# Topic Index

Here to understand real work of Creation beyond planet - think P is ruler; Deeper into CR - receive energies from U; Teaching about eyes - receive CR information to travel U; Many U creatures have eyes - kind of vision - others use CR instead of eyes - feel different D - millions of kilometers around them; Human trapped in physical vision - don't use to absorb, feed, control energies; Learn to use Cosmic colors & CR - what they mean; Colors have meaning - red for danger; Where did color of eyes come from - its evolution; Connect & absorb U Energies through eyes; Why do we remember images in dreams - other senses; Eye sockets - hole in skull - no Ca - connect to U - Soul sends out info; Evolution of eye color brought maturity - absorbs certain Cosmic U Energies - affects emotions - ways of thinking; What causes eye color; Absorbing CR through eyes allows maturity - affects emotions & ways of thinking; Originally Man 's eyes black - because lush green vegetation & high temperatures of Central African plains - South America & Australia Man as seedling Man grew in these areas - had black eyes; Monotonous environment with tall trees, high temperatures; Savannas of E. Central Africa - vast, tropical grasslands, scattered trees, shrubs, tall grasses - black eye

environment; Man started migrating - eyes changed color with new environments; Modern migrations - one group left Africa crossed Straits of Hormuz into Asia & Europe; Another group - every 300 years followed flooded river to Egypt and out of Africa; Earlier migrations of 500K years ago - from N. Europe into Africa; Ancient cities under sea from millions of years ago - different life and creatures as humans; During migrations - deserts and green forests of Iran - eyes changed to brown to see more; Was biggest change in evolution of Man & development of STM to be able to absorb energies it likes; STM created diversity for itself - shift body positions from flat, horizontal, vertical; Other animals couldn't; Caused body to absorb different fields from Inertia, MG fields of Earth, and U Energies - brought maturity & intelligence to Man; Evolution of Man started - crossed into Iran 500K years ago; Few thousand years ago, changed skin to brown; Expanded to grasslands of Europe; One person created Blue Eyes - common ancestor for all blue eyes human race - to live in forests & open farmlands; Dense forests of Germany - green eyes - forests filtered sunlight; Historically & scientifically - green eyes absorbed different energies & CR, partially interfered by trees - gave different mentality; Rays interacted with Inertia & M fields of trees - Vertical People - effected why changed to green; N. Europe & Scandinavian costal areas - lived by sea, clouds, etc. - grey eyes - 2% world's population - near to blue, because of environment; Hazel eyes blue & yellow - dry desert & green lands - Silk Road - thousand years ago; Humans can change eyes according to environment; Golden eyes; Those who remained in one area - did not change further; Each color change brings different emotions & behaviors - placid Scandinavians - aggressive killing in Middle East - brought by Nature - continuous fighting to survive in harsh climate deserts; Each group has own behavior traits; Eye color - creator of emotion, behavior, how we react - from what we absorb from U; Skin of eye, eyelids - protect physical D of Earth - not stop absorption of U Rays; When dream pass through skin to D of U; Dreams - extension of Soul - vision - extension of P; Close eyelids - detach from body & interaction with surroundings; Can't stop dreaming - why we remember - not limited by eyes & eyelids - cannot stop waves of plasma T of U, nor CR; Eye color dictates what bandwidth of energy can absorb - feed our Soul with those fields; Eyes feed Soul - ?? independent of Creator; In U - have different colors - we don't know; Take spectrum of U color - convert to human color; KS seen Gans color - color specialist say not exist; Mixtures of universal colors; Showed in Book 3; CO2 cream color - ZnO pure white; PhD in thousand shades of white - don’t contain colors of U; Universal Community (UC) don't have eyes - absorb - like in dreams; See people in dreams through fields - not with eyes; STM feels CR another Being produces - knows if in danger, or friend - what it wants to say; Pass through rock; UBESUS Headsets for eyes - help learn see U colors; Lose life in Space if not know what color means; Know basic color combinations on Earth - how to mix; Learn CR mixtures - how interact; See these colors as energy - affect field energy of STM; Tune sight of fields of emotion - to absorb and feed P with STM; Create new emotions; Develop sight like blind man - feel presence of others; CR - another passing body; See through Soul - enter UC; Sight & STM work together closely - eyes see P - Soul sees Energy Packs; Emotion warns body not to move - danger - trust Being - collaboration; Races that do both - unique in U; Learn rules of U - make judgments - felt something wrong - 6th sense - how Soul is in Space; Soul communicates with us; Understand motion of fields of U; Dogs do this - feel danger - because eyesight is mono-color - work with Soul; Vertical People use Soul to arrange P -

