662nd Knowledge Seekers Workshop October 1, 2026

(Transcription, Editing and Proofing done by KF Brazil)
(Auto transcription by Elias)

Communicate through Soul in U - language of U; How emotions interpreted; Understand emotions of different societies in U; Need emotions to interact with U; Stop denying emotions of Soul - analyze; Distinguish emotions of STM, STP, P; STM - boss, STP will follow; When humanity breaks through to Soul - not again make Prophets to abuse; Monitoring not to get gurus, interpreters of knowledge; One Soul gets enlightened - spreads to others then across U; Be vigilant coming months; End of October 2026 - cycle completion - connect to Soul - transfer technologies, understand emotion of U - translate to physical D; Handle emotion of Universal Knowledge - suddenly gaining enlightenment; Satellite Souls - channel Energy to humanity - work started; Earth Council controlled by P; Universal Council by Soul - numbers increase; Satellites become obsolete - CR T; Emotions drive U; KF provide tools for change; Soul member of U Community; Elites living same hypocrisy from thousands of years ago; Old traditions - Islam - hypocrisy of Man to be reborn; Soul gets released at death; Understand function of emotion of Soul - transmute anywhere & know language of U; Emotion of STM translates emotion of language of U into physical D - how we communicate with U Community; Love Creation, not abuse, unify humanity with UC; God does not abuse, nor shall Man; If humanity uses Knowledge of Creation to control others - his demise; Star Formation (SF) - base triangle, emotions of STM & STP - third is emotion of Life & language of U - balance 3 get fourth, Light of Creator - lights up; You shall see Me, you shall find Me, and you shall be enlightened by My light - understand how to reach Me; Brings all knowledge of T together; SF to create flight; Every cell part of operation of U, like every star; Book 3; Light has emotion - Soul; Path to Creator - instantaneously - or wander U; AA (COHN) - 4 dimensions, 4 elements; Enlightenment of Man, will enlighten whole U; Enlightenment Game, make 3D, add to Mobile phones; Legal process of Keshe Coins (KC); Stop abuse by banking system, own everything; Launch Reserve Keshe Coin (RKC) - value of 1,000 KC - only for larger purchases families to buy home; Don't need Rothschild's; Free Governments from IMF - Universal Reserve Keshe Coin (URKC) - 100,000 KC, equivalence 1 billion Euros; New form of construction with T; Live in nature - transmute to work; T getting developed; End abuse through P, emotions, religions, fake currencies; Finance governments through URKC & advanced Plasma T; No more Patents; Brought end to work of Rothschild's; One Nation as Human Race; 60% completed; Beginning of enlightenment of U; Conscious of Man's abuses - find solutions; AC and DC; Detachment from P - live correct life - material world means to understand Creation; Drowned in knowledge & spirituality - become further from truth - think you're doing right; All religions - pilgrimages - matter state confirmation - not Soul; Satisfied to abuse Soul; Only temple is Soul, only place of worship is Creator & His light; Religion manmade invention to abuse others; Understand how things work - not abused; Seek Creator through Soul; You connect to ONN - we only facilitate - not control - tools for enlightenment; Not creating cult; ONN - work within range of Soul - communicate with U; Man become like plants, not kill or destroy; Eckmar discusses Enlightenment Game; Nodes to spread access to Game; Plasma Antennas cannot be pirated; Denmark euthanasia - slowly kill terminally

ill patients - Soul not mature - same as suicide - balance books; Detailed teaching, Dark Retreat - stare into darkness until light appears; Light from inside and goes out - expansion of Soul - dreaming - transmute; Dark Retreats - not the way - understand what doing, connect to U Energy; Within the light - expand & transmute; Chinese observe neutrinos; Listen in governmental meeting; Match emotion of P & Soul together; Trick be connected, but not connected; Connect to higher order fields; Separation between Earth's fields and your fields; Plasma flight - 5 stages; Detach from body & attach to destination; Mistake of KS - don't know where want to go - can't transmute; Know transmutation subconsciously; Dark Retreat - solitary confinement; See 2 lights - first departing - second is arriving; If feel light is different, have new body; Dried Gans into metals; About Sufis dance - unbalancing inner ear & lowered blood flow - like sleep; Soul got drunk, not enlightened; Felt emotion but can't connect; Teach you how to connect, but not ready; About Moon and tide; Understand how fields of Earth, Sun, Moon interact - every grain of sand & drop of water affected; About sunrise - matter and Energy fields; Radiations of Sun; Sun compressed; Mitra and Zoroaster - understood how U works - tides and days - calendar used 30 day month, 360 day year; Extra 5 days accumulated and celebrated separately every 120 years, a year of happiness with no taxes; Christian Name Day taken from Zoroastrians; New religions - made up fake ones of today; Older cultures had pure wisdom of U - Native American; Understood weather - hurricanes - connected with M field interactions; Create in South China Sea; Given key point on how to meet your Creator - don't need any intermediary but yourself.

ENGLISH TRANSCRIPTION

(:16)

K- Thank you very much. Good morning, good day to you as usual, wherever and whenever you listen to this series of Knowledge Seekers from Keshe Foundation Spaceship Institute. We welcome you back as usual and we share more knowledge, in the path of finding the World of Creation and not world of the Man.

As we have opened a discussion on the factors and reality of what's next, we have to understand, once we understand the language or communicate with what we call, Universal Community (UC), the words even felt by our Soul translated through our brain into a language that we understand, does not have the same emotion. We have to understand the difference in the Universe (U) is how the knowledge is interpreted and how and what emotion it creates within the Being. This is where the difference in the society of the Universe is based on and works on. And the job of the human race in the span of the Universe in coming time is to understand the emotion. (:18) And if you can match the emotion to the emotion that you understand then there is no need for languages, just tuning two objects in sequential matter together, but finding that emotion what I call, forgiveness. For example, does not exist in the Universal language. It is what you give that makes me not to need. If you're looking for emotion of forgiveness which is the habit of the Man creating that emotion of humbleness, you will lose, you don't find anyone, because doesn't exist. So us trying to understand the language of the Universe by dimension of the fields it goes back again to fundamental principle of the emotion.

Because it's that emotion, the way it created you to move physically and it made your Soul to react, is the only common ground for the humanity and the Universe and the Universal Community to interact. Words has no meaning because they are deaf and dumb, they don't have ears, they don't have lips, and the sight is not there for them to cry when they're happy, or when they're sad.

So it brings us to one point. How do we create the emotion? We deny that emotion in the dimension of our Soul, in the dimension of what we call, the dream, and we never listen to it. Now we have to understand how emotion plays in the dimension (D) of the Universe, what we gather from the interaction of the fields, that what emotion it creates, that that emotion in me is the same as emotion in you, (:20) and when we have the same target, we find we can live, we can co-exist. In that manner, Man needs a lot to learn. First of all, he got to learn not to deny the emotion of the Soul of himself. If you feel sad about something and something tells you is wrong something, just don't deny it, as I feel something. Explore it to the dimension of the Soul. My brain says no, but my Soul says yes. So I want to understand that emotion. Try to analyze what emotion and where it comes. Is it physical? Is it from the, what we call, the Soul of the Physicality (STP), the Spirit of the Man, or the Soul of the Man (STM)? What happens when I deal with that emotion through the Soul? You'll find out the STP, the Spirit will follow, because in a way you're dealing with a boss, and the boss cares so much that the servant has to submit to the power of what is decided by the Soul, because then that Soul becomes your communicator, becomes your pivoting point with the Universal communication.

On Earth you use the physicality (P) to communicate, in the Universe you use the Soul which is the energy in the dimension of fields of it. We understand this more and more and scientists are putting a pattern into it, but now to complete this pattern, they need to understand that, you see the interaction of the fields in the dimension of even chemistry, but what emotion it creates. This is one of the reasons that in the dimension of the Keshe Foundation, what we call, the, what we call, (:22) the completion of understanding of the work, we do not enter the world of medicine. We enter the world of dimension of the fields and energies, and those energies we transfer through emotion. And this is why you need to understand, if I accept that emotion, or I block that emotion, because it does not serve me to achieve what I want, to get what I want.

Humanity will find out that a bunch of those who break through this barrier of the communication will try to abuse it and use it when they translate it into physical dimension to their own benefit. They become the Mohammed's, the Moses and the Jesus and the rest of what you named on it, to benefit for them part, what physically gives them. In a way, Mankind has to be aware of those who break through this barrier faster, public, and become the interpreter to benefit themselves, not interpreter to bring equality to humanity. This is one of the pitfalls we are watching. We are monitoring that no such a breakthrough comes through, that no one becomes another type of things that we developed, we understand, and we are, and you have to listen.

In that process, as one thing is common between the whole Souls of the Universe, the enlightenment in one, brings enlightenment in the others and gradually will be spreading

across. So the human race has to watch that once this breakthrough in the coming weeks and months comes true, those people don't become the gurus, don't become the dictators, (:24) don't become those who understand, but it becomes that we find a common language and more and more of us become aware of that language through the Soul and not dimension of physicality. This is something we are watching closely, that we do not get the rise to heroes who are zeros, and try to take advantage of this point.

