

649th Knowledge Seekers Workshop July 2, 2026

(Transcription, Editing and Proofing done by KF Brazil)

(Auto transcription by Elias)

Yawning: 10th Anniversary - Fabio assassination - naming building Space City;
Teachings - P joins STM - uses eyes; About yawning - why contagious - one electron
flips - others flip; Soul hands over body to P; Lungs connect STM to P; Yawning in
Plasma Science - Soul hands body to P - travels U; Yawning releases energy - conversion
from air to P - free acids M fields into lungs - give to Soul - synchronized with lymph - P
follows; Contagious - connect to other Souls; Frequency & bandwidth M field - meeting
Souls - P doesn't know; Soul travels without P sleeping - back in microsecond; Soul has
schedule - P tuned don't need to yawn; Interrupt schedule - Soul pushes to bed - purpose
of yawning - 2 schizophrenics using same body; Agreement - Souls time 10 to 6 AM;
Measure M fields of emotion when yawn; Transmutation of Soul - pre-set - conversion of
U Energy to P; People yawn together - Souls on same strength; Can't stop yawn -
politeness; Observe space gap yawning; If delay - Soul does trip without P knowing - pay
for later; 10 minutes later not tired; Real handover - twitching as fall asleep - Soul
disconnecting from P; Measure length of inhale & exhale; Inhale shorter - problems;
Inhale & exhale same - balanced; Exhale longer - good health; Soul - gets rid leftover
energies from lungs; Exhale release energies from lymph; Lymph Cleaning exercise -
longer exhale; Inhale what P needs; Exhale lymph; Teach about lymph operation &
breathing; Death long exhale - releases Soul; No blood in brain - Soul doesn't take
energy from blood - Soul released by lungs; T to measure - when Soul & P separate;
Lungs - shape of brain, Spherical shape like Soul of Creation - Lungs, brain, Thyroid -
direct ratio - space Inertia - why get different races - determine time of death - learn
transmutation - bring STP inside STM; Knowledge of Creation - same; Creation is
Energy & P - same with Gans - matter, vegetation, Man, or life in U at strength of
Plasma; Different characteristics of races - from different fields; Position between STM,
STP, Thyroid - decides behavior - why all Chinese behave this way, etc; If slightly move
space Gap - will change; Chinese became Black; Last breath - yawn - supernova - all
Plasmas of U; Soul brings gifts from U - journey affects our P; Soul changes through
eyes; Use knowledge transmute; Control transmutation - rhythm of breathing; Makes
difference - inhale through nose exhale through mouth, etc - different strength; Masters of
East - didn't teach humanity - release pressures in blood vessels & control blood -
encages STM - transmute; Make M fields of blood vessels lose connection & control over
STM - easily transmute; STM - gift to invite through P to U; Fabio; First batches ONN
Units out; KC come into operation - start change; KC 1,000 Euro - only exchangeable
within KF; Purchase KC as donation; KC not exchangeable for currency - not
Cryptocurrency game; Trusted KS - 30 KC; Promotion video KC; Distribution of KC by
age; Receive needs through KF Apps; No speculation on currencies; Humanity looked
after from birth to death; KC offered to Iranian government; Palestinians shared atrocities
- double KC allocation; KC taken from Israel & Belgium; Ruthlessness of Mankind - not
bring to UC - not part of KF; Support Governments, etc.; Sign World Peace Treaty; 2008
Iranian Parliament signed; Rules of KC - belongs to humanity; Link together all KF
worldwide with KF Association Austria; Job of KS; No deviations allowed; Structure for
commercialization to KF China & Space City; No loopholes for abuse; Markray will

sign; Nobody from outside can touch KF - nor rule over you; Bring Humanity on equal basis with each other; If governments resist - other ways; Mitra will take us to UC - my job only prepare; Groups killing off humanity - believe overpopulated - wrong; KF T can feed U; KC bring change - Rothschild's, etc; T to build buildings & homes; Gold reserves - worth nothing; Signed contracts to produce gold; 9 billion Souls not enough to seed U; For you & next generations to complete; Russian vaccine for cancer; Humanity vaccine - eliminate killing from memory, etc; About global governance; Interactive video game teaching children to kill - stop; Protect children from killing; Animal behavior - American culture spreading to world; British teach to steal; Problem from pharmaceuticals; KC operating in Africa before materials production; Need hundreds of millions; Governments have to follow U Council & Earth Council; Can think and receive Energy; KC is transition to U way of living; Energy within; ONN to mature; Emotion create gold ring - not greed; ONN controlling Units; KS will receive private call - accept 30 KC - test systems; Don't tell anybody; Depends who leads humanity; Society collectively work together; Keep busy - not go insane; Rich also get 30 KC; KC not transferable; Make own business - but not force others to work for you; KS have to spread KC; First get systems running; KF systems will supply all needs - App; Initial reaction not to work; Systems for paralysis; ONN system 80% functional; New plasma battery; 2 years away; If it stops - humanity loses; Complete cycle; Rectangular pupils; Monocular myopia - physical damage; Soul doesn't damage anything; Psychosomatic - Soul psychosomatic; All 3 move together - STM, psychology, symmetry P - controlled by STP & STM; Out of balance - cancer - evolutionary cancer; Manipulate process - have best life; Mix liquid plasmas of different strengths - different ways - need new T - digitalize it - see physically; Register for Swiss Exhibition; Study of water contamination of Baltic Sea; Experts in environmental contamination; Start factories; Lost 5 million in America; Swiss KF will invite ambassadors or politicians; Talk about Swiss Exhibition; Need support to bring in new T

ENGLISH TRANSCRIPTION

(:24)

K- Thank you very much. Good morning, good day to you as usual, wherever and whenever you listen to this series of Knowledge Seekers from Keshe Foundation Spaceship Institute. We welcome you back.

The Intro video is the traces of our memories from Fabio. This week is 10th year that he's not with us. And what you saw is him, the way we saw him, the way he was with us, even he was with us for about 2 years. He was with us for about a couple of years. His joyfulness is happiness. Every woman fell in love with him. He was in love with life. And most of the pictures you see him with Naomi, is the pictures we saw at work every day. I remember he joined us first in the teaching, and then Naomi joined us. And we gave a front office desk as you come in to Naomi, and he had a table on the other side of the room. And when I came back, one day the two tables were next to each other, and the chairs were next to each other, and they were kissing each other. I said, "This is how the

Keshe Foundation should be." And that table and chair stayed in that position, for the rest of the time they were with us.

And, as you all remember, he most probably is one of the most, what I call, Souls which affected the course of the Keshe Foundation. (:26) With his assassination, we left Italy, because there was no room left to be in Italy. And, as I always said with the police of Italy, this wasn't an accident. The too many things, which even everybody agreed, he cannot fall out of the car, some 10 meters away, at high speed, and have no bone broken. So, the rest is in the hand of authorities, and the rest of it is still ongoing. After 10 years, it's not concluded. But, in his memory of his joyfulness, we are calling one of the buildings in Space City, in his name. And I'm sure many of you, when you visit the Space City, you remember him, his love, his joyful life, and he literally lived a true, what I call, Keshe Foundation Ethos.