remain stuck to ground in storms - move together; Blue Alakai sees & absorbs certain fields through skin - creates emotion; When in Space eye color & shape will change - see full spectrum through STM - not P; In mirror - ask what energy eyes absorbing; Dream is D of Soul; STM gets out of eye sockets - no Ca; Humans already Space traveler - don't accept Soul; STM never sleeps - brain works 24 hours; Stupid scientists - only 5% - put idiot like Einstein higher - mouth talks faster than brain; 80% of brain - not for work of P - energies & information stored by STM for its operation; Brain used by STM as transformer - steps down energies - converts into messages P can feel and understand - do that in Space; Brain will invert inside STM - comprehend different things; Pure energy diluted in fields of U - interact with STM - decisions from that level - feel new dimensions - elevation of Soul - arm and legs don't feel like yours - elevated - access to more Energy & Knowledge; Going through evolution - like snakes shedding old skin - new skin is new D of our knowledge; Soul elevates - P goes through transmutation - fingers feel new - not ours yet; Soul elevated - P has to follow - getting used to new P; He went through this process physically - each time Soul elevates; Describes personally how body feels - get used to new body - knows knowledge but emotions have changed; Feel more detached from body; Vision sees Knowledge of U; Takes few days to get used to new skin - knowledge has changed, understand more; Third time - open to whole knowledge of U; Servitude is salt - catalyst to reach this point; Unconditional love - detachment from P; First time thought he was crazy; No connection to his body or life; At 39 - detached from wealth - tool to teach others - become part of Universal Knowledge - help others understand; If didn't learn leave it behind at death; Understand eye's importance; P of eyes don't matter - Soul still dreams, etc; Eyes for seeing U - see in dream; Creatures attached to P - have this structure of eyes; Many would give life for physical eyes; Say you traveled with Soul - not dreamt; Soul lives separate life - baby-sits P - own friends; Not aware of what your Soul says about P; If do something wrong - arrange with other Souls to balance - Day of Judgment; Vision is for P - but connects to life in U - not a dream - traveling U; Part of UC; If only dream of grandparents - still connected to Earth; Mother tying toddler by ankle - not lose; Sight important - gives Knowledge of U - while P asleep & repairing; P is not owner of the Man; Connect breathing to vision - open new life - bring in lymph - Soul's connection to P - feeds P; Same feeling when die - detached from P - see with eye & energy of U; I made Man in image of Myself - don't need eyes or lungs - enjoy P & beauty of Mitra; Too much attached to P; Detach yourself from P - only you can do it for yourself; Taking you to meet your Creator - even though already within Him; Understand & connect to Him - will understand purpose of your life; Taught you about air - now about eyes - UC creatures have 100 senses - Man stuck on 5; Then comes emotions - without limit; CR will bring new emotions; Gans's were bait to get you interested in Knowledge of Creation; Today's teachings - remain with human race - thousands of years - give Man power to separate from planet - connect to UC - enjoy P on this planet & in U; Realize you absorb energy through and because of color of eyes; What fields are you losing because of this color - cannot absorb that spectrum from U - because skin has decided what fields you needed to be able see in physical D of your environment; That's why you see what you see; When one eye is blue and other green - unstable - which eye for Soul and which for P; Your P is line of connection - allows to dream & become part of UC - have to stop killing, destroying, eating others; It's just the Emotion of it; Food ate in

dream was energies of dream - not physical food - didn't kill for it; Should not even kill in dreams, then, we can handle P; Understand how to transmute; Eyes are door to U - you decide which vision - Soul or P; We have entered new D in teachings - whole purpose; Will open other doors to control through P - live in both D at same time; Bring new D to humanity - key to enter UC.