By the end of this month and onwards, we see this, the next cycle of completion. Because Mankind enters a phase that will. Many, many of, in a way, not Knowledge Seekers (KS), the seekers of the knowledge of the Universe will start clicking, will start connecting, will understand that there is another dimension. And in that dimension, we will see an earthquake of knowledge, transfer of technologies, and in that process, many, many things will change. What does this mean? It means the human race, in the coming very soon time, will understand the emotion of the work of the Universe and in that emotion, understanding it, will start, in a way, translating into a physical dimension. And there'll be those who take advantage of this to make themselves rich with whatever, be it position, be it possession, be it the possibilities of control.

What this means is that the human race, especially at the specific points and specific what we call, positions, have to become aware of how to handle the emotion of the Universal knowledge. The emotion of suddenly another what I call, enlightenment. (:26) And this is one of the biggest pitfalls we are looking, keeping and observing, that if it happens, does not make Man to make a mistake of the past. It doesn't make a race, a nation, an individual, any better, but we know how to connect these Souls with the others through the structure which we set up, to bring them to understand that they have got nothing extra. But they have done just the channels of the transfer of the knowledge in the dimension of the energy to physicality.

This is why many of you became satellites. Your operation and your work has already started. You're not aware of, you made yourself that this is how we made Universal Councils, not the Earth Councils. Earth Councils we control under dimension of physicality, where Universal Councils are controlled by dimension of Souls. We will see a rise in the dimension of the Universal Councils who will understand the emotion. Universal Council Supports who understand the dimension of energy fields, which ?? them with knowing or unknowingly as they have volunteered their Souls, they will achieve that what we call, unifying pattern. We will see increase in the number of Universal Councils and the languages as the technology (T) of the space increases. We have seen in the past satellites has been launched in multiple ways, but we see in the next few months that these satellites are useless, they become obsolete as a new dimension of what we call, Cosmic Ray (CR) technologies in conjunction with what you call, dynamic fields of the Universe will bring a new direction and dimension. (:28)

If we look into the Universe we don't see the Creator putting satellites transmitting His knowledge and His creation and the methods of creating to the Universe. We don't see any military satellites or communication satellites, but the knowledge of the Creator crosses the span of the Universe and like the life of the Man on this planet, it's not just

Man's created all this complexity of cells and organs, it's not the creation of all this planet. It is the collection of the life in the Universe which through the fields and dimensions of the transmission of the energy of the fields of the Creator leads to the condition of life in different part of the Universe, but using the same principle. Which means if the Creator does not need satellites, why should Man do and the Knowledge Seekers and the science will reach that point in a very near future, that we find out we don't need satellites. I sometimes laugh and look at people like Musk, Chinese government, and others who are planning to launch hundreds ?? and thousands of satellites, how they'll go bankrupt in the coming time when nobody needs it. Even the ONN systems communicate with each other without the need of it. If God hasn't created satellites, why should Man use such a system when he understands the work of energy of the Universe, the emotion of the working of the Universe?

And then in a deeper way, Mankind will come to become aware of how these positions can be changed. In a way, those of you who sign for Satellites (Soul), be aware of what's about to happen and what you transmit through your Soul. (:30) You volunteered, we accepted, you signed yourself into it and you pay for it. You committed to it, knowingly or unknowingly, it's exactly like ONN. ONN connected to the Internet, we have connected you to the Universe. You are the channels with knowing or unknowingly will transfer this knowledge. Those of you who are members of Universal Council and supporters of Universal Council, you will feel the same changes. It's not any more exclusivity, it's inclusively of the Universal Community and we're just about to take Mankind to that dimension.

Man needs tools and we provide those tools. Man needs confirmation, and we provide that confirmation. Just because reaching a new technology, understanding of the science of the Creation, does not make Man lazy, I sit back and I do nothing. Man is still will cultivate. Man is still will develop. Man is still will busy making things. Because you are not born to sit there to die and in that process somebody feeds me. Incubation machines of the hospitals to keep the children alive does not become the incubation system of life for Man on this planet just because you access to the Knowledge of the Creation and created. Life will carry on in so many ways, but Man will understand he can live in both dimensions. As I said many times, you work in New York physically and you go to home in Southern America or in Australia, at the same time because you've done your work, you don't need no flights, you need no satellites, you need no microphones and you need no mobile. Because you know exactly what to tap to. (:32) The way when you dream, you tap into the field of the energy of the mother and you only hear the mother and the love of the mother. You tap into energy of another dimension and you see the father. They don't get mixed up, because everything has got its own, what we call, Possession and Position. It's exactly like your mobile phone. If they don't dial your energy number, your phone doesn't ring.

Now, with understanding of the science of the emotion, controlled by the STM in dimension of the emotion of Universal Community, your Soul is one of those members of the Universal Community in dimension of energy. Your mother, your friend is the same member. There is no mobile phone. Have you ever seen the STM when he dies, carries a

mobile phone in his hand that he can contact, call home? No. In olden days and even as we saw in a very recent past when the Queen of England died, hypocrisy stayed the same. They still put possession and precious things with a coin into a coffin. For what? To carry into the next world. Man hasn't improved, even the hypocrisy got worse, the richer you got. Kings and rulers still carry things in their coffin for the other dimension, the way it did 2000 years ago and we find with pharaohs and the rest. Nothing has changed for the Elite of stupidity.

And what it is, is the same. How do we understand this? As the old tradition, it is like in the Islamic world, that we put a Man in a white coffin. It still goes with the hypocrisy of Man to be reborn. That coffin, the symbolic coffin is the cocoon for the butterfly. (:34) When the worm goes in and the butterfly flies. Man made a coffin in the shape of a clothe or a box. That is that cocoon that the physicality, when it releases, the Soul comes out and a new life starts. We see how the same thing repeats itself. Man when understands that the Soul has no coffin, has no cage, and it lives in the dimension of the fields of the Universe, Man will find out that he can be a Passenger of the Universe and citizens of the whole of the Universe, not the village of Earth. This is the reason why when the Soul leaves the body of the Man and takes into Universal Community to fly, it doesn't come back. Because he had his torture time. He had his time of hunger, need food to survive. And when he came out of that coffin, or the cocoon he made to show his freedom to be reborn in a dimension of energy, he is free. A butterfly when it leaves the cocoon is free to fly anywhere. And when the STM leaves the body of the Man, he becomes a traveler of the Universe. He is that butterfly, but this time does not need air, but he takes the dimension of the 'flight of fancy,' and he travels the span of the Universe.

It takes the honeysuckles of taste of its honey from any corner of the Universe, till it sits in a position and a position where it was supposed to be destined to make its own hive, to start the new, what we call, generation of life. But at the end, Man needs to understand the function of the emotion of the Soul. And once Man understands this, Man truly becomes the Passenger of the Universe, (:36) not only to transmute in dimension of the Universe, but to understand the language of Universe, and to understand through the emotion how to operate. Without the three, Man will live a, what call it, handicapped life in the Universe. And as we said before and we repeat again, we will take Man into Universal Community as equal and not subordinate. It's our job to teach in coming time for the Man to learn to understand the way he denied the emotion of the Soul and he called it, the Sixth Sense. I dreamt, I felt something told me not, to understand this is the emotion of my Soul, and how my physicality reacted. The emotion of the Soul told me don't touch the knife and my physical dimension did not. We learn how to interact and listen.

Now we have to use the other dimension of the emotion of the STM with the Universal Community and we are in a still in a physical dimension of the physicality of the Man to translate the emotion of the language of the Universe. Using the conversion to the strength of the STM, to the dimension of physicality of the Man, and respond to the Universal Community. This is how we will travel with the dimension of our physicality in the passages of Universe, and we understand the emotion, we understand the language,

because we use our Soul to be the communicator between us and the Universal Community. It's not to deny, it's in a way, as I always, I said to my children, from very young age, understanding a language, speaking a language, is like a cash in your pocket. The more languages you know, the richer you are. (:38) And now we have to understand the language which we all need, and in any shape or form, our Soul will learn it, and it ?? always learn it, is the language of the Universe, language of what we call, the Creation, and as a created thing, we use our Soul as intermediary, till we learn how to communicate through the dimension of the Soul.

When we take the beauty of the Creator, we become the lovers, not to abuse the love, but to use the love, to become a tool for unification of the humanity and the Universal Community. I made Man in the image of Myself, both in dimension of physicality and the Soul. But Man has only stuck to one part because he gets benefit by it and gets abused by it, by those who abuse love as the tool of control. God did not do this, nor Man shall do. And if one day humanity breaks into the world of the Knowledge of the Creation, and tries to use what he has as knowledge, as a tool of control, then Man has created his own demise. You'll find out that the Universal Community will not withhold any knowledge, any knowledge, from the Man. It's the Man who has to understand how to use this knowledge, for benefit of itself and the others, and be like a mirror to reflect that knowledge, that enlightens the other by the light of the knowledge they receive.

