation session will be delayed to May).

(We have set the structure up to become a permanent structure on this planet. Five years ago we got defrauded and now we have re-emerged and set up a new structure. We'll call upon KS when we need your help. Please give it confidential, nobody should know except perhaps your family. This way we can bring this change very smoothly. Many of you will be puzzled when you see the new Space Center. It's for our future generation so that they can live in peace and don't have to see wars).

**End of Quick Index - 636 KSW – April 2<sup>nd</sup>, 2026**

## **KEY-PHRASES:**

## **SUMMARY:**

## **ENGLISH TRANSCRIPTION**

(:13)

K- Thank you very much. Good morning, good day to you as usual, wherever and whenever you listen to this series of Knowledge Seekers from Keshe Foundation Space Institute, we welcome you back.

And we hope we all together share some more knowledge, understand more about ourselves and the position and possession of our Soul in this cycle of Creation. (:14)  
Usually, the smallest is what affects the biggest. And, it's that little pin, which shakes the elephant, as they say. When it's in his foot, and it's part of his body. A Man is that little pin, in some ways or another, in his Soul, and it's part of the structure. When he shakes, when he goes wrong, everything else can go wrong, where the Man is unaware, that can cause such a problem. The elephant being the Universe (U), and Man being that little tiny pin, that little stone, which creates the pain, and this is the purpose of all these teachings, to bring Man in line with, with his own understanding of, even so he thinks it's so insignificant, it has caused huge problem in humanity.

We have seen this in the past few weeks, how Man has caused so much death. And we see how we are connected. We have to understand the structure, which we built up over the past few weeks, and understanding of the Cosmology, and the field effects, in all the structures, to a very recent past, in Physics, Chemistry, nobody ever considered Magnetic (M) fields, as our teaching goes on, and many scientists listen to it and understand, now it has to be considered. We see new evolutions in the sciences, now, in a, what we call, the fourth dimension, which is the fields, we call it the plasma of Universe, has come into play. Science makes sense, and all of other things.

But, it comes a point, how does this little stone, this little pin, operates, that it transfers it's emotions across the whole body of this elephant of Universe? (:16) In the past few weeks we spoke about the connection of the Souls of the Universe, to the Galaxies, Solar System, Solar System (SS) to the Planetary System, Planetary System to the living things, the Soul of the Man (STM), and the Soul of the cell of the Man. When we understand this, there are two pieces of information, which links up, encircles the whole lot, which is, some of you by now have understood, and some of you should have connected it. In a way, it's been said, and it's part of the structure of the understanding of the Totality. And that is, we are looking at a structure where we come to understand the Totality. We sit amongst this structure, we understand the totality of this structure, when we look at what we learned in the past months and what we are about to learn in the coming times.

We spoke about the Universe, but we never understood the game of this system. (:18) We call this the Universe, which has a Soul. The Soul sits in the center of it. As we said, you cannot have the Sun, if you have a Solar System, and the Sun being outside it. So, the Soul of the whole structure of the Unicos sits in the center of it, it cannot be outside it. And then within Unicos sits the elements of the Universes, which has its own Soul. And within this structure we know sits the Solar Systems, which has its own structure. And within this structure diminishes to a smaller and a smaller, till it gets to that dot, that little dot, which we call it the Soul of the Man (STM). Somewhere in this little thing, is the STM. But, when we come to this central point, which is the center of the Unicos, we understand that is the Soul of the Creator (STC), the Essence of the Creation. And when we look at the STM and that little dot and that little thing, we see that to be the central life of the created.

But in some understanding of the plasmatic Magnetic fields, these Souls are all connected. (:20) So, you see ?? why that elephant shakes when that little pin goes wrong. When that understanding changes, when the whole structure is connected to each other, from the STM, to the Soul of the, what we call, the Solar System, to the Galaxy, to the Creator, and the Creator sits in the center of it. Then you understand why us, as Universal Teachers, come into play. When that little pin does wrong, creates pain, the Soul of the Creator feels that pain. When that little stone sit to the bottom of the foot of the elephant, the brain of the elephant feels the pain and does something with it. And in no time than today, we see that pain, killing, mass killing, being power to kill, and destruction in the scale never seen before. And all in the name of that central Soul, the name of the Creator.

Then you understand one thing. (:22) As we spoke before, when you move, when you come to the point to understand, that from the teachings of the past, we said that the emotion of the Man dictates the understanding of the totality. So we come back to this point where we have to, we come to one point and it is, when the Soul of the cell of the body of the Man, connected to the STM and up to the Soul of the Creator. We always said... I'm trying to find a place that you lot can see. I'll bring it up this here that you can see much better. You have the Soul of the Creator. And what end? And you have the, what we call, the STM, and the Soul of the cell of the Man, and the others. This being the Soul of the Creator, and this being the Soul of the cell of the body of the Man. (:24) In that process, you have to understand something very simple. You have the STM, where this is the Soul of the cell. You have the Soul of the Planet. You have the Soul of the Galaxy. you have the Soul of the Universe, where there sits to be the Soul of Creator.

In all the teachings, if you go back to the beginning, we explain single factor, that if you have the connection between the STM and the Soul of Physically (STP) of the Man, then, that emotion, when it's the same, it creates the dimension (D) of effect. Now if you understand that, and then you carry down this forward, you will understand the only connection between the Man and his Creator, is the emotion of the Man. With the emotion of a betrayal of a son, the father gives himself a cancer. Not to make another mistake like that, in his prostate. Now you can see what the Creator has gone through, in emotion, with the Soul of his ?? created, the Man, with all the killing and the destruction. As the only connection is the field-emotion. (:26)

Then you have to understand when that little stone bothers the elephant, elephant does something about it. It's got to get rid of it. And this process has been going too long. As we are reaching the final phases of that stone to be released from the body of the elephant, we see the end cycle of the Man. It's not the wish and the emotion of the Creator, is a conduct of the Man in the dimension of the mayhem he has created in the emotion of itself. In no time in the history of a Man we have seen such a conduct. And now we understand all the structure is set. The way the body of the father by creating cancer of the prostate gets rid of the life, that there is no another life created. It's time. That prostate, that structure, that emotion, that part not to be, is the mankind.

But, Man has to understand that the connection of the emotion is the same. (:28) And as it is between the cell to the Soul, and the Soul to the Soul of the Creator in dimension of emotion. Those of you who've been looking for transmutation, you find this as the only path. How through emotion you can reach the totality destination of the Creator. Through the teaching of Mitra, think good, do good, talk good. In a way, STM doesn't talk, but the STM receives his conduct from the talking of the Man. Talking is the same with the action, talking is the same with thinking. Then we understand as the 6th of March of this year, or what we call the 27th of, sorry, March of this year, which is the 6th of the Nowruz of Iran, we celebrate the birthday of Zoroaster. It's part of the celebration and in that process we understand why we celebrate the life of Zoroaster as his conduct has been the conduct of Mitra in understanding when the talk, when the deed, when the thinking is all correct, then the Soul does not need to. The STM become unison with the Soul of the Creator. (:30) The emotion of connection.

Mankind needs a lot of time to understand this. Mankind has been given a lot of time to understand its process. Mankind needs to go much deeper to understand its process. That how the emotion created through his talk, thinking, and action creates that pure Soul, which brings Man to the point of ?? beating, completing the circle with his Creator. It's not imaginary, it's the reality of understanding how big, how, what we call, important is the conduct of the Man in connection with the Soul of the Creator. As it has to be the same. I made Man in the image of Myself. So, the STM, the Soul of the cell of the Man, has to image, has to be the image of Me. And this stone has to be taken out, that does not bring the whole process, as every Soul from this planet finds somewhere in this circle of life of the Unicos, according to his fields. (:32)

You gather in the life of the Man, you build the biggest structures to show your power, you develop the most powerful system to show the power of the Man, but the line to the Creator is the weakest of all, humbleness and giving. And now you understand why Man is going totally the opposite way in conduct. And then to get to that bigger and bigger he has to absorb more, kill more, destroy more, to become bigger. And this is where everything has gone wrong, and the reason for Universal Teachers.

In a way, you are up to date, you're all computer players, you're all game players, and you do anything to get anything. The Game of Peace, Enlightenment, is that process, to bring you to that point. Still dangling a carrot, but underneath bringing a peace. Now you understand the connection. When we provide for the nations, when we provide for the people that they do not need to and greed comes out into the cycle of the life of the Man to live with the conduct of the Mitra, then we understand the totality of the whole message.

The connection for those of you are looking for transmutation is the emotion. (:34) That emotion does not come up with devotion. You don't need to devote your life, you don't need to become a monk, become a nun, don't do anything. You live an active life because the beauty of the Creator hasn't stopped the creation of the different part of the Universe, just because he does good, he hasn't stopped developing the Galaxies, the Universes, the other parts of the structure. Man, in becoming ?? true to himself, understanding the enlightenment of the Peace, then finds the dimension of the emotion of the field strength of the Creator. And in that part, you are enlightened to the totality of the Knowledge of the Creation. Man's humbleness, Man's conduct to be correct, is not for itself, but it's for him to be enlightened to the knowledge of the Creator as he connects himself through the field strength of the emotion to his Creator.