I have many, many memories with him, and his cheekiness, his naughtiness, and this was increased by 10 times, maybe more, when you put the other half to her. Which was Naomi. And, one of the things which I can never forget, and something will carry you for the rest of your life, is, my young son was always around the Foundation. I asked Fabio and Naomi, "Can you teach him some Italian?" You know, he's always... he goes to school, he needs to speak, he was getting educated privately at home, even though after one year, he got higher mark in Italian literature than the Italian students in his class, without even not attending the classroom. (:28) Then I asked, I saw, because we made the room for my son in the building that they could teach him, two of them, and I walked in one day, and there was no word language going on, there was no Italian words going on, there was a lot of sign language. I said, "What's going on here?" He said, "Oh, if he doesn't learn the swear words, the Italian way, he hasn't learned Italian, we are teaching him that." I said, "I didn't ask you to teach him rude words." He said, "This is how you learn Italian, Mr. Keshe. This is how we communicate. And I realized the life was more than words. I said, I don't know what to do with you three. I walked out, I said, just don't teach him too much bad words and too much bad sides.

This is the way he is, he's still with us. And his assassination was the cause that Keshe Foundation moved out of Italy, all together uprooted because where we nested was somewhere it was too close to Belgians. In any case, we remember him for the good things and the joys and loves and the laughter he brought us. And as you saw in one of the pictures, his lies on the white sofa, that's actually a front desk office, anybody walked in, they see him. He said, "They coming here, this is a land of place of happiness and joy." And this is how it was, and we celebrate his life in Keshe Foundation. (:30)

Going back to the teaching, in the past sessions we spoke about how physicality (P) joins the, what we call, the Soul of the Man (STM). We spoke about the eye of the Man, how our Soul uses the eye. There is another sense of ?? motion which we as humans are baffled by. Many research is done on it. Humanity has bent backwards in trying to understand it. It's catching, it's like that atom that one turns, the other one turns. And we always say, "How come is this? How come that every time one does it, the others do." And there is a lot of knowledge in this, which I open the book of knowledge about the

Soul, that then you understand how your physicality follows, and how the handover of the Soul to physicality is, and in a way, mom calls you, it's bedtime, and you say, "No, I want to just, just run a little bit more," and then you go and grab something to eat, or do something, or you decide it's time to go to bed.

Many of you have done this. I'm sure many of you have discussed this. It's one of the topics that doesn't miss any of us. We talked about the eye, now we come to the dimension of what we call the lymph of the Man, the STM, and the physicality of the Man and another part of the life, which is the lung which connects the STM energetic conditions with the physicality. (:32) You all yawn when you go to point of tiredness or when you see somebody yawns you yawn back. The other one goes the same. Why is it catching? Mankind could not explain. Now, for the first time you might understand why you yawn and why it's catching. Yawning is the hand over shake of the physicality of the part of the body to the Soul. In a way you still want to do things but the Soul says time out, bedtime, mama says go to bed, I have job to do. So, the energy released, conversion of the energy of the lift to physicality, needs certain amount of free energy, what we call the air. What do you do when you yawn? You take huge amount of air, you raise the functionality of the conversion of the free acids of magnetic (M) field into your lung, you supply this to the Soul and you supply this to the, what we call, synchronization of the lymph's and your physicality has to follow, it's the only way it can go, and it follows. So, from now on, whenever you yawn and you try to beat the sleep, no, this is the Soul saying, "Come on, boy, it's hand over time."

And strange enough, if you are connected in the Soul with someone, (:34) if you are connected in the energy balance, being in the same room, eating the same food, or being in the same atmosphere, when you turn one atom, the other one turns. So, when the Soul creates that energy to hand over the physicality, is that frequency, is that bandwidth magnetic field, which touches your Soul, and your Soul says, "He goes to sleep, I'm going as well." He's handing over, we're going to have a Soul party. So, let's get the physicality into position that we can do. We are going partying together, but physicality doesn't know. Does not matter if you're a stranger, you didn't met the first guy, first time on the bus stop, you yawn and he yawns. He was there for another purpose. The Souls are friends, we're taking a trip.

So, now you understand, it's not just the Black Hole (BH) in your eye, but the Soul has delivered, has developed, has brought about the system, that subconsciously tells you, "Oh, it's time to hand over boy, I have a trip planned, I'm going out for dancing tonight with the Universe." Does not matter how hard you try to stop it, you won't stop the handover, is there. You can do something else, "I'm tired", but you have to understand, there is a magic into yawning. You don't need to go directly to sleep. And that phrase, that second, that microseconds, nanoseconds of handover, the Soul can do is trip and come back where he wants to go. If you persist. (:36) Try to understand when or if you can, the dreams you had the nights you yawn. We normally plan functional British system, six o'clock, wash, 6.30, in bed, seven o'clock, sleep. That's a pattern for every child in the British home. This is what happened to our Soul. Handover time, most of you have tuned yourself, your computerized remote control, 9 o'clock shift, 10 o'clock bed,

getting up 6 o'clock, 7 o'clock, back to work. So, you don't need usually, yawn. If you stay a little bit younger, longer than you are supposed to, it comes, "Oh, I'm telling you physically, get up to bed, close those eyes, I'll have a trip planned."

Now you understand where your yawning comes from. Now you understand the reason. Now you understand the purpose. Now you understand physically you have two 'schizophrenic' people in the same shell and you see a guy, a beautiful guy, what I call, Beautiful People, says, "Look, they're talking to each other. This guy's talking to someone." It's exactly what you do. In a way, physically, your Soul says, "Time out. You had your time to move around and do what you like. It's my time to look what I have to do. We agreed, 9 o'clock, 10 o'clock bed is mine till morning, look after it. I have a disco to go and I have a party to go on planet Zeus." (:38) You're taking my time.

But what is important, what the world of science has not understood is, if you measure the ?? emotion of the sleep at the point of the yawning or resting, you'll find the matching wave where actually the body creates magnetic field to transfer the Soul. Transformation and transmutation of the Soul in that position is all pre-set. And in the world of science, sooner or later, Man will discover that. It's a specific frequency, it's a specific bandwidth, it's a specific space gap, that we all create as humans, when it's the handover time. It's the conversion of the energy of the Universe to physicality, dimension of the Man.

So, next time when you yawn, you say, "He wants to go and play, I better park the car." Next time when you sit across your lover, your child, your friend, and you yawn, and they yawn, says, "Oh, our Souls are in the same, what you call, field strength." And the other sits there and nothing happens. Ten people around the table, four of you yawn, and the other six watch. Then you know, you four have another party. Or we have to go somewhere, you're the first one going to say, "I'm leaving the table." (:40) How many times when you start yawning, you try to stop yourself with every possible thing, then the others don't see, don't realize, but you see they are fighting the same politeness, British way, not to yawn and the rest of it. But next time when you fight a yawn, understand you're delaying the process of the travel of your Soul. He's got an appointment. You're locking him down. And you'll find out sometimes you yawn two or three times, one after another. Look at the space gap. The guy comes, goes, comes back again, goes, "I have to go boy, move." And then suddenly, nothing. I was tired, I was yawning 10 minutes ago, but now I'm not tired. The Soul has done its trip. You didn't listen, it's ?? Japan, tonight you'll pay for it, you'll watch what happens.