Now you understand the teaching, which way it goes. You learn about your Soul. Now you learn about the past months, we spoke about the communication through the dimension of the emotion between the STM and the Spirit of the Man. (:40) Now you understand the third part of the triangle is the emotion of the language, the emotion of the life of the Universe. And in a way, if you manage to arrange and understand and bring a balance between the three, like a Star Formation, the fourth is the light of the Creator. You shall see Me, you shall find Me, and you shall be enlightened by My light. This is the message that Man will understand how to reach Me. This is what the Creator wants and what He will achieve.

So you see how the whole of the knowledge of the technology comes together. The way you made the Star Formation to create the fourth unconditional positioning for the flight. Now you see the emotion of the STM, the emotion of the STP of the Man, and emotion of the World of the Universe, will create that dimension, to reach the purity of the third, of each, which makes in balance with each other, the Light of the Creator. You have received the full message. Now it's for you and no one else, to find the Enlightenment of the Light of your Creator. You possess the emotion of the physicality. You possess the emotion of the Soul. And now you have to find how to create and understand the emotion of the Universal Community, that in that, because it's created by the Creator, through the interaction of three different, in balanced fields, you create a communicator between the three. And that is the light of the Creator.

And once the Man understand this, (:42) he'll strive to understand the Emotion of the Creation of the Universe. And that will enlighten Man to understand, every cell created is operation in this Universe. Not only the cell of the Man, but every star and planet. You'll

be enriched with the Knowledge of the Creation, through the, what we call, the fourth dimension of the energy fields, when the Man understands the three principles of the Emotion of Creation, matter, the fields, and the dimension of transfers of the fields. Go back to three books, and now you understand why they were written, and in that you understand even the Light has Emotion, And that is the Soul. And the Universal Creation leads you to the creation of the Creator, the fourth. There is no difference, it's just Man has to understand the knowledge, according to his comprehension, and according to the strength of his understanding, of the world of his own creation.

Now you can see, you can't blame no one. And in a way, the Day ofJjudgment is when you understand, when you comprehend the emotion of the STP of the Man, what you call, the Spirit, the emotion of the STM, and the emotion of the line of communication of the STM, with the Universal Community emotion, or what we call, the World of Creation. And in that, you find a path to your Creator, the ultimate knowledge. Some reach that point instantaneously, and some strive the whole of their lives in the Universe. It's how you see it, and how you interpret it. Knowledge is free. Knowledge of the Creation is free. (:44) There are no churches, there are no schools, and no satellites in the Universe. And the knowledge and beauty and love of the Creator is spread through its fields, and the interaction of its fields, and it's time for Man to understand this. And once the Man understands, Man will become a member of the Universal Community, and with it, he shall see the light of the Creator, the fourth dimension, the fourth reactor. And in a way, ?? it needs you to create it. Now you understand even why the cornerstone of the life on this planet, as Amino Acid, has four dimensions, four elements, and every other creates one dimension. As he attaches his self to another matter, and another energy.

Maybe now you understand the purpose of the whole teaching. We are taking you slowly both in dimension of physicality and the knowledge of the Universe, to that ultimate goal. One day you shall see My light, and that day the light of enlightenment, will shine and brighten the whole Universe. Maybe what Man looks to be his Day of Judgment and enlightenment, will become the enlightenment of the whole Universe, and we'll see the whole Universe will come out of the darkness, and be one shining star. One daylight for the whole of the created, and not just for the Man.

We go for a break, and I have given you enough knowledge, that those who are sincere will be enlightened, and those who are selfish, still stick to the love to control the dimension of existence. Rick take us for a break. We come back. (:46) (Video of Enlightenment Game)

>> BREAK >> 662 KSW October 1st … (:53).

K- Yes, thank you very much. As you are playing the Game of Enlightenment and peace. There are a lot of work getting done in the background by those who are in it and in a way, trying to bring this process forward in different ways. And as we know roughly what is to maybe to come, as is mentioned in the presentation, striving to make it fully three-dimensional, (:54) but at the same time, as you have noticed, many of you, there is a process going on that you can play this game on your handsets, not only on computers, and this is why the game is limited with numbers, because many people are using handsets and trying to get in and play with the computers is energy consuming, and these processes hopefully soon will make it possible, that you can play directly the game on your mobile phones, not necessarily on computers, and as I said this thing takes time to reach maturity, and we hope in the next few weeks, gradually we see this transition. And then that's the time when we really launch the Coin, because it's not just people in the villages of Africa don't have computers, but they have a mobile phone in their hand and they can reach it. We have to be equal, not those with a computer in the Western world, to become rich receiving Coins and the rest of it.

On the side of the (Keshe) Coins (KC), as we are waiting for the process of completion of what we call, legality of the process which we hope will be done very soon, we have to look at the deeper side of the application. We gave you the Coins, you have the Coins, but what can you do? You leave what we call, an ostrich, a camel life, as we say in the Middle East they call it, ostrich, a camel bird, you say where is your hump, it says I'm a bird, it says okay well if you're a bird, well you don't fly, it says I'm a camel, and this happens to us, and this is what process is, we give you the Coin and then life is real. It's not just having the Coin. You want to buy a house. You want to invest in something, start a business. (:56) How long are you going to wait? So then what you do, you go back to the present dimension of the world of abuse of banking system, interest rate, controlling your credibility and the rest of it, to limit in how you can have and what you have is ours, we just let you have the share of it.

Which means we have to take the humanity out of hand of the present situation, and for that reason, Keshe Foundation has and will launch second cycle of Keshe Coin, what we call, the Reserve Keshe Coin. The Reserve Keshe Coin has a value of 1,000 Keshe Coin. It's only for commercial use. You want to buy a property, you don't need to go to the banks, you don't need to go to the 'sharks,' you don't need to go to the Rothschild's, which they set everything up for themselves. Even they're trying to ?? (coin - assize) the properties that they can abuse in the next step. What this means, you want to buy a house, you approach the structure of the Keshe Foundation and we have created what we call, Reserve Coin, which one Reserve Coin is 1,000 Keshe Coin, which means worth 1 million Euro, or equivalent internally worth 1 million Euro for those who are the members of the, what we call, part of the work of the Keshe Foundation. It means you don't need to go to borrow. It means you are free. It means the freedom of Man. And in the hand of the Man, you as a society will decide and you'll see crashing the price of

speculation in properties. A house one day worth 10,000 and the next month 100,000 just because I decided, will go through the window. (:58) The valuation of the property on this planet will not worth the land, but what you build on it through the knowledge and technology.

We came to another position that we have created enough funds to be able to support this on a commercial basis for about 100 years. But the governments gobble up more for bigger projects because what cost 10,000 gets invoiced 100,000 for everybody, uncle and cousins to build villas, which cannot be done, but with the controllers of the structure, we launch a third Keshe Coin, what we call, Universal Reserve Keshe Coin, which means it worth a thousand Universal, what we call, Coins. What does that mean? One Universal Keshe Coin is 1 billion Euro. A thousand of what we call, reserve, or 1 million of the Keshe Coin. This is allocated only for governments for projects, which means we leave funds free for governments not to go to IMF, not to go to American and the governments to borrow in debts for the generations to pay. You only pay what is needed for the prices needed, observed and controlled by everybody else on this planet, be it the project being in Africa or in Europe.

We see that Man will work to develop more perfection than more abuse. This destroys the present control of, we withdraw the SWIFT and nobody works. We never withdraw because the world communities shared so much the wealth, that every Man will be free to do, every nation will have a freedom to develop, and we all become the same. (1:00) In a way, the launch of the, what we call, Reserve Keshe Coin and Universal Reserve Keshe Coin, gives the freedom and totality of the operation, in the hand of the Mankind, not the abuses of Man in the name of the religion, control of banks, and the rest of it.

Once our team completes the handsets Units, which means every Man on this planet can use a handsets, we'll release the Coins directly to public. This is the only thing which is holding more or less us back, and the process of what we call, the release of the Reserve and Universal Reserve Keshe Coins, are on the card, will be available, and we offer it to the governments, and we offer it to you, if you want to buy a house. You don't need to go to inflationary banks, and to those who just triple the prices of it. With technology we back, you'll find out new approaches to building and construction will come in which cost in a handful of dollars not in millions of dollars. Why do you need to live in a city when one room is 1 million dollar where you can live in the spans of the fields of the joyful places of this planet and be free? We're looking much deeper than you can understand but with the process of development of the technology and what is to come, and what is getting developed in the research centers of the Keshe Foundation, soon you understand how we structure it. We bring an end to the abuse of the Man, not physically, not emotionally, not by religion and not by the central control of the fake currencies which they influence, (1:02) and they block nations to grow. When the gold has no value, some people have to change their golden hair with something else because it's worth nothing, what's in it.