Those of you looking for transmutation, those of you who think I can go from A to B, going from one place on this planet to another, now think about how, what is needed, what is the pivotal point to reach a point of strength, to be able to create the emotion of meeting your Creator. Transmutation is not limited to Mars and Moon, transmutation has no limitation, up to the point of the Creator. (:36) Enlightenment, true enlightenment. And it needs Man to understand this. We provide that no one needs to kill to be provided for. We develop that no one needs to kill to develop, to destroy to be developed. We don't

need people like Bill Gates and the other guy to steal, and then become philanthropists from stealing. Man has to be philanthropist through the emotion of the Man, through the connection with the Universe. And it's not limited to any one position and place on this planet in the physical ?? life. Man needs to live like every other created on in the Universe. Man need to be active. Man needs to provide for his living, through the dimension of the fields available to him, but not taking a life of another.

Now you understand, why Universal Teachers come to teach, because now you understand, the misconduct of the STM, is peppering the whole Universal Creation. The conduct of destruction. This needs to be sorted at source, which is this planet. And, Mankind has to understand ?? his emotion, which touches the Creator, not his Soul. (:38) Soul is the hardware. emotion is the software which it connects. Hardware sits in one place, the software transmits across. This is the purpose of the all these teachings and all bringing you. We do not talk about what religion, what nationality, what color or race. We are talking about the evolution in the STM, in understanding the purpose of the Creation, then this Tulips of the Soul, and this greenhouse of the Planet Earth does not become the poison Tulips of the Universe.

Man might think he's been here for 4 billion years, 10 billion years, and killed and so many have been eaten and gone and destroyed, Man has to learn from the vegetation. Do they kill? Does that tomato, does that wheat, does that carrot, kills to create life? The Creator has put the image in front of us, the reality of it, but we have never seen it we ?? use them for us to be the king of the Creation. In a way he has given us a mirror, but we are not looking into it, we are looking in ourselves, within ourselves to become more aggressive, better killer and the rest of it. Does a carrot kill or uses the energy available in the environment? Does that grain of rice kill? He uses the energy which is available in it. (:40) Man has to learn that. And what Man has done through his ignorance has seen them even those as a source of life for itself to steal. How ignorant Man is that he cannot even learn from a grain of rice. How low the Man is in his intellect, in his emotion that has not even learned in life by examples of that grain of rice.

The process of Creation is not through division. The process of Creation is understanding the process of connection. Once Man, once any of you Knowledge Seekers (KS) understand this, you can transmute within the Soul of the Creator, become part of, as to become the whole of. A lot of you have been trying to transmute, but have not understood ?? where you can transmute. And what is the purpose of transmutation. Knowledge Seekers came into Linz, (:42) they wanted to go to moon, they wanted to go to Mars, they wanted to be in the ocean, they wanted to meet the Soul of Christ, they wanted to do everything else. But did any of you wanted to understand how to be the Soul of the Creator, part of, which your Soul is connected through emotion. You wished and you reached, but you never understood if I can reach this, I can reach the Soul of the Creator. Why do I need the Soul of planet, Man or whatever? Now you understand how the teaching step by step over the past many weeks and years, brings you to understand the weakness of the Man.

There's a secret in 2026. And, in the coming time, I explain to you, which teaching will bring you to meet the destiny of the Man. In this combination, till we reach that point, many of you will become, and at the same time, us, on the other side of the teaching, prepare for that day, that the Man will come to understand the purpose of, true purpose of life, and how it will happen. You have to understand, you have to comprehend, (:44) that the purpose of life is not that when you sit, as I always said with the Italian couple in Barletta, trying to push with the force, the cup on the table, but to understand how easy, through emotion, you can move that cup. If you can move that cup with the emotion, you can move the Creator. There is no difference in the dimension of the Soul, once you understand the way. As the old saying says, "If you're a fisherman, you have to feed him for a life." "Teach the Man how to fish, he'll feed himself for a life." The purpose of the teaching is to teach you how to fish. You have killed enough fishes and you have not reached the point.

In the process of 2026, all the days will match for that point ?? when the Man will mature to understand. And we will be here to guide it to that day. I hope you understood why we talked about Cosmic Rays (CR). I hope you understood why we went in depth about the connection of the Soul, because the only way is through the Cosmic Ray of the Soul of the Creator to the Man and back to itself. What comes from him is the completion of the whole process. (:46) It's now ?? better to understand how it's connected to him. He don't need no prophet, he don't need no mullahs and ayatollahs, and definitely he don't need no rabbis and no gurus and the rest of it. Man has to be enlightened to the truth about his own creation, how he was created and how he goes back to what created him. Rain back on, you have an ocean and from it comes up the moisture and becomes that drop of the rain and those drop of the rains when they fall back they create and maintain that ocean. There is no difference between the Soul of the Creator and the STM in that ocean and the drop of the rain.

Now you understand the full meaning of, "I made Man in image of Myself," because I'm the ocean and the drop of rain. All at the same time. Connected, Gravitated, pulled back to myself to keep myself to exist, to confirm my existence and at the same time to rain upon Man the beauty of my love and his life. I hope as Knowledge Seekers you have found the key to your Creator. And in time mankind will understand ?? this fully ?? . We go for a break and we come back and try to answer any questions. And I hope you find your way to your Creator, through the path of the emotion, ?? than the dimension of ?? , and jumbo jets and rockets. (:48) Rick, take us for a short break and we come back.

**>> BREAK >>** 636 KSW April 2<sup>nd</sup> ... (:52).

K- Thank you very much. As we made an announcement before, and we had some responses from you Knowledge Seekers. We are looking for those of you who are developing or developed, or want to commercialize, part of the Keshe Foundation Technology, which we see appropriate, we are prepared to look at. And, please keep on sending to your, what you call, innovation and inventions, and we look at into it, and how we can use it, and how it can be commercialized, as you as a partner of it. We have accommodation for hundreds of new innovations to be developed, and we will be able to discuss in detail with you in coming weeks, as we see we have received the number of requests or what you call innovations for development. Please be more precise than just a drawing or a product as a picture, (:54) and explain in more detail what you think is needed, what facilities you need, and then we can take it more in detail in how we analyze. I put three or four people going through your, what you call, requests and emails and messages you send us. Please send everything to info@keshe.foundation, and then we can look into it and find out in more detail what it is. Don't send it all over just because you have a connection with us, sending it to Telegram points. It doesn't go that way. Please keep it that way, that I can pass it on to the right people to, to analyze it. It won't be happening overnight, it'll take weeks, and then we come back to you and we'll do the same.

As I said, we are looking for a number of different things. We're looking for those who are deeply involved in Keshe Foundation Technology teaching. This is not just looking, we are looking to bring you in as guiding the educated people, teachers, in how to translate, to bring the knowledge of the Keshe Foundation teaching from basic to University level. We don't want you to teach, we want to be in a way advisors, what needs to be taught, and the way you see. We have education group, we've done this all a lot. This, what we're setting up is a national school structure. (:56) We have some 18 months to complete and we are looking in conjunction with the national structure to set up the first 18 months to 18 years teaching included in the present curriculum understanding.

So we are looking with those of you who understand not only making Gans's, the ethos behind our work, the advanced technology which technology brings. We are looking people to guide the teachers curriculum, what needs to be done. A lot of this has been done. We go back into it and bring these out. Our education group are there. We'll be looking those of you who have come out or you can advise us, in a way not advise us, advise the teaching groups how to set up the structures. This is the first national school structure which we are getting involved in and we want it to be correct, not necessarily everything will be perfect from day one, but we learn. How do we teach what is the effect of plasma technology to a three year old, what can they see. One can, a 13 year old and one can a 23 year old person see. To follow it up, for, to teach both sides of matter and energy together. Our teaching of today is all matter. How we want to bring a new generation that teaches the matter and energy together.

As I said to the head of the education structure, which we are working with, we want to teach the other side, the Energy side, and we are prepared to give scholarship, and students can work with our laboratories inside, every aspect to see it first-hand, depends what they are interested in. (:58) And in a way, as we said, what you have developed, you would like to be part of with. These students, these young people, will come with you, to learn what you've done, what you've developed, that they can develop something new on it. We have all the facilities and the environment for this getting set up, and we are already in it. We have taken position of our premises and we are working. We are not looking for time wasters, looking for people who can set the knowledge for the next generation.

If there are any questions we try to answer about this, but we need people who have a full clarity about teaching, sharing the knowledge that it can be understood by a structure of people, from 18 to PhD, in different ways of us teaching it. For those who work with us full time, everything will be facilitated, that you don't come on your own. If it's a team of you, you can bring your team. If it is with your family, we accommodate the whole lot. The structure is set to support this, and it won't happen by accident. It happens by design and we are setting up on this, especially for that purpose. If there are any questions we try to answer, but please have in mind the time to bring the technology has started. We are already in it, we are not going to do it. It's just that we can add you as another string in what I call "guitar of the music of this technology". Any questions? (1:00)

Q: ... Greetings Mr. Keshe, Rick, Universal Council and knowledge seekers throughout the Unicos. Mr. Keshe, you have taught that Man has miserably failed to create children of peace through the physicality, and that the Children of Mitra, created through the Soul's field rather than the physical interaction of Man represent a new path forward for humanity. (1:02) How is a Child of Mitra created without being born through the physicality process we are all accustomed to. And if humanity were to raise even a small number of such children, what field change would this create on Earth? Would it be sufficient for the Universal community of other star systems to finally recognize us as a Soul that has come home and is ready to integrate? Thank you.