In so many ways, humanity now understand his ?? body, his eyes, now understand about his handover time. And as I said last time, when you do go to sleep, the full handover comes. This is the bell to ring, you got to go. The handover comes when you shake in the bed and they say, "Oh, it's ?? neural adjustment." It's time when the Soul disconnects from physicality and takes its journey and time to go. Next time, every time you yawn, measure one thing. (:42) How long is intake? And how long is the, what we call, blowout. You breathe in for five seconds, you breathe out for six or seven seconds. Watch if your breathe out is shorter than your breathe in. This is a sign of a lot of problem in physical life. Soul gets rid of all the leftovers which could be in the lung with

a lung extension of exhaustion, what we call your exhale. If your inhale is 5 seconds and your exhale in yawning is 4 seconds, you have physical, biological problem within the structure of the work of your, what I call, the leech, the physicality of the Man. If the inhale and exhale is about the same, you are more or less balanced. If your exhale is longer, much longer than your intake, you are pretty healthy.

Then you understand the pattern where the lymph work. The exhale is for the lymph to release the energies which are not needed on the dimension (D) of the Soul or ?? extension of the physical dimension of the life. (:44) You should have gathered this in a few teachings before when I told you put your legs up and your arms up, you counting four in, you count six out. When you extend the exhale, you work in the dimension of the lymph of the body. Inhale is what physically it takes for the body to work. Exhale is what actually the lymph does for its operation.

In the coming time I'll teach you a lot about your lymph operation and your breathing. You'll see even at the point of death you don't take in. You let everything out that it allows the Soul to be released. It is not your blood circulation at the point of death which stops and releases your, what I call, Soul from the physicality. It's your lung and the energy that you have taken that switches at a given point that releases the Soul. Because the Soul does not take energy from your blood. There is no blood in the brain, but takes energy directly from the flow of your nostrils and your throat, directly inside. Then you understand, if the doctors one day understand this and develop technologies for measurement, they know when is the separation of the Soul and the physicality.

Then one day you understand why the lung was placed more or less in the shape of the brain upside down vertical. (:46) There is no difference between the shape of your brain and if you look at the fold of your brain from the top. It's like a pack of cards which has been put sideways and inside, instead of what you have the STM in the brain, the Creator has put the heart of the Man. You have the solid matter, down your brain and the Soul, in your physical dimension, that Soul of the heart. The Soul of the Physicality (STP) is protected by the mixtures of the control of the STM within the lung. Look at the shape where your heart sits and where your lung is, and look at the position of your Soul and where your brain is. Literally, ?? took (tilt) it down 90 degrees.

Your main brain, the back there, the total brain, and the position of the Soul, and look at your heart and the two lungs. Now you understand. If you turn the lung and the heart on its back, and you land the brain of the Man on top of it, and adjust for the energy level of the STP and the STM, you get that spherical shape of the Soul of the Creation. (:48) I made Man in the image of Myself, so Man cannot be any different than My structure. What you find in between is your gland which sits just under the separation which translates between the two. The Thyroid gland, if it fits everything together, you'll find out the world of the Man is the world of Creation. The smaller the chili, the hotter it gets. Physicality needs a lot to control his STP, to energize it, so uses bigger capacity environment of the two lungs. The STM does not need that shield because it's smaller, it's ?? utter higher energy, and can do with the brain.

There is a ratio, direct ratio, according to the space Inertia of the place which relates to the brain of the Man to the lung of the Man and the thyroid gland. And if you understand the ratio, makes you black, it makes you white, it makes you Chinese, it makes you Indian, it makes you everything else. Lung, heart and the brain of the Man and the Thyroid gland, if you understand that, Mankind finds a ratio between the three, Mankind can determine the time of death. Mankind can determine the time of separation of the Soul and the STP, or if you can understand the work of it, (:50) understand when you can transmute. Because in transmutation you have to bring the STP inside the STM for it to be protected the way the STP protects the Soul in the dimension of physicality. The Knowledge of Creation is no different. It's the Man who has made it hard because he does not understand the process of Creation is in two dimensions, the energy and the physicality.

You all have seen this. We give you a copper in physicality and then you have the energy in Gans. There is no difference in the World of Creation. Matter, vegetation, life in the shape of the Man as a flesh and life in the Universe (U) in the space of Time, Place, Position and strength as a Plasma. Then you understand why all you Chinese are short, all you North Europeans are tall, why you are white and the other one is Chinese and the other one is black, and the position between the Soul and the STP and Thyroid gland, decides your behavior. All Chinese behave this way. All the whites behave this way. All the blacks behave this way. You move those, any of those, slightly in a different position, inherent in the space gap of the life, then you see you will change. You change dimension and direction. You become black, as we saw during the Corona, how Chinese and white turned up black. Orientation of the field through the dimension of the field strength of the calcium. (:52)

Now you understand how you are yawning, which you did all your life, you still do. The last yawn is your last breath. When you send a message, there is no more to hold on to the dimension of physicality. This happens to stars, we call it supernova. This happens to Man, it happens to planet, it happens to the cells in the body of the Man, it happens in the Plasmas in the Universe. There is no exception. Now you understand, fully, why you yawn. And next time you yawn, say, "He wants to go out, I better ?? give it." He wants his freedom, because he's going to bring me some gifts. Where it goes what it does, that will affect what I do in my dimension of physicality when I wake up. It's like going to bed and mom in the kitchen is still cooking when you wake up. She says, "Come on darling, lunch is ready." I packed your backpack and I made your food ready to go to school.

Next time you yawn, ask yourself one question. Am I going to keep him more to dimension of physicality? Or, am I going to go and let him free, to enjoy me, as me in the dimension of energy? I hope you open your eyes in the new dimension of life. (:54) And I hope you understand what it means in what you do, as you have to understand your eye and your emotion of the yawning. Because, the eye sees through, as your Soul does the Soul of the other. And when the Soul changes through the eye, so does, follows, the physicality of the separation of the time. Through the breathing of the Man. When you look at someone yawning Soul to Soul message. So, I do the same, let's call it a day.

I hope you learned something today, and if you know how to use it, you become one step closer in controlling your transmutation. As now you understand what I've been telling you in the past, by changing the rhythm of your breathing, you can control your transmutation. Now you understand how, and now you understand the way to do it. If you breathe through your nose, you achieve transmutation in different dimension. If you breathe through your mouth, you achieve transmutation different ... If you breathe in through the nose and exhale through the mouth, you achieve different Plasma and ?? field strength. If you breathe through your mouth and exhale through your nose, you achieve different position. And in the future I teach you how you can change this. How you can balance for the position.

Many, many masters in the East learned this, but they were so, what I call, selfish, they never taught the Man. (:56) You have to release the pressures on blood vessels. You have to release, no need to control by blood to encage the STM. It's a process and maybe next week I'll teach you the process. When the magnetic field of the blood vessels has no connection and loses what I call grip on the STM. And then if you can do that, train yourself, you can transmute with a fling of a finger. We come to another sensory next time. And if you come to that, understood that, you are more or less near enough to complete your transmutation. But if you understand further beyond that, you can call upon the Soul of the Universe to enter the dimension of the life of the Man, which makes Man a Man of the universe. You don't go out with rockets. You bring the Universe to you by dimension of invitation of the STM. If you thought you can escape from the village of the Earth with your rockets and UFOs, oh Mankind, you have a lot to come. You cannot go when you cannot invite. And the STM, through the dimension of his physicality, has that gift to do, to invite. You invite your lover in, you don't go and jump on your lover. Learn from Fabio, and you become fabulous. We go for a break, and we come back, and we carry on with the rest of the teaching of life in the Universe. Rick, take us for a break, please. (:58)

>> **BREAK** >> 649 KSW July 2nd ... (1:03).