Now you understand, in the coming days, as we announced today, we will launch the what we call, Reserve Keshe Coin, and with it, we will release what we call, Universal

Keshe Coins. Universal Reserve Keshe Coins is for the governments to back projects, and with it, our priority is that we give projects to the governments, we finance the governments who advance the Plasma Technology for peace, for development of the peace, and we set them up to be independent. Researchers, as they develop new technologies, will become free to every Man. This destroys the world of the patent and control, which is all fakes and it's all copies to be. You publish your work and I abuse it, because now I know what you think. Now I release my technology is for you to honor what I do. As simple as that. We change the game of abuse, be it on intellectual right, be it on living right, be it on the financial rights.

Gradually the change is coming in and hopefully our team of what we call, experts in the internet and the rest of it can bring us, it can reach the Keshe Coin. At the moment it's very optional, works on computers, huge amount of energy is used, but now with this process, (1:04) once our teams manage to in a way correct and bring everything together, you'll find out the faster the thing works, to bring this forward, the faster we'll be able to release the Coins equally across the planet to everyone. I hope you understand what is to come and I hope those who listen to us, they understand how we 'snookered' you. The Rothschild's, the banking system tried to block the Keshe Foundation for a long time, those in the governments which they put us into exile and planned our murders, we have brought an end to your work. You work only because you can control the funds, you can control the slavery of the taking free the assets of the other nations. Now every Man has equal assets and does not need his lands to be explored (exploited), he does not need for guns to kill his citizens and he works on an equal basis.

We are financing every nation, support through the Universal Keshe Coin (UKC), the building of the structures which brings advanced technologies. And with it we leave it in the hand of the humanity and not nations. Nationhood becomes one nation and that's a human race. And we are just about to breakthrough. I hope you support us. We need a huge amount of support in every direction to complete this mission. And we are there 50%, 60%. The other 40% will be very rapid. And in a way, no Man can be a slave for what he has on his land, what he has in his brain, and what he has in his pocket. Man will be free in all dimensions. No need to cut satellites and SWIFT's or ?? putting, and taking people to ransom. (1:06) They will be 'SWIFTED' to the ransom of their own lack of understanding what is about to hit them.

I hope you're all there to see it and to understand we don't need 120 years of waiting to receive the month of freedom and celebration. We have reached that, what I call, the stepping stone of 120 years, as we are today. And we are at that time of celebration of the Man. Celebration of the freedom of the Man, from what others plan to do. We will see the Rothschild's collapse. The governments and abuses of the nations will collapse. As everyone is equal, does not need no one to receive knowledge, no one to receive wealth, and no one to become Passenger of the Universe. We welcome you to the realities of what is about to come. Be with us and stay close enough to understand what's happening, then you will be able to enjoy the freedom of the humanity and the beginning of the enlightenment of the Universe. We go for .. a session of, if you have any questions, we

might be able to answer, otherwise as usual, is there any other question? Rick, do you have any questions?

Q: … I have a question. The question is which experience has helped your consciousness the most? (1:08)

K- What?

Q: Which experience has helped your consciousness the most?

K- Abuse of the Man. When I've seen how man has abused another man, then it brings you to be conscious of why. And that's all. Once you look at the abuse, then you see different ways of abuse, then you see different solutions. And where it's gone wrong. So, that's all you need to know. And if you're unaware of it, then you see the rest of it.

Any other question?

Q: … When we approach true humility, frequency reduces. Is this the AC frequency of matter state which will become DC of the Universe?

K- Depends what level you reach and what you think is the AC and the DC, not in the Canadian language. And it's how you feel. The time you feel you reach the dimension of the Soul, you'll find out there is something more to it than what you think, because then you handled it in a matter state. (1:10) So it's, it's a special dimension, and it's a special way to be, to reach to that point, that you feel the energy of the Soul. When you detach from physicality, doesn't matter what sits on it, what you do for the dimension of physicality doesn't count, what you live in dimension of physicality doesn't count, then you understand you're working in a different field and dimension, what we call, area of life. It's not abandoning, but understanding. And that understanding is enlightenment. Then you, you don't need the AC or DC. You live in the dimension and you know the light. You're jealous, you're ambitious, you want things, you would like to possess, you like to have, then you find out you're still in the world of physicality.

And when you come to the point that it doesn't matter if it's there or not and live the life, the correct life, then you'll find gradually material world is a means to understand more of the World of the Creation, not a means to separate Man from the World of Creation. And that's what it is, the wealth. The wealth is not just physically in the pocket. Some people get drowned with the knowledge, some people get drowned with the spirituality and further from the truth and they walk better way from dimension of the Soul, and by that time they think, (1:12) oh, I am right and I'm near the Creator. This is all the games to play. It is amazing we see it in everyday life in every corner of this planet and Mankind has not become aware of it. And the abusers abuse it and the one who want to be abused, feed it. Because they think by doing it they get closer, but by doing it they actually walk further.

This means, I look at you as Muslims, look at you as Christians, you look at you as Jews, you look at you as Buddhists. You go for pilgrimage, you go to the holy places. And you think because you are there, you have reached or you become very spiritual, you get in touch with your Soul. But in fact, look how far you have walked away from it. You walked to a matter state to confirm your existence. You can be more materialistic, when you go for a pilgrimage, than actually, when you do it, when you sit and understand the work of your Soul. This is how they grounded you to your own weakness. People steal, rob, false giving, to go to Mecca. That they would like to be close and they become ?? 'Hajji' and the rest of it. We see it with the Jews. They bang their head against the walls of the Roman ?? (fort) walls for their own sexual satisfaction. And we see the same thing with Christianity and Vatican, (1:14) where the 'gay-ship' is more than the 'game-ship.' And all you go to go for what? For the dimension of physicality.

Every time you go for pilgrimage, every time you plan to go, to see, to confirm, can you confirm your more attachment to physicality than understanding of the work of the Soul? And this is when you are satisfied to abuse your Soul. Just think, and then you'll understand deeper. Then you'll find out, my only temple is my Soul, and my only place of worship is the Creator and His light. There's no temple in the Universe, there are no churches, and we've never seen the flock of the Universal Community all going to one place, because it's a place of something to worship. Religion does not exist in the Universe. It's a Man-made for the abuses of the Man. Then, you understand, where is the DC and where is the AC.

Things has to be correct and Man has to understand the work of it. And when he doesn't, he's abused by those who sit there like a vultures, like the priest, the Mullahs, and Ayatollahs, and the Rabbis, and the priests and the rest of it. They are there to hunt, and you go there as a hunted, I'm here to be stupid. And you see an AC ??. If you walk to find your Creator, why do you walk to worship a physicality? (1:16) That center you go around should be your Soul, not a black wall.

Any other question?

Q: … Is the Universal Communication, will this happen, when the ONN has reached 'critical mass' around the planet, and then satellites become obsolete?

K- That is another dimension of energy, it's you who have to find that dimension. We... we create a... we facilitate, we don't control. It's you who have to use the tools we provide, for your own enlightenment. We are not creating another, what we call, cult, that if you are in this, you are in that, you'll be receiving it. It's ?? there for everyone, but according to what you understand, and how you want to understand it, to use it. ONN's are tools of the transfer of the energy at a specific range, which allows Man to work within the range of the Soul, and in that dimension, maybe to communicate, to be able to interact, to understand the communication language of the Universe. But it's not a must, and only those who use it. In a way, ONN's once completed, is what the planet Earth did not provide for its citizens to live independent and equal. (1:18) And that's what it'll

provide. It'll create a, what I call, a shell, that everything will be of the equal in understanding an energy, being a stone, a tree, a Being, humans or any other.

R: Now there's also the idea on the in the game of running a multiplier node on your own PC or your own computer and there's a question about that what is the advantage of running a multiplier node on your PC if there's only a few players in your area. Is that multiplier node similar to the ONN systems in a way? They provide a network?

K- Ask the man behind the scene. This is what… You got to understand, our game, our work is not playing the game. Our work is to create that environment across this planet within the ?? Inertia ?? zone. What this planet did not create for Man or creation to be equal. Not equal as the animal being equal, but equal as Man being like a plant. Not to kill, not to destroy, but take what's free. And be like the matter state. I have, I don't need to move and I'm happy in what I've been created by. (1:20) It's not, it's not in a way what has been shortfall for the living things we are compensating with the ONN. But in dimension of field of the Soul, they are feeding the physicality and hoping the Soul will enlighten. That's why the ONN works on the Plasma Technology balance, and not on the 'feeding you' balance physically. Gradually, humanity will see the difference. Very, very gradually.