K- The Soul of the Children of Mitra are created through dimension of the fields. Their physicality takes dimension according to the Possession and Position. Which means, now we create their physicality (P) and then we, what we call, the Soul. And, in the process of the creation of the Children of Mitra, we look or we see, the creation of the Soul first. At a moment we go from matter to energy. The Children of Mitra created through the energy to matter. Then, would this matter be in the mother? Would it be in the environment of womb of the Solar System, the Galaxy, another planet, another dimension? In the world of the present science we talk different dimensions, but in fact dimension is different level of strength in magnetic fields in the knowledge of the plasma. (1:04)

If you understand that, then it's very simple. You fall in love with a woman from planet Zeus. She has no womb, she has no reproduction part that fits you as a Man from Earth. But, the emotion of the love from Man from Earth, and the emotion of the love from the woman from planet Zeus, has a fruit, they interact, you feel each other, you with that

feeling, with that emotion of, now we feel it's correct, you create the energy. And that child could be born on planet Earth, but the, what I call, the Venus of Zeus has no womb on this Earth. It creates in that environment which allows it to. And the child takes the image of the point place of manifestation. This is the difference.

Now that we understand this, as I said very recently in many talks, in the world of today, we go from matter, we burn it and that's it. We heat it up, we do something with it and that's it. In the dimension of the Energy, we go from matter to energy, from energy to matter. The way we use the dimension of Gans's into energy and from it we produce matters, as you saw in Beijing, in May of last year. It's the environment which decides what that child, the emotion of love, creates. Man and a woman still connected, so it takes place, shape, in the womb of the mother. (1:06)

This is what I had to answer to a couple of, what I call, multiple flag people, as we call, happy people or the 'Gay Guys,' how can we have a children through the Soul of the, you know, through the Children of Mitra? There is no limitation. You find how. Would that bring another dimension of the Creation? This is what we have to understand. We become passengers of the Universe, and reproduction, it does not stay exclusivity of Man. As we know, Man is not the only created thing which is traveling the span of the Universe. So, now we have to understand, not to accept, because Mr. Keshe said so, we have to understand the process of the Creation. In your blood is Iron, in another energy transformation and circulation is acid. How do you mix the Amino Acid (AA) of the Man with the acidity of the life of another woman? Now you understand, how deep the teaching is.

To you, it's just daughter of Children of Mitra. To us, is to introduce to you the reality which the Man would encounter, in his travels of the Space Universe. Even Man can do today. You set yourself emotionally, that physically you don't produce any sperm, but you have that emotion of the, what we call, not to create a child, (1:08) and you find a woman who's there to do it, and then you feel it. The way in the physical life of today you feel the ejaculation, and the girl has already released an egg and they meet that woman, you feel the energy transfer from the Soul down the spine. It's a very emotional position. You don't feel matter state, you feel the energy. And it's the mother who decides in that womb, how she transfers that energy into.

Those of you who will create Children of Mitra as a Man, you'll find out that the process before it, as I tried to explain, that how the Chinese get themselves ready months before to have a child, diets and everything else, and what the priest says to them to do, you'll find out you have no sperm. You have no ejaculation. As you go more for it, you find out the release of the energy. To you it sounds funny and something not there. We know exactly what we are talking about. You transfer the energy. You don't need billions of sperms one finding. You transfer the love of the Creator through the STM. And if the woman is there for that purpose, you'll find out you create Children of Mitra. Children of Mitra need devotion to peace. Children of Mitra need devotion to understand the love of the Creator. It's not just something I do. (1:10)

And mankind is not going to be unique to it, as it's the process which is already happening in the Universe, as Universal Community, many of them have found out, that's the only way to create, what we call, mixed races. Do you transfer the emotion of your love, to your child, to your mother, to your father, to your wife, in any other form, but by emotion, and they feel you? So, Man has to learn how to do that, for a generation of next generation. Children of Mitra will stand like a red rose amongst those who are not created by, the same way. As Man learns, Man will do and gradually will become part of. Will create both side, Children of Man and Children of Mitra, from the same marriage, from the same reunion, we decide. Man has the capability to do so. You have to decide, if I create a child through the love of the Soul, or I create a child through the physicality of the Man. (1:12) To you it's fantasy, but the reality exists.

Any other question?

Q: ... So, my question is again about the emotion. So, as I understand there's an analogy between the states of matter and the Soul and the emotion and so, is it so that the Soul or the emotion, the physical Soul is sort of like an effect of the friction between Soul and physicality? Is this correct that it's sort of an effect?

K- In a way, in a way you're right. It's an interaction, it's not a friction. We...

Q: Because in the analogy it would be the principle matter that is the physical Soul, isn't it? So if you say the, the transition matter is the Soul and the matter-matter is the physical, physicality, then the anti-matter or principle matter should be the emotion, is that correct?

K- The emotion is non-dimensional. Your matter state interacts with the energy level, which creates that, what we call, STP. You call it the 'Spirit' in the English language. There is a difference between the Spirit and the Soul.

Q: So, the physical Soul would be the Spirit?

K- The Spirit, yeah. (1:14)

Q: And this would be the same as the...

K- Connection, connection between the two, is the emotion and is the balance. We're coming up to Easter. Some of you celebrate tomorrow and some celebrate next Friday depending where of the Orthodox or the Catholic way. But if you look at that structure, You see that the putting the cross up and putting the Christ on it, is the dimension of the STP of, not the STM. And because the Soul was freed at that point, could bring the STP back to where you believe in the three days of resurrection is that generation of life. When the physicality was pinned to the physicality of the cross, you had no choice but to manifest itself in a new dimension. And thousands of people were put every day on the cross from Rome to Palestine and around Italy. It was a way of doing it. Did none of them resurrect? And this is what is resurrection is energy connected through the emotion.

The emotion which Christ carry with him in the name was the emotion of the love of the Man to bring Man the right way. That was the difference. He had that emotion.

You see if you look at the structure of the religions which now we see the extremities of it. (1:16) In Islam, Christianity, Judaism and the rest of it, is the separation of the two, that by torturing the physicality, they abuse the Soul. And this is a crazy situation. I was yesterday in a very strange environment. And I went deliberately to this environment. I mean, I, because I entered this environment, I saw it first time years ago. And I had an opportunity and I created an opportunity to be there.

I went to a village. It's a village. Hundreds, thousands of people live in this village. I didn't see a man. I did not see a man on the street. I saw only women. All in black. All nuns. All nuns. And it was like walking in the street with a lot of black clothes. In the Islamic world, when the Jews or Christians want to ridicule them, they say, "Look at these women walking with, what you call it, the hijab." And these are all Christians, all Christians. Every door somebody came out is a woman in black. I went to the church, there were all women, all in black. There were men there, three men, the priests. (1:18) And I said as a joke to somebody who was with me, "They must have good fun." Hundreds of... I didn't see a single man on the street. And I happened to go around about, after evening prayer, about 5 or 6 o'clock. "Oh my God, the church was full of women, all black." I thought I'm in Saudi Arabia. And this is in the center of Europe. I sat with one of the Sisters in her house. And she said, "Not many new ones are coming in. We are all getting old and dying, not very few, very, very few." When I was standing in the church, I noticed two girls, maybe two women, in their early, late 20s, early 30s. They were all, the rest, old. She said, "It was four of us in this building. I'm the only one left." The rest died. We don't get more new ones coming in.

And, if you look at it, how do we look at this structure of the Soul? This is thousands of women, in a female society, and they do everything, they run this village. It's a village structure, they have an old people's home, looking after the old sisters till they die. They milk the cow, they plough the land, they do the gardening, everything else. There's no men, everything is done by women. (1:20) But, all these women carry a love to have a child, to love another entity. Isn't that a crime? Depriving of a person to love? And then you tell me where does that emotion goes to? It's the second time I've been to this village in past years.

Q: Just to study? What makes them live that way or .. ?

K- No, it's, you got to understand, I sat in houses of Monsignors in Vatican. There it is opposite, there is no women. The same religion. The two sides. The funniest part is, I laughed, because I was talking to somebody who was brought up in this structure. And I was told that, if you look, one side of the church is all women and there are two, three boys or whatever. The priests stand on the other side, men and women don't mix. Isn't that what the Muslims do in their mosques? But the Christians don't tell. The Jews do the same. And how do we hide the love, the emotion of love, from one to another?

I sat with the most senior advisor, so, John Paul, if you remember, from Vatican, and then his, the one who succeeded this place. (1:22) We used to meet in Rome a few times, I met with him a few times, and the pain of loneliness, the pain of wanting to do something because they have no one to love is the same as what I heard from the nuns yesterday. We are all born to love, that's emotion, but how we hide it and how we connect it, it's our own decision. We have to understand it.