K- Thank you very much. Rick, check your line. I sent you something else which you can play.

As you're aware, the first batches of ONNs are already on the move. Then soon we'll be with you a lot. And the second batch will be out sometime next week. Now it's become truly a Coin operation. The system that, what we call, will start bringing the changes in. There are a few misunderstandings in the Keshe Foundation, what we call Knowledge Seekers (KS), that has to be cleared legally and correctly. The Keshe Foundation Coin is valued at 1,000 Euro, (1:04) and is only exchangeable with the Keshe Foundation products. You can purchase them as a donation, and then buy what you like with it, within the framework of the Keshe Foundation products. At the moment this world is in Keshe Foundation website. Those of you who are Chinese, you can purchase it for the products, agricultural products, and the rest which is in China. And any materials we produce. Many of you bought Coins and you converted it to Gans, Balls, what we call, Cosmic Ray Balls. And what you do with it is yours, it's not ours. We do the same thing with those who are some of the people who buy Keshe Coins and then in the future they buy products and give it to their friends and family as a gift or they keep.

So be very clear that the Keshe Coin at this moment of time is not exchangeable for currency. We are not a Cryptocurrency game. We are a Coin within the structure of the Keshe Foundation and not outside. And this is why we can keep our value at equivalent to 1,000 Euro and not get involved in anything else. What you do, who you give, what you do with your Coin as a gift, as whatever, it's your job. What you get for it is your concern, not ours. And we are very clear about this, as the Keshe Coins are now actually on circulation. The first batches of the Coins has allocated, has left and is not in the bank, (1:06) the world of the Keshe Foundation as such, but now is in the hand and is gradually getting divided amongst the people.

Some of you we trust closely, will be given the opportunity to receive the first batch of 30 (Keshe) Coins (KC), as you are over 30 years old, 20 years old, and your annual, what we call, share is 30 Coins, if you call upon it, or you can keep it till one day you call upon it. But again, that day you still get 30 Coins, it doesn't become, "I didn't use it for 10 years, I should get 300." (?? The KC do not accumulate. You have to use them or you do not get them??)

So, in the next few days and weeks, some of you, which we contact personally, will receive batches of your first 30 Coins. Please look after it, because when you lose it, you can't reach it. There is a process, as part of the structure, that you have to learn. You keep it in your wallet, and you keep it safe. And, if it gets stolen, let us know, because nobody can steal more than 30 Coins from you. We'll replace it, because we try to find out how it's been, where it's been, and what happened to it. So, if you lose your Keshe Coin wallet, never cry, you haven't lost a thing. You sit with a solid structure of the Keshe Foundation. And this is what makes secure for us to operate.

If you looked at the end picture, in the video, it tells you, from (ages) 0 to 10, your mother, your parents, your guardian, receives 10 Coin in your name. (1:08) Which is, you can exchange it, they can exchange it within the Keshe Foundation structure, to the valuation of what it be, 10,000 Euro. You will understand even this 10,000 worth

millions. Very shortly, you will understand more and more. When you are between (ages) 10 and 20, the allocation is 20 Coins per year, which is 20,000. When you pass (age) 20 and above, you get 30 Coins (per year). So, if you calculate from the point of birth, from, let's say, next week, next week when the first children get their Coins or next month, he uses 100 Coin for the first 10 years. He uses 200 Coins for the next 10 years, that's 300 Coins. It leaves you with 700 Coin, which is 20 years, 25 years of guaranteed life.

But, from what we know, what we understand, is very soon, the way the structure of the development is going. You can have an apple for one cent, through the Cosmic Ray (CR) technology. You can have a Chelo Kebab for one cent, again through the same technology. If you receive your education in the dimension of the Plasma Technology, maybe for half a cent or 0.1 cent or 1 cent a year, you understand many of you will not even use even one Coin a year. (1:10) And the guarantee of this is that it does not matter if you are in China, you are in London, you are in Tehran, you are in Africa, your Coin are all valued the same. No speculation. Nobody says, "Oh, the price is going to 10,000." No, the price is now 6,000. I lost my livelihood. For the first time, we bring security. For the first time, we bring peace of mind. For the first time, we look after you, from birth to death, the way the Creator has done. It's not anymore a dream. Systems are out, Coins are out, and now is how we process it.

These Coins have been offered to the Iranian government for every Iranian national. 1,000 Coin allocation, and the Iranian government have been told, and allocated 100 Coins per citizen to the government, they can call upon 10 Coins a year for 10 years (from each citizen). Yesterday I had a meeting with the Palestinians. The Palestinian nation, through the suffering of where they stand, initially are offered double the allocation of what we call the Coins, as they have to reset their lives across the... wherever they go, and life has to be meaningful. We take all the Coins away from the nation of Israel, citizens, born, anyone with a structured connection to Israel. The same is applied to the State of Belgium. And these are given to support Palestinians and those who become homeless through the acts of the aggression by every other nation. (1:12) They've stolen enough from physicality and the STM.

Yesterday I sat in the day before, and the day before, listened to a Palestinian with a handicapped child of six, had two hand tied behind his back with other Palestinians, watching a mother and a daughter being raped by the Israeli soldiers in front of them where the father died. He said he watched rape every day. I have asked him to record the events of him being in the Palestinian camp in past 2 years, and now he's free in the West. Names and everything else, no accusation. He has lost 42 members of his family by rape, killing and bombing. We are not taking sides, we are explaining the ruthlessness of Mankind, and we don't want this to go into the, what we call, the Universal Community. When a Israeli soldier rapes a mother and a daughter in front of the father, that the father dies of heart attack, it means there is no human. Animals don't behave this way, and there is no room for animals, in the structure of the Keshe Foundation.

We saw the same thing with Fabio. So, it's very easy, the process started, and everything is on the move. The Units have left the Keshe Foundation, and through the way they are

going, the first batch is with you, (1:14) trusted Knowledge Seekers, who become the frontier, and defendant of this, what we call, the top structure. The Coins have already been allocated to the keys, and everything is on the move. We have enough to support Humanity for 100 years. Governments can build universities, government can build structures to support the nation and the Keshe Foundation will support it through the structure. Step by step I will explain, step by step I'll explain how we support governments. One of the prime points as you can see on the writing, every nation to be qualified to receive the 100 Coins for their citizens is signing of the World Peace Treaty. Now we are getting involved.

Iranian government has declared they have no problem signing with this document. Don't forget in 2008 Iranian Parliament signed that the technology will not be used for offensive purposes. We'll get this ratified one by one, once it's completed, with every nation, every citizen on this planet. As you can see, the condition is the companies, the governments, the individuals have to sign to and adhere to the rules of the Coin and its work through the Keshe Foundation Association in Austria. It's yours and you have to understand how to use it, how to protect it and how to push, after I'm gone, that the right of every Man on this planet is protected. I set the structure, you are the guardians. (1:16) No nationality, no color, no race will change any of it.