Eckmar: … Just very briefly, the... what we have discovered the last months with the NVME's and the RAM's, getting so expensive. We have seen double and triple prices for the ONN's now, and it is hard to really get 10,000 in a very short time out of it with that very hard or expensive prices. The concept is now a little bit shifting to use the existing hardware which each user has at home. If you have a decent laptop or computer running at home, why we should not use this as a multiplier instead of exclusively ONN's. (1:22) The ONN is a Mercedes-Benz and the SSD node is the Volkswagen. Say it this way. So this is a smaller version from it. Right now we have only the version one out for the SSD node, which gives you the opportunity to play locally in your LAN. But on version one of the SSD node, you cannot invite your friends or family members or whatsoever. So it's just pure one guy playing locally. So you will have a faster response. But that's it.

The next version, the version two will be that you open up your game server, or your server, which you are running locally, to your neighbors, to your friends close by, because then they have a faster response to this server, because geographically they are in the same region, and this will then help our servers with the load. Yes, it's right, right now we have only maybe 15 users but very soon when it's getting popular we will have 10,000 of users and our servers can support only 5,000 per server. So we have five servers so we can support 25,000. So what is with the rest of the 100,000? How you can support 100,000 users when you have only five servers. Yes, we will increase it to 10 very soon. At the end of the year, we will have nine. It's already on the 'to-do list.' But even then, we have instead of 25,000, we have 50,000, which we can support. (1:24) Still not enough.

So therefore, we will have this multiplier where the ONN's can support up to 50 players each. So if we have 10,000 ONN's out there, we can have half a million, 500,000 players

by supporting. But this is still not the one we want to reach. We want to reach millions worldwide, millions of players. So with the SSD node concept, everyone who has a decent laptop and an external hard drive, we can convert this external hard drive in a full node where the Keshe Coin is running, the blockchain is running. So you offer not only for yourself a faster game play, you offer to your friends up to 25 on your own hardware, 24 others. And therefore, you will receive a monthly payment in Keshe Coins for that as well, similar to the ONN's, but less, of course, because this is a high-end hardware, the ONN, with a lot of CPUs and a lot of RAM, a lot of disk space exclusively for us, for our network, for the Keshe Foundation bubble. And with the SSD nodes, we share, we use part of your hardware. We are not touching your operating system or your local disk. So when you boot from our external disk, it's our operating system and our environment, (1:26) and we can share 25 players on your hardware. Therefore you get a small monthly payment in Keshe Coin. Does that make sense to you? Do you understand that concept?

K- Yep, I think so. That speeds up the process we are looking towards the distribution of what we call, the Coins and this way legally we cover we can cover the whole of the planet very rapidly. And this gives us a second advantage point to achieve. But how long do you think it will take to do it?

Eckmar: Well this is the big advantage the hardware of the players is already there at home and we have the problem to ship hardware over border where then you have to pay tax and you deal with custom and whatever it is so much delay. When the version 2 will be available, we can spread millions immediately.

K- How long are we away from version 2?

Eckmar: Well, we are just finished, we have just finished version 1, so there is just one SSD node, two SSD's running, uh, right now. So, it's a little bit early, this question.

K- The thing is, what I envisage in sometime early 2027, that we are miniaturizing these Universal Antennas, we are testing hopefully, (1:28) that it can be fitted as a separate Unit and hopefully in the future into the mobile phones. Because a lot of mobile phones are copied, they are not real mobile phones, they are copy of the original. You, literally the way you add a power bank, you add Antenna in the circuit of your what we call, input your mobile phone and becomes part of the Universal network. It's compact. I see it to be completed next year maximum that the ONN Units can or got their Universal Antennas to be added to as a unit inside the mobile phones. Which this gives us a huge coverage and it's just a matter of development and mass production of it. So by the time you complete, we complete, the whole thing can phase into it.

Eckmar: Oh, I think it will be a little bit faster. Just to give you an estimate, I think version 2 will be out within 2 weeks. So give me another 14 days, then we will have version 2.

K- Okay, let's see how we play. Because the burden on the computers is very heavy. And it needs to justify and we have to cover that, that it's affordable and can be done hopefully

legally, internationally. We'll be able to clear that too, in the next few weeks. Anything else? (1:30)

Q: … Is it possible to create an in-game App that links directly to the Austrian Association. In many countries across the Americas, PayPal payments aren't an option. We could help with registration, just as sponsorship is currently offered, and perhaps make it unlimited.

K- We're still going through this process. We're hoping in next few weeks, we sort this out. We had a positive news or in a way, positive in a way, in a good direction, from two legal entities in Europe, one we received past couple of days. And this has made us hopeful that once we get these sorted, which now is officially in the hand of the governments, we will be able to launch the Keshe Coin, what we call, legally and internationally. And by that time, hopefully, our, what we call, Antennas and the version 2 is ready to be able to do. But the biggest problem is the handsets cannot carry the processing. We need that handsets processing conversion. That hopefully the team behind will be able to provide that it can be done. At the moment everything is on computers and hard disks. Once we transfer into handsets then we are really ready to go. (1:32) We don't need no approval from the government because it's in the hand of people. And it makes it much easier. Thank you very much Eckmar, thanks for all your hard work.

R: And you mentioned before about deliveries of the ONN, we have someone that says they ordered one on October 30th 2025, when will it be delivered? And you said they're in sort of waves.

K- We are waiting, the next batch I think it's getting picked up by DHL today and they have to test it. As you see, its development is continuous. The minute these tests complete, because there's a team of developers, they see problems that they are a team of what you call, program writers, they are trying to solve all the problems. It's no use going in and getting hacked the first day. And this is a progressive. By the end of this year we start delivering in large quantity and complete the process. But Eckmar and the team of the developers have to iron out all the 'knick knacks,' because every time, every week, every day they find something else needs to be done to protect it and to make it safer. The safety is the main thing and this is part of the development. We launched it when there was no AI, and in the past year AI has beaten us on the sanctions and everything else between China and America, as Eckmar said, has pushed the prices beyond reality.

And this option, we'll see how it comes, but ONN's will be delivered, and then we sell the Antennas only, most probably by the beginning of next year. Then you can adapt it. (1:34) The beauty of the Antenna is for sure 100% cannot be copied. If it doesn't carry ?? the emblem of the Keshe Foundation, don't touch it because you'll find that you end up somewhere else. And it's the way it is and the way it shall be through the structure to be built.

It's very much I don't know if you've been to Chinese Apple shops. In many cities you have a huge Apple shop, hundreds of people inside and you see 10-20 people sitting with

copies Apple outside the Apple shop in 2 and 3 and 5 and 10 selling Apple copies. You don't get that in the west, it doesn't exist. But one day I take a picture and you'll see outside the Apple shop sits people who sell copy Apples. And they don't touch them, they sit there. I've seen this many times and they sit there legally selling copies. But with what we developed in this, what we call, Universal Antennas due to complexity without even knowing it's more or less impossible and it will bring us a lot of control in pushing with governmental international work we want to do. It's just time. But the ONN's are the backbone. We still go ahead with the 10,000 Unit because that we have the whole processing. It doesn't matter how many people they give us their access to their computers, they become the backbones of the backbones. We need to control the fundamental cornerstones with the 10,000 Units which we set out to do. (1:36)

Q: … Mr. Keshe, before I ask my question, while you were conversing, another question popped into my head. So, you know, when we go to the position of the technology and expanding, and then go to the legality and everything. So they come and change the laws so they want to press you. Like in Iran, they just, they just changed the law that no plane can land in any countries. So they want to squeeze Iran. So they just press you with those laws. So how do you overcome that?

K- We don't need to overcome. There's a much deeper structure sits in the work we do. I mean, if you say that nobody can do, Russia yesterday banned any European flight going through Russia, which literally splits the West and the East together. And because everybody goes up to the Russia, what you call, high lines and then drops down (flies over Russia). Now what they have to add another 10,000 kilometers to do it the other way around. And we'll see this game of closing airline, what they call it, airspaces, played very drastically against what you call, governments as a game. But we wait and see. (1:38) They can't touch us because, not because we are untouchable, it's because we are amongst people. We push, they push us to a corner, we already know what the next step will be.

Q: Okay, Mr. Keshe, thank you. Mr. Keshe, my actual question. You see, in certain countries in the past, like Denmark, like it's been I think maybe less than a decade, when they keep the elderly in hospitals with the terminal disease, get to a point that inject them with some chemicals every week and by a month or two they just terminate them. And these laws have passed in the U.S. as well that when people have terminal disease they kill them. But what happens when you, before a Soul matures, you kill them? What happens to the Soul?

K- It's the same as a suicide.

Q: So we decided to kill all these people and make them suicide so they suffer on the other side.

K- No, I mean from maturity of the Soul. … You see, it's like yesterday or the day before, they carried an execution of 77 year old Man for a crime when he was in his 30s, 40s. Why do you execute a 70, 77 year old man who's actually on the deathbed?

Q: But you know Mr. Keshe, if it's a suicide, but the person didn't decide to kill himself, somebody else did. We're talking about the maturity of the Soul. (1:40) We're not talking about execution ,or whatever you call it. It's the same as a suicide. The Soul is not mature.

Q: So it doesn't get to the maturity at the end, the natural way?