And I was, as you know, as part of my work of advisors to some governments, and in the past few days with what's going on around the world. We get a lot of, what we call, need for chit-chats with these world leaders, with these structures, of what is next, what to do, what do you see. And as I said to the, the biggest problem sits with the wrong emotion, how we create that emotion, and how those who listen to these kind of emotions follow it. If we change the emotion to emotion of peace, these people have no ground to listen to, or no one to listen to them. And it's very interesting how mankind misunderstands his own emotion, and how that emotion is important, is the energy which keeps the physicality going. (1:24) And Man has not realized it yet. We lose everything, and we feel the emotion of getting rid of this physicality. We fall in love, and this world is not big enough to accommodate that love. But the physicality in both conditions is the same. It's part of being human. ??

Q: But, shouldn't it be possible to love, no matter whether there's some, somebody receiving this? Shouldn't it be possible to just be in this emotion?

K- It is possible, but we always... we always need a feedback, to understand how much we give, for us to value our lives, or the purpose of our living. If you understand what I mean? You can't clap with one hand. And this is the purpose of life. Are you by any chance connected to Imgard in America?

Q: I don't know this.

K- You don't know? You sounds very much like her.

Q: I don't know her.

K- I love talking and being in communication with her. She has such a gorgeous voice like you. I thought last time I asked you if you have any connection. Thank you very much.

Is there any other question? (1:26)

R: ... I'm trying to scroll up, but my mouse battery has died. Okay, there we are.

K- You should have fed the mouse before you come on. I was in a supermarket, one of the well-known, famous supermarkets, very recently. And I saw a huge rat running across towards the battery section. I said, "I bet it's run out of battery, it's going to get some." I think, you need one.

Q: ... Hello Mr. Keshe, good morning. When you mentioned two teachings ago, about the alternating functioning of the organs, and about how sunlight illuminates one side of the Earth while the other remains in darkness, it gave me the impression that, in fact, while one part is illuminated by material light, the other part might be illuminated by the light of the Creator, in another dimension that we are unable to see. The idea of the bracelet that you introduced last week, would it be like a dynamic bracelet, in which each link receives a dimension of energy on one side and delivers that modified energy to the next link? Thank you.

K- In so many ways, yes. This is not something which is just from what we said yesterday (last week). (1:28) When, of course years, decades ago now, I used to do, I used to be a diamond, I used to deal in diamonds, beautiful diamonds. And in the world of diamond business, or if you're in the jewelry, there is something called, 'Tennis Bracelet.' This is a chain of matching stones next to each other, in one line. And when you look at, when you make this chain, all the stones have to be exactly the same. If we get a slight different light in one of the stones, reflects on the others. And, what you call it, a perfect tennis bracelet is when you don't see the clip. If you choose one wrong stone in color, or in purity, in this chain, sometimes it's 16 stones. Sometimes it's 14 stones, but 16 stone is the average bracelet, in half a carat each. Then, we have what is called the double tennis bracelet, which means two rows of half a carat, 16 of them come together, but you make it in a way you don't see the clip. The clip is set in a way that you don't see where the break is. You bring the two together.

And with the double bracelet, it's worse. If you get one wrong color, the whole section light changes. (1:30) Again, depends on the craftsman, how he mounts the stone. And you have, in a way, nearly 16 carats of diamond, which one (can) messes everything up. And then you start looking for it, and then you try to change it. These kind of things, you don't see much in public. It costs hundreds of thousands of dollars to make such a thing. I made a few of them during my work. And this double bracelet is like the STM. Many times when I think about it is exactly the same. And then depends how you cut the stone. Is it a square or is it brilliant? Again you get different lights, different shade on it. And this is the same as the STM, and that chain. You just put one impurity in one, slightly different color in one, it reflects back into the next one, and in the area where that stone is. And when you put it flat on the table, you see it.

It's the same as the STM, you just need one bad intention, the whole structure of that Soul goes dark. The whole structure changes, the whole light changes. And then, you do some funny things with these stones. You can put a half a carat black and white. It's a very unique, finding a pure black diamond is very hard, especially matching in color, even black has a color in black. (1:32) That gives you another dimension. If you have worked with black diamonds, I used to do a lot, is an art to get this done. And when you mix a black and white or clear diamond and a black in the bracelet, it's a very unique touch. When you put a black diamond in the center, and a setting of the rear diamond, like a two carats, and you put ten pointers around it, you see the light, the way the white stones shine, especially in the light. That's like the STM. That's exactly how it is. The dark side

shows the beauty of the white side, the clear stone. And how you shine light on the bright stone, shows the beauty of the black.

I used to enjoy playing with diamonds, or setting diamonds in different things. In setting a black in the white, or making a black earrings with the white surrounding, clear diamond. It changes even the emotion of the person which wears it. It's the same with the STM. Just because the Sun shines on one side of the daylight, does not mean the life stops on the back side. Sometimes the back side is more active to party at night, don't they? Nobody goes to the disco during the day, but everybody is out on the dark side of the Earth, with discoing and dancing and celebrating while it's dark. (1:34) It's ?? for us to understand, and it's as depends in which side and what wants to be part of. One side absorbs, but the other side celebrates and gives.

I was talking to some philosophers years ago, and if you understand the logic or the essence behind, Why humanity, majority, needs the dark side of the life, which is the night time, to generate the life, which is the bright of the STM? Very few children are conceived during the day time. Why do we conceive our children in the dark of the night? Such a bright storm, such a bright light, to be conceived in the dark of the night. If you understand the logic behind that one, then you understand everything else Man does in reverse. Then, do we need the Children of Mitra to be created at night? Then the question is, when you fall in love with another creature in the Universe, in the depth of the Universe, is there a Sun there? Or all children of the Universe are created in the dark of the Space, (1:36) but the light of the emotion. It's not that nothing happens on the dark side, is that we destroy some of the most beautiful things in the light of the Creation.

Any other question?

Q: ... Good morning and thank you Mr. Keshe and everyone. We talked about putting a Soul in a computer, and how it would have no consciousness. So, how does the Soul have consciousness? Does consciousness have a Soul that connects to the human Soul? Thank you Mr. Keshe, and thank you to everyone who makes all this possible.

K- Soul is conscious by its structure. Soul is conscious by its own structure, it doesn't need consciousness. Soul is connected to the fields of the Universe. So, it's always conscious of its behavior, it's not like Man, that he ?? has to think about what he's going to do. It's always doing, it's always conscious, it's always omnipotent and omnipresent, as they call it.

Q: ... (1:38) Hello Mr. Keshe, first I would like to thank you all for your effort for the good of all humankind and not only that you and your... and not only that you and your team make. Second, I thank you and Mr. Ekmar for the Enlightenment Game, which will be a great tool for the benefit of all. Following your advice, I asked for an account number to the Minister of Finance in my country, where the Foundation could send the money from the game. But, following the last week's teachings, at the question put by the Minister of Finance, as to when the money will start coming, the answer, 3 to 4 years, made my request, let's say, irrelevant, to be nice. So, please make in such a way that you

and Mr. Ekmar to speed up a bit, the evolution of the Enlightenment Game. Otherwise, a great tool will become totally irrelevant in the future. Thank you.

K- Not really, I can give you the date. Last week, we made an offer of 2.7 trillion, Keshe Coin (KC) value to the government. And we allocated, we allocated 1.8 trillion to the citizens of that country, of the Keshe Coins, in Euro value. (1:40) And I can read you the response from the authorities. They says, "This is a generous and the government is considering to accept." The one which the government will receive income in two or three years, whatever, is from your play side, is not from the Keshe Foundation, what we call it, distribution of the Keshe Coin. We are in the final stages of it, maybe another month or so, before we start distributing Keshe Coins across 4 possible 6 nations in coming time. It's just our technology system development has to complete in the background.

The situation has risen because of the war and millions of people have lost their income and livelihood. And we are coming in just about the right time. And we are... there's a lot of things needs to be done. So, it's not in 5 years. If your government is responsive to what we do, what we can do, give them. In next 2-3 months, when the first governments receive allocation. The first government receiving allocation of the Keshe Coins is the government of Iran. All Iranian nationals. And, then we have a number of the countries which have been affected heavily with this conflict. People from Thailand and Philippines. Many have lost their lives, because many have lost their jobs, and it's the national income. (1:42) Fourth nation for us is the island in Central America, Cuba. We are working, I'm actually more or less working around the clock to get these things sorted.

The United States citizens get 30% of their shares and the government gets 10%. The 70% of the Coins going to the American citizens will be distributed for the wars they created and the damage in the countries they've done. The same goes with their National Reserve ?? condition. Citizens of Israel get zero. No ever money will be allocated to anyone who carries a Jewish passport. Will stay the same. They've done enough robbing and killing. The situation is very clear in how we're doing it and governments, the ones I'm talking to, about 8 of them at the moment, they're all receptive to, accepting to start, because they want to get out of the, what we call, American structure. This is not going to happen in 3 to 5 years.

And many of you, we haven't started promoting the game, as we are getting done with seeing the pitfalls needs to be adjusted,. And then, yes, we do. It's already been accepted. Working heavily on this side. You have to understand that the way this structure was set on originally by the development of it, (1:44) we are not mining the Coins for people to use a lot of batteries and energies to mine to find something to survive. We already give people to survive that they don't need, they have to become peaceful with it. In next, maybe three months, we'll approach some 15 to 20 nations. Slowly, slowly. Those who need, those who have to, those we can bring a change. Don't forget we did the same with the distribution of the Key to the government. Slowly, slowly, but we have to be ready for it, we have to structure ourselves to be.