Set up associations in your countries on the same rules as the Keshe Foundation Association in Austria. And link your associations, register it with the Keshe Foundation Austria that you become part of it, that it allows your people to use Keshe Coins freely within the structure. When most of the citizens of your country are part of your Association and part of the Association is the Keshe Foundation Association Austria, you are all linked to become one family. It's your job, not ours, and your Association has to be directly copy of the Keshe Foundation in Austria. No deviation. And plus, what is getting set up as part of the structure of the connection of the industrial use, by Association or the structure set up in Switzerland. It's beautifully getting set up, it's way of voting, and the thing is very close to the Association of the Keshe Foundation in Austria, within the Swiss law, and I hope the Swiss Keshe Foundation people can bring it completed very soon, that it becomes connected to the Keshe Foundation in Austria as an Association, and at the same time gets connected financially, industrially, to the Keshe Foundation in China, with the Space City, which means we connect everything together, that there is no loophole for anyone to abuse.

One side you become part of the work of the Association of the Austria, which is based on the work of everyone having a say. On the other hand, you set up in a way of industrialization, (1:18) financially benefits your citizens and the others through connection with the Keshe Foundation or work of the companies in China. We use as a pivot point that we lock you on both ends. And this way, in the very near future, the Keshe Foundation through its arm of financial arms of Markray Corporation will sign the same agreement with the Keshe Foundation Austria. Which means we lock the three, the products, the financial market, and what we call the work of the Keshe Foundation Coin, we lock into each other, which is matter a few weeks. As now we release the Coin, we are ready to take the steps which has been set up for years.

Very soon we release, once the Swiss structure completed for the financial side, and once the completion of the Association of the Austria is completed, we'll put it up, you'll follow the same, set up the same structures that nobody can touch, nobody can rule, nobody can decide for you, but the citizens of your nation and we lock everything stage by stage to the companies in what we call manufacturing, supporting the technological side to the operation of the foundation in what we call Keshe Coin, and directly as Markray Corporation becomes registered with the what we call Association in Austria, locked into the American stock market. The circle is complete. We are ready, in the next few weeks, to bring humanity to where no Man needs to worry about where he's born and how he's born. I would like you to look at another video of the same range of the Keshe Foundation Coin operation. Rick, do you have it ready to go?

R: Yes.

K- Please play... (1:20) These are series of the Keshe Foundation videos in combination and association with the Keshe Coin. They are not exchangeable, they are valued and only applied within the Keshe Foundation. Can you go?

<< Video about Keshe Coin is played.>> (1:22) ... (1:24)

K- Thank you very much. This is the way the Keshe Foundation goes. It's taken years to work it. You've been with us for over 20 years, many of you, helping us, step by step, to reach to where we are, and how we set it up. And we have a bigger goal, this is the beginning of bringing the Humanity on equal basis. If we get resistance from governments and those who see their position in danger, there is always a way for us to operate. But once this is completed, Mitra will bring you in, what we call, on the horizon of joining the Universal Community. My job is to set the ground, it's Her Majesty's job, to bring, invite the United Nations of the Universe, to Humanity to unite.

And in so many ways, we have stayed the, what I call, the platform for a just Humanity. Nobody needs to kill. Nobody needs to worry about what is the next step. Nobody needs to plan to kill Man, because there are too many on this planet, we can't feed them. As telephone lines and the, what we call, GANS power supplies and stations, (1:26) can feed the whole of the Universe, let alone the Man. These blood-sucking killing machines of those who now, because they have money, they think they can do it, devalues the value of their, what we call, feeble mind. It's easier to progress than to fight. We progress, and the fighting (is) for themselves to survive. Through the development of the technology, and especially now that the Coins are released, in what we call dispatch, outside the hand, of those who could control it, as governments, and Rothschild's, and the rest. These people will not fight, because you people will walk away from their need.

In the next two or three years, we will show you how to build the most beautiful, luxurious buildings, your homes, at a cost of one cent, one App to download. Energy of an apple, an energy of a building for you to be in, is no difference. And the way we do it, at the value we do it, it's not worth for the Chinese to copy it. And the way it's done, it'll

be developed, billions of dollars of gold in national reserves, or worth nothing, as any of you can produce as much as you like. In a signed contract with one of the leading nations, (1:28) they plan to build 400 system to produce 400 tons of gold through Keshe Foundation for their industrial need. This is a signed sealed contract. You understand how the leading nations understand the Keshe Foundation technology. We haven't signed contract with individuals, we signed contract with Military, heads of the militaries, with Generals of a nation, and you Knowledge Seekers (KS) have been with us, going through line by line of it.

Now you understand why the change will come. Now you understand what is about to come. And this juggernaut of freedom of Man from the physical chain to this planet has started breaking up. 9 billion is not enough. Universe needs more beautiful Souls. Not by killing them, but by nourishing them in the right way from the point of birth. As you've seen in the video, no mother can worry about where the food will come from. Where am I going to make a shelter? What am I going to do for medicine? You Knowledge Seekers ate the orange, got flooded in your throat with water. You received technology in change your illnesses, and grow the tooth of a child hundreds of kilometers away from the center. In the coming time you'll see the building of the shelter as is stated on our patent. (1:30) You'll receive energies for transportation systems, that you don't need anything, and it all cost 1 Eurocent. It will be no use gathering gold, killing for it. And it's no use killing a man who store food to save a nation to be killed. Leaders work for betterment of Man than for killing of the Man.

And it's all in your hand. I'm just putting the blocks in the wall, another brick in the wall. Step by step. It's for you and your next generations. With the presence of most dearest loved ones, Mitra, with us. To bring, to make it attractive, that the Universal Community (UC) sees us as a Children of the Universe, and not as the murderer of the Universe. I hope you enjoyed this trip. It's for your children and your children's children and the rest of it. Hopefully, they will enjoy the joys of life in the Universe.

I was saying, to a Knowledge Seeker, the Chinese have found a way to grow this third tooth. I wish the scientists will find a vaccine as the Russian did with the cancer vaccine. (1:32) Now it's become freely given to all the nations and the Chinese have accepted it. The humanity make a vaccine that destroys, eliminates killing in the memory bank of the Man and in his blood. When any of you can produce such a vaccine, then Mankind will move forward to the next, because it will be uprooted from inside. The vaccine of death, that it stops Man killing. The vaccine of killing, which stops the Man to kill to survive, it goes out of his habit. It becomes a part that he will not do, does not matter what. I hope we have started the beginning of a beautiful life for our children, and our great-great children, and their children, and their... When they walk across this Universe, they remember us, what we sacrificed for Mankind to be in this position. The first one was Fabio, and I hope there's not many more to come.

Any questions?

Q: ... Good morning Mr. Keshe. (1:34) Thank you for everything that you've just put on the table Mr. Keshe. So this, the implication of this is obviously huge, massive. Can you elaborate a little bit more on global governance? How was this structure going to be put in place when we have all these financial and political institutions and everything in place? How will this gradually take a position to replace this? So that the world becomes this peaceful condition?

K- If you look at the end of the tapes, all the tapes carry a banner. The prelude to everything else is signing of Peace Treaty. At the moment a big part of the budgets of the government is going for defense and arms. Children die of hunger, but the soldiers get a gun in their hand, to defend a way of thinking, to defend a way of robbing a nation. It's very easy if the governments decide to do it. It's very hard when the governments don't want to do it because it makes them money. There is a game on the Internet you can buy for children, interactive game. It's allowed in every nation on this planet and the parents allow their children to play. It's nothing but killing and destroying and conniving and there are people who monitor, who kill. You just got to go and ... I don't want even to talk about it. One nation in the world has taken a stand. This game cannot be played in that nation, it is a criminal offense, the state of Turkey. (1:36) Because it's set up to abuse children, it's set up to teach children everything which is wrong, can be wrong, and do wrong to get what you want.