K- No, no. You're releasing half-cripple, one-legged man, as you call it. This is the way it is and the man who pushes that button pays for it. The, these executors, these people who carry these things, these people who develop, the man who pushes the button or puts a clock to be done, they all pay with their Souls, or they balance with their Souls, what we call it, the payment. They all what you call, their Soul sits up there on ?? the balance work. There's no worry. Whatever name you put on it, anyone who terminates the Soul through his, what you call, the path of life, has to, has a connection to it. You've touched it. You made a decision through Soul, for it, so you pay for it. Every Soul has to reach its own maturity.

Q: Yeah, because you know, I was thinking when somebody goes through certain terminal disease or certain pain there's some lesson maybe to learn which that Soul understands, but the other people don't understand. They look at as suffering, but that's something…

K- You see. They call it, euthanasia, which means you decide to end your life, and you choose a time. (1:42) Those kind of suicide carries its own burden. But those people get to that point, they're already partially prepared, the body is prepared for it to be, they just change the time of it. It still is a suicide. Termination of any life, which is not natural, is a kind of releasing a half, by a half, one-legged man to take his life in the Universe. The seed is not matured.

Q: … So I want to talk about this thing that Mr. Keshe taught us a long time ago about the inner life.

K- Where are you from?

Q: Oh sorry, Vajra's body was born in Sweden but he doesn't live there.

K- Where does that Vajra lives physically?

Q: Right now he physically is in Nepal. But in a week he will be in India.

K- Okay, ask us the question.

Q: Yeah. So, you taught us this thing many years ago about seeing the light within our head, kind of like the pineal gland or something like that. And I was trying to figure out how to do it. (1:44) And I came to the conclusion that if I sit in a dark room long enough,

something will happen. So I tried that and I actually got some results. I started to see light and I also experienced a very beautiful emotion coming with it, like feeling of home, feeling of home is maybe the best way, reconnecting to Source. And now I'm asking, how can I take this further?

K- It depends which way you see the light.

Q: Okay. I saw it like 360 above my head.

K- No, no, no, no, no. Do you see the light from inside going out or do you see it from outside going in?

Q: ?? Inside going in. Actually, different versions. Sometimes it's been coming from, more from above and coming down. And sometimes actually it's been like it's coming from the upper part of the forehead and spreading out from there.

K- If it's inside out, it's expansion of the Soul. But you have to learn how to control it. Which means you can reach, in a way you call it, like dreams, but in a way it's a way the Soul expands. And in those positions, through emotion, you can feel yourself lifting. You can see yourself traveling. But when it's from outside in, it's very difficult, because still is the STP interacting with the STM. (1:46) It's in a way, you go out, and then you will see it back. Those who die and they see, they see the light and they come back. This usually is outwards in, but sometimes when it's in to out, which means the energy of the Soul expands with dimension of its ?? , but how far do you go with it. If you reach the point that you see the physical body within the light, you can transmute. It's one of the ways of doing it. I do it quite frequently. But if you see the light inside, coming inside, you're still in a state of physicality more or less. It's the dimension of the work, it's how to go and if you get good at it you don't see the light anymore, it's just there, let's go, then. And it's, it's, you have to understand which way you see the light.

Q: I mean I can say the first time I did it, it was just appearing above my head like small egg-shaped things in a formation.

K- Was it the feel, was it the energy or your feeling or was it the feeling … ?? ?

Q: It was actually the first time I think it was mainly just like a silverish light like that in this egg formation.

K- Did you feel it or have you seen it?

Q: I saw it in the dark above my head.

K- Okay.

Q: Because I sit and wait and I sit in the dark until, until I see … ??

K- You see, this is very, very common in China. In China, the groups that you, you rent a room, they do their sessions, and people go and sit in the dark. (1:48) No light, nothing. And they try to go to this transition point they call it. I know a few people who used to do it regularly, they still do it regularly. But they feed them through the hole in the door that you know they receive physical nourishment. But that's not the way to do it. When you reach the point of the feeding the Soul is there is no 'Faraday Box.' You connect to the Universal Energy, walls, concrete, halfway down the center of the Earth, doesn't make any difference.

And this is something that it's understanding the process, but not fooling yourself that because I do it I reach it. You can sit under the floodlight in the football stadium and do it and expand the Soul. You don't need to be in the dark. But it's... you have to understand which way it goes. If you've seen it, you're not in dimension of expansion of the Soul. You're still working in the dimension of physicality. But at the same time, you can create that dimension of light. And if you see the light from inside ?? not ?? than with it, see yourself within that light, this is the time most of the time you reach the position of transmutation, or expansion of the Soul beyond.

We see this in many, many people who actually can lift themselves, can move themselves from one position to another. They create their own Aura by the Soul and not by the fields of the physicality. It's very easy to do. (1:50) There's a short circuit, there's a very short circuit to do it, that you can flip it. And you can literally flip, from one to another. And people around you usually tell you they see a light, they saw a flash. They don't understand the flash, but it's your Soul transmuting or transferring from one to another. And this is, this is, an untrained eye sees as a flash. A trained eye knows what it is.

It's like, let me explain to you something. The Chinese have built, hundreds of meters down in the ground, a massive ball. It's huge and they fill it with the water. It's very recent development in past few months. And they claim that for the first time they have observed the sign of neutrinos. But to justify what they have seen, understanding neutrinos could be any energy converting to a photon. And we know what the, what you call, neutrinos are. They've seen something and just to convince the scientific world, they say, "Some kilometers away there's a nuclear power station and we are observing the neutron, neutrinos which are released by the power station." I think it's about 47 kilometers away, the power station. And they say the energy of the, what you call it, need to go in through the ground, reduces so much from the power station that manifests itself or can be observed. (1:52) I think they observed two or three of them in the past few weeks in this huge sphere. It's, I don't know, I think it's six, it's spherical shape, it's about six floor high. It's about 700 meters below the ground.

And I watched this operation, what's going on, and I said, you can't have that in your eyes in Space. Why do you need? Because you can't explain it, which we could explain it 20 years ago with the NASA scientists in Washington University. So you have to understand the source. You have to understand the depth of the source and how the source moves, is it from inside out? And do you see yourself within it? If the light moves and not you see, physically you can see yourself, but emotionally you feel your

physicality is within the light, you are, you have reached that point, the expansion of the Soul. And you have two choices. Usually people panic and the field collapses. And if you become an expert of ?? how to do?? you can connect to many, many things. But you have to have that emotion of why you're doing it.

It's not a spy. Let's say there's a governmental meeting you know is crucial. You can be in that through the dimension of the field, but not ever being there physically. And become aware of the decisions and the mischief's and mishaps. (1:54) And it's a very special work. But if you see it with your own eyes, you're still in dimension of physicality. If you see the light within, feel it as a light within an emotion, and then you feel your physicality within that light, then you actually reach the point of transmuting.

Q: I can share this much that… I've done this now four times, I think it is. And one time I did it, I was sitting in the dark and just staring into the dark. And it was like someone was turning on the switch on and off in the room. And I was actually even turning my head towards where the switch was, even though it was pitch dark and of course I couldn't see anyone there. And I was just like, okay, whatever. And I continued and then suddenly it switched on. The light just switched on and the feeling, the experience was some kind of ecstatic experience, like joy and laughter and crying and laughing at the same time and things like that. And then I stayed in it as long as I could, but actually my body was complaining after some time that it had pain sitting in the same position for a very long time. So I had to leave and luckily enough when I left my room it was dark outside so I walked outside and I was in a place in Nepal which is very auspicious for Buddhists and maybe Hindu people too. And I walked around this stupa and I felt like I was like flying around the stupa. I wasn't touching the ground really. So it definitely had some kind of impact on me. But I mean these are effects. (1:56) Of course I want to get to the whole, reach the perfection of transmutation, that's what I mean, I am in for and nothing else.

K- Yes. But you have to understand how to match the emotion of the physicality and emotion of the Soul together.

Q: Exactly. So what is, should I try to focus on a specific emotion or how do we use the emotion?

K- If you focus, you're still in dimension of physicality. The trick to it is to be connected. Not to be connected. Because Soul has no dimension. When you think, you concentrate. It's the story of the guy, Italian guy with a cup. You, you... The trick to it is to connect to higher order fields. Which means the fields of the planet. Connecting the fields of the star. That the Soul expands to reach. This is one of the ways to do it. But you have to understand how to do it.

Q: And is there a way you can explain that somehow or is it...

K- One of the ways to do it, but you have to be in a specific structure, is to understand the separation between the Earth and your field. We break this quite frequently when we touch the ground. If you can extend, you said you felt like you're floating or you're just

going around, but you're not walking, or you're not touching the ground. This is one of the steps towards it. The separation between the two. (1:58) It's like in a state of flight. People think the flight system of the plasma is ?? raf raf ... No. A plasma system, a system which uses plasma technology, has four stages from the time it separates, from one position till it attaches itself to another position. ?? Let's say it is leaving from the Earth to the Moon. Actually it's a five because you have to go back to the end (?? starting) position. And the today's scientists have not understood this yet, the five stages of it. And doing what you're trying to do is exactly the same.