The, what we call, the building, the structure for it, the Internet for it, is getting set up. Those are very involved with it in the background, they know. There is everything that's getting done. It's costing us tens of thousands of hours, efforts, in the coming time. It's not just what is done. Now the seed is set. Now growing the seed is going to be much, much more involved. This Game of Peace and the Cash Coin (CC) and the Keshe Coin (KC), the way it's set up, its structure will change the whole humanity. You don't need to kill, you pay for an apple, you don't need apple. Our scientists have learned how to produce the structure of the energy of an apple without the apple, with the emotion of it. They've been ?? taught in past few days. We're getting ready for it. Then you don't need to destroy to reach. (1:46) But it takes time. It takes time to get Man from chewing. I learned that in 2009, when we had the first coma, the girl asked, "Can you give me something to chew?" Even though she didn't need to eat.

In one of our research developments, which is ongoing, it's getting set up, and it's almost probably 2 or 3 weeks, we're going to full swing. We are trying to feed, develop a school of fish from few days old to full maturity without single drop of food. It'll be video, it'll be recorded. Our team know what they are doing. And in this structure, I think it's 3 or 4 meter by 10 or 15 meter, maybe 20 meter long. We endeavor to show that we don't need to eat. And we can grow, we can let the fish to grow, through the dimension of attraction to fields of the Universe. It's not theoretical. I can even show you the shape, the physical pull. (1:48) And this is prelude to start feeding the Man, by creation of the environment and not by killing. And when you do that you change the emotion of the Man. And this Game of Enlightenment and Peace is part of that process.

We've all been fed the wrong way because it suited some. Because then it makes sense to Man which is the path is the greed of killing. And this Game of Peace is part of it. Talking about the Game of Peace, we're looking for developers, computer game developers, we're looking for those of you who are expert in what we call blockchain. If you are a programmer, we are ready to employ a number of you, very urgent, and to be part of the structure of the Keshe Foundation worldwide. We are interviewing a few people this week and next week, and we are looking for, if you are a computer programmer, and you have knowledge about the blockchain and that kind of thing. And gaming, doing the games, we are looking for participants, people who can work for KF. And you can stay in your own country, you don't need to move, but we need people to start operating and the other part of the game. (1:50) For those who can send an email directly to me or to care by the [info@keshe.foundation](mailto:info@keshe.foundation). Or if you know any other channels, get in touch with us. We are, we are interviewing you rapidly for the development of this site.

Any other question?

Q: ... In your last week's teaching you said that the killing habit of Man has something to do with the position of the planet and the way the Cosmic Rays intersect the Earth. Could you expand a bit on that subject?

K- Can you repeat that please?

R: It's about the killing habit of Man has something to do with the position of the planet and the way the Cosmic Rays intersect the Earth?

K- It does, it has a lot to do with the field interaction.

R: Is it specifically an angle thing or is there a...

K- Partially, partially. It's a combination of the inclination, Inertia, position. It's a combination of many things. In some of the research we do, we test these things and we try to observe the effect of it. It's a combination of many things. Earth and the STM is a very complex composition of the energies, (1:52) and each one plays a factor. We've seen with the, for example, the behavior of Aborigines. We see the color of their skin. We see the attitude. And then we take the same Man to Africa. We see same kind of color, but different behavior, according to the environment of the inertia, and then we take the same Man across into Brazil, South America, we see the same kind of color, slightly different, but different behavior. We bring the Man up to the north, into Central America, we see the Red Indians, and we see how the feature changes, the emotion changes, closeness to understanding of the work of the planet is. And then we take the same Man up north to Canada, the original tribes of North America, and we see a different culture. And we take it further north, we see the Eskimos. Then we see the effect of bringing the same race down into Russian territory. And then we get back to Central Asia, how they change again the color, and then how you come back to Iran and Middle East, (1:54) and then you go back and when you look at the behavior, social structure, color of the skin, way of emotion, it changes partially by environment, partially by Inertia material within the structure, and then the climate, but it's the same Man.

So, the structure of the, then it changes, creates different, what you call, mixture. We don't look at, for example, the present America, as you call yourself American. We look at the structure of the Red Indians, the native people, the indigenous. They come through the evolution of time. The Man in America is by the greed of time. Two different races and has not even gone through evolution. Evolution happens naturally. Revolution happens by Man moving around. And then you see how the structure of the field of the planet, the position, the climate, the land, and then you look into the culture of the fear. And how people who have no fear in the evolution of time live an open life. We see that with the Red Indians with the tribes in Central America, in Northern America, what we call, look at the present America today, (1:56) ignore all the whites and the Europeans and the rest who flooded themselves. You look at the actual Red Indians, what we call the indigenous people. They still live that free spirit, and then you look at how the land is, how it's been done. Look at the Africa, and then the same in Australia, the indigenous and the South America. South Pole creates darker color, North Pole creates lighter color. Somewhere in between you have Middle East, which is a conflict of everything, and that conflict creates play with the emotion, and that's why you have all the religions there. No white, no black in between. And it's like the Chinese, one eye left, one eye right.

In Chinese you have the process of emotion, because of the shape of the head and position of the eye, believing in Yin and Yang, because they have to decide, there's always two of us, the left eye doesn't follow the right eye. And then you have in the Middle East, between the white and the black, and then the emotion of the, all the religions come from. Why? This is all part of the structure of this planet. If the Earth was vertical, it would have been all the same. Even life exists on the planet, doesn't need to be different. We see when Man becomes part of the Universal Community, we go to Planetary System, that they don't have an angle, but they're still alive, because of the position, it's like that, it's a full of life. But, not the way we see the diversity. (1:58)

You see, the people of Middle East, Southern Europe, North Africa, very emotional, because it's the swing between the two, the North and so on, giving and taking, the turmoil is not just on the race, but what happens inside the planet, in that position. We, the interaction of the Soul of the Planet, with the STM, creates the condition. And if you can play with it. It's just what historically brings these things to us, and we follow the, not the Man in a physical, we look at the Man in the dimension of the Soul, which creates the physicality in that dimension. Then you see the whole structure of the Humanity in a different way than what you are used to, to see black and white. And look at how the energies of the planet interacted with the STM, which creates dark skin in the South, brownish lighter in the middle, and then we have Northern European, which are all white. This has the interaction with the Soul and then the condition of the physicality of the Inertia of this planet.

We analyze life in a different way and when you speak about creating condition then you will see the position, how we change according to the position. And why for example we all concentrate these religions into Palestine, Jerusalem, there's a special effect on that line. (2:00) They are, they come up with this new concept of, we used to call it 23 years ago, Greenwich Mean Time, Greenwich Line, and now it becomes a Universal line, now England's become the center of the Universe, that's a funny one, but you see nowadays everywhere is considered as a Universal time. But, if you look at the line of real line, you go through Jerusalem, Palestine. That should have been somewhere where we see the hype of emotion. That's where the STP of the Man sits. You look at all the religions, everything, all comes from... Why? Don't look at them, and there are ?? critiques .. all the same.

As I said to some officials in the past few days, "Get rid of the Wall in Jerusalem, and then half of the conflict of the world finishes." Because this Wall is a fake wall, it's just used to be built as a boundary of old Jerusalem, everything was destroyed, this wall is dead, now it's the story of the father and the cheese, the butter. The Jewish guy had a few children and he was as mean as they are, he puts the cheese on the butter and the honey in a jar in the cupboard. And every day he gives a piece of bread to the children and he opens the cupboard and they rub (their) bread on the glass (jar) of the butter and he says, that's it, that's your breakfast. You had your cheese and jam and whatever the butter and go (means they don't get any butter on their bread). One day he goes to rob somebody in the Synagogue, as they usually do, and he doesn't get home to open the lock on the ?? bread and butter, and the children were rubbing the bread and the bottle. And the children

were rubbing the bread on the lock. (2:02) And when he gets there he says, "Can't you lot go to school without breakfast?" And this is the mentality of the area. It's a mentality which is brought with people, believing in the fake and whatever it comes.

And this all comes because of the interaction of the STM with the Soul of the Planet and then the Inertia ?? plays with it. If you look at it, this jewels from the wall of, what we call it, the great wall, the big wall, is a fake thing, it's the fakest thing they have managed to sell. And a bunch of thieves believe in it. But look at the thing.

If you look at the ?? Aqsa, the big mosque in Jerusalem, there's something to do with the stone in it. What did the Jews do? When they wanted to stay in charge of the whole Jerusalem and the Palestine, they went and found a black stone somewhere in the south of the Arabia, as far as it could be. And they took the Muslims there, they paid their khalifas, and they moved them there, and they rewrote the whole story of the Man to believe in. And we have some Mecca and Medina as a fake ?? place. The original stone what they believed in, and they worked with, it sits in Jerusalem. It sits in there, in the mosque. Then you see how much Man has played with the fiddles of life. If you are a true Muslim, you don't pray towards Mecca, you pray towards Jerusalem, where the real stone is. And they've (Jews) wiped out the whole history part of it. And sentimentality of the field of the Earth, with the environment of the Inertia creates this race of Middle East. (2:04) Emotional, sentimental, and then, showing their religion, then you can play. This is why in the present war, the Israelis are trying to wipe out most of the mosques which show praying towards Jerusalem. Then it shows how fake Judaism is. You have to understand what's behind this. Illiterate, played with some clever people.