And we're heading in that direction, where we make everything possible. Man does not need to kill. It's a beautiful contrast. If you have a boy and if you have a girl and you give them the Internet. Especially the young girl is all playing with dolls and playing with horses and gentleness. The boys is all killing, fighting, destroying, and anybody plays anything which is constructive, peaceful, oh, you're a sissy. The environment pushes our children to become aggressive, the environment pushes our children to become, what we call, interactive for killing. With how they used to become a soldier and kill when they were in teens and twenties, now we make our children enjoy killing at the age of two and three, we give them computer games. And now we fill stadiums, ?? our football stadiums, with how we destroy and done, and we demolish.

So, it has to come for governments to start understanding that these things has to be uprooted from the base. Children don't see killing, children see the development of the science, how new technologies, how new ways of life is. The beauties of the world, than killing. We used to give a spoon in the hand of the child, how to feed itself, now we put them a, what we call, (1:38) a panel, a piece of plastic, and we show them how to kill to win. We're feeding death, we feed them how to kill. And it's the governments who have to do this. And as we progress, condition of the World Peace, that they have to agree, a non-aggression World Peace Treaty, (stopping) these games is part of that package. You bring peace from the beginning to a child, when you don't show him, he doesn't know, he doesn't become part of it.

We've seen this animal-ness in American behavior. Guns as free, computer games, as much as you can kill, you get more, and we see the nation. On the other hand we see the British system, which has done nothing but encourage stealing, and everything else from

Queen Victoria became law, the more you stole. And to the present time that the whole nation sits on the back of what we can steal next. It's power. And when power has no meaning, service has more meaning, then you'll find out, it will change. And the way we structured it, why we get the government to sign to Keshe Foundation, the structure is that any development for the nation, be it from building dams, launching the Space programs, connecting the Keshe Foundation technology with the present technologies, and for evaluation and development of new industry, we finance. There is no shortage of funds for all the nations on this planet, to the amount of the Coins which are of circulation now, not to support. (1:40)

The biggest problem, you'll find out why we put this video on first. There are more videos of this coming up in the following weeks. Now that Space City in China is taking shape in a very beautiful way. The problem will come with pharmaceuticals. There'll be no need for pharmaceuticals, you will see very soon. The problem is there'll be no need for this, which means people take their medicine as the apple on the App. The second point is that nations which have raw materials like Africans will suffer heavily because up to now they got robbed by the West. And now with the new technology nobody wants them, because you want aluminum, you don't need to go and mine, destroy a place to take aluminum halfway around the world to melt it to do with it. With the new system you produce your aluminum like in the microwave as much as you need in the factory. So our job in the Keshe Foundation now is to get these Coins as fast as we can and get the whole nations to start using it before the Keshe Foundation Technological development hits them. That they get the same education, they have food on the table through an App, and everything else.

It's not governing has to come from the top by understanding the problem, not governing from the top and just being proud I did something. And in Keshe Foundation we are looking at problems, what problems the new technology creates and we have to solve it before it gets, and we have to look for the vulnerable first. (1:42) We need hundreds of millions of dollars to back us up in the next two years. Keshe Foundation, every scrap is used in one way or another to do, to bring that, till we get our financial side running, and the way going through, is another step. We have to look at the vulnerable now because the rich will stand if there is no aluminum and no gold from the African. But the African child needs a food and every nation, every citizen, every village, there is enough mobile phones for us to do it.

Knowledge Seekers are working on the App in due time within the Keshe Foundation. These Apps are reachable. You register as a Keshe Foundation member to be able to use the App, which means we don't need Dollars, we don't need Yuan, we don't need Euro. It deal within the structure, within the structure of the Keshe Foundation Coin. We are not looking to fight the governments. We are going with the people, the true people, the governance changes. So, this is not, in a way, our concern, how we're going to get this government to listen. We set up the way, they have nothing to do with it, but in a way they can't govern. They follow the master which sits with the Universal Council. Conditions of collaboration will set up by the Council, and execution of it to be executed directly, goes with the Earth Council. That's all we need to do. (1:44) Don't worry how

we're going to get governments to follow us. We deliver the food, we deliver the medicine, we deliver the education, we deliver the transportation through all one mobile system. And now with the ONN and the Cosmic Ray Antennas, very soon you don't even need a mobile, you think, you receive. You don't even need to pay for it.

Keshe Coin is a transition to what we call, Universal way of living. One of the reasons we are pushing with these ONNs, is not trying to get you to get paid Coins, is to be able to substitute what the planet did not provide, started Man killing for his food, for his shelter, he could do it with himself, that it can be done with covering what was shortfall from the field of the planet. We mature with the ONNs, with the Cosmic Ray Antennas in it. Now you understand the purpose. You think, you're hungry, you're fed. Your emotion wants gold, to have a gold ring on your finger, it'll be provided, because then it's you, and gold has no value, it's just the beauty of its shine. And, this is not a dream anymore, the Units are out.

And this moment of time, we're operating in 4 nations, with a number of these Units, and they are controlling Units. And, next week it'll be 8, the following year it'll be 12, next month will be another 20, and then meanwhile, a number of you Knowledge Seekers will receive a private call from me, and we invite you to accept your first 30 Coins. (1:46) It's not what is going to receive the call, we already have made call to a number of Knowledge Seekers. This has been done to test our systems. It's not done just because somebody is favorable, these are the people we trust. And we can monitor to see how those who are of the, what I call, 'old Man's behavior,' can do things that we can stop. So, if you receive a call from me in the next few weeks, asking you, "Will you accept your first 30 Coins?" Then, we go to the next step, then our team watches how you spend it. We ask you to shop from the, what you call, the Keshe Foundation website, to see where the problems are, how we can ratify. And this is your first 30 Euro, what you call, 30 Coins. And don't worry, you can spend all of it, we still give you some more, because you are supporting the teaching, learning and pitfalls of our problems.

In next few weeks, a number of you, you should receive a call from me, and I personally ask you if you could, join us, and some of you already have. And, we do it to learn, we do it to understand, and we try not to give the Coins to those who have the systems, that at the moment we can see the connections. Later on, everything will be done according to what is said. And, please once you receive the Coins, please once you receive the Units, do not mention to no one. It's the trust between you and the Keshe Foundation.

Any other question?

Q: Thank you Mr. Keshe. (1:48) So, there's so many questions I could ask you about this. So...

K- You are allowed two. If you were Jalal, we might let you three.

Q: Okay. So, one question that comes to my mind, to my thoughts Mr. Keshe would be, so we're going to have this position where you're going to have one half of the humanity have got wealth and position and they're not easily going to let go of that.

K- We don't care, we don't take it from them, let them keep it.

Q: Yeah, no, that's what I mean, let them have it.

K- No, they don't have it. When you don't go to the supermarket to pay 20 Euro for a kilo of a strawberry, which is now in Europe, 20 Euro they want, which is, if you calculate, a kilo of a strawberry in certain marketplaces in Austria is 20 Euro. In the cheap range is 10 Euro a kilo. And a guy in Africa walks and gets it free. So, the guy can charge his 20 Euro, but Knowledge Seekers presses a button, gets the taste, the emotion and the energy of it. Which one do you think is going to taste?