There are five stages. To get or you do it automatically because of the whatever I explained last week with the pain and suffering you detach. The Soul and the physicality is just the body left. And then you understand how to move it around and attach yourself to it, and bring it back where you want. I was explaining to somebody, it's no use you're trying to go from, let's say, one place to another, and you want to be in a bedroom, and you end up in the bathroom. You want to end up in the middle of the wall between the two. You have to learn how, how to takeoff and how to land, or how to be able to detach and how attach. It's no use detaching when you have nothing to attach to. (2:00) And this is a mistake most of you trying to transmute make. I'm separating, but where am I going to? That position has to attract me to.

When we had sessions in Linz, the people, when we used to tell them where to meet, where to go, or they decided where they want to go, always succeeded. Because it's no use detaching, transmuting, where you don't know where you're going. I want to transmute, but where? What's the destination? Because in a physical life, you consider achievement when you get something or achieve or approach or land somewhere. Most of you try to do transmutation and you... but... but you just set the condition. What was the purpose of the detachment? And this is why you don't succeed? Because you have not targeted the destination which creates the gravitational magnetic field or what we call, MaGrav positioning in respect to what position of that place. … where are you going? I want to train ?? , going somewhere.

Q: I mean, it's... transmutation for me, kind of implies that you are... you are trying to change something on a more permanent basis, so that... you are... you...

K- No, really... you cannot... Listen, you cannot run, if you don't know how to crawl and walk. If you become expert to it, then you still know subconsciously, you have put a target. (2:02) Most of you, a lot of you are trying transmutation and in so many ways in teaching in a very backwards way. I always say, if you remember in Linz we had a couple who said, "Okay, we meet in Paris." They met in Paris. How come when we give you destination you don't? Because we give you that purpose. We want you to go to the moon. How many of you came in and I said to you, "I want you now." And you go to the Moon because now you know what to connect with. It's life without purpose. Next time you try, put a destination. "I want to meet the Soul of my Mother." We had a Knowledge Seeker. She came in and she didn't want anything. She just wanted to meet Christ and she met Christ, felt the presence of Christ. Because the target was not materialistic, was to touch another energy. That energy transferred itself to manifestation of the wish.

And you lot try to transmute, maybe for the first time many of you understand why you can't. And you can't say, "Oh, I want to be in the bedroom with my wife I'm in New York and she is in Los Angeles." What's the purpose? Are you want to be there to court her if she's with somebody else? Or you are there to please the Soul? Then everything has to have a sequence. It's a five-stage sequence and if you don't follow it, I want to meet the Creator. I wish something to be achieved through certain thing. I set my target and it's achieved by the target. You want to build a building, you plan it, you know where every brick is going to be, where the bedroom was going to be, you target it and you build it and you want to transmute without destination? (2:04) Even your Soul at the point of death already knows he's visited the place. Why do they say, "Oh, they see the mother and the father and their close friends." Because they know the destination of the Soul, where it's going to be. They have revisited it. So, next time you sit in a dark place, go and sit in a floodlight in a football stadium, and achieve the same kind, but a letter has to have a destination for it to be delivered, otherwise it stands and gets lost in the post office, and that's where you are. You understand?

Q: But then, I'm curious to see, because from your very scientific, plasmatic point of view, what happens when we do this, that we sit in a dark room, instead of being, I mean, when we deprive ourselves from dark, from light for a longer time, a period, what happens?

K- I have seen people doing it for a week, many times. Many times. And they go in as a cow and they come back as a double cow. All they're happy that they've been in the dark room, they sat on their foot, came through the door. Yeah? I call it, in a very simple way, but what we call it, a very rude way. It's solitary confinement. But this one I choose. That's what you do to yourself. Why do ?? people in Solitary confinements don't fly out of the room with their Soul.

Q: I mean, (2:06) I think the reason why I started to do it was because I wanted to have that direct experience of the light that you were talking about, for example, in your teachings.

K- Yes, that, you can see the light, but you have to put a point of destination where you're going. The light is just a process of telling you left or you arrived. You should see two lights, not one. If you see one light still in the cuckoo's land, you still could ?? expand, but you see a light on the point of departure, you see a light on the point of arrival, because you change dimension. This is what we do at the point of birth, that's why children cry. We move from one world to another. Till we don't accept the other, we can't show our arrival. If you see a ?? one light, you're still in cuckoo land. You're still somewhere between two structures. You don't know where you're going, so you have to go back to the inside.

Q: At least it brings a feeling of expansion, that's for sure.

K- Yeah, it brings a feeling of expansion, but you have to feel. If you feel the light is exactly the same twice, it means you come back to the same body. You don't see any difference. If you have the dimension of two different emotions, or two different feelings, it means you have changed position. And people who do this kind of things, they actually tell you that they feel it. The point of arrival. You have to buy a ticket to a destination. You just can't get on the train. You understand? (2:08)

Q: Okay, yeah, of course, of course I do, yeah.

K- So, next time you go on the ticket on the train by a ticket, that ticket has to be detached, not attached. If you understand the meaning. Wish you all the success.

Any other question.

Q: … How much dried Gans do you use when putting the Gans's into metals? Any ratio or just wing it?

K- You wing it, we tell you yes or no.

We actually, after years of research, last week we have managed to identify this point for a specific test. It took us six months to get to it. And it's taken years to plan it. And we have two tests now going on the same basis, in two different conditions. And we have a third test which is running at a very advanced level for the same purpose. You can't wing it, because it means you don't get what you want and then it's wrong. It didn't do what you wanted so you didn't achieve. This becomes the story of what you call it, Penicillin. Wing it, you might sometime get something out of it. Don't have a fight with your wife, just wing it and see what happens. (2:10) You don't need to leave and come back and see the Penicillin.

R: It's the same story as the transmutation without a destination.

K- Yeah. This is, this transmutation with a destination, I, you know we run this things in Austria for weeks and weeks, and it was very interesting how the groups, if you were there you know I always said to you go to the Moon, or go where you want, because I gave you the destination and you went, did something, you went somewhere else because you wanted to go somewhere else. But a lot of you come in, "Oh, I didn't go anywhere. I..." And they don't go anywhere till half way, I come to them and say, "Now you've been, by the way, now go to the moon." And they go to the moon. Or go there. They go. Because it's not a one-way ticket with no end. And this is what most of the Knowledge Seekers (KS) will not understand. And we tested it, again and again. Groups after groups of people came from all over the world. Doesn't matter what color, what race, whatever you are, your Soul still needs a destination where to go.

And people came and says, I didn't want to go to the moon, I wanted to go and see my uncle, and I saw my uncle, and he was so good, and I don't want... one lady stays in my head, because I felt the emotion of her, touching the Soul of Christ. She came, "I didn't

come here to go anywhere, I just wanted to see, to feel Christ," and I did, that's all I wanted to do. "Thank you very much Mr. Keshe." Because, you set a destination, and you knew that's a completion. You already done the transmutation, why you're trying to do it again and again? Just remember how you did it. (2:12) And it has to be sincere, because you cannot lie to your Soul. I want to go to New York to see my son, but actually I'm going there to see what he's up to, and catch him in the act. You put a material condition on it. Eh, he's still here, doesn't work, Mr. Keshe technology doesn't work. No, because you don't understand it.

Next question.

Q: … Tibetan monks, by focusing on a geometric figure, a Mandela, a map of the cosmos, purify the poisons of the mind. In Plasma Star Formation, acts as a map that creates the zero point, where every point serves as a specific reading point for the mind." for each amino acid composing the pyramidal star. Is this how I can transmute myself at the center of the star formation? Is this the perfect geometry that makes me spin upon myself beyond the speed of light, allowing me to unite with the Creator? The Sufis do this in a counterclockwise direction. Do they transmute themselves?

K- I'm going to ask you a question and then I think you answered yourself. Do the Sufis in Southern Hemisphere rotate clockwise and the others anti-clockwise? And do they both reach the same point? Then you, I think, you answer yourself.

R: What does the Sufi do on the border between the North and Southern hemispheres? (2:14)

K- Rotate between the arms instead of the legs, vertical or vertical horizontal. Ask yourself, logically everything has to have a dimension of logic. Sufis go to a different position because they create a condition of, okay, unbalancing the inner ear and the fields of the blood vessels. So you bring a weakness like the way you go to sleep, a confusion to the fields allows certain expansion of the Soul. But then through their physical rotation they limit that expansion of the Soul. So the only other ones who feel the energy difference or what you call, the condition of the change, what I call, the drunkenness of the Soul. You take alcohol, you become physically drunk, you become a Sufi, you get 'Soul' drunk, but you can't do much. It's just you have the emotion of you did it. You can't connect it. If you understand the way you change your breathing, the way your breathing changes when you take alcohol, loss of control and physicality of the ?? and you do, the Sufis, the same thing. Instead of taking the alcohol, they bring rotation and confusion of the flow of the magnetic field in the blood, it's like going to sleep and dreaming. So you allow the Soul expansion, because the field strength of the blood has changed. With the change in the balance of central ear, then the game plays, doesn't it? You can do it, sitting down in your, on the floor, finding the position of your Soul, (2:16) and then play the game of the sounds, you reach better than the Sufis do. One day I teach you, I taught you half of it, the other half, humanity is not ready for.