Any other question?

Q: ... Dan Winter shared how a Russian scientist could tell if a tribe in the Amazon, that they did not know would be peaceful or not, they measured the magnetic fields of the land, to tell if the tribe would be peaceful.

R: I haven't heard of that before.

K- Interesting, but it's not a concept, it's reality. It's a common... it's just the same, you know, in 1946, 47, 45, that area, when the British decided to create an everlasting conflict, that they could always benefit by it, they separated the Muslims from the Hindus in India, (2:06) what we call Bangladesh and Pakistan, and India as Indians. And they were all the same. The only thing changed, because Hindus and the rest, and they're mainly vegetarian, and the rest of it, they added just meat, slaughtering and killing, into the diet of the people who became Muslims. And you see, what you see as Pakistan, the changes, the ?? faces changed. The ones which went to Bangladesh, are fish eaters, more than the meat eaters. They moved more towards, because it's their coastal area. And you see they are totally different, you can say, even they were all from the same area, how they changed. Bengalis, Muslims, then the Pakistani Muslims from the same India, how they change just by the food, let alone the environment.

So, it's no surprise Magnetic field effects are features on our behavior. It's very, very strange, it's like the research which shows, anyone with a blue eye, comes from the same person. All of you have blue eyes, you think you're unique, you all have one ancestor. It's not... it is proven scientifically, it's genetically proven. So, if you see a blue eye, black child, which I've seen, and a blue eye, in the, what we call, European culture, like one of my sons, is all have one mother or one father, who changed the color of the eye. (2:08) What was the reason of it, that genetically changed? But, we have to understand, all of us, in the womb of the mother, we have blue eyes, dark blue eyes. And then it changes to the colors we're born with. Some children till the age of one or two don't change, they have blue eyes and then it changes to brown or whatever color. Does, it has a scientific reason for it, it cannot be irrelevant.

Q: Good morning Mr. Keshe, good morning Rick.

K- Good morning. Are you finished with harvesting? Are you still in business?

Q: Still, still a little bit left. Yeah. So, now coming to Easter, yeah, I'm going to take a few days off.

K- Farming doesn't have a rest, does it?

Q: Well, for me, I work when I want to, because it depends on what you're doing with pumpkins and that. As I get the orders, I pick them up, you know. So it's no hurry. And I wish everyone a happy Easter and may the love and peace manifest in the hearts and minds throughout the world. I just, this is a very special time for a lot of people. I feel the energy is, it's a lovely energy too at this time of the year in light of what's going on. (2:10) I think people want peace. My question Mr. Keshe is, we're in trouble here in Australia not only because of fossil fuels, we've got a problem there, and we shot ourselves in the foot a little bit because we put sanctions on Russia and we've supplied planes and missiles to the UAE, so we're not in the good books here. But it's going to create a lot of problems for the agricultural side of things for fertilizer and I'm just wondering, I mean the fertilizer's already doubled here already so it's already impacted us here, but with the plasma technology is there something that can help the farmers and even myself to grow without the inputs of expensive fertilizers?

K- Yes, Keshe Foundation is running a massive trial. Actually, during the teaching past few hours, I just received a video of one side. We are running a massive trial to prove this, to show this in... by... let's say July, August. We should be able to collect enough data. We put people, scientists who collect data for us. We brought a specialist in, we have set up special conditions. And this is part of what I call, the new energy valley of the Keshe Foundation. We become one of the biggest structures in this world, in that aspect. (2:12) We are testing this on some, around about 25, 30,000 square meters, in greenhouse and in open space, and very soon we'll add another 25, 30,000 square meter to it, in the next few days, hopefully, that we are changing the climate, we're changing condition, and this will replace the present for ?? space. Just give us time if you...

As I said, Keshe Foundation set out to open one of the largest research centers on this planet. We have already started. And I'm sure next few weeks you will see the, what we call, Keshe Foundation product logo, which cannot be copied. We copyright it, we put everything and trademark everything on it, and yes we'll have an answer within. This is our course plan, months ago and now it's in progress. We are controlling the total environment. We are in one of the most advanced water plants, which we control everything of it, space level, Agricultural Research Center, again, owned by Keshe Foundation. And, then we will be able to give a solution, an alternative for fertilizer. Because, we have to control everything in this environment. The feeding, the temperature, everything through new technology. (2:14) And, we have brought, a specialist to collect data, on more or less daily, hourly basis. It's all getting fed into one central system. And so, Knowledge Seekers who already been with us, you have helped us to set these things up, and I thank you all for being there for us.

And yes, we will offer this alternative and then we are putting it out to agricultural lands to test it outside the control area with the fields. The first ones will be out in the next month or two. And then we will replace, exactly the data we collected over the years. And yes, there is an alternative for fertilizers. Knowledge Seekers can do. We are using the latest tools in science and technology. And I thank the team of Knowledge Seekers in the background who are working so hard to make this happen. And then, the next step for us in the next few months is the Space Technology Development. This is an area of more or less hundreds of thousands of square meters of research space development, in the next three years to five years. Owned by Keshe Foundation, run by Knowledge Seekers, and every Knowledge Seeker who works for us has signed a nondisclosure agreement and none of you know. It could be your husband sitting next to you, or your wife, you don't know. But they're operating, sorting things for us, with us. They fly in and out, in their capacity to help us, to advise us, yes.

Give us time. We have set up a new structure. We need a lot of financial support, but we are structuring it, (2:16) that in 12 months time, it will become self-sufficient in financing itself for massive research. We don't need to look at no government to dictate what research, how we develop. You will see the first products, agricultural products, is one of our first products coming out. It's already, test has been run for past 3 months. But, our product with full Gans product, is going under trial at the moment. Just be patient with us. I was going to ask you to join us, but I thought you are too busy. And if you have time, we'll invite you to come in and have a look and advise us in what you understand. We are doing both, what you call, greenhouse and no ?? , what you call, open space development. But we're controlling the environment of it.

Q: My understanding Mr. Keshe is very little really. I'm using the plasma technology and through the fertigation, through foliar sprays and you know I've got little bottles here and there and everywhere. But in the end of the day, it's hard to measure what I'm actually doing and how much it's actually doing. You know, difficult to measure. That's my issue at the moment is everything looks good. That's all I can say. It's been a difficult year because of the weather. We had 50 degrees centigrade during the flowering and that didn't help for the vegetables. (2:18) And then we had rain, six inches, what's that, 6

inches, about 50 mil of rain. And that created even more problems. So, you know, we're dealing with the weather, extreme weather patterns here. Australia is a bit like that, flooding plains and drought all in one season. It's very... the desert's turning green here. It's interesting actually.

K- Yeah, but up to now, in past years, we did a lot of tests and things, without actually data being collected. Now, every, every day, every hour, we bringing in people who are collecting data, because we have to say we do. We have a pre-data sheet. I mean, let's say this lot of land should produce 5 ton of fruits, or vegetables, whatever. We are looking at how fast, how much more. We are not looking actually in more of, we are looking at following it down the line into the retail shop. How long it lasts in, this is part of our work and then what's the interaction with the people, because we are changing the use of what you call food as a way of energy transfer. This process has started. It's not something we're going to do. We have invested a lot of effort and time. And as I said, some of you Knowledge Seekers have already been with us. You've been through the research centers and supported us or advised us. And we keep on doing it. This will be, in the next 3 years, 5 years, one of the largest research centers on this planet. (2:20) Totally owned by the Foundation, run by the Foundation.

And, as you heard earlier on, we asked for people who can help us reach education, it's for this Center. We are building a school structure, from zero to graduation to university, all on the same site. And, to bring up the next generation, as we call it this day. We're getting a huge support from the local structures. And it's beautiful, I was looking at the picture of it, once it's set, hopefully, in the next 3 years, 5 years, when you look at the, what we call, the aircraft view of it. It is, it is set to become one of the largest research centers on this planet. It's not something we are going to be building, it's already been built. So, the agriculture part is part of it. And we gradually ask for people to come in, is to spread this across this planet. Just give us a few more months, then we will tell you.

Q: Just another question with the situation in the world. Does it have a negative effect on what's happened with the aggression of the United States and Israel? But in America of course you have the Markray company. Would it have a negative effect on the company itself or that it was just...

K- You have to understand there is a lot of things involved with Keshe Foundation. We are... no structure, no organization is so more or less open as we are. (2:22) There is no hidden agenda, we don't have a board of directors who decide, like Black Rock, how to be dominated by... But, you hear in the news, in coming weeks and months, what's happening with the Keshe Foundation. And, in so many ways, we structured Markray to become, one of the most powerful organizations, financially, in the world. And, thanks God it didn't happen. And thank... we are there to happen in the coming time, very soon in the coming time. The whole structure with what is supposed to become power of Markray, as an international structure, is in our hand. We make a decision on it, before next 3 months, 6 months, and it all, Keshe Coin, Markray Corporation, our new research center, all become back of each other. We'll go into the, one of the major stock markets in

the world, in 27, 28, all work has been done on it, preliminary. And then we split the structure of the Keshe Foundation between two nations, China and United States.