Q: So my question, Mr. Keshe, is if you have this position of privilege and then you are using it in a certain way, you always need the support of many, many others. No matter who you are, you need the support of cleaners, of plumbers, of electricians, whatever you want to call it, you know, the people that do things to make it function so that you have your privileged life. When those people start to connect and move away, the people in a privileged position are going to start to lose their position. It's going to be a gradual process or it may be very fast. So from my point is, there's going to be a weaker giving to the stronger or the stronger giving to the weaker. (1:50) But there's going to be a gradual repositioning on this planet. And so, these wonderful beautiful Souls need to understand that the privilege and the responsibility they have is to all, not just themselves. And will they understand this when the moment comes where they have to flip, where they have to understand what has been going on?

K- Have you ever been to a revolution?

Q: No I haven't Mr. Keshe, no.

K- I've been two times. And I've seen how privileges disappear when there is no money. And when I... you have to understand, this is a British mentality, you know? The British mentality is that, as you are a British, and I lived there 30 years, we both fully understand what we are talking about. In 1980s, and now I've seen it in Europe, we offered a job to a youngster to work. This happened hundreds of times, it was in just one off situation. The youngsters used to come and say, "Excuse me, I'm getting so much from social, from the government. If you pay me three times more, I'll come and work. Otherwise, it's not worth waking up for. I get money for my bread, I get money for my electricity, I get my rent paid. Why should I come and work?" (1:52) This is going to happen to those who we give 10,000 Euro to. Balance the equivalent of, you know, they can convert in the Keshe Foundation. "I have a 10,000 Euro balance every year, or 30 Coins a year, I can spend it on Keshe Foundation, why should I work?" And then, this is going to hit the rich, "Why should I clean somebody's house?" "Why should I clean the streets?" We have thought of all this, what's going to happen. But there's one thing with the humanity,

depends who leads the humanity, depends who puts the dimension and direction to humanity, serving, being there to help, becomes a virtue. Not another cycle of, "Oh, I have it, I don't need to do." And the other one says, "I have, you have to do it for me."

If we learn to live, even though we have, it will change a lot of things. And these are scared rich people and everything else, will learn very quickly. When there is nobody to clean their house, there is no driver to drive them, there is nobody to clean the street, they will do it. Society collectively will work that way, will mature to it. It's not a voluntary work, it's keeping me busy, not to go insane. (1:54) And this is what will happen with the rich and privileged. They keep their privileges but they will live in the village. Most of them, they don't know how to cook. Most of them, they don't know how to clean, and soon they said they're leaving their own dump.

Q: But Mr. Keshe, isn't that going to cause the same thing again? We have to draw that line, we have to give to all. So, we have to just...

K- Understand, the rich woman still gets her 30 Coins. You understand? We are not discriminating. And you cannot donate it to somebody else. You cannot transfer your Coins to somebody else. What I call working to give to be philanthropist does not exist in this structure because everybody has what they need. If you want more, if you want to live in a bigger palace, if you can find somebody to work for you to build it, and you sell something that is luxury, I like to have my energy coming through the glass ear with crystals in it, I pay more for it, so you made yourself a business. But does it mean the same? We don't, it doesn't stop people innovating and bringing new ideas, new jobs in, but it doesn't be at the line of poverty that you have to beg to live.

Our first priority is third world nations in distribution of the Coins. We don't go to the government. You Knowledge Seekers go to your people and it goes like a wildfire. We're not ready for it yet. (1:56) A few more months when all the systems are up and running. It's no use giving somebody a Coin. Oh, you can have 30 Coins a year, but what can I do with it? Unless the Keshe Foundation system in the background is ready to supply the water, to supply the food. When the guy connects, press the App with the headphone, he gets relief from his hunger, then we are in business. But it's normal. The first reaction for the first few months, first few weeks, I don't need to work because I press a button and I get it. But then gradually through the same teaching we get people moving. We will govern, just, correct and with peace. We won't fight. We use the emotion of the Man to make Man to bring emotion to itself. Very simple.

Q: Thank you Mr. Keshe. I think Mr. Keshe from what you're saying also, what you said earlier was very, very important. For many, just that, you know, the sheer ability to have a presence in a home, to be able to have a shelter and food and medicine and all these things. But the shelter for many that live, they don't even have some people, there's many that don't even have food. So they struggle from the moment, from basically from birth. And this...

K- It's not there anymore, it will not be there anymore. Once we release the Coins to the third world nations, we will try with you Knowledge Seekers, you lot who are given the Coin, is firstly you don't touch it, you just wait, we tell you how to exchange around for us, to see how you do it, our people in the background, see how it is, how it acts, how it does, works. Then we ask you to spend your money on an apple, and we set our systems to feed apple right across this planet. (1:58) And we want to see how many of you had an apple. And this is why we did all these tests, you lot coming in and staying on the lines in a quiet line, it's for us to test in the background. We even can, if you are paralyzed with our system, we can get your leg moving and get you mobile. You don't need to be with paralysis. And one of the Knowledge Seekers accidentally found this out by walking into our lab very recently, while we were testing.

So, you have to understand, everything is possible, but we have to create, the condition, the ONNs, it's taken a year now, coming up on line, exactly after a year, the first lots, the first lots actually came out months ago, when they were sorting out the problems, the teething, and then we had to get all sorts of things from Chinese government to support us, to give us lines and everything else, and they're finding more problems. Now, ONNs are 80% functional. 20% we can be done remote, hopefully, by our team. Once it's done, then when they tell us they managed to interconnect the Internet to the structure, a new battery is getting developed, that you don't need to plug into any power supply. This is going for test within the next few days in Keshe Foundation laboratories. What we call, you can give the battery to your grandchildren, and they can give it to their grandchildren, and it will still be working. It is Gans Plasma technology. (2:00) And then, once that's done, and our team in China start mass producing the Antennas, then you get the Antennas, then we start connecting, transferring energy through Plasma Technology. Then, we are there. Two years down the line. Two years down the line. But we still, till that time, we need a lot of support, a lot of help, by even people who start helping us to test the Coins, test the systems, and those of you who help us financially in the background, we own it all. Now it's on the move, we cannot be stopped. Then if it stops, humanity won't have anything for thousands of years to come back. And it's the time to do it, and everything for it is there.

Q: Yeah, this can't happen now Mr. Keshe, this has to go forward, this has to take a position.

K- Oh, we're doing our best. Some of you around me, you know, I work 20, 22 hours a day... There are others who do, that the team in China is working relentlessly round the clock. The team in Austria the same, the team in America the same. There's no time, day and night or whatever, we can't do. We have invested in the World Peace and we have to complete the cycle.

Q: We're looking forward to it Mr. Keshe and I thank you so much. I think I've probably said enough, shall we let somebody else and...

K- I think so, I think so. Thank you very much, thanks Dean. Rick, are you there?

R: Yes. Are you ready for some more questions?

K- One or two, then we call it a day. (2:02)

Q: ... Kirsten says, something about the Vertical People in the Universe with the white eyes and rectangular pupils like those of goats. Do you know what that means for their emotionality? How do their pupils affect them compared with...

K- What he's talking about? He watches too much sci-fi movies, I think.

R: Well no, there's actually a thing about rectangular pupils in goats. I looked at...