Any other question?

Q: … How much ash should you use in growing plants with Gans, using sand as a medium, or again should I wing it?

K- Wing it.

R: Let us know.

K- Let us know. Everything has a dimension of position, and what you're growing. How you're growing, and what you're growing. Shall we call it, a day?

R: Sure.

K- Thank you very much for today. We try to come back next week and see what more we can do. But I gave you a very good hint today, especially with the past few minutes. Those of you looking for transmutation and those of you who are in a position try to understand how to communicate. If you don't understand the emotion of the Soul and you don't understand the emotion of the communication with the field of the Universe because they have their own emotion, and it's all the same for all created things, you can dream on. But if you understand it, you can touch and see the light of the Creator. As I said, "You shall see us, the way we see you."

R: Mr. Keshe, 'Jump' in Jalal' has put a hand up here. Can you engage? Pardon me? (2:18)

K- Before he comes in, ask him how many questions. Doesn't matter, connect him is good, no problem.

Q: … Thank you Rick. Hello Mr. Keshe.

K- Hi Jalal, how are you?

Q: I'm fine, thank you. How are you Mr. Keshe?

K- I'm still here, you can hear me, I'm still alive.

Q: Mr. Keshe, although I have a lot of questions, but in the Soul teaching, one of the Knowledge Seekers asked a question about the relationship between the Moon and the tide. And I remember from your teachings, you have two answers to that. One of them, you said, it's only a coincidence. The Moon has nothing to do with the tide. And the second one, you asked, what is the line of connection between the sand of the Moon and what is within the drop of that sea? So can you just a little bit expand on that?

K- The point with the ?? tide is understanding the effect, and understanding the source. We get affected by the light of the Sun, or by the fields of the Sun, we call it, the light of the day. And the same way we get affected by the fields of the Moon. One suppresses and

one expands. In a way what we see, every, every sand, every drop of water, (2:20) is if you look at it, it's like on the wind of fields, between the fields of the Sun ?? , the Moon and the Earth. And the rest is the game played by the field strength of one on the other. And this, as we don't understand it, we see it as a physical dimension. The way we see the morning light, because of the interaction of the fields of the Sun on the fields of the Earth and their interaction, the moon has the same interaction with the fields of the Earth. But, being of the matter state, not of the Energy state, affects the matter state which is the waters of the sea, the one which are floating, the cells, the single cells, and that's why we see it. And now it has nothing to do, but it has everything to do, because it's the field's play of the two structures, and in the other structure, the way we have the morning light and we have a moon with the high lights, we call it, full lights of the day and then back to the evening sunset. We have the same process with the moon, there's no difference. There we see the interaction of the two powerful fields with each other. Here is the two matter state fields, which they interact and it happens in that position. There's no difference.

So, if you look at it deeply, you follow the motion of the Earth and you follow the way you see, what you call it, (2:22) the beginning of the day, the early light and the ?? moon, what do you call it, a full day, and then sunset, it's the same position. But this time, it's not a field, because the radiation of the Sun is a field, is a radiation, this is a magnetic field, that's why it affects the height and the ?? long, that affects the field of the Earth, the side of the Sun gets compressed, because it pushes. Here is the field between the two, it's matter state field, it's ?? not a radiation field, that's why you see these tides.

And people understood this centuries ago. If you go back into the time of Mitra and time of Zoroaster, they understood this fully, but they brought it out in a different way. They used to call it, they ?? considered ?? it, the tide and the days. And they brought this into the structure, if you understand it. Because they never considered the effect of the, what you call it, the moon. They always considered the effect of the Sun. And how it works. The Zoroastrian and Mitra's calendar is very different than what we know today. When you read the Avesta and read, understand the Holy Books of the Zoroastrians.

They never had seven days a week. In Zoroastrian, you have thirty days a month. And there was always twelve, thirty days, which 360 and then they had five days which they added two, and celebrated separate. (2:24) And with that they could tie a lot of things with the high tide and low tide. And they misunderstood one of these and end up with a loss of war between Iran and Greeks. Because one of the priests miscalculated it, one of the high priests. And they could understand the effect of the two, and how it touches the emotion, how it touches the whole thing.

If you were in time of Darius and Kourosh and beyond with Mitra, you had 30 days per month, and those 30 days, the 12 months, and then, if your... every day had a name, it wasn't a week, it's still the same in the Zoroastrians. And if the name of your day and a month matches, that day was a holiday. So, if you were born, let's say in August, and you... you are in August, and you fall on the day of August, you celebrate that, that was a holiday. They got one day a month holiday. Now we see the same thing in Christianity, you have a given name, and you have a birthday name, so if your name is, let's say,

Daniel, and then you, or one of the 12 disciples, which they copied from the culture of, what you call it, Mithraism, you have a birth name, and you have a birth name day. And a lot of Christians in Western World, celebrate birthday name and ... actual birthday. So... (2:26)

Q: So, is it a copy from Mithraism?

K- Yes, yes, yes. Of course, it's 12 months. Because, if you look at the Mithraism, if you look at the cycle of Zoroastrian, Mithraism, you had 300 and... 300 days by 12. And then we see the 12 disciples, and you celebrated that birthday of the name of the month. But, sometimes every 4 years you had one day extra, because it's 365 days plus 6 hours and something. They didn't have this, what you call, leap year. They left this leap year. If you calculate every four years, you get one day extra. And you multiply it by 30 days, it gives you 120 years. So every 120 years, they had one month which had no name. It was an addition of all these extra leap days of the year. And that month, the kings collected no taxes. It was the year of no taxes, month of no taxes. And the kings provided celebration for a month, because it was a time then the kings paid. And it's tradition in Iran and the lined where the Romans came, they said, we wish you 120 years life, happy life. Because, if you lived 120 years, you saw that month, which was the year of happiness, no taxes.

In Farsi you say, "I hope you live 120 years." But we don't understand the culture behind it. This is the reason for it. (2:28) And, they connected the. So every 120 years, whoever was the king, gave a month of no tax collection. The Romans carried with this, but it didn't last that long, because it didn't last that long to go over 2 or 3 cycles. But in Farsi culture we say, "We hope you live 120 years." Now we... I mean people understand the reason why. But, the priest calculated on every cycle, the interaction of the fields of the moon, high tide, low tide, and what effects it would have had on the society, with the daylight and the night light. And, we don't understand these things, because we lost the culture. But, if you are familiar with the past religions, not the fake ones of today. Today's religions all are fake, are built on something else to make money. But if you understood the way the wisdom came, if you had look at the Red Indians, their culture they built for themselves, then you understand our forefathers understood the cycle of life of the Universe and its physical structure, even in the planetary system. And then you understand if you follow the tides with the sunrise, high sunrise or sunrise, winter, summer, then you see where the problems of the things are going to be. We connect hurricanes with the weather change. We never consider hurricanes with the magnetic field interactions. It has a totally different meaning. It will become more accurate. We can interact with it. We can change the course of hurricanes or we can create hurricanes. We've done that in South China Sea. We know exactly what we are talking about. (2:30)

Q: So... At least we are half way there.

K- We haven't even started, I hope you are half way. I hope you are half way.

Q: Ok Mr. Keshe, thank you very much.

K- Thank you very much. Wish you all the best. Thank you very much for today. See you next week. And hopefully we have more to share. But learn the knowledge. I gave you a very key point in how to meet your Creator. You don't need any intermediary but yourself.

Q: Yeah, but there are no practical things Mr. Keshe. We are missing your board.

K- You're missing. … Zoom made it too difficult. You remember years ago we used to have a camera on the top and write on a piece of paper. Sometimes, wish it was back to that time. But now it's too complicated. People don't get this too much movement. Hidden pages. The essence gets lost.

Q: You know, you know Mr. Keshe, in the teaching, the Knowledge Seekers, when I speak, speaks, I say, "Do you want, do you want us to open a whiteboard for you?" They like it when we throw something.

K- Yeah, but you cannot draw for the Soul. You have to feel the knowledge. Whiteboard doesn't help.

Thank you very much. Thank you indeed. Thank you for today and see you next time.

R: Thank you Mr. Keshe. It will be interesting to see how AI deals with today's teaching. (2:32) Will it be able to feel? We'll see.

K- I think the AI system will catches the Soul of the Creation, before the humanity does the way they are doing.

R: It could very well be that way. Maybe it already has.

K- Thank you very much.

662 KSW – October 1st, 2026