I believe United States will walk itself to, what you call, diminish. So we are looking at the third option. We might enter Austrian stock market as we are based in Austria, and move away from America, (2:24) because we see a big problems coming up there in the very near future. And then we have to understand. The whole collapse of the dollar is one of the main things. And as Keshe Foundation Coin is based on Euro, and we are an Austrian based structure, we might look into the movement of the whole structure into ?? Euro. Because, but again, we have to look at the opportunities and, what is for us to do or run three-way operation. And then, we'll see. We do, we cannot...

The situation has changed, you have to understand. You are touched by fertilizer, others touched by the energy, the others will see the chemical industry, pharmaceutical industry, is going to go through a mayhem in the next few months, with what happened with the destruction of one of the major chemical plants in Israel, how far it is, it's going to be a second, third attack on Israel, there'll be nothing left of this chemical ?? plant, because it's not just the structure a lot of scientists have gone with it. When the Israelis say that there is an attack on this, these are not empty spaces, you leave them 10 seconds empty, they run out of control, they explode. So a lot of top technicians have gone, they are in ashes. Over 1200 Israeli nuclear physicists are just by name. There's no traces of them. 5,000 Israeli top scientists have disappeared. They don't exist. (2:26) You have to understand these will have effect on the back end of us. We ask for monitoring of the radiation from the Israeli power station. European countries are all keeping numb, nothing. Radiation levels is beyond any level and they're keeping numb. We know this is true because one of the top United Nation nuclear leaders resigned. They don't want to say Israel has lost. Devastation in Israel is beyond imagination. They just control one Man, one screen and that's it.

Q: It's just a crime, it's a crime...

K- It's a religion. As I wrote to the Islamic world readers, I can read it to you. Maybe I read it to you, for you to understand. Let me just get it. Then you understand what sits next. This is the next step and this is... If I find it, I'll read it for you. You, as people, don't see what we see. This is to, one of, two of the world leaders, they both received the same, and we already received response, so it's not something you have there. (2:28) This is dated very recently, past few days.

It's at one point of history, if you understand. The Jews, they are trying to build the third temple for coming of Methi (Messiah) by 2027. And most of your war with them, is about the same thing waiting for Methi. I ask you a question. Would you accept the same Methi, when they say he has come? Or Islamic Methi is different than their Methi? Now, your nation, your leaders are in dilemma. Then, what is all these wars about? You are religious circle, waiting for Methi. Now, and they are doing the same, for the same promises. And both of you and the Jews, waiting for it about the same time. Now my

question from your leaders and their leaders is which Methi is the right Methi? And how we solve this problem today?

As you know about the Jews, they have chosen five red bulls to slaughter on the promised day and are bringing these cows from outside Israel and waiting for the finishing war with Iran that they can confirm the coming of Methi according to them and the starting of the building of the third temple for their Messiah. And in Iran, the work is going on for the same promised Man. (2:30) I think one solution for ending the war, is to call upon Jews, religious leaders, to come to Iran. To agree on how we work this out, and then this war will end the same day. Now I call upon both leaders to call a meeting to bring the both side and the Christians together. Once this war finishes, which is the present war, then you both will have another war on whose Methi is the real one, and again another war for the Methi. I call upon the religious readers to call for this meeting and bring an end to all wars. It's time for the lasting peace, and this only happens when all religions agree on one Methi, and not more wars in the future, for the same of the same dream of Methi that all will arrange before he comes. I think the Islamic religious leaders and Jewish religious understand exactly what I mean. This war with Iran is done by religious leaders, paving the path for coming of their Methi, according to their script. And you have been waiting for this, for the coming of the same Methi at the same time. But whose Methi is the real one? Or can you agree together, that when he comes, you do not need to fight and go to war on which one Methi is the right Methi? Now you understand the problem. (2:32)

Q: I did speak to an Iranian mullah who came to the Parliament of world religions in Melbourne here in Australia and shared some information with him and I said that the one that they're waiting for is the teacher for everybody, not just for one group or another. I said, "He has come for everyone, so he doesn't belong to any religion." Otherwise, then he's not who he is, you know.

K- The problem is that we heard the most evil Soul on this planet, Netanyahu yesterday, welcoming the, what you call it, the Jewish religion holiday we started. And this holiday which they are celebrating now, in Jewish calendar, is for the killing of 300,000 Iranians. This holiday, today, Jews are on it, goes back to the time when they killed, officially 75,000, unofficially 300,000 Iranians in one slaughter, by betraying of a woman inside the system. Read the history. And they are saying that now we are back again, back to that time, and this time it's going to come up, and he's ?? rhetoric it with a lot of things, that is the coming of the Messiah and the rest of it.

So, we see the same thing, because I speak with the other sides and the other people, all the Muslims are waiting for it, they have created an army waiting for Methi to come, and the rest of the, what I call, rubbish which goes with this thing. (2:34) But, what is the outcome of this conflict? It looks like a nation, but it's actually a religious one. The religious leaders of Iran, the religious leaders of Israel, will ?? end this war against each other, on the religious basis, not the nationality. And, at the end of it, is suppose, if they get it right, supposed to be this Sunday, if they get their scripts right, according to, and that is one of the reasons Trump says, very soon we finish, we go out. Tactical and

technical things are totally separate, because, as Trump supposed to be the Promised One, they fooled him to believe in that, believes that by the rule, by this Sunday, the war should finish. We'll wait and see. Somebody use a nuclear bomb, waiting for it to be done.

Don't forget today is the 13th of the Iranian New Year. This is the bad omen day for Iran. Everybody goes out of the house. Nobody stays in and everything else, because our king was killed by the Muslims on this day. We celebrated 12 days of Nowruz. You celebrated 12 days of Christmas. On 13th day, they killed the Iranian Shah, the last Emperor of Iran. And we go out, we see it as a bad day. And, it's the 13th, that's why 13th is a bad number in Farsi, because of this day. (2:36) And the structure is that they are going to celebrate this day again by the Jews, because they overcome the Iranians. And this is all planned, and the Iranians were waiting for the Jews to come.

There is something very interesting, which has brought a new knowledge to a lot of people outside Iran, even for the Iranians. The Iranians and outside accused that government and military or whatever, were stacking away millions and billions out of Iran in their name. Now we see how much money in past 40 years has been spent on technology, development, missiles and everything else. They hardly ever spent a penny. They build it all because the religious leader knew this day will come and they have to fight the Israeli religious people. Trillions has been spent building these underground missiles, silos, technology, is, it has to be developed, there are scientists day and night working on this. This was a religious war. They knew they're going to face and they are waiting for it to happen.

And the Jews knew. I told you months ago in teaching, if you go, the date of this war is set. They set up that date that within four weeks, Trump promised four weeks to the day, which lands to this day of the war, that the beginning of the Jewish holiday will be the end of Iran, and it didn't happen. There was a reason they attacked Iran on 28th (of February), 4 weeks by this day of the, what do you call it, calendar, but in this week, they false that they celebrate the end of Iran (on March 28), and it didn't happen. (2:38) It comes to the end of Israel. The Jews got it wrong. Aerial bombing, killing some 200,000 Iranians, damaging some 10,000 infrastructure, does not save Israel.

Q: Israel destroyed the Al Aqsa Mosque in next couple of days.

K- You have to see what they're going to do. Oh, you have to see what they're going to do. If they destroy the... Israel is unlivable. Today, according to IAEA, confidential report, the Jordan Valley is unlivable. Nuclear contamination. They themselves yesterday announced, "Don't drink water, don't breathe." The chemical plant is so dangerous that the half of Israel is not livable. There is no power, there is no water, the energy is gone, the air hangers are gone. There is no airport. They start eating themselves. They're getting demolished and people getting demoralized. Look at the pictures coming out of Tel Aviv this morning. The streets are deserted.

They just control the television and the radio, and the Americans bombing all the way from America in. And if Iran unleashes what they have in next 2-3 days, because they believe in the other side of the coin, Houthis, Lebanese, what you call, and the Iranians, and then the Arabs are turning back on the Israelis, as we heard Qatar has asked for a plane gift back today, and will start the mayhem. That, go back, I have pictures of it, if you go back from the teaching last year, I said, (2:40) all these ships, which are coming to bring arms, will be the only way that the Israelis can escape. And go and see how, like a rat, they are getting on the ships to get out of Israel. According to internal report, 30% of the houses in Israel are empty, there is no one to live in them, they all escaped. 30% of the houses are empty. There is nobody to live, all the Jews escaped. Israel has lost 12,000 plus, all their intellectual people left the country. It's not a joke.