K- I'm not talking about... I'm talking about humans. Once you learn the language of goats, go and ask them, see what they see. Carry on.

Q: ... You said last week that the structure of vision is also linked to giving and receiving through the black part of the eye. I ask please if monocular myopia, for example, myopic right eye and the normal left eye, has anything to do with the Soul, and giving and receiving?

K- You got a physical damage, look at the physicality. The Soul doesn't damage anything. You have a physical problem, you have a physical condition. Look at your physicality, the emotion within the physicality and then see how it's connected to the emotion of the Soul. I was explaining this to a doctor recently. In English language we call it psychosomatic. It's actually 'SSO,' it's a 'Soul psychosomatic.' (2:04) In all three of them moves together. Three snakes follow each other. And if you understand this, is the organization of how these three work in one level, and how you can use one to benefit the other. STM, psychology of the Man, and the symmetry. The symmetry of the physicality fits to the work of the psychology of the Man, which is controlled through the, what we call, the Spirit of the Man, STP, and the STM, the three walk behind each other like a duck. That's all you need to do, and that's all you need to achieve.

And, if you miss one, you have problem. If you connect all three the wrong way, you have problem. If you mis-function, the STP, with the physicality, when the Soul is not happy, you are in the mess of the problems of cancer and the rest of it today. And if you keep the Soul happy, physicality happy, but the STP is not happy, you end up with another cancer. And then, if you're all three happy, you get the evolutionary cancer, either way you're dead. It's understanding the process, and then understanding how you manipulate the process. You can't break the process, you can't damage the process. (2:06) But if you learn how to manipulate it, you have a best of life in both worlds, in all three dimensions.

Any other question?

Q: ... When we mix together different liquid plasmas, liquid plasma strength, we actually are creating a bigger plasma mass. How can we roughly calculate the total plasma mass strength?

K- There are different ways to do it, and there are new technologies which need to be developed, to be able to digitalize it or observably to see it, to detect it, to analyze it. There are systems available. You have seen some of it, but you don't have enough knowledge to be able to interpret it. We have shown these systems quite a few times in different technologies in the past years. But as you are not educated in the field, you don't see it.

By the way, I see that thing there, please register your place for the conference in Switzerland. It will be an amazing, exciting conference, what we call exhibition. And sorry the French team, we can't pay you 4,000 to attend. But try to be there, to learn that you can teach the others how it is. We don't let it to be videoed, we don't record it to be published later on. It will be recordings for the industries and governments, but not for public. Because there's a lot of things coming up, that the governments need to sort out in the background, then actually in public. (2:08)

Any other questions?

Q: ... Some time ago you mentioned that you were waiting for the results of a study that was expected to be completed in June, concerning the contamination of the Baltic Sea by chemical warfare agents. If I remember correctly, the research was being conducted in a former USSR Republic, in the area of a large lake. Lake, has there been some, has there been any update on that?

K- No, we just have brought a lady from Poland, who she will take over the... She's expert, she's been in this job for 20 odd years. She has the, what we call, environmental contamination of the Keshe Foundation. And they get the data to work with it. They get everything. She's fully competent in all three ways of contamination. And we'll be recruiting people. I met an environmental specialist in water contamination from one of the universities, and I'm trying to recruit him into working with the lady. So, this needs to be done. We have a guy who understands a lot about the waters in North America. He used to be in KFSSI teachings in, what you call it, in South of Italy with us. We are recruiting, we're going back to the people we know, who have the expertise to, in their fields. (2:10) And the next, by the time we get to Zurich, you will see a lot of development on this side. System technologies for sale, development technologies come to change things, yes. But, that has to be done by the experts which, now is coming part of the Keshe Foundation China.

All these specialists work for Chinese Corporation of the Keshe Foundation, in the Space Research Center. We have, I think this week, 2 or 3 new recruitments, last week we had 2 or 3. We are picking up the doctors, the PhDs, the specialists, at the moment, and we allowing them to build up their own team, of people with the long term experience that they can support to build up their teams. At the moment, there is a flood of people,

gradually, working towards Chinese Space Center. We cannot move so fast, we have the premises, but we have to choose very wisely how we do. Our next target now is our factory for what we call, ?? the factories which are on the run to be done. And once they are up and running, hopefully by September, October, then the other side comes in.

It's going through a very... it's a little extra, more or less, run by the Knowledge Seekers, through Knowledge Seekers. And these are the people who bring the experts in, and they are working together. It's becoming an amazing team. And it takes time. It takes, it's taken years to come. But now management's split, it's not one man band anymore. We did with Ghana, we did with, what you call it, America, we lost 5 million. We never understood how 5 million disappeared. So, what happened in Ghana, we trusted one person. (2:12) And, it just repeats now, in China it's support, it's people have to, and expenditure is taken out of the hand of the directors. It's in the hand of independent monitoring, and everything is set up that way. Every penny is counted for by the, by the way it's done. The same we have in Austria, the same with the Corporation in America.

It's a very funny situation if you sit where I sit. We are manufacturing in China, developing in Austria, and selling to the world through America, and we've chosen the Euro currency to be balanced, take care of the whole lot between the two with us. That's another thing, it'll be very hard for the world leaders to throw out, especially ?? who they are pushing for them to be ahead. That we don't say it's back, or is equal. It is equivalent to.

Any other question?

Q: ... What is the best way to invite into the exhibition ambassadors or politicians or...

K- It'll be done, it'll be done, it'll be done by the Swiss arm of the Keshe Foundation.

R: Is there anything that people should do about what, what contact they can give?

K- Yes, just, just, just a few more, couple more, two or three more weeks. It has to be done by a Swiss company. Iranian ambassador is invited, a Chinese ambassador invited, the other dignitaries are invited, but it takes time. (2:14) Yes, you have to talk to the team, most probably, it'll be handed through the, what we call, the Swiss section, which is getting set up. It's no use, to invite an ambassador, you have to be from the nation where you are. And, the next few weeks we'll start. There's a lot of things need to be done in the background. It's to... we have a lot of things coming in this week, next week, and then... the structure... you know the Keshe Foundation usually kicks into order 3 months before, and then the last 2 weeks is mayhem. And, we are used to doing it this way, so most probably it won't be any different. Just keep an eye, it'll come, all your work has to come through, the work through the Swiss structure. We support them, we bring people in to support them, and then it'll be done correctly with the backup of our team from China, the backup from Austria, and it'll be a collective delivery of technology, in two days, primarily for the governments and industry.

R: So there might be an invitation letter for example at some point?

K- It'll be drawn up according to the Swiss standard. It'll be done by the Swiss team.

Any other question?

R: I think you probably want to wrap things up now.

K- Thank you very much. I can go and have a rest. I already done my 8 hour shift anyway.

R: Yes sounds like you've...

K- You, you know when I was working you received the things anyhow. Thank you very much for today and please support us. With... if you are expert in the field of new technology, if you have expertise, and if you... we don't want enthusiasts, (2:16) we had enough enthusiasts past 20 years. This time we are handling it directly, has to be able to deliver. And if you have any expertise in any field, contact through info@keshe.foundation. And we'll go through the resumes, we'll go through the offers of what you can offer us, and then we come back to you if it is, at this moment, beneficial to us, or we keep it, maybe in the future, we can use your expertise. We need a lot of support with this side and we need a lot of support with being able to facilitate, to test the new technology around. Thank you very much for today and hopefully we see you next week.