If the Palestinians push, as they're pushing from Northern Lebanon, it'll collapse, the car, the whole structure inside is gone. Palestinians can claim the whole of Israel in 24 hours. IDF is on the run. They don't have the money to pay their soldiers. And the soldiers lost their income. They used to be doctors, engineers, shopkeepers. They are not there, they are in the war. If the Iranians do what they are going to do in three days, by Sunday, the war will be very clear. And the Israelis will push to use one or two nuclear bombs, which they hid somewhere to use, trying to save their victory. Nuclear war will not win them the victory. Nuclear war will bring them the demise. The way they came into Israel, Palestine, like rats, they move out like rats. (2:42) Just watch. Just watch. A boat, the Cypriots, the people from Malta, are making money out of it. \$50 ticket, now it's \$5,000 and \$10,000, in the dead of night they are getting on boats into Cyprus and Malta, escaping. Any other question? Let's see, we'll watch in the next 5 or 10 days, in 2 or 3 weeks and see, what comes up.

Q: I've been watching every day.

K- It's not easy. One Man has brought... You see, the one Man has brought the whole humanity. It's not short of Hitler's position. But...

Q: Well, I think the Hague, what happened in the Hague, and it should be done again, because these aggressive, illegal war...

K- They are all in it, it's not just one, they are all in it. We have pictures of Rohani, the President of Iran, is in Zurich, going into a bank to cash in how much is taken out, in civilian clothes. We have all the Ayatollahs who caused a mayhem in Iran, Mullahs with all the power have already left, they are in Canada, they are in Australia, with billions, they are welcoming them with the open arm. It's the same with Netanyahu group, they've taken this slaughter, they'll go. (2:44) We have to see what happens. There are bigger forces behind, have lost a lot of money. And there are a lot of people who are making a lot of money. The oil which was 60, 80, now it's 200, you can imagine 18 million barrels of it coming out of Earth, who's making money with this?

Q: Russia.

K- Black Rock, the American defense group.

One of the advantages of the, what we call, Keshe Coin, is that it's a guaranteed pension for life. People don't need to stop at 50 and 60 that they are, they get a pension. They are in pension from the day of birth. So Man puts his effort into it. We look at the whole structure what it does. This Keshe Coin will bring a lot of changes. It changes the dimension of thinking. You don't work to live, you live to work to serve. When you are guaranteed income, you got there from the moment you're born, your nation is responsible to create comfort. It won't be like Social Security, people hiking and jacking. We control it, you slowly, gradually, everything will be controlled fully. How much you can cash a Coin a year, is not that the thousand Coin a year, you can spend it all in one go. And government spending, structures will set around it, will be set in very detailed position. And, we don't make, we control through energy development, that ... you cannot, in a way, to exploit people... you have a card, you can give it to us, an apple is a thousand dollar a kilo, apple is one cent on the App. (2:46) So, exploitation will go. It just takes time and we have set the structure for it.

Q: Yes, the future looks bright. ...

K- We need a lot of support, we need a lot of financial support. Every penny ...

Q: I have a problem, everything's tied up at the moment.

K- No, I know, not just you. But we need a lot of financial support, we need a lot of scientific support, Knowledge Seekers. We bring, we bring National Engineers, they don't understand to them, is another, you know, pipe opening and water giving to the plant. And you try to explain to them, this water is not a normal water, this energy is not normal energy. Till they see it, and maybe they believe in it, and maybe they start working on it.

In the first batch of MaGravs, you suddenly saw we couldn't deliver when we started MaGrav production. Was because of this not having a Keshe Foundation Knowledge Seekers to tell the people what to do. We employed the top, more or less the top, top manager of the steel industry of Italy, to run the first Keshe Foundation in Northern Italy, the factory. And I received a complaint that the MaGravs are not delivering what they are supposed to. I told you, I went there, I think I've explained it before. I saw the coils piled up, all Nano coated on top of each other, like a hill. I said, "What's this?" Because it's already to go into the MaGravs. I said, "Close the factory. You don't understand the technology. These things shouldn't be touched, they should be hung." And then they go in the system without a touch. You just... "Oh, they're just Copper." I said, "Forget about it, I'll close the factory." And a lot of you didn't receive the MaGravs. (2:48) It wasn't because we did more. It was we didn't have the Man with the knowledge to do it. And this time, we are doing the opposite.

And some of you know, you are flying in, you are talking and teaching and monitoring, every point that the culture of the plasma technology is kept within it. And the workers

need to be taught. I asked one of the leading Knowledge Seekers to set up, to join us, to set up the structure that the knowledge can be dispersed amongst, more or less, for workers. In the new structure, everyone who joins us to work, has to spend a week, whatever, to learn about technology before they let loose on the ground. If they don't do, it's no use. They have to know, it's a difference. Takes time.

Q: Thank you Mr. Keshe. Thank you for what you're doing. ...

K- The way you Knowledge Seekers want to help us is to, don't give us donation, purchase an ONN Unit, a part of it, pay partial payment for ONN (One Nation Network). We, it just allows us, the Unit, if you go we call it the One Nation Units is three thousand.

Q: Yeah, I've purchased two.

K- But that's the only way you can help us to work and officially do our work. Initially at the moment the price of one Unit we paid two Units or three Units two weeks ago has gone to nearly the you control Units to three thousand Euro, literally what you pay us, we will pay to the manufacturer. (2:50) Because of the crisis.

Q: Mr. Keshe, I gave two, two Keshe Coins for the second Unit, and I got one Keshe Coin left, and maybe I should give that too, because the price has gone up.

K- The price of each is nearly three thousand Euro each. We might increase of the Unit very soon, but if you're trying to, anybody trying to help us, for what we set up to do, please purchase, or pay a part payment towards a Unit. That's the best way we can utilize the finances and do a lot of other things, till we sort out the situation with the Keshe Foundation in Holland and in Austria, with a fraud case which is ongoing and the criminal case is ongoing. Thank you very much indeed.

Shall we call it a day? We're going nearly...

Q: ... In terms of the upcoming Cosmic Ray session, is there a possibility to set up a session for the collective of people that are having synthetic opium problems, that can be recorded and distributed later.

K- What addiction you mean?

R: Yeah, you were mentioning the next session will be...

K- The next session, the April session... Yes, thank you very much for bringing this up. The April session is for addiction. We want to test something because it's part of our new technology. Those of you who said you had no addiction, but you wanted to be part of transmutation, we bring that transmutation session into May. (2:52) So, if you look at it, you pay for a transmutation in March, you'll be delayed to May, because we're testing a new structure in April, which will help you in May. So, those of you who want to be part of the addiction side, or you're still in it, because you test everything else with us. The

session will be in April, it's already been announced, and we have to set up our system, new way to do it. And then the transmutation session is in May, if you don't want to be part of the trial for addiction. Thank you very much for that.

R: Is there something that can be done for people with their addiction problems, that can be recorded and distributed?

K- We don't record, we don't record, we don't record. The system is different. We work through a different way for this. We know the last time we did an addiction Unit, we have the setting. We look at the setting with the application of the new technology development. And then we apply it. But the reason we're doing to the 21st, hopefully it's ready. I mean, April session, hopefully it's ready by then. If not we might delay it, is that it will be a, it will not be a Zoom session. It will be a single channel session through the game. You have to come in through, you have to register and come in through the Game to be able to participate in this session. And if you're already playing the game, you just need to click on the Keshe Foundation and the structure will give you what to do.

R: Did you say the 21st or?

K- I don't know, it's already announced.

R: It's on the April 17th at this point.

K- April 17th, yeah, so that'll be it. So, if we are not technically ready for it, we might delay it by a week or so.

R: Right, that might make it the 24th, would be Friday again. (2:54) Can you answer, well, Azar took her hand down, so, I guess...

K- ... You know what is the tradition with the Iranians, which is the 13th day. We grow, then the green you have, we have a green on the table, you've most probably seen it. We knot it and make a wish, and when it's there, when this knot opens up, comes up, the wish comes through and we throw it in the running water. And they said the girls who want to get married, they usually make a knot, you know, find me a husband, it's very traditional. And they try to find a husband that year. I think Azar is busy tying the grass at the moment.

K- Any other questions, shall we call it a day?

R: Sure, yep, we've gone double, triple over time today, so thank you very much.

K- Thank you very much for today. We are there, we have set the structure up to be a permanent structure on this planet. What we tried to do five years ago, and we got defrauded even with that, we have re-emerged, set up the structure, and we call, when we call upon you to help us, because we've seen your, the beauty and your expertise, that you can help us. And I thank for those of you traveling across this planet, unconditionally, to

be there to help us. Many of you are doing, and many of you will do, and are already done. Please give it confidential. Nobody should know, except you and most probably your family, that we can bring this change in a very smooth way, the way you see this happen. Many of you are puzzled when you see the new Space Center. And be there with us and support us to achieve it. (2:56) It's not for me or you, it's for our future generation. They live in peace, they don't need to see wars. Thank you very much and see you next time.

R: ... And I'll read this, it's from a message from Lissy, on behalf of the Universal Council. (2:58) And it goes, "We, the Universal Council, invite the Keshe and Universal family, present on the Earth in unifying at the Soul level every time, every day, at 9pm, Central European Summer time now. Giving from our field strengths to enlighten the Souls of World Leaders, to negotiate and sign the World Peace Treaty, pledging their nations to everlasting peace on Earth and throughout the Universe."

**636 KSW – April 2<sup>nd</sup>, 2026**

**End**
